#### PR Clr Kabelo Moreeng Mangaung Metro Municipality

Dear Councilor

## THE RULE 38 QUESTION: NON-FUNCTIONING SEWAGE PUMP STATIONS AND BLOCKAGES – BOTSHABELO SECTION W

Your letter dated 19 February 2020, with regards to the above-mentioned matter refers

#### 1. Why are the blockages not attended to even when reported?

- The Sanitation Team has been hard at work dealing with the blockages as reported. We are always in constant communication and sometimes on site with Clr Mohapi of Section W and the RGM Ntate Matutle. All machinery is currently on site busy sorting out the problem. We have now unblocked the manhole inside Erf 1943 which was the biggest concern. The blockages are often caused by foreign objects such large rocks, cow hides, silt, etc.
- 2. What permanent solution are in solution are in place to avoid recurring blockages?
- We will be commencing with a technical investigation to determine what the root of the problem could be in order to avoid recurring blockages. In the meantime, the team will be busy flush cleaning the lines and ensure that in the interim there are no spillages especially inside the properties. Having envisaged the cause of the blockages, it was resolved that the community awareness campaign be initiated, and point repairs will soon be underway.

#### 3. Why are the three Pump Stations not in Working Condition and Fully Secured?

• The Pump Stations are working except Centlec has not completed the Power connection to the Pump Stations. They only Started with the process on 5 February and they are still on site. The Pump Stations are secured by Clear vu fence.

Your faithfy#y Adv Tahkiso Mea City Manager

DIRECTORATE CORPORATESERVICES

19 Feb 2020

To: THE CITY MANAGER: Adv. T Mea Mangaung Metro Municipality.

Further To: THE SPEAKER Mr. MA Siyonzana

BY HAND.

BRAM FISHER BUILDING, BLOEMFONTEIN 9301

Dear Gentlemen

#### RE: NON-FUNCTIONING SEWAGE PUM STATIONBS AND BLOCKAGES, BOTSHABELO SECTION W

I refer your attention to Rule 38 of the Standing Rules and Orders that states:

**38.1** Any member may submit a question requiring a written reply from any palitical office bearer, the municipal manager or seniar manager of the municipality, cancerning any matter related to the effective performance of the functions of the municipality and the exercise of its powers, provided that a written natice of such a questions has been submitted to the Speaker ar chairperson and the municipal manager at least 10 (ten) days prior to the councillar committee meeting and the political office bearer and the City Manager shall ensure that the member receive a written reply at the meeting. **38.2** If after the question has been replied to, a member is of the opinian that the reply is not clear or satisfactary, he or she may with the permission of the speaker or chairperson, request a follow-up question, follow –up question should be in writina.

38.3 All questions duly given notice of and all responses submitted shall be recorded in the minutes of the meeting.

Blockages around Section W cause a health hazard for the residents, the sewage leak runs in front of Mmulakgoro Intermediate school's gate and flows direct into the yards of residents. The smell is so unbearable to an extend that people are unable to cook and open their windows for fresh air in this summer heat.

Three mini sewage pump stations situated 5 meters from the houses are all not in a working condition thus this contributed more to lack of flow of the sewage and leads to recurring blockages.

The mini sewage pump stations are not even secured, no locks at the gate meaning they are fully exposed to theft and vandalism, even 5 days after reporting this **ref. no. 69058** to the Metro the situation remains the same.

PO Box 3704, Bloemfontein 9300 Room ###, #th floor, Bram Fischer Building, Cnr Nelson Mandela & Markgraaf Street. Tel: +27 51 ### #### Fax: +27 51 ### #### E-Mail:name@civic.mangaung.co.za Website: www.manguang.co.za Therefore, I ask the following questions in terms of Rule 38 of the Standing Rules and Orders:

- 1. WHY ARE THE BLOCKAGES NOT ATTENDED TO EVEN WHEN REPORTED ref 69058?
- 2. WHAT PERMANENT SOLUTION ARE IN PLACE TO AVOID RECUIRING BLOCKAGES?
- 3. WHY ARE THE THREE PUMP STATIONS NOT IN A WORKING CONDITION AND NOT FULLY SECURED?

Looking forward in having a written reply at our next council meeting.

Sincerely,

PR Cllr Kabelo Moreeng Ward: PR Cllr Mobile: 081 701 5168 Email: moreengk@hotmail.com

## PR Clr Kabelo Moreeng Mangaung Metro Municipality

Dear Councilor

# THE RULE 38 QUESTION: DEBT COLLECTION AND THE BREAKING OF THE POPI ACT

Your letter dated 15 January 2020, with regards to the above-mentioned matter refers

#### 1. How many times has this happened that we are aware of?

- We are only aware of this one incident as reported.
- 2. How is MMM protecting and monitoring information that is being used by service providers
  - The service provider is aware that the information given to them is private and confidential hence they have put necessary precautionary measures (as per response from the service provider) in place.
- 3. What is the service provider's corrective measures going to be to remedy the situation?
  - Please refer to the attached response from the service provider.
- 4. How is the service provider being monitored?
  - We have weekly meetings to check the progress of the service provider.
- 5. How much debt is being collected effectively through said provider?
  - Approximately the service provider collects R 6 million in a month.
- 6. How much is the said service provider costing the Municipality?
  - The service provider is paid thirteen percent (13%) of the collected debt.

- 7. What is the review period and process for said provider?
  - Please refer to point 4 above.

Your faithfully

12 Adv Vankiso Mea City Manager

To: The Speaker: Mangaung Metro Municipality.

To: City Manager: Mangaung Metro Municipality.

#### PER HAND.

Bram Fischer building, Bloemfontein.

#### Dear Gentlemen,

#### Debt Collection Contract and the breaking of the POPI ACT (Protection of Personal Information Act 4 of 2013):

Rule 38.1 of the Standing Rules and Orders of MMM reads as follows: "Any member may submit a question requiring a written reply from any political office bearer, the municipal manager or senior manager of the municipality, concerning any matter related to the effective performance of the functions of the municipality and the exercise of its powers, provided that a written notice of such a question has been submitted to the Speaker or chairperson and the municipal manager at least 10 (ten) days prior to the council or committee meeting and the political office bearer and the City Manager shall ensure that the member receive a written reply at the meeting."

#### POPI Act 4 of 2013 Chapter 1:2 Reads: "The purpose of this Act is to -

(a) give effect to the constitutional right to privacy, by safeguarding personal information when processed by a responsible party, subject to justifiable limitations that are aimed at (i) balancing the right to privacy against other rights, particularly the right of access to information; and
(ii) protecting important interests, including the free flow of information within the Republic and across international borders"

On the 13<sup>th</sup> January 2020, an email had been sent by Mtimandze Projects to a resident of MMM (Annexure 1), with the "7 WORKING DAYS NOTICE", of about 84 accounts detailing private information, namely; amount due to the metro, account holder name, and amount owed to the metro. The resident is not any one of the mentioned accounts. There had been no reason for this to be sent to the resident.

After receiving this information from the resident, I had spot checked 10 of the account numbers, and not one of them were on the system. Thereafter, sent the email to the Mtimandze representative who sits at debt collection cubicle 6, Sharon Rasenyalo, who would inform me that it was a mistake and had the sender send an apology email to both the recipient resident and myself (Annexure 2 and 3).

Although an apology is a nice gesture, it is the MMM prerogative to ensure that the protection of the rights of our public is at all times priority, albeit it through a service provider of the metro.

My questions are as follows:

- How many times has this happened that we are aware of?
- How is MMM protecting and monitoring information that is being used by service providers?
- What is the service provider's corrective measures going to be to remedy the situation?
- How is this service provider being monitored?
- How much debt is being collected effectively thought said provider?

#### PR Cir Kabelo Moreeng Mangaung Metro Municipality

Dear Councilor

### THE RULE 38 QUESTION: 2020 BREAKUP OF INCOME SOURCE 31 JAN 2020

Your letter dated 19 February 2020, with regards to the above-mentioned matter refers

## 1. Can you please supply me with a break-up of the information reflected in the above table for each source in the following three columns?

The break-down of each source is as follows:

- a) Current accounts R 295 869 990
- b) Closed accounts R 12 280 554
- c) Indigent account R 41 526 061

## 2. Can you supply with the detail of what is included in the other source (R 441 862 083)?

- Other source includes the following:
- a) Rental
- b) Outdoor advertising and
- c) Trade waste

Your faithfully

Adv Tahkiso Mea City Manager

Ward Councillors

19 February 2020

To: THE CITY MANAGER: Adv. T Mea Mangaung Metro Municipality.

Further To: THE SPEAKER Mr. MA Siyonzana

BY HAND.

BRAM FISHER BUILDING, BLOEMFONTEIN 9301

Dear Gentlemen

#### RE: 2020 Breakup of income source 31 Jan 2020

#### I refer your attention to Rule 38 of the Standing Rules and Orders that states:

**38.1** Any member may submit a question requiring a written reply from any political office bearer, the municipal manager or senior manager of the municipality, concerning any matter related to the effective performance of the functions of the municipality and the exercise of its powers, provided that a written notice of such a questians has been submitted to the Speaker ar chairperson and the municipal manager at least 10 (ten) days prior to the councillar cammittee meeting and the palitical office bearer and the City Manager shall ensure that the member receive a written reply at the meeting. **38.2** If after the question has been replied to, a member is of the opinian that the reply is not clear ar satisfactary, he or she may with the permission of the speaker ar chairperson, request a follow-up question, follow –up question should be in writing.

38.3 All questions duly given notice of and all responses submitted shall be recorded in the minutes of the meeting.

According to the latest financial report the following amount are outstanding as at 31 January 2020 as per source of income as reflected in the Table below.

