- The management of our cash flow on a daily basis.

As at the end of January 2013 the operating revenue and expenditure actual represented 53.78% (excluding capital grants) and 42.77%, respectively of the annual budget, **against a benchmark of 58.33%**.- a variance of 4.55% (unfavourable) and 15.56% (favourable) respectively, when compared to the target of 58.33%. However, considering the under collection of debtors, outstanding creditors and under spending on capital projects and operating expenditure and the equitable share and fuel levy received in advance, expenditure has to be restrained to ensure a positive cash flow.

Actual year to date capital expenditure until 31 January 2013 represents 41.46% when compared to the projection of 58.33%, a variance of 16.387% for the period.

The Council's cash flow situation is a cause for concern if one looks at the outstanding creditors, the outstanding debtors, the under spending on operating as well as capital expenditure and the unfunded conditional grants.

5. KEY JANUARY 2013 PERFORMANCE (FINANCIAL) INDICATORS

The favourable result relating to the various source groups totalling revenue is having an impact on a number of indicators, which are based on total revenue. The under expenditure on the capital budget has also an additional influence on the indicators. The various 'Debtors' ratios are also a cause for concern.

Further, in terms of Government Notice 27431 dated 1 April 2005, regarding the "Local Government: Municipal Finance Management Act 2003 Municipal Investment Regulations: the following is applicable:

Reporting requirements:

- 9. (1) The accounting officer of a municipality or municipal entity must within 10 working days of the end of each month, as part of the section 71 report required by the Act, submit to the mayor of the municipality or the board of directors of the municipal entity a report describing in accordance with generally recognised accounting practice the investment portfolio of that municipality or municipal entity as at the end of the month.

 - (d) fully accrued interest and yield for the reporting period.

[Highlighted requirements are further explained below].

Certain 'prescribed' municipalities are required to provide their financial reports to the National Treasury, in lieu of the Provincial Treasury, which includes Mangaung. National Treasury have indicated that they wish to continue to directly monitor municipalities that have a significant impact on the South African economy. For this purpose the required electronic reports were progressively lodged with the National Treasury and for January 2013 the reports were submitted on 12 February 2013. These reports are:

- Statement of Financial Performance (OSA)
- Capital expenditure report (CAA)
- Cash Flow Statement (CFA)
- Outstanding Debtors report (AD)
- Outstanding Creditors report (AC)
- Statement of Financial Position actual (BSAC)

The specific format for the report required to be submitted to the Executive Mayor, as referred to in section 71(1), has now been prescribed in terms of Government Gazette No 32141 of 17 April 2009 but the receipt of electronic submission have not been replaced. Therefore, this report is based upon the content and format of the monthly electronic reports provided to National Treasury. The information provided to National Treasury is published quarterly; therefore it is prudent that the Executive Mayor's report be prepared on a similar basis to ensure alignment.

Section 71(1) (e) refers to a requirement to report on 'allocations' received. The term, 'allocations' refers to government grants received from other spheres of government. These are reported upon in the Statement of Financial Performance.

National Treasury has determined the definition of a 'vote'. Each municipality may determine the vote format for its expenditure, provided it also supplies Government Financial Statistical (GFS) analysis.

Section 87 is a requirement to report on the performance of municipal entities. A report has been received on 8 February 2013, but with no detail (some improvement) as eluded in this report (Cash flow, bank and cashbook detail and balances, investments, etc.) – some progress has been made.

The market value of the investment portfolio is based on the contractual/ cost price of the investment portfolio.
