The major revenue variances against the approved budget are:

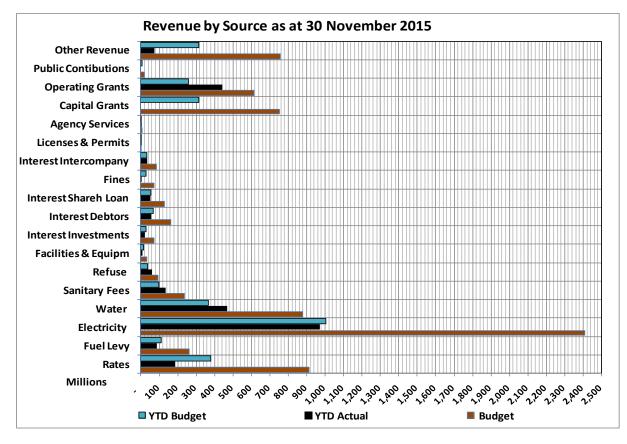

- Property rates have an unfavourable variance of R193.311 million for the period due to less property rates billed for the period than budgeted due to the reduced market value of the University of the Free State and other properties by the valuation appeals board and the retrospective correction of their billed rates revenue;
- Electricity revenue Unavourable variance of R31.141 million due to less actual sales than budgeted, less electricity billed and sold for the period because of a seasonal fluctuation,
- Water revenue Favourable variance of R102.767 million for the period due to an increase in billing, more water billed for the period. The reason for the large difference on the water billed is mainly due to one meter that over clocked during the month. This was subsequently fixed on 2 December 2015 which is just outside of the November month. If this incorrect billing of approximately R166 million is taken out there will be an unfavourable variance of R63.233 million which can be attributed to the water restrictions;
- Services charges Sanitation revenue has a favourable variance of R38.287 million for the
 period due to an increase in billing, more sanitation billed for the period and a change in the
 accounting treatment of revenue forgone and grant and subsidies given for free basic
 services;
- Services charges Refuse revenue has a favourable variance of R20.951 million for the
 period due to an increase in billing, more refuse billed for the period and a change in the
 accounting treatment of revenue forgone and grant and subsidies given for free basic
 services;

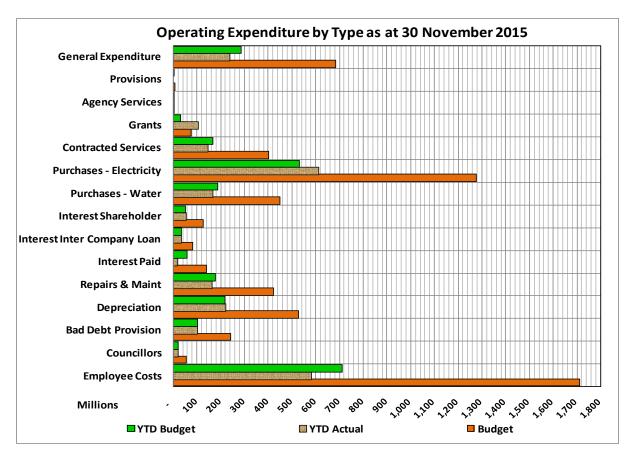

- Interest earned External investments have an unfavourable variance of R7.861 million for the period due to lower investment balances than anticipated and interest on shareholder loan not paid by the entity;
- Interest earned –outstanding debtors have a unfavourable variance of R10.879 million due to the reduced market values of properties by the valuation appeals board and the respective correction on the interest on the outstanding interest of those debtors accounts;
- Fines Unfavourable variance of R27.444 million is due to the non-accrual of traffic fines, which is -91.02% on a year to date target;
- Government Grants and subsidies Operating: R186.244 million favourable mainly due to the equitable share received in advance R192.695 million received in November 2015;
- Other revenue (R261.833 million) unfavourable due to a combination of under/over collection on various revenue items, non-cash items and GRAP issues only accounted for when finalising the financial statements and
- Transfers recognised Capital: R314.168 million unfavourable due the non recognition of capital grants, slow spending and implementation of projects for the period.