The way in which the information is presented is not clear enough to understand the total picture:

PO Box 3704, Bloemfontein 9300 Room ###, #th floor, Bram Fischer Building, Cnr Nelson Mandela & Markgraaf Street. Tel: +27 51 ### #### Fax: +27 51 ### #### E-Mail:name@civic.mangaung.co.za Website: www.manguang.co.za

Income Source	Total outstanding 31 January 2020
Electricity	854 110 137
Rates	1 292 361 144
Sanitation	573 943 751
Refuse	240 063 614
Housing	55 279 462
Interest	958 215 582
Other	441 862 083
Water	2 008 853 287
	6 424 689 060

Therefore I ask the following questions in terms of Rule 38 of the Standing Rules and Orders:

- 1. Can you please supply me with a break-up of the information reflected in the above table for each source into the following three columns?
  - a) Current accounts
  - b) Closed accounts and
  - c) Indigent account
- 2. Can you supply me with the detail of what is included in the Source Other (R441 862 083)

Looking forward in having a written reply at our next council meeting.

Sincerely, Clr JF Britz PR 0825762210 jfbritz@mweb.co.za

## Clr Dirk Kotze Mangaung Metro Municipality

Dear Councilor

## **RESPONSE TO RULE 38 QUESTION: MANGAUNG METRO FUNERAL POLICY**

Your letter dated 3 February 2020, with regard to the above-mentioned matter refers.

#### 1. How many funeral payments has been approved for serving and none-serving Councillors who passed away from 2016 by the Mangaung Metro?

- Four serving Councillors and
- Two non-serving Councillors.

## 2. Who are the deceased councillors that the funerals were paid for? please provide names and dates?

- Councillor Tankiso Julius Moya: Died 2 November 2016 Buried 12 November 2016,
- Councillor Tshepo Ephraim Motsomi: Died 23 July 2017 Buried 29 July 2017,
- Councillor Tumo Khauhelo Mapitsi: Died 4 August 2019 Buried 9 August 2019,
- Councillor Sipho Gift Kaliya: Died 23 August 2019 Buried 1 September 2019,
- Former Mayor Jannie Mohapi: Died 19 December 2017 Buried 30 December 2017, and
- Former Councillor Gauta Lefuo: Died 21 April 2019 Buried 2 May 2019

## 3. Who are the funeral parlours that payments were made to for the councillors named in question 2?

- Councillor T.J Moya Phahana Funeral Parlour.
- Councillor T.E Motsomi -Twilight Funeral Parlour.
- Councillor T.K Mapitsi Covision Funeral Parlour.
- Councillor S.G Kaliya Khabonina Funeral Parlour.
- Former Mayor J Mohapi -Twilight Funeral Parlour.
- Former Councillor G Lefuo -Twilight Funeral Parlour.

- 4. Provide a breakdown of costs involved in the funerals that were paid for?
  - The Council paid R100 000.00 to the funeral parlor to cover all the cost.
- 5. Please provide proof of payments made to the funeral parlors named in question 3?
  - The Councillor is welcomed to arrange with finance to view the requested above.
- 6. Why does the Mangaung Metro not have a funeral policy?
  - The draft policy is still being processed by legal department.

Yours faithfully

Adv. Tankiso Mea City Manager

COUNCILLORS

3 February 2020

To: THE CITY MANAGER: Adv. T Mea Mangaung Metro Municipality.

Further To: THE SPEAKER Mr. MA Siyonzana

BY HAND.

1

BRAM FISHER BUILDING, BLOEMFONTEIN 9301

Dear Gentlemen

#### **RE: MANGAUNG METRO FUNERAL POLICY**

I refer your attention to Rule 38 of the Standing Rules and Orders that states:

**38.1** Any member may submit a question requiring a written reply from any political office bearer, the municipal manager or senior manager of the municipality, concerning any matter related to the effective performance of the functions of the municipality and the exercise of its powers, provided that a written notice of such a questions has been submitted to the Speaker or chairpersan and the municipal manager at least 10 (ten) days prior to the councillor committee meeting and the political office bearer and the City Manager shall ensure that the member receive a written reply at the meeting. **38.2** If after the question has been replied to, a member is of the opinion that the reply is not cleor or satisfactory, he or she may with the permission of the speaker or chairperson, request a follow-up question, follow –up question should be in writing.

38.3 All questions duly given notice of and all responses submitted shall be recorded in the minutes of the meeting.

I refer your attention to the following;

It is required from Municipalities to set policy goals to facilitate the implementation of these powers and functions. A policy IS a document, which gives direction to the administration on the implementation of the political will of Council to achieve its strategic intent.

I therefor ask the following questions;

- 1. How many funeral payments has been approved for serving and none-serving councillors who passed away from 2016 by the Mangaung Metro?
- 2. Who are the deceased councillors that funerals were paid for? Please provide names and dates?
- 3. Who are the funeral parlours that payments were made to for the councillors named in question 2?
- 4. Provide a breakdown of costs involved in the funerals that were paid for.

- 5. Please provide proof of payments made to the funeral parlours named in question 3?
- 6. Why does the Mangaung Metro not have a funeral policy?

Sincerely,

i.

Cllr bir

#### Clr Mokgadi Kganaka Mangaung Metro Municipality

Dear Councilor

## THE RULE 38 QUESTION: R6 255MILLION PAYMENT TO GLAD-AFRICA 28/29 NOVEMBER 2019

Your letter dated 12 December 2019 with regards to the above-mentioned matter refers.

Mangaung Metropolitan Municipality is one of the fortunate cities to have been selected by National Government to form part of the Integrated Public Transport Network (IPTN) Program. The main focus of the program is to transform public transport for the community of the metros. In terms of this program, which is overseen by the National Department of Transport, participating municipalities is required to submit an annual business plan which is evaluated by the Department of Transport, National Treasury and SALGA for feasibility and based on this evaluation, municipalities are allocated funding.

Progress on these allocated funds are monitored by these departments and include: detailed monthly financial reports where municipalities need to comply with specific requirements and submit proof of expenditure via financial reporting; monthly contractors report which highlights the spending per contractor on the project as well as comments on any deviations; quarterly performance reports which are based on progress against set milestones as depicted in the business plans and annual reports which depicts the annual progress of the project and depicts a review of the finances of the project.

Further governance associated with the project are two-monthly bi-laterals with the Department of Transport where progress and challenges on the program are discussed and internal checks and balances of expenditure. These internal controls include the review of each invoice by the workstream leads and all invoices submitted must be accompanied by a detailed report as well as proof of expenditure. Once reviewed the invoices are submitted to the unit head for further scrutiny and approval.

The Mangaung IPTN program, *Hauweng*, consist of a multitude of projects for which various specialist service providers and contractors are appointed. The program is divided into workstream with each workstream working towards operationalisation of the network. GladAfrica

was appointed as project managers to fulfil many of these professional services as the norm with IPTN projects throughout the country.

The GladAfrica contract, as correctly noted in your correspondence, ended in December 2019 and the contract was a rates base contract. A rates base contract was decided on as it provided the best value for money to the city due to the nature of IPTN projects which lends itself to various sensitive negotiations, especially with the taxi industry, who is one of the key role-players in the successful implementation of the program.

As stated above, the services rendered by GladAfrica, and for which they were paid, are professional services rendered in gearing the city for operationalization of the system. These services include:

- a) systems planning
- b) infrastructure planning monitoring
- c) supervision
- d) business and financial planning
- e) legal and compliance
- f) intelligent transport systems
- g) environmental compliance
- h) industry transition
- i) marketing and
- j) communication universal access and operations.

3

These services are provided by professionals with the relevant experience and work under the stewardship of internal workstream leads. For each of these functions performed, on a monthly basis, there are proof of expenditure which is submitted to the municipality.

The contract between GladAfrica and Mangaung Municipality is available from legal upon request to the head of legal. This contract, as indicated above, came to an end in December 2019 and was extended to May 2020. This extension, which was granted in December 2019, was necessitated by the fact that the program is at a sensitive stage and any delay in progress may jeopardize future funding through the Public Transport Network Grant (PTNG). Moreover, this situation was born from unforeseen delays in finalizing the tender for the new service provider. This process was completed, and the tender was advertised on 14 February 2020. Therefore, as stated above and the fact that the continuity of the services was critical, it was decided to extend the contract with GladAfrica.

The R6,255 million was a payment due for the stage 4 designs of the bus depot and the fees were calculated based on the Engineering Council of South Africa (ECSA) scales.

In conclusion, the IPTN program is funded through the PTN Grant which is a national grant administered by the Department of Transport. Funds are transferred to the city in tranches and are based on performance. Therefore, to ensure performance, the city relies on support of professionals and while these professionals assists with achieving deliverables, further support is required internally. To this end, the success of the program is depended on support from council and the executive, capacity challenges being addressed, prioritization of the program and support for interventions that leads to unblocking of challenges in this highly transformational program.

## 1. NOVEMBER 2019 PROGRESS REPORT

**PROJECT MANAGEMENT:** The Project and Programme Management function provides overarching multi-disciplinary leadership, coordination, and administration. The Project Management team comprises of the Project Director, Technical Leader, Project Managers, Project Administrators, and Technical Workstream Leaders.

### Progress - November 2019

- Attended JTC Preparation Meeting in Mangaung on 21 October 2019
- Attended JTC Preparation Meeting on 11 November 2019
- Attended MMM HAUWENG Joint Technical Committee Meeting No 27 on 11 November 2019
- Attended MMM HAUWENG Joint Technical Committee Meeting No 28 on 18 November 2019
- Phase 1C Route Inspection at Hoffman Square on 18 November 2019
- Daily correspondence (calls, emails, etc) with stakeholders regarding meeting arrangements and preparation thereof, i.e. MMM HAUWENG JTC Preparation Meeting; MMM HAUWENG Joint Technical Committee Meeting No 27 and 28
- Printing of meeting-related documentation (Minutes, agendas, registers, presentation, etc)

**SYSTEMS PLANNING:** System Planning pertains to the development of a citywide integrated transport network and identifying the phases of implementation from a system implementation perspective. In this context system indicate route alignment, type of services, the position of stops, stations, depots. The integration of these facilities and service with the surrounding development and urban structure. The system planning workstream determines the geographical extent and coverage of the integrated public transport network and selects the optimum mode per identified demand corridor for the base-, 10- and 20-year estimated passengers. Optimum mode implies the mode that is cost-effective and long term sustainable but also caters for the needs of all categories of users in the corridor at an acceptable level of service.

