16.2.2.7 Where the specifications are based on standard documents available to bidders, a reference to those documents is sufficient.

16.2.2.8 The CFO in consultation with the Head of Department concerned may, if necessary, communicate with bidders and prospective bidders prior to bid closing in order to supply additional information or to clarify vague points in the bid documents. - 16.2.3.9 Duty to plan for invitation of tenders
- The Municipality must, prior to making an invitation for tenders:

 - (b) determine the appropriate preference point system to be utilized in the evaluation of the tenders;
 - (c) determine the deliverables or performance indicators in terms of which a person awarded a contract will be assessed as contained in the Preferential Procurement Legislation.

- 16.2.4.1 A two-stage bidding process is allowed for:

16.2.6.2 This period of validity may be extended by mutual consent in writing between the Municipality and the bidder, provided that the original validity period has not expired, and that all bidders shall have an opportunity to extend such period.

16.2.6.3 If, in exceptional circumstances, it becomes necessary to extend the bid period, a notice shall be published in the press at least one week prior to the original bid closing date. This notice shall also be posted on the notice boards at designated Municipal offices, and a notice to all bidders of bids received at that stage to this effect shall be issued.

16.2.7 Bid Prices and Price Adjustments

16.2.7.1 When a bid is invited, provision must be made for the possibility of price adjustments.

16.2.7.2 The price adjustment formulas as set out in the bidding documents shall apply for all contract periods exceeding one (1) year in duration.

- 16.2.7.3 In general, where contract periods do not exceed 1 (one) year in duration, the bid shall be a fixed price bid (not subject to contract price adjustment). However, if as a result of any extension of time granted, the duration of a fixed price contract exceeds 1 (one) year, the contract will automatically be subject to contract price adjustment acceptable to both parties for that period by which the extended contract period exceeds such one year. The contract price adjustment formula as set out in die bidding documents shall apply.
- 16.2.7.4 When bids are evaluated, it must be scrutinized thoroughly in cases where non-firm prices are quoted. If prices are subject to variation in the rate of exchange, the bidder must indicate the rate of exchange on which the bid price is based, as well as the amount to be remitted overseas.
- 16.2.7.5 Price adjustments will not be considered on firm price contracts. However, if the increased price was as a result of unforeseen circumstances beyond the control of the contractor and which could lead to his/her downfall, such application may be considered.
- 16.2.7.6 When prices are subject to adjustment as a result of escalation in the price of escalation in the prices of labour and material, the bidder must indicate the various elements/factors of the bid price that will escalate (e.g. labour, transport, fuel, protective clothing, etc.) the base date and the relevant index and index numbers which were used in calculating the bid price.

- 16.2.7.8 All applications for price adjustments must be thoroughly checked in order to ensure that it is in accordance with the terms and conditions of the contract, that all required documentary evidence is submitted and that the calculations are correct.

Price adjustment of non-firm prices subject to escalation

- 16.2.7.9 To ensure fair price adjustment, the bidder must give a breakdown of the price offered as well as the Consumer Price Index (CPI) indicators for each of the price factors that make up the price offered. Where it is not possible to obtain the index figures linked to a specific factor, the average CPI index for that month must be used.
- 16.2.7.10 Price adjustments will only be allowed based on 85% of the original bid price that were offered. The remainder of the original bid price (15%) is seen as fixed costs and will therefore not be subject to price adjustments (MBD 3.2)

Price adjustment of non-firm prices subject to exchange variations

- 16.2.7.11 Exchange rate adjustments must either be done;
- (a) where a specific item is procured from overseas; or
 - (b) when a contract is signed over a specific period and it is agreed that exchange rate adjustments will be done throughout the contract period at specific dates.
- 6.2.7.12 In the case where specific item/goods are procured from overseas, and the price is linked with an exchange rate, it will be essential for the supplier to furnish the following particulars as part of their financial proposal in the MBD 3.2 form:
- (a) the financial institution they are banking with;
 - (b) the portion of the price that is subject to the rate of exchange;
 - (c) the amounts that will be remitted abroad; and
 - (d) the exchange rate valid when the bid price offered was calculated.

