**Key Performance Indicators (Annexure B – Table SC2)**

The table refers to the agreed objectives as contained within the Restructuring Grant conditions and the actual percentages achieved.

**Investment Portfolio (Annexure B – Table SC5)**

The table indicates the status of the investment portfolio and detail of the instruments of where the funds are invested, which amounts to **R585.812 million** as at 31 March 2017 against **R214.538 million** at 28 February 2017.

**4. FINANCIAL IMPLICATIONS**

The report for the period ending 31 March 2017 indicates various financial risks which require monitoring during the financial year:

- Achievement of the operating expenditure and revenue budget;
- Achievement of the capital expenditure budget;
- The growing outstanding debtors and
- The management of our cash flow on a daily basis.

As at the end of March 2017 the operating revenue (excluding capital grants) and expenditure actual represented 74.59% **and** 66.20% **respectively** of the approved budget. The outcome reflects a variance of 1.33% (favourable) and **4.61%** (unfavourable) respectively, when compared to the average target of 72.74% 62.20% (based on a pro-rata monthly basis – 9 months of the financial year). However, considering the under collection of debtors, outstanding creditors, the under spending on capital projects and operating expenditure and the low cash and cash equivalents, expenditure has to be restrained in the new financial year, without neglecting service delivery, to ensure a positive cash flow.

The actual year to date capital expenditure until 31 March 2017 represents only **51.19%** of the approved annual budget, when compared to a target of **64%** (9 months), a variance of **12.81 %** for the year against the target.

## **5. KEY MARCH 2017 PERFORMANCE (FINANCIAL) INDICATORS**

The outcome in terms of the performance indicators is as outlined on the Supporting Table SC2 of the report pack. The various 'Debtors' ratios are also a cause for concern and are impacted by the size of the debtor's book.

  - (d) fully accrued interest and yield for the reporting period.

[**Highlighted** requirements are further explained below].

Certain 'prescribed' municipalities are required to provide their financial reports to the National Treasury, in lieu of the Provincial Treasury, which includes Mangaung. National Treasury have indicated that they wish to continue to directly monitor municipalities that have a significant impact on the South African economy. For this purpose the required electronic reports were progressively lodged with the National Treasury and for November 2016 the reports were submitted on 14 December 2016. These reports are:

- Statement of Financial Performance (OSA)
- Capital expenditure report (CAA)
- Cash Flow Statement (CFA)

- Outstanding Debtors report (AD)
- Outstanding Creditors report (AC)
- Statement of Financial Position actual (BSAC)

The specific format for the report required to be submitted to the Executive Mayor, as referred to in section 71(1), has now been prescribed in terms of Government Gazette No 32141 of 17 April 2009 but the receipt of electronic submissions have not been replaced. Therefore, this report is based upon the content and format of the monthly electronic reports provided to National Treasury. The information provided to National Treasury is published quarterly; therefore it is prudent that the Executive Mayor's report be prepared on a similar basis to ensure alignment.

Section 71(1) (e) refers to a requirement to report on 'allocations' received. The term, 'allocations' refers to government grants received from other spheres of government. These are reported upon in the Statement of Financial Performance.

National Treasury has determined the definition of a 'vote'. Each municipality may determine the vote format for its expenditure, provided it also supplies Government Financial Statistical (GFS) analysis.

Section 87 is a requirement to report on the performance of municipal entities. A report has been received on 11 November 2016.

The market value of the investment portfolio is based on the contractual/ cost price of the investment portfolio.