## Progress – November 2019

- JTC preparation meeting on 21 October 2019
- JTC Meeting on 11 & 18 November 2019
- Route inspection preparation Maps to Taxi Industry
- Route inspection on 18 November 2019

**INFRASTRUCTURE:** The infrastructure workstream is responsible for the successful delivery of the physical infrastructure required for the operation of the IPTN. The objectives are to coordinate the programme's projects and management of their inter-dependencies including oversight of any risks and issues that may arise. Glad Africa is overseeing the construction of the following trunk

roads and the civil works at the bus depot, Fort Hare Road, Moshoeshoe Road and Chief Moroka Crescent

### Progress – November 2019

- 21 October, MMM IPTN Infrastructure Discussion with Abe
- 30 October, MMM IPTN Monthly Site Meetings LTE
- 31 October, MMM IPTN Centlec and Contractors Meetings
- 05 November, MMM IPTN Contractors Meeting, Nweti and Batalala
- 06 November, MMM IPTN Contractors Meeting, Lesole, Bula Mahlo, Black Top and Calandra
- 11 November, MMM IPTN Infrastructure Monthly Progress Meeting
- 12 November, MMM IPTN Fort Hare Part B Design Technical Discussion
- 12 November, MMM IPTN Infrastructure Dedicated Laboratory
- 12 November, MMM IPTN Infrastructure meeting with IPTN Head: Outstanding approvals
- 20 November, MMM IPTN Infrastructure Property encroachment
- PTIG PTNG 2019-20 Q1 update
- Discussion with LTE re contract extension.
- ECO submission review and EPWP reports requests
- Infrastructure Projects Summary Overview
- Infrastructure Projects Financial Summary, all FYs (Fees and Construction)
- Monthly report, Risk Register compilation and meeting minutes
- District Based Service Delivery Model -Compilation

**BUSINESS:** The responsibilities of the Business Work Stream are to design, development and implementation of the Business model; Fare Structures; Compensation model; and Operational costing model.

## Progress – November 2019

- During the October/November 2019 reporting period the focus was on assisting the financial work stream to complete the financial model, attending to the comments on the Hauweng fare structure from the CFO and a review of the IBL strategy.
- In terms of the financial model completion, the comments and questions received from the financial modelers were interrogated, communicated and a workshop was attended to discuss and clarify the inputs to the model for completion.
- Attended to comments received via CFO from Acting General Manager: Revenue Management by means of preliminary discussions, followed by further research to assess proposed Hauweng fares as against those of other Cities used as benchmark. Preliminary findings were then discussed in a work session and a report was submitted detailing the consensus agreement reached with Acting General Manager: Revenue Management. The report, as well as a copy of other Cities comparable fare structures, is attached as part of the POE.

**FINANCE:** The Finance Workstream is a sub-unit to the Project Management Unit that provides bespoke development, calibration, collaboration, engagements and analysis of the IRPTN financials. The workstream is responsible for financial feasibility and viability of the system and ensuring accurate forecasting and reporting.

#### Progress – November 2019

- Review the city-wide IPTN
- Analyze the financial impact of the City-wide IPTN
- Complete the financial chapter for the City-wide IPTN
- · Working sessions with workstreams
- Review and comment on the starter service agreement
- · Review and comments on the business plan
- Development of the expenditure monitoring tool
- Review financial model

**INDUSTRY TRANSITION:** The focus of the industry transition is to facilitate different agreements between the city and the public transport operators namely taxi associations and busses. In terms of the National Land Transport Act, the city must engage with the current public transport operators hence ongoing discussions with the public transport operators. Finally, the public operators would have the Vehicle Operating Company (VOC) which will be contracted by the city to render this public transport function on behalf of the city. The cost paid to Glad Africa include payments of Advisors appointed to assist the taxi associations in dealing with various agreements that must be understood and concluded with the taxi associations.

The cost of the Taxi Industry Advisors is part of the cost under Industry Transition as well as meeting allowances for the representatives of the taxi Associations as per the signed Memorandum of Agreement.

#### Progress – November 2019

- Admin on the Project
- Drafting Monthly report and time sheet
- Integration Meeting with Legal Workstream
- Preparation for JTC Meetings
- Attending JTC Meetings
- Attending Route Inspection
- Development of Industry Transition Close out Report
- Review of the Participation Framework Agreement
- Finalization of the verification exercise
- Taxi Industry Advisors

**ENVIRONMENTAL & SUSTAINABILITY:** The objectives of the Environment and Sustainability (E&S) Work Stream was to provide expert advisory and consulting services in the following key components: Environmental Compliance; Sustainability Assessment (including the formulation of a Sustainability Framework and Policy for the IPTN project); Resource Utilization; and Social Impact Assessment/Stakeholder Engagement for specific components of the IPTN.

### Progress – November 2019

- Updated the Rolling Action List for November 2019
- Updated and identified the potential risks for the E & S Work Stream and proposed mitigation measures on the identified risks for November 2019
- · Drafted the monthly progress report
- Close-Out Report

**MARKETING & COMMUNICATIONS:** The objectives of the Marketing and Stakeholder Engagement workstream were to profile the MMM IPTN and to facilitate engagements with the affected stakeholders and the public in general.

**INTELLIGENT TRANSPORT SYSTEMS:** Intelligent Transport Systems (ITS) is a term used when describing the application of technology to vehicles, infrastructure, and transport users to make transport safer, more efficient, more resilient and safer for the environment. The use of ITS technologies is growing significantly in popularity as, in many cases, the implementation of relatively inexpensive systems, with relation to infrastructure development, results in notable transport system improvements.

#### Progress – November 2019

- Draft Close-Out Report and Correspondents regarding close-out report
- Evaluation of interim system solution proposed by Bus Supplier
- MMM: Finalisation of last minor inputs to the RFT Documentation

**LEGAL & COMPLIANCE:** The Legal and Compliance workstream's main objective to ensure that the planning and implementation of the MMM's IPTN project is compliant with the relevant legislative framework applicable to the planning and implementation of such projects and compliant to the specific local government legal framework.

#### Progress – November 2019

- Attending IT & Legal Integration Meeting
- Attending to review and provide inputs into draft CM Letter re MOA
- Attending to review of Marketing and Comms Brochure and related correspondence
- Attending to updating of Affected Operator Strategy Document
- Attending to review of IBL Strategy Council Report
- Attending to drafting of Close-Out Report
- Attending to preparing of monthly report

- Attending project related correspondence
- Attending to review of JTC meeting minutes, prep for JTC and related correspondence
- Attending JTC Meetings
- Attending to review of MOA and attend to related correspondence re Engagement
- Attending to review of Business Model and attending related conference call (4hrs)
- Attending to inputs into Compensation Sub-Committee Meeting Agenda and attend to related correspondence
- Attending to drafting of Participation Framework Agreement
- Attending meeting with Z Mkhonta re review of draft Participation Framework Agreement and Compensation Framework Agreement
- Attending to review inputs from Business & Finance on Starter Services Agreement in prep for meeting

**UNIVERSAL ACCESS:** In terms of NdoT requirements, the UA consultant is required to ensure that Passengers with Categories of Special Needs are accommodated on the system

**OPERATIONS:** The objectives of the Operations work stream are to advise the City and other work streams with specialised operational expertise to develop and operationalize the Hauweng services in the roll out phases and the establishment of the VOC.

#### Progress – November 2019

- Attended and participated in the MMM and JTC meeting held in MMM
- · Revision of driver duties after route changes
- Revision of driver duties after route changes (continued)
- Commenced with the writing of the October 2019 progress report and POE compilation
- Commenced with Close Out Report as instructed by PL. Commented to the Communications Plan received from Stakeholder work stream.
- Continued with Close out report. Discussed the Operations October 2019 progress report with the Client (Maoetsi) as instructed by PL. Took instruction to assist Systems Planning with the Phase 1 Operations Plan during November 2019
- Completed the 1st draft of the Operations Close Out Report.
- · Reviewed the Close Out Report and submitted first draft to PL for review
- Updating of the Phase 1C Service Plan in consultation with Nicolene of Systems Planning with regards the Signage and wayfinding inclusion into the document
- MMM City wide IPTN updating of the financials received from Systems Planning and Business. Meeting to review the updates with Nicolene and Omar.

- MMM City wide IPTN updating of the financials received from Systems Planning and Business. Study the document to make inputs for routes descriptions and buses required.
- As per instruction of MMM to assist Systems Planning with the completion of the Operations Plan.
- Preparations for the site visit in MMM with the Taxi Industry of the phase 1C routes and bus stops as well as the turnaround points.
- Prepared and compiled a Services Plan for the interim depot as required by MMM. Discussed with Systems Planning and then forwarded to MMM for consideration
- Reviewed the amended document received from Business with regards the scheduling module. Made co0mments and shared with the work streams
- Site visit of Phase 1C bus routes, stops, turnaround points and Hoffman Square with the Taxi Industry. Discussions after the site visit of way forward.
- Skype meeting with all work streams of Phase1 budgets for the 4-year period to 2023.

Yours faithfully Adv. nkišo Mea Citv inager

### Clr JF Britz Mangaung Metro Municipality

Dear Councilor

See.

### **RESPONSE TO RULE 38 QUESTION: PAYMENTS TO ATTORNEY FIRM**

Your letter dated 19 February 2020 with regard to the above-mentioned matter refers.