6.2.7.13 The bidder must give proof of payment that were made to the overseas supplier and what the exchange rate were when the payment was made and will form the basis of future adjustments.

Price adjustment not subject to an escalation formula

16.2.7.14 In cases where a contract is signed over a specific period and it is agreed that price adjustments will be done annually on the anniversary of the contract, the average Consumer Price Index (CPI) for the preceding 12 (twelve) months shall apply.

16.2.7.15 The following conditions shall apply for all price adjustment:

- (a) shall only be allowed at the periods and times as stipulated in the bidding documents and/or contract documents;
- (b) shall not exceed the formulas as stipulated above;
- (c) may not be implemented prior to the approval of the Municipal Manager.
- (d) the Department concerned must have the available funds.

16.2.8 Variation Orders for Engineering and Construction Contracts

16.2.8.1 Variation orders shall be approved by the delegated authority who signed the contract.

16.2.8.2 Variation orders must be properly controlled to avoid extending projects beyond the original intent.

16.2.8.3 Variation orders should be restricted to the absolute minimum through proper planning when inviting bids or quotations.

16.2.9 Increase in Scope of Work

16.2.9.1 The Municipality has the right to increase the original scope of work by extending or modifying such scope of work after the conclusion of a contract without re-tendering, if:

- (a) due to unforeseen circumstances, additional work becomes necessary in order to complete the project based on the original objective set out in the original bid document. The revised amount shall not exceed 15% of the original contract amount;
- (b) the work is spread over a period that is more than 1 (one) financial year. After the initial bidding during the first year, the renewal of the contract for subsequent years will ensure that the Municipality expedites the implementation of projects without repeating the tendering process for a repetition of similar work forming part of a basic project for which an initial contract was awarded using the bidding process. The Municipality shall indicate in the initial bid document that further contracts may be awarded through negotiation with a service provider appointed for the initial contract.

16.2.10 Samples

Bids shall not be included in parcels containing samples.
- 16.2.10.2 If samples are not submitted as requested, the bid concerned may be declared non responsive.
- 16.2.10.3 Samples shall be supplied by a bidder at his own expense and risk. The Municipality shall not be obliged to pay for such samples or compensate for the loss thereof, unless otherwise specified in the bid documents, and shall reserve the right not to return such samples and to dispose of them at its own discretion.
- 16.2.10.4 Where a bid is accepted for the supply of goods according to a sample submitted by the bidder, such sample shall become the contract sample. All goods/materials supplied shall comply in all respects to the contract sample.
- 16.2.10.5 In the event that the service provider is unable to provide the goods/materials as per the contract sample, then the services provider must provide reasons and evidence to substantiate the difference, and the contract price shall be re-negotiated: The continued procurement shall be at the sole discretion of the Municipality.

16.2.11 Closing of bids

- 16.2.11.1 Bids shall close on the date and at the time stipulated in the bid notice.
- 16.2.11.2 The bid closing date may be extended if circumstances justify this action. The closing date may only be extended if there is sufficient time to publish a prescribed amending.

16.2.12 Submission of bids

- 16.2.12.1 Bids shall be submitted before the closing time, at the address and in accordance with the directives in the bid documents.
- 16.2.12.2 Each bid shall be in writing using non-erasable ink and shall be submitted on the official Form of Bid issued with the bid documents. The bid shall be submitted in a separate sealed envelope with the name and address of the bidder, the bid number and title, the bid box number (where applicable), and the closing date indicated on the envelope. The envelope shall not contain documents relating to any bid other than that shown on the envelope.
- 16.2.12.3 The onus shall be on the bidder to place the sealed envelope in the official marked locked bid box provided for this purpose, at the designated venue, not later than the closing date and time specified in the bid notice.
- 16.2.12.4 Postal bids will be accepted for consideration only if they are received in sufficient time to be lodged in the appropriate bid box by the closing time for such bids, it being understood that the Municipality disclaims any responsibility for seeing that such bids are in fact lodged in the bid box. Proof of posting of a bid will not be accepted as proof of delivery to the appropriate place for the receipt of bids.