The major operating expenditure variances against the approved budget are:

- Employee related costs Favourable variance of R132.485 million due to unfilled vacancies;
- Debt impairment On target;
- Depreciation On target;
- Finance charges Favourable variance of R43.692 million, mainly due to interest charges/costs not yet due for repayment on external loans;
- Bulk purchases Unfavourable variance of R59.502 million, due to a combination of more electricity bought than budgeted (seasonable fluctuation) and less water bought for the period (water restrictions);
- Other materials (R15.342 million) favourable due to under-spending and slow implementation of projects;
- Contracted services (R21.807 million) favourable due to under-spending;
- Transfers and grants (R57.240 million) unfavourable mainly due to more grants and subsidies given as free basic services for indigent beneficiaries than budgeted to date and the change in the accounting treatment of grants given on the free basic services;
- Other expenditure (R34.195 million) favourable due to under spending, GRAP and non-cash issues only accounted for when finalising the annual financial statements.

The following chart indicates the oustanding debtors per customer group (excluding electricity owned to Centlec and other departmental charges as explained above).

The following chart indicates the oustanding debtors by income source (excluding electricity owned to Centlec and other departmental charges as explained above).

Investment Portfolio (Annexure B - Table SC5)

The table indicates the status of the investment portfolio and detail of the instruments of where the funds are invested, which amounts to **R381.552 million** as at 30 November 2015 against **R552.511 million** at 31 October 2015.

4. FINANCIAL IMPLICATIONS

The report for the period ending 30 November 2015 indicates various financial risks which require monitoring during the financial year:

- Achievement of the operating expenditure and revenue budget;
- Achievement of the capital expenditure budget and
- The management of our cash flow on a daily basis.

As at the end of November 2015 the operating revenue (excluding capital grants) and expenditure actual represented 38.83% and 39.53%, respectively of the approved annuaul budget. The outcome reflects a variance of 2.84% (unfavourable) and 2.14% (favourable) respectively, when compared to the target of 41.67%. However, considering the under collection of debtors, outstanding creditors, the under spending on capital projects and operating expenditure and the equitable share and fuel levy received in advance, expenditure has to be restrained, without neglecting service delivery, to ensure a positive cash flow.

The actual year to date capital expenditure until 30 November 2015 represents only **29.72%** when compared to a target of **41.67%** (5 months), a variance of **11.95%** for the year against the target.

5. KEY NOVEMBER 2015 PERFORMANCE (FINANCIAL) INDICATORS

The outcome in terms of the performance indicators is as outlined on the Supporting Table SC2 of the report pack. The various 'Debtors' ratios are also a cause for concern and are impacted by the size of the debtor's book.

[Highlighted requirements are further explained below].

Certain 'prescribed' municipalities are required to provide their financial reports to the National Treasury, in lieu of the Provincial Treasury, which includes Mangaung. National Treasury have indicated that they wish to continue to directly monitor municipalities that have a significant impact on the South African economy. For this purpose the required electronic reports were progressively lodged with the National Treasury and for November 2015 the reports were submitted on 11 December 2015. These reports are:

- Statement of Financial Performance (OSA)
- Capital expenditure report (CAA)
- Cash Flow Statement (CFA)
- Outstanding Debtors report (AD)
- Outstanding Creditors report (AC)
- Statement of Financial Position actual (BSAC)

The specific format for the report required to be submitted to the Executive Mayor, as referred to in section 71(1), has now been prescribed in terms of Government Gazette No 32141 of 17 April 2009 but the receipt of

electronic submission have not been replaced. Therefore, this report is based upon the content and format of the monthly electronic reports provided to National Treasury. The information provided to National Treasury is published quarterly; therefore it is prudent that the Executive Mayor's report be prepared on a similar basis to ensure alignment.

Section 71(1) (e) refers to a requirement to report on 'allocations' received. The term, 'allocations' refers to government grants received from other spheres of government. These are reported upon in the Statement of Financial Performance.

National Treasury has determined the definition of a 'vote'. Each municipality may determine the vote format for its expenditure, provided it also supplies Government Financial Statistical (GFS) analysis.

Section 87 is a requirement to report on the performance of municipal entities. A report has been received on 9 December 2015.

The market value of the investment portfolio is based on the contractual/ cost price of the investment portfolio.