#### 1. Does the Metro make use of the services of ROSSOUW & CONRADIE Inc.?

The Mangaung Metro Municipality does not make use of the services of Rossouw & Conradie Inc. Legal Services makes use of the services of a panel of attorneys, the panel consists of 14 Law Firms and Rossouw & Conradie Inc. is not a part of the panel. Such a panel became present as a result of Supply Chain processes being duly followed and adhered to.

Kindly take note that certain payments have been made to Rossouw & Conradie Inc. however, such payments were not for services rendered on behalf of the Metro, the monies paid to the incorporation are referred to as legal costs. The only standing reason as to such payments is that in a case wherein Rossouw & Conradie Inc. was representing either the plaintiff or applicant against the Metro, the outcome thereof was not in favour of the Metro.

Therefore, in law, the successful party often receives an order of costs, or payment of money from the other party i.e. The Metro, to compensate them for their legal fees. Costs are ultimately at the discretion of the Court, albeit the successful party makes such a request to the Court.

To shed more light on the nature of legal costs kindly take note that Attorney and client costs include party and party costs, as well as other legal costs – including charges for attendances between you and your attorney. In some situations, the Courts may award attorney and client costs, or a portion of these costs, to the successful litigant in a case.

When this does occur, it may be because there was a contractual dispute and it was a specific term of the contract that attorney and client costs would be payable in the event of such a dispute. Alternatively, it may occur where a Court believes that a litigant's conduct in the course of the litigation has been such that a punitive costs order is warranted.

Where attorney and client costs are awarded, the costs are subject to the same court tariffs as party and party costs. Often, party and party costs are paid towards the full attorney and client costs that are owed. Furthermore, such an order will be made according to the tariffs of either the Magistrate's Court or the High Court.

In addressing the Rule 38 Question, please be advised that the Metro does not make use of the services of Rossouw & Conradie Inc.

Yours faithfully

. ..

Dear Councilor

# THE RULE 38 QUESTION: STRAY ANIMALS MOVING AROUND THABA NCHU SUBURBS DURING THE NIGHT

With reference to your letter dated 27 February 2019 regarding the above-mentioned matter reference.

- 1. Could you please supply the contact details of the residents must contact regarding stray animals and livestock walking around entering resident's yard?
- The contact details for the provision of livestock impoundment service by SPCA on behalf of the Managung Metropolitan Municipality are:
- Mrs Reinet Meyers +27 (82) 923 26 39 and +27 (51) 447 38 01
- Mr Teboho Maswanganye +27 (79) 589 26 39
- Mr Teboho Maine 082 8209638
- 2. Under which department does dealing with stray animals fall?
- Economic and Rural Development
- 3. Will this be one of the duties of the Metro Police to deal with stray animals? If so, when will the Metro Police be up and running to fulfil this duty?
- Yes, the Metro Police will be operational as from August 1, 2020.
- 4. What is the Metro doing to implement the Bylaw: Keeping of Animals, Poultry and Bees and to not be in contravention of their own bylaws?

- 5. Has the Metro ever considered entering into a Private-Public agreement for the establishment of the pounds in Botshabelo and Wepener?
- a) If not, why not?
- No

If yes, why has the process not been finalized?

- 6. The Metro and the SPCA has entered into an agreement but it is said that the Metro is not paying the SPCA for service rendered/subsidies owned to them. Why is the metro not paying the SPCA?
- · Due to cash-flow challenges faced by the city.
- 7. Can this agreement please be provided?
- Yes, it is attached.
- 8. What plan is in place to fulfil this mandate, seeing as the SPCA is not rendering this service currently, due to non-payment?
- SPCA is rendering the service despite the municipal financial challenges.
- 9. The SPCA have limited facilities for livestock, how is the metro dealing with/ Impounding livestock?
- The metro has entered into SLA with SPCA in order to deal or impound livestock

Yours faithfully

**Dear Gentiemen** 

## RE: Stray animals moving around Thaba Nchu suburbs during the night.

#### Frefer your attention to Rule 38 of the Standing Rules and Orders that states:

**38.1** Any member may submit a question requiring a written reply from any political office bearer, the municipal manager or senior manager of the municipality, concerning any matter related to the effective performance of the functions of the municipality and the exercise of its powers, provided that a written notice of such a questions has been submitted to the Speaker or chairperson and the municipal manager at least 10 (ten) days prior to the councillor committee meeting and the political office bearer and the City Manager shall ensure that the member receive a written reply at the meeting. **38.2** If after the question has been replied to, a member is of the opinion that the reply is nat clear or satisfactory, he or she may with the permission of the speaker ar chairperson, request a follow-up question, fallow –up questian should be in writing.

38.3 All questions duly given notice of and all responses submitted shall be recorded in the minutes of the meeting.

There are a lot of stray animals walking around the Thaba Nchu suburbs during night time as well as during the day. This is becoming problematic for the residents.

Every year since 2016, provision was made for a pound in Botshabelo and Wepener in the yearly budgets of Mangaung Metropolitan Municipality. And every year it is said that MMM does not have the money for these desperately needed pounds.

PO Box 3704, Bloemfontein 9300 Room ###, #th floor, Bram Fischer Building, Cnr Nelson Mandela & Markgraaf Street. Tel: +27 51 ### #### Fax: +27 51 ### #### E-Mail:name@civic.mangaung.co.za Website:<u>www.manguang.co.za</u> According to Mangaung Metropolitan Municipality's bylaw on KEEPING OF ANIMALS, POULTRY AND BEES BY-LAW (As promulgated by Local Government Notice No. 38 of 19 July 2019) the Municipality is in contravention of its own bylaws and the animals and residents are caught in the middle of this situation.

Therefore I ask the following questions in terms of Rule 38 of the Standing Rules and Orders:

- 1. Could you please supply the contact details of who the residents must contact regarding stray animals and livestock walking around and entering residents' yards?
- 2. Under which department does dealing with stray animals fall?
- 3. Will this be one of the duties of the Metro Police, to deal with stray animals?
  - a. If so, when will the Metro Police be up and running to fulfil this duty?
- 4. What is the metro doing to implement the Bylaw: Keeping of Animals, Poultry and Bees and to not be in contravention of their own bylaws?
- 5. Has the metro ever considered entering into a Private-Public agreement for the establishment of the pounds in Botshabelo and Wepener?
  - a. If not, why not?
  - b. If yes, why has the process not been finalised?
- 6. The metro and the SPCA has entered into an agreement but it is said that the metro is not paying the SPCA for services rendered/subsidies owed to them. Why is the metro not paying the SPCA?
  - a. Can this agreement please be supplied?
  - b. What plan is in place to fulfil this mandate, seeing as the SPCA is not rendering this service currently, due to non-payment?
- 7. The SPCA have limited facilities for livestock, how is the metro dealing with/ impounding livestock?

Looking forward in having a written reply at our next council meeting.

Sincerely,

. . .

## Clr R Van Der Merwe Mangaung Metro Municipality

Dear Councilor

## THE RULE 38 QUESTION: NON- FUNCTIONING TRAFFIC LIGHTS

Your letter dated 21 February 2020 regarding the above-mentioned matter refers.

"One can literally approach any traffic light in Mangaung and find that not one set of robots' glow lamps are working simultaneously correctly. This is very dangerous, and many accidents have occurred as the result of the robots' colored lights that are not working. This situation has persisted over the past few months in Mangaung and creates an extremely poor image of Mangaung not only for residents but also from other provinces. We as councilors are sick and tired to here negative remarks of Mangaung's refuse removal and non-functioning traffic lights to mention only a few of their impressions. But the main concern of residents and councilors is that **this situation is very dangerous for all of Mangaung's pedestrians and drivers**".

- 1. When will the City Manager and his officials do something about the situation or are, they not bothered/ concerned about these faulty lights?
  - Faulty lights are attended to as per the reported complaints.
- 2. Is the problem caused by a shortage of employees to replace the faulty lights?
  - · Partly, but complaints are attended to as erceived.
- 3. Does the Metro not have a vehicle, and/or a ladder which may be used to replace the faulty glow lamps?
  - The Metro has a cherry picker truck despite the frequent break downs.
- 4. Are MMM so deep in trouble with their finances that we cannot afford lamps?
  - Lamps are purchased and stored.

- 5. Can MMM not find volunteers to do the work, many local people have offered to help?
  - People of certain skill are required and therefore we cannot use anyone.

Yours faithfully

.

### BRAM FISHER BUILDING, BLOEMFONTEIN 9301

Dear Gentlemen

#### Re: Non-functioning traffic lights

#### I refer your attention to Rule 38 of the Standing Rules and Orders that states:

**38.1** Any member may submit a questian requiring a written reply fram any political office bearer, the municipal manager or senior manager of the municipality, concerning any matter related to the effective performance of the functions of the municipality and the exercise of its powers, provided that a written notice of such a questions has been submitted to the Speaker ar chairperson and the municipal manager at least 10 (ten) days prior to the cauncillar committee meeting and the political office bearer and the City Manager shall ensure that the member receive a written reply at the meeting. **38.2** If after the question has been replied to, a member is of the opinion that the reply is not clear or satisfactory, he or she may with the permission of the speaker or chairperson, request o fallow-up question, follow –up question should be in writing.