- 16.2.12.5 No bids forwarded by telegram, facsimile, e-mail or similar process shall be considered.
- 16.2.12.6 Bids shall not be included in packages containing samples and such bids may be rejected as being invalid.
- 16.2.13 Late Bids**

- 16.2.13.2 A late bid shall not be admitted for consideration and where feasible shall be returned unopened to the bidder.
- 16.2.14 Envelopes**
- 16.2.14.1 Any bid received without being in an envelope, shall be sealed in an envelope, and the bid number and title, the bid box number (where applicable) and closing date shall be written on the envelope, if ascertainable.
- 16.2.14.2 Bids received in envelopes (sealed or un-sealed) without a bid number or title on the envelope, shall be opened, where possible in the presence of a witness, the bid number and title ascertained, the envelope sealed and the bid number and title, the bid box number (where applicable) and closing date written on the envelope. Any such envelopes shall be lodged in the applicable bid box, it being understood that the Municipality disclaims any responsibility for seeing that such bids are in fact lodged in the correct bid box.

The applicable bid box shall be closed by them.
- 16.2.15.2 Once closed, the bid box may only be opened thereafter by a representative from the SCM Sub- Department in the presence of designated representatives from Internal Audit and Anti Fraud Sub-Departments in open public after the closing time, and the contents thereof shall be checked for compliance.
- 16.2.15.3 Immediately after the opening of the bid box by the representatives of the SCM-, Internal Audit- and Anti Fraud Sub Departments, all bids shall be opened in public, and they shall in each case read out the name of the bidder and where possible, the amount of the bid.
- 16.2.15.4 As soon as a bid has been opened, the bid document shall be stamped with the official stamps, and where necessary, endorsed with the opening employees' signatures. The name of the bidder shall be recorded in a bid opening register kept for that purpose, which register will be available for public inspection.
- 16.2.15.5 After the representatives of the SCM-, Internal Audit- and Anti Fraud Sub Departments have completed the bid opening register in respect of all bids received, the bids shall remain with the SCM.

16.2.16 Invalid Bids and Non-responsive bids

16.2.16.1 Invalid Bids

- (a) Bids shall be considered invalid and shall be endorsed and recorded as such (in the bid opening register) by the responsible employee who opened the bid, in the following instances:
- (i) where the bid is not submitted on the official bid form;
 - (ii) where the bid is not completed in non-erasable ink;
 - (iii) where the bid form has not been signed;
 - (iv) where the bid form is signed, but the name of the bidder is not stated, or is impossible to read;
 - (v) impossible to read;
 - (vi) where the relevant documentation is not attached.
- (b) When bids are declared invalid at the bid opening, the bid sum of such bids shall not be read out. However, the name of the bidder and the reason for the bid having been declared invalid shall be announced.

16.2.16.2 Non-responsive bids

Bids that are non-responsive (i.e. technically unacceptable) and non-responsible (i.e. price very high or very low) will be disqualified.

(a) Non-responsive tenders

Tenders that do not respond to any of the technical requirements of the scope of work or do not meet any of the technical specifications outlined in the enquiry document without clarification and acceptance by the person that issued the enquiry documents, will be disqualified.

(b) Non-responsible tenders

These refer to tenders with a price that is very high or very low and is therefore not considered a fair and acceptable market price. A fair and acceptable market price is defined on the basis of the following factors:

- (i) Is the bid price substantially below or higher than that of other bidders?
- (ii) In repeat purchases, how does the bid price compare with recent contracts awarded for similar items or work, taking into account quantified, conditions, terms, and other important specifications?
- (iii) Are there price indices available to determine the changes in labour and material costs

- (iv) Market research information to establish fair market price goods and serviced procured regularly

The above is particularly important for the calculation of preference point system and the implementation of the price matching strategy.

16.2.17 Bid Sum

A bid will not necessarily be invalidated if the amount in words and the amount in figures do not correspond, in which case the amount in words shall be read out at the bid opening.

16.2.18 Confidentiality of Rates and Proprietary Information

All rates and proprietary information are confidential and shall not be disclosed.

16.2.19 Consideration and Acceptance of Bids

All quoted tariffs shall be considered.

16.2.20 Negotiations

16.2.20.1 The Municipal Manager may use the negotiation mechanism only in the following instances:

(a) to negotiate the final terms of contracts with bidders identified as preferred bidders through a competitive bidding process, provided that such a process:

- (i) does not allow the bidder concerned a second or unfair opportunity;
- (ii) is not to the detriment of any other bidder; and
- (iii) does not lead to a higher price than the bid as submitted.

(b) when procuring goods and services from a single or sole supplier;

(c) when annual price increases in respect of existing contracts are requested;

(d) when terms and conditions in respect of existing contracts require amendment;

Minutes of such negotiations shall be kept for record purposes.

16.2.20.2 The Municipality shall not be obliged to accept the lowest or any bid. For goods and services bids, the Municipality shall have the right to accept the whole bid or part of a bid or any item or part of an item or accept more than one bid, in the event of a number of items being tendered for.

16.2.20.3 Bidding documents must provide for the rejection of all bids if and when deemed necessary. This is justified when there is lack of effective competition or bids are not substantially responsive, provided that lack of competition should not be determined solely on the basis of the number of bidders. If all bids were rejected, the Municipality must review the causes justifying the rejection and consider making revisions to the specific conditions of contract, design and specifications, scope of the contract, or a combination of these, before inviting new bids.

- 16.2.20.4 If rejection is due to lack of competition, wider advertising should be considered. If the rejection was due to most or all of the bids being non responsive, new bids may be invited from the initially pre-qualified bidders, or with the agreement of the Municipal Manager, from only those that submitted bids in the first instance. All bids should not be rejected solely for the purpose of obtaining lower prices. If the lowest evaluated responsive bid exceeds the Municipality's pre-bid cost estimates by a substantial margin, the Municipality must investigate the causes for the excessive cost and consider requesting new bids as described above.
- 16.2.20.5 Alternatively to paragraph 16.2.1.5, the Municipality may negotiate with the identified preferred bidder(s) to try to obtain a satisfactory contract through a reduction in the scope and/or a reallocation of risk and responsibility that can be reflected in a reduction of the contract price, provided that a substantial reduction in the scope or modification to the contract documents may require re-bidding. The Municipal Manager's prior approval must be obtained before rejecting all bids, soliciting new bids, or entering into negotiations with the identified preferred bidder. This approval should be recorded for auditing purposes.
- 16.2.20.6 The Municipality may, before bids are considered for acceptance examine and take into account the following, although not limited thereto:
- (a) the financial standing of a bidder, including his ability to furnish the required institutional guarantee, where applicable;
 - (b) the bidder's good standing with the Municipality from past experience;
 - (c) the bidder's ability to fulfill his obligations in terms of the bid documents.
- 16.2.20.7 The remaining acceptable bids shall be adjudicated according to the following as applicable:
- (a) bid price (corrected if applicable and brought to a comparative level where necessary);
 - (b) the unit rates and prices;
 - (c) any qualifications to the bid;
 - (d) the bid ranking obtained in respect of preferences set out in Chapter 4;
 - (e) any other criteria specified in the bid documents.
- 16.2.20.8 Additional information or clarification of bids may be called for if required, by the Bid Evaluation Committee in writing.
- 16.2.20.9 The Municipality reserves the right to consider alternative bids, provided that a bid free of qualifications and strictly in accordance with the bid documents is also submitted. Alternative bids shall be submitted on separate complete sets of bid documents and shall be clearly marked "Alternative Bid" to distinguish it from the unqualified bid referred to above. The Municipality shall not be bound to consider alternative bids. If, after bids have been brought to a comparative level and are equal in all respects, the Delegated Authority shall in the presence of a witness, draw lots to decide the award.

16.2.20.10 If, after bids have been brought to a comparative level, two or more score equal total adjudication points, the successful bid should be the one scoring the highest number of preference points. Should two or more bids be equal in all respects, the Delegated Authority shall in the presence of a witness draw lots to decide the awards, or split 50 percent each where applicable.

16.2.21 Request for withdrawal of a Bid

Where a bidder requests in writing, after the closing of bids prior to the evaluation and adjudication process, that this bid be withdrawn, then such a request may be granted by the Municipal Manager if it is in the best interests of the Municipality.