38.3 All questians duly given notice of and all responses submitted shall be recorded in the minutes of the meeting.

One can literally approach any traffic light in Mangaung and find that not one set of robots' glow lamps are working simultaneously correctly. This is very dangerous and many accidents have occurred as the result of the robots' coloured lights that are not working. This situation has persisted over the past few months in Mangaung, and creates an extremely poor image of Mangaung not only for residents but also for visitors from other provinces .We as councillors is sick and tired to here negative remarks of Mangaung's refuse removal and non-functioning traffic lights to mention only a few of their impressions. But the main concern of residents and councillors is that this **situation is very dangerous for all of Mangaung's pedestrians and drivers.** 

PO Box 3704, Bloemfontein 9300 Room ###, #th floor, Bram Fischer Building, Cnr Nelson Mandela & Markgraaf Street. Tel: +27 51 ### #### Fax: +27 S1 ### #### E-Mail:name@civic.mangaung.co.za Website: www.manguang.co.za

The simple, direct questions in terms of Rule 38 of the Standing Rules and Orders is therefore asking to be answered:

- 1. When will the City Manager and his officials do something about the situation or are they not bothered/concerned about these faulty lights?
- 2. Is the problem caused by a shortage of employees to replace the faulty lights?
- 3. Does the Metro not have a vehicle, and/or a ladder which may be used to replace the faulty glow lamps?
- 4. Are MMM so deep in trouble with their finances that we cannot afford lamps?
- 5. Can MMM not find volunteers to do the work? Many local people have offered to help?

Looking forward in having a written reply at our next council meeting.

Yours Sincerely,

4,

۰.

# QUESTIONS IN TERMS OF RULE 38: SHORTAGE OF EQUIPMENT AND RESOURCES TO CUT GRASS

Your letter dated 18 February 2020 with regards to the above-mentioned matter refers.

1. Nine (9) tractors are standing at the MMM workshop since early last year (2019) for services and minor repairs. By when will these tractors be attended to and handed back to department of Parks for use?

Two of the tractors mentioned above have been repaired and are operational. There are seven (7) tractors currently in the workshop.

- a) Fleet 2111 has an engine failure and due to its age, the spares are difficult to obtain. There is also no agent support. It will be scrapped and sold in next auction.
- b) Fleet 2146 and 2144 are complete and only await diff covers. These will be completed in due course.
- c) Fleet 2008 is complete but due to scarcity of spares, the steering cylinder was removed to repair fleet 2156, which is operational.
- d) Fleet and 2230 is awaiting batteries fuel filter.
- e) Fleet 0009 was received from Naledi region with a burnt dashboard and is not economically repairable. This tractor will be scrapped and sold in the next auction.
- 2. Fourteen (14) fieldmaster grass cutters are at MMM workshop for minor repairs. By when will these be attended to, so that department of Parks can use these?

It is difficult to commit to a date as we currently are working on reprioritisation within the limited funds.

3. Tipper truck were repaired about three years ago at Milrite Engineering in Hilton. The bill is still not settled. When will this account be settled, in order for department of Parks to use this vehicle?

We may not respond on this question at this moment as further clarity is required on this as we do not do business with Millrite Engineering

- 4. At this point in time, three (3) tractors are still at Senwes for ordinary service or repairs that were done in 2019. These tractors cannot be released because of account that is still unpaid and overdue for months now. (Small amount of R 1400 each is outstanding) By when will this be settled, so that Parks can use these resources.
  - From the three (3) tractors referred to above, only one (1) remain after two (2) were released at the end of January 2020. We shall look at the third one in due course.
- 5. Why was it necessary for HoD Mzingisi to do a payment to Senwes out of his own pocket on 30 January 2020 for three John Deere Tractors that had ordinary services? For what reason did Mangaung Municipality not settle this small payment of R 2700 to Senwes?
  - This was as a result of the difference between the invoice that was submitted and the actual costs when the officials arrived at Senwes to collect the tractors. HOD was reimbursed his money by the City.
  - b) Why was it allowed for these 3 tractors be delivered at Senwes in October 2019 for their first services, and why was this minor bill not paid after work was done?
  - The tractors are still new and were due for their first service. New fleet is services by the agents to ensure that the Municipality does not lose warranty.
  - c) Who is the responsible person in charge of controlling these assets of department of Parks, who has to ensure that repairs, services, etc and made on time, and to arrange that all resources are available on time again, to keep our city, Mangaung clean and tidy?
  - Fleet is under Fleet Management and it is responsible for the whole fleet.

Yours faithfully

BY HAND.

BRAM FISHER BUILDING, BLOEMFONTEIN 9301

Dear Gentlemen

## **RE: Shortages of equipment and resources to cut grass**

I refer your attention to Rule 38 of the Standing Rules and Orders that states:

**38.1** Any member may submit a question requiring a written reply from any political affice bearer, the municipal manager or senior manager of the municipality, concerning any matter related to the effective performance of the functions of the municipality and the exercise of its powers, provided that a written notice of such a questions has been submitted to the Speaker or chairperson and the municipal manager ot least 10 (ten) days prior to the councillor committee meeting and the political affice bearer and the City Manoger shall ensure that the member receive a written reply at the meeting. **38.2** If ofter the question has been replied to, a member is of the apinion that the reply is not clear or satisfoctory, he or she may with the permission of the speaker or choirperson, request a follow-up question, fallow –up question should be in writing.

38.3 All questions duly given notice of and all responses submitted sholl be recorded in the minutes of the meeting.

In the light of shortages with equipment and resources to cut grass in parks and open spaces [DEPARTMENT PARKS & CEMETERIES], therefore I ask the following questions in terms of Rule 38 of the Standing Rules and Orders:

- 1. Nine (9) tractors are standing at the MMM workshop since early last year [2019] for services and minor repairs. By when will this tractors be attended to and hand back to department of parks for use.
- 2. Fourteen (14) FIELDMASTER GRASS CUTTERS are at MMM workshop for minor repairs. By when will this be attended to, so that department of parks can use this?

PO Box 3704, Bloemfontein 9300 Room ###, #th floor, Bram Fischer Building, Cnr Nelson Mandela & Markgraaf Street. Tel: +27 51 ### #### Fax: +27 51 ### #### E-Mail:name@civic.mangaung.co.za Website: www.manguang.co.za

- 3. Tipper truck were repaired about 3 years ago at MILRITE ENGINEERING in Hilton. The bill is still not settled. When will this account be settled, in order for department of parks to use this vehicle?
- 4. At this point of time, three (3) tractors, are still at SENWES for ordinary services or repairs that were done in 2019. These tractors cannot be released, because the account are still unpaid and overdue for months now. [Small amount of R1 400 each is outstanding]. By when will this be settled, so that department of parks can use this resources?
- 5. Why were it necessary for HOD NKISI, to do a payment to SENWES out of his pocket, on 30 JANUARY 2020 for three [3] JOHN DEERE TRACTORS that had ordinary services? For what reason did Mangaung Municipality not settle this small payment of R 2 700 in time to SENWES?

b) Why was it allowed for these 3 tractors be delivered at SENWES in OCTOBER 2019 for their first services, and why was this minor bill not paid after the work were done?

c] Who is the responsible person in charge of controlling these assets of department of parks, who has to ensure that repairs, services, etc. be made on time, and to arrange that all resources are available in time again, to keep our city, Mangaung clean and tidy?

There are several staff members [tractor drivers etc.] at this stage in Thaba Nchu, and Botshabelo that cannot be functional, because MMM equipment are all over Bloemfontein, instead of at the DEPARTMENT of PARKS.

Can URGENT arrangements be made as well as payment so that we can start working to keep MMM clean again!

Looking forward in having a written reply at our next council meeting.

Sincerely,

Cllr Hennie van Niekerk Ward 26 Mobile: 082 416 9623 Email: hvn1@vodamail.co.za

# Cllr FR Botes Mangaung Metro Municipality

Dear Councillor

# QUESTIONS IN TERMS OF RULE 38: VEHICES FOR THE MUNICIPALITY

Your letter dated 2 March 2020 with regards to the above-mentioned matter reefs

- 1. Can the administration prove that the Nyala, ten busses and seven motorcycles were bought for the Municipality?
  - Yes. The administration can provide proof.

# 2. If so, when did the Municipality buy these vehicles?

- Motorcycles were ordered on 10 December 2018.
- Busses were ordered on 13 June 2019.
- Nyala was ordered on 13 June 2019.

# 3. What was the amount paid for each vehicle?

- One (1) Motorcycle R 269 599.70
- One (1) Bus- R 5 510 297. 24
- One (1) Nyala- R 5 927 009.36
- The amounts are inclusive of VAT
- 4. Where and when did the tender appear?
  - The Weekly newspaper, MMM website on 25 -November- 2016

### 5. How many tenders were received and who was the successful tenderer?

- Total of seven (7) tenders were received.
- Messrs TD Mothebe Trading T/A Mothebe Wheels was the successful tenderer.
- 6. Please supply DA with a list of vehicles with the description of the vehicle, the registration number, and the rand value on the asset register.

- Councillor is welcomed to make and appointment with assets to verify
- 7. In the above paragraph, I request an indication for what purpose will the Municipality use these vehicles.
  - Motorcycles are used by Traffic Sub Directorate for Traffic Operations that includes but not limited to escorts, traffic control and to reach accident scenes by easily manoeuvring through traffic especially during peak hours when traffic is heavy.
  - Busses are to be used for Integrated Public Transport Network as it is implemented by Metropolitan authorities under the direction and guidelines set by National Department of Transport and funded by National Treasury.
  - Nyala will be used by Metro Police for Public Order Policing.

Yours faithfully

2 March 2020.

To: THE CITY MANAGER: Adv. T Mea Mangaung Metro Municipality.

Further To: THE SPEAKER Mr. MA Siyonzana

BY HAND.

BRAM FISHER BUILDING, BLOEMFONTEIN 9301

Dear Gentlemen

#### RE: Vehicles for the Municipality.

I refer your attention to Rule 38 of the Standing Rules and Orders that states:

**38.1** Any member may submit a question requiring a written reply from any political office bearer, the municipal manager or senior manager of the municipality, concerning any matter related to the effective performance of the functions of the municipality and the exercise of its powers, provided that a written notice of such a questions has been submitted to the Speaker or chalrperson and the municipal manager at least 10 (ten) days prior to the councillor committee meeting and the political office bearer and the City Monoger shall ensure that the member receive a written reply at the meeting. **38.2** If after the question has been replied to, a member is of the opinian that the reply is not clear or satisfactory, he or she may with the permission of the speaker or chairperson, request a follow-up question, fallow -up question should be in writing.