16.2.22 Acceptance of a Bid

16.2.22.1 Once bids have been adjudicated upon in accordance with the bid committee system, the minutes of the Bid Adjudication Committee shall be submitted to the Municipal Manager for approval.

16.2.22.2 Where a bid has been recommended for acceptance and is approved by the Municipal Manager, the successful bidder shall be notified thereof in writing as provided in Part 7 of Chapter 3.

16.2.22.3 In the event of it becoming necessary to cancel or re-advertise a bid, then a report to this effect shall be submitted to the Municipal Manager.

16.2.22.4 Where a bid has either been cancelled or is unsuccessful, the bidder shall be notified in writing accordingly.

16.2.22.5 No contract may be awarded to a service provider who has failed to submit an original tax clearance certificate from the South African Revenue Service (SARS) certifying that the taxes of that service provider are in order or that suitable arrangements have been made with SARS.

16.2.22.6 No contract may be awarded to a service provider who has failed to submit an original property rates clearance certificate from the applicable Municipality certifying that the taxes of that service provider are in order.

16.2.23 Annual Bids

16.2.23.1 It is permissible to invite formal bids for the supply of goods and services or engineering and construction works that is of an ad-hoc or repetitive nature, for a predetermined period not exceeding 2 (two) years. It is permissible to use the annual bids for procuring the services of consultants, but the practice of using annual bids to circumvent the formal bid process in respect of traditional project work is however not permissible

16.2.23.2 All such bids shall comply with the prescribed provisions in the SCM Policy in all respects.

16.2.23.3 Approval of a bid will not necessarily guarantee the service provider any business with the Municipality.

- 16.2.23.4 Annual bids shall be considered in terms of the prescribed adjudication procedures for bids.
- 16.2.23.5 Where different selections of items are required from the same bid and it is not possible or practical to split the orders, then the adjudication process will have to be carried out in respect of each application. Individual orders will then be placed (or contracts awarded) on the basis of the highest total adjudication points received per application.
- 16.2.23.6 Where the selected service provider in terms of the adjudication process followed, is unable to provide the required goods, services or construction works at the required time and confirms as much in writing, then the bidder with the next highest adjudication points may be selected.

16.3 Deviation from and ratification of minor breaches of procurement processes

- 16.3.1 The Municipal Manager may:
- (a) dispense with the official procurement processes established by the SCM Policy and procure required goods or services through any convenient process, which may include direct negotiations, but only :
 - (i) in an emergency;
 - (ii) if such goods or services are produced or available from a single provider only;
 - (iii) for the acquisition of special works of art or historical objects where specifications are difficult to compile;
 - (iv) acquisition, sale and exchange of zoological goods and services as contemplated in sub-paragraph 16.6; or
 - (v) in any other exceptional case where it is impractical or impossible to follow the official procurement processes; and

- 16.3.2 A Head of Department seeking the approval of the Municipal Manager in terms of sub-paragraph 16.3 for the deviation or ratification shall submit a written report to the BAC prior to the approval of the Municipal Manager detailing the reasons why the Municipal Manager should authorize a departure from the prescribed requirements. A report in terms of this sub-paragraph shall contain such information as the Municipal Manager may specify.
- 16.3.3 The Municipal Manager must record the reasons for any deviations in terms of sub-paragraphs 16.3.1(a) and (b) above and report the quarterly findings to the next meeting of the Council and include it as a note to the annual Performance Report of the Department.

16.3.4 Subparagraph 16.2.21.2 does not apply to the procurement of goods and services from an organ of state.

16.3.5 Nobody may, in order to avoid compliance with any prescript in this paragraph 16.2.21, split the procurement of any goods, services or the execution of work into lesser items or parts or enter into more than one contract. When determining transaction values, a requirement for goods or services consisting of different parts or items, must as far as possible be treated and dealt with as a single transaction.

16.3.6 The decision of the Municipal Manager in terms of paragraph 16.3.1 shall be final.

16.4 Procurement of Banking Services

16.4.1 A contract for the provision of banking services to the Municipality:

16.4.1.1 must be procured through a competitive bidding process;

16.4.1.2 must be consistent with section 7 of the MFMA;

16.4.2 The process for procuring a contract for banking services must commence at least nine months before the end of an existing contract.