38.3 All questions duly given notice of and all responses submitted shall be recorded in the minutes of the meeting.

To buy vehicles for the Municipality is important to help with service delivery. As soon as the Municipality buy any vehicle, that vehicle must be added to the asset register of the Municipality. According to the latest news, the Municipality bought a Njala vehicle, ten busses and seven motorcycles. All this vehicles must be for a specific purpose. Can the Administration also indicate for what purpose the Municipality will use these new vehicles?

Therefore I ask the following questions in terms of Rule 38 of the Standing Rules and Orders:

- 1. Can the Administration proof that the above vehicles were bought for the Municipality?
- 2. If so, when did the Municipality bought the vehicles?
- 3. What was the amount paid for every vehicle?
- 4. When and where did the tender appear (Newspaper name and date)?
- 5. How many tenders were received and who were the successful tender?
- 6. Please supply the DA with a list of the vehicles with the description of the vehicle, the registration number, and the rand value on the asset register?

7. In the above paragraph, I request to indicate for what purpose will the Municipality use these vehicles?

Looking forward in having a written reply at our next council meeting.

Sincerely,

· · ,

### BRAM FISHER BUILDING, BLOEMFONTEIN 9301

Dear Gentlemen

#### RE: 2020 Breakup of income source 31 Jan 2020

#### Frefer your attention to Rule 38 of the Standing Rules and Orders that states:

**38.1** Any member may submit a questian requiring a written reply from ony political office bearer, the municipal manager ar seniar manager of the municipality, concerning ony matter related to the effective performance of the functions of the municipality and the exercise of its powers, provided that a written notice of such a questians has been submitted to the Speaker or chairperson and the municipal monager at least 10 (ten) days prior to the councillar committee meeting and the political affice bearer and the City Manager shall ensure that the member receive a written reply at the meeting. **38.2** If after the question has been replied to, a member is of the opinion that the reply is not cleor or satisfactary, he or she may with the permission of the speaker or chairperson, request a follow-up question, follow –up question should be in writing.

38.3 All questions duly given notice of and all responses submitted shall be recorded in the minutes of the meeting.

# According to the latest financial report the following amount are outstanding as at 31 January 2020 as per source of income as reflected in the Table below.

The way in which the information is presented is not clear enough to understand the total picture:

PO Box 3704, Bloemfontein 9300 Room ###, #th floor, Bram Fischer Building, Cnr Nelson Mandela & Markgraaf Street. Tel: +27 51 ### #### Fax: +27 51 ### #### E-Mail:name@civic.mangaung.co.za Website: www.manguang.co.za

Income Source	Total outstanding 31 January 2020
Electricity	854 110 137
Rates	1 292 361 144
Sanitation	573 943 751
Refuse	240 063 614
Housing	55 279 462
Interest	958 215 582
Other	441 862 083
Water	2 008 853 287
	6 424 689 060

· · · · ·

Therefore I ask the following questions in terms of Rule 38 of the Standing Rules and Orders:

- 1. Can you please supply me with a break-up of the information reflected in the above table for each source into the following three columns?
  - a) Current accounts
  - b) Closed accounts and
  - c) Indigent account

# 2. Can you supply me with the detail of what is included in the Source Other (R441 862 083)

Looking forward in having a written reply at our next council meeting.

Sincerely, Clr JF Britz PR 0825762210 jfbritz@mweb.co.za

Dear Councilor

# THE RULE 38 QUESTION: NON-FUNCTIONING SEWAGE PUMP STATIONS AND BLOCKAGES – BOTSHABELO SECTION W

Your letter dated 19 February 2020, with regards to the above-mentioned matter refers

#### 1. Why are the blockages not attended to even when reported?

- The Sanitation Team has been hard at work dealing with the blockages as reported. We are always in constant communication and sometimes on site with Clr Mohapi of Section W and the RGM Ntate Matutle. All machinery is currently on site busy sorting out the problem. We have now unblocked the manhole inside Erf 1943 which was the biggest concern. The blockages are often caused by foreign objects such large rocks, cow hides, silt, etc.
- 2. What permanent solution are in solution are in place to avoid recurring blockages?
- We will be commencing with a technical investigation to determine what the root of the problem could be in order to avoid recurring blockages. In the meantime, the team will be busy flush cleaning the lines and ensure that in the interim there are no spillages especially inside the properties. Having envisaged the cause of the blockages, it was resolved that the community awareness campaign be initiated, and point repairs will soon be underway.

#### 3. Why are the three Pump Stations not in Working Condition and Fully Secured?

• The Pump Stations are working except Centlec has not completed the Power connection to the Pump Stations. They only Started with the process on 5 February and they are still on site. The Pump Stations are secured by Clear vu fence.

Dear Gentlemen

#### RE: NON-FUNCTIONING SEWAGE PUM STATIONBS AND BLOCKAGES, BOTSHABELO SECTION W

#### I refer your attention to Rule 38 of the Standing Rules and Orders that states:

**38.1** Any member may submit a questian requiring a written reply from any political office bearer, the municipal manager or senior manager of the municipality, concerning any matter related to the effective performance of the functions of the municipality and the exercise of its powers, provided that a written notice of such a questions has been submitted to the Speaker or chairpersan and the municipal manager at least 10 (ten) days prior to the councillar committee meeting and the political affice bearer and the City Manager shall ensure that the member receive a written reply at the meeting. **38.2** If after the question has been replied to, a member is of the apinion that the reply is not clear or satisfactory, he or she may with the permission of the speaker or chairpersan, request a follow-up question, follow –up questian should be in writing.

38.3 All questions duly given notice of ond all responses submitted shall be recorded in the minutes of the meeting.

Blockages around Section W cause a health hazard for the residents, the sewage leak runs in front of Mmulakgoro Intermediate school's gate and flows direct into the yards of residents. The smell is so unbearable to an extend that people are unable to cook and open their windows for fresh air in this summer heat.

Three mini sewage pump stations situated 5 meters from the houses are all not in a working condition thus this contributed more to lack of flow of the sewage and leads to recurring blockages.

The mini sewage pump stations are not even secured, no locks at the gate meaning they are fully exposed to theft and vandalism, even 5 days after reporting this **ref. no. 69058** to the Metro the situation remains the same.

PO Box 3704, Bloemfontein 9300 Room ###, #th floor, Bram Fischer Building, Cnr Nelson Mandela & Markgraaf Street. Tel: +27 51 ### #### Fax: +27 51 ### #### E-Mail:name@civic.mangaung.co.za Website: www.manguang.co.za Therefore, I ask the following questions in terms of Rule 38 of the Standing Rules and Orders:

- 1. WHY ARE THE BLOCKAGES NOT ATTENDED TO EVEN WHEN REPORTED ref 69058?
- 2. WHAT PERMANENT SOLUTION ARE IN PLACE TO AVOID RECUIRING BLOCKAGES?
- 3. WHY ARE THE THREE PUMP STATIONS NOT IN A WORKING CONDITION AND NOT FULLY SECURED?

Looking forward in having a written reply at our next council meeting.

Sincerely,

÷.....

Dear Councilor

# THE RULE 38 QUESTION: DEBT COLLECTION AND THE BREAKING OF THE POPI ACT

Your letter dated 15 January 2020, with regards to the above-mentioned matter refers

- 1. How many times has this happened that we are aware of?
  - We are only aware of this one incident as reported.
- 2. How is MMM protecting and monitoring information that is being used by service providers
  - The service provider is aware that the information given to them is private and confidential hence they have put necessary precautionary measures (as per response from the service provider) in place.
- 3. What is the service provider's corrective measures going to be to remedy the situation?
  - Please refer to the attached response from the service provider.
- 4. How is the service provider being monitored?
  - We have weekly meetings to check the progress of the service provider.
- 5. How much debt is being collected effectively through said provider?
  - Approximately the service provider collects R 6 million in a month.
- 6. How much is the said service provider costing the Municipality?
  - The service provider is paid thirteen percent (13%) of the collected debt.

- 7. What is the review period and process for said provider?
  - Please refer to point 4 above.

Your faithfully

Adv Tankiso Mea City Manager

Office of the City Manager

15-01-2020

Mangaung Metropolitan Municipality

To: The Speaker: Mangaung Metro Municipality.

To: City Manager: Mangaung Metro Municipality.

PER HAND.

10 C

Bram Fischer building, Bloemfontein.

Dear Gentlemen,

#### Debt Collection Contract and the breaking of the POPI ACT (Protection of Personal Information Act 4 of 2013):

Rule 38.1 of the Standing Rules and Orders of MMM reads as follows: "Any member may submit a question requiring a written reply from any political office bearer, the municipal manager or senior manager of the municipality, concerning any matter related to the effective performance of the functions of the municipality and the exercise of its powers, provided that a written notice of such a question has been submitted to the Speaker or chairperson and the municipal manager at least 10 (ten) days prior to the councit or committee meeting and the political office bearer and the City Manager shall ensure that the member receive a written reply at the meeting."

POPI Act 4 of 2013 Chapter 1:2 Reads: "The purpose of this Act is to -

(a) give effect to the **constitutional right to privacy**, by **safeguarding personal information** when **p**rocessed by a responsible party, subject to justifiable limitations that are aimed at -

(i) balancing the **right to privacy** against other rights, particularly the **right of access to information**; and (ii) **protecting important interests**, including the free flow of information within the Republic and across international borders"

On the 13<sup>th</sup> January 2020, an email had been sent by Mtimandze Projects to a resident of MMM (Annexure 1), with the "7 WORKING DAYS NOTICE", of about 84 accounts detailing private information, namely; amount due to the metro, account holder name, and amount owed to the metro. The resident is not any one of the mentioned accounts. There had been no reason for this to be sent to the resident.

After receiving this information from the resident, I had spot checked 10 of the account numbers, and not one of them were on the system. Thereafter, sent the email to the Mtimandze representative who sits at debt collection cubicle 6, Sharon Rasenyalo, who would inform me that it was a mistake and had the sender send an apology email to both the recipient resident and myself (Annexure 2 and 3).

Although an apology is a nice gesture, it is the MMM prerogative to ensure that the protection of the rights of our public is at all times priority, albeit it through a service provider of the metro.

My questions are as follows:

- . How many times has this happened that we are aware of?
- How is MMM protecting and monitoring information that is being used by service providers?
- · What is the service provider's corrective measures going to be to remedy the situation?
- How is this service provider being monitored?
- How much debt is being collected effectively thought said provider?

PO Box 3704, Bloemfontein 9300 Room ###, #th floor, Bram Fischer Building, Cnr Nelson Mandela & Markgraaf Street Tel: +27 51 ### #### Fax: +27 51 ### #### E-Mail: name@civic.mangaung.co.za Website: www.manguang.co.za

Councilior R. Van der Merwe MMM

~

- -

Dear Councillor Van der Merwe

# REPLY TO RULE 38 QUESTIONS: FOOD PARCELS IN ROOM NEXT TO THE COUNCIL MEETINGS'S ROOM

The above matter and your letter dated the 30<sup>th</sup> April 2020 refer.

- 1. Why was Councillor Van der Merwe told by the person in yellow clothing not a security officer at the door that he was not allowed to take picture and why did he want to take Councillor Van der Merwe's cell phone from him?
  - I am not in a position to account for the incident as I was not around to witness it and understand the circumstances surrounding the occurrence. However, common courtesy and respect of individual privacy dictates that no one can take a picture of another without the latter's consent.
- 2. Who took possession of the food parcels which were delivered to the first floor of the Bram Fischer Building on the morning of the 29<sup>th</sup> April 2020 at 11h00?
  - The Office of the Executive Mayor.
- 3. If the food parcels were intended for the people of Mangaung Metropolitan Municipality the DA would like to know if the food parcels were bought with taxpayers' money?
  - No.

- 4. Whom will be distributing the food parcels, to whom will it be allocated and what will the basis of the allocation be?
  - The Office of the Executive Mayor will be distributing the food parcels to the poor and destitute members of the community. The food parcels are given to them to help alleviate their plight during this difficult time of the lockdown.
- 5. If to be distributed by Councilors, will DA Ward Councillors also be involved in the process of distributing the food parcels to residents?
  - No Councillors will be involved in the process of the distribution of food parcels.

Yours faithfully

Adv Hankiso Mea City Manager

Councillor M. Kganakga Councillor H. Viviers MMM

**Dear Councillors** 

# REPLY TO RULE 38 QUESTIONS: FOOD PARCELS RECEIVED AND DISTRIBUTED BY EXECUTIVE MAYOR

The above matter and the questions received from both of you refer.

Since the questions relates to the same matter, we propose to submit the response to the both of you at the same time since it will be the same in any way.

Kindly be advised as follows with regard to the issue of donations of food parcels. Since the outbreak of the Covid-19 pandemic and the declaration by State President, Hon. Cyril Ramaphosa of the national disaster, a number of well meaning and patriotic South Africans and residents of Mangaung have come forward to render their support to the less fortunate and under-privileged by making donations to alleviate their plight. You will be aware that the State President has also made a national call to all who have the means to assist during this trying times including but not limited to asking others to even make contributions from their own salaries and for business to also play their role in this regard.

Please be advised that the Section that you referred to in the MFMA, relates to creation of funds. A fund in this context refers to an account whereby monies will be deposited, saved and/or made available by the Municipality for a certain purpose or course, including for relief, charity, trust or any

1

other fund. We can confirm here that the Executive Mayor did not create any such fund. Instead, and in line with the national call, the Executive Mayor mobilized and/or emphasized the need for those with means to make contributions to support the needy and vulnerable. This is not prohibited in law. However, we wish to draw your attention to the provisions of SCM Regulation 48 of MFMA and Annexure to MFMA Circular 99 from National Treasury which outlines the conditions and requirements in relation to donations and sponsorships. Of importance in Regulation 48 and the Circular is the fact that any such donations and sponsorships should be declared by the Accounting Officer to National Treasury if they fall in or meet the two conditions mentioned in MFMA Regulation 48 and the Circular. The except states as follows, that,

"the accounting officer of a municipality or municipal entity must <u>promptly disclose</u> to National Treasury and the relevant Provincial Treasury any sponsorship promised, offered or granted to the Municipality or municipal entity, whether directly or through a representative, <u>by any person who is</u> (a) <u>a service provider or prospective service provider of goods or services to the municipality</u> or municipal entity or (b) <u>a recipient or prospective recipient of goods disposed or to be disposed of</u> <u>by the municipality</u> or municipal entity". The Circular goes further to state that the Municipality must report all donations/sponsorships received from local or international donor community to the National Treasury and relevant Provincial Treasury within 30 days of receipt.

In light of the above, it is our submission that the regulations and rules were not breached.

Yours faithfully

Adv. Tankiso Mea City Manager

PO Box 3704, Bloemfontein, 9300 2<sup>nd</sup> Floor, Bram Fischer Building, De Villiers Street, Bloemfontein Tel: +27(0)51 405 8621, Fax: +27(0)51 405 8108

#### Clr Mokgadi Kganaka Mangaung Metro Municipality

Dear Councilor

# THE RULE 38 QUESTION: R6 255MILLION PAYMENT TO GLAD-AFRICA 28/29 NOVEMBER 2019

Your letter dated 12 December 2019 with regards to the above-mentioned matter refers.

Mangaung Metropolitan Municipality is one of the fortunate cities to have been selected by National Government to form part of the Integrated Public Transport Network (IPTN) Program. The main focus of the program is to transform public transport for the community of the metros. In terms of this program, which is overseen by the National Department of Transport, participating municipalities are required to submit an annual business plan which are evaluated by the Department of Transport, National Treasury and SALGA for feasibility and based on this evaluation, municipalities are allocated funding.

Progress on these allocated funds is monitored by these departments and include: detailed monthly financial reports where municipalities need to comply with specific requirements and submit proof of expenditure via financial reporting; monthly contractors report which highlights the spending per contractor on the project as well as comments on any deviations; quarterly performance reports which are based on progress against set milestones as depicted in the business plans and annual reports which depicts the annual progress of the project and depicts a review of the finances of the project.

Further governance associated with the project are two-monthly bi-laterals with the Department of Transport where progress and challenges on the program are discussed and internal checks and balances of expenditure. These internal controls include the review of each invoice by the workstream leads and all invoices submitted must be accompanied by a detailed report as well as proof of expenditure. Once reviewed the invoices are submitted to the unit head for further scrutiny and approval.

The Mangaung IPTN program, *Hauweng*, consist of a multitude projects for which various specialist service providers and contractors are appointed. The program is divided into workstream with each workstream working towards operationalisation of the network. GladAfrica

1

was appointed as project managers to fulfil many of these professional services as the norm with IPTN projects throughout the country.

The GladAfrica contract, as correctly noted in your correspondence, ended in December 2019 and the contract was a rates base contract. A rates base contract was decided on as it provided the best value for money to the city due to the nature of IPTN projects which lends itself to various sensitive negotiations, especially with the taxi industry, who is one of the key role-players in the successful implementation of the program.

As stated above, the services rendered by GladAfrica, and for which they were paid, are professional services rendered in gearing the city for operationalization of the system. These services include:

- a) systems planning
- b) infrastructure planning monitoring
- c) supervision
- d) business and financial planning
- e) legal and compliance
- f) intelligent transport systems
- g) environmental compliance
- h) industry transition
- i) marketing and
- j) communication universal access and operations.

These services are provided by professionals with the relevant experience and work under the stewardship of internal workstream leads. For each of these functions performed, on a monthly basis, there are proof of expenditure which is submitted to the municipality.

The contract between GladAfrica and Mangaung Municipality is available from legal upon request to the head of legal. This contract, as indicated above, came to an end in December 2019 and was extended to May 2020. This extension, which was granted in December 2019, was necessitated by the fact that the program is at a sensitive stage and any delay in progress may jeopardize future funding through the Public Transport Network Grant (PTNG). Moreover, this situation was born from unforeseen delays in finalizing the tender for the new service provider. This process was completed, and the tender was advertised on 14 February 2020. Therefore, as stated above and the fact that the continuity of the services was critical, it was decided to extend the contract with GladAfrica.

The R6,255 million was a payment due for the stage 4 designs of the bus depot and the fees were calculated based on the Engineering Council of South Africa (ECSA) scales.

In conclusion, the IPTN program is funded through the PTN Grant which is a national grant administered by the Department of Transport. Funds are transferred to the city in tranches and are based on performance. Therefore, to ensure performance, the city relies on support of professionals and while these professionals assists with achieving deliverables, further support is required internally. To this end, the success of the program is depended on support from council and the executive, capacity challenges being addressed, prioritization of the program and support for interventions that leads to unblocking of challenges in this highly transformational program.

# 1. NOVEMBER 2019 PROGRESS REPORT

. '

**PROJECT MANAGEMENT:** The Project and Programme Management function provides overarching multi-disciplinary leadership, coordination, and administration. The Project Management team comprises of the Project Director, Technical Leader, Project Managers, Project Administrators, and Technical Workstream Leaders.

## Progress - November 2019

- Attended JTC Preparation Meeting in Mangaung on 21 October 2019
- Attended JTC Preparation Meeting on 11 November 2019
- Attended MMM HAUWENG Joint Technical Committee Meeting No 27 on 11 November 2019
- Attended MMM HAUWENG Joint Technical Committee Meeting No 28 on 18 November 2019
- Phase 1C Route Inspection at Hoffman Square on 18 November 2019
- Daily correspondence (calls, emails, etc) with stakeholders regarding meeting arrangements and preparation thereof, i.e. MMM HAUWENG JTC Preparation Meeting; MMM HAUWENG Joint Technical Committee Meeting No 27 and 28
- Printing of meeting-related documentation (Minutes, agendas, registers, presentation, etc)

**SYSTEMS PLANNING:** System Planning pertains to the development of a citywide integrated transport network and identifying the phases of implementation from a system implementation perspective. In this context system indicate route alignment, type of services, the position of stops, stations, depots. The integration of these facilities and service with the surrounding development and urban structure. The system planning workstream determines the geographical extent and coverage of the integrated public transport network and selects the optimum mode per identified demand corridor for the base-, 10- and 20-year estimated passengers. Optimum mode implies the mode that is cost-effective and long term sustainable but also caters for the needs of all categories of users in the corridor at an acceptable level of service.

# Progress – November 2019

- JTC preparation meeting on 21 October 2019
- JTC Meeting on 11 & 18 November 2019
- Route inspection preparation Maps to Taxi Industry
- Route inspection on 18 November 2019

**INFRASTRUCTURE:** The infrastructure workstream is responsible for the successful delivery of the physical infrastructure required for the operation of the IPTN. The objectives are to coordinate the programme's projects and management of their inter-dependencies including oversight of any risks and issues that may arise. Glad Africa is overseeing the construction of the following trunk

roads and the civil works at the bus depot, Fort Hare Road, Moshoeshoe Road and Chief Moroka Crescent

# Progress – November 2019

`.

- 21 October, MMM IPTN Infrastructure Discussion with Abe
- 30 October, MMM IPTN Monthly Site Meetings LTE
- 31 October, MMM IPTN Centlec and Contractors Meetings
- 05 November, MMM IPTN Contractors Meeting, Nweti and Batalala
- 06 November, MMM IPTN Contractors Meeting, Lesole, Bula Mahlo, Black Top and Calandra
- 11 November, MMM IPTN Infrastructure Monthly Progress Meeting
- 12 November, MMM IPTN Fort Hare Part B Design Technical Discussion
- 12 November, MMM IPTN Infrastructure Dedicated Laboratory
- 12 November, MMM IPTN Infrastructure meeting with IPTN Head: Outstanding approvals
- 20 November, MMM IPTN Infrastructure Property encroachment
- PTIG PTNG 2019-20 Q1 update
- Discussion with LTE re contract extension.
- ECO submission review and EPWP reports requests
- Infrastructure Projects Summary Overview
- Infrastructure Projects Financial Summary, all FYs (Fees and Construction)
- Monthly report, Risk Register compilation and meeting minutes
- District Based Service Delivery Model -Compilation

**BUSINESS:** The responsibilities of the Business Work Stream are to design, development and implementation of the Business model; Fare Structures; Compensation model; and Operational costing model.

# Progress – November 2019

- During the October/November 2019 reporting period the focus was on assisting the financial work stream to complete the financial model, attending to the comments on the Hauweng fare structure from the CFO and a review of the IBL strategy.
- In terms of the financial model completion, the comments and questions received from the financial modelers were interrogated, communicated and a workshop was attended to discuss and clarify the inputs to the model for completion.
- Attended to comments received via CFO from Acting General Manager: Revenue Management by means of preliminary discussions, followed by further research to assess proposed Hauweng fares as against those of other Cities used as benchmark. Preliminary findings were then discussed in a work session and a report was submitted detailing the consensus agreement reached with Acting General Manager: Revenue Management. The report, as well as a copy of other Cities comparable fare structures, is attached as part of the POE.

**FINANCE:** The Finance Workstream is a sub-unit to the Project Management Unit that provides bespoke development, calibration, collaboration, engagements, and analysis of the IRPTN financials. The workstream is responsible for financial feasibility and viability of the system and ensuring accurate forecasting and reporting.

### Progress – November 2019

- Review the city-wide IPTN
- Analyze the financial impact of the City-wide IPTN
- Complete the financial chapter for the City-wide IPTN
- · Working sessions with workstreams
- Review and comment on the starter service agreement
- · Review and comments on the business plan
- Development of the expenditure monitoring tool
- Review financial model

**INDUSTRY TRANSITION:** The focus of the industry transition is to facilitate different agreements between the city and the public transport operators namely taxi associations and busses. In terms of the National Land Transport Act, the city must engage with the current public transport operators hence ongoing discussions with the public transport operators. Finally, the public operators would have the Vehicle Operating Company (VOC) which will be contracted by the city to render this public transport function on behalf of the city. The cost paid to Glad Africa include payments of Advisors appointed to assist the taxi associations in dealing with various agreements that must be understood and concluded with the taxi associations.

The cost of the Taxi Industry Advisors is part of the cost under Industry Transition as well as meeting allowances for the representatives of the taxi Associations as per the signed Memorandum of Agreement.

### Progress - November 2019

- Admin on the Project
- Drafting Monthly report and time sheet
- Integration Meeting with Legal Workstream
- Preparation for JTC Meetings
- Attending JTC Meetings
- Attending Route Inspection
- Development of Industry Transition Close out Report
- Review of the Participation Framework Agreement
- Finalization of the verification exercise
- Taxi Industry Advisors

**ENVIRONMENTAL & SUSTAINABILITY:** The objectives of the Environment and Sustainability (E&S) Work Stream was to provide expert advisory and consulting services in the following key components: Environmental Compliance; Sustainability Assessment (including the formulation of a Sustainability Framework and Policy for the IPTN project); Resource Utilization; and Social Impact Assessment/Stakeholder Engagement for specific components of the IPTN.

# Progress - November 2019

- Updated the Rolling Action List for November 2019
- Updated and identified the potential risks for the E & S Work Stream and proposed mitigation measures on the identified risks for November 2019
- Drafted the monthly progress report
- Close-Out Report

**MARKETING & COMMUNICATIONS:** The objectives of the Marketing and Stakeholder Engagement workstream were to profile the MMM IPTN and to facilitate engagements with the affected stakeholders and the public in general.

**INTELLIGENT TRANSPORT SYSTEMS:** Intelligent Transport Systems (ITS) is a term used when describing the application of technology to vehicles, infrastructure, and transport users to make transport safer, more efficient, more resilient and safer for the environment. The use of ITS technologies is growing significantly in popularity as, in many cases, the implementation of relatively inexpensive systems, with relation to infrastructure development, results in notable transport system improvements.

### Progress – November 2019

- Draft Close-Out Report and Correspondents regarding close-out report
- Evaluation of interim system solution proposed by Bus Supplier
- MMM: Finalisation of last minor inputs to the RFT Documentation

**LEGAL & COMPLIANCE:** The Legal and Compliance workstream's main objective to ensure that the planning and implementation of the MMM's IPTN project is compliant with the relevant legislative framework applicable to the planning and implementation of such projects and compliant to the specific local government legal framework.

## Progress - November 2019

- Attending IT & Legal Integration Meeting
- Attending to review and provide inputs into draft CM Letter re MOA
- Attending to review of Marketing and Comms Brochure and related correspondence
- Attending to updating of Affected Operator Strategy Document
- Attending to review of IBL Strategy Council Report
- Attending to drafting of Close-Out Report
- Attending to preparing of monthly report

- Attending project related correspondence
- Attending to review of JTC meeting minutes, prep for JTC and related correspondence
- Attending JTC Meetings
- Attending to review of MOA and attend to related correspondence re Engagement
- Attending to review of Business Model and attending related conference call (4hrs)
- Attending to inputs into Compensation Sub-Committee Meeting Agenda and attend to related correspondence
- Attending to drafting of Participation Framework Agreement
- Attending meeting with Z Mkhonta re review of draft Participation Framework Agreement and Compensation Framework Agreement
- Attending to review inputs from Business & Finance on Starter Services Agreement in prep for meeting

**UNIVERSAL ACCESS:** In terms of NdoT requirements, the UA consultant is required to ensure that Passengers with Categories of Special Needs are accommodated on the system

**OPERATIONS:** The objectives of the Operations work stream are to advise the City and other work streams with specialised operational expertise to develop and operationalize the Hauweng services in the roll out phases and the establishment of the VOC.

### Progress – November 2019

- Attended and participated in the MMM and JTC meeting held in MMM
- Revision of driver duties after route changes
- Revision of driver duties after route changes (continued)
- Commenced with the writing of the October 2019 progress report and POE compilation
- Commenced with Close Out Report as instructed by PL. Commented to the Communications Plan received from Stakeholder work stream.
- Continued with Close out report. Discussed the Operations October 2019 progress report with the Client (Maoetsi) as instructed by PL. Took instruction to assist Systems Planning with the Phase 1 Operations Plan during November 2019
- Completed the 1st draft of the Operations Close Out Report.
- Reviewed the Close Out Report and submitted first draft to PL for review
- Updating of the Phase 1C Service Plan in consultation with Nicolene of Systems Planning with regards the Signage and wayfinding inclusion into the document
- MMM City wide IPTN updating of the financials received from Systems Planning and Business. Meeting to review the updates with Nicolene and Omar.

- MMM City wide IPTN updating of the financials received from Systems Planning and Business. Study the document to make inputs for routes descriptions and buses required.
- As per instruction of MMM to assist Systems Planning with the completion of the Operations Plan.
- Preparations for the site visit in MMM with the Taxi Industry of the phase 1C routes and bus stops as well as the turnaround points.
- Prepared and compiled a Services Plan for the interim depot as required by MMM. Discussed with Systems Planning and then forwarded to MMM for consideration
- Reviewed the amended document received from Business with regards the scheduling module. Made comments and shared with the work streams
- Site visit of Phase 1C bus routes, stops, turnaround points and Hoffman Square with the Taxi Industry. Discussions after the site visit of way forward.
- Skype meeting with all work streams of Phase1 budgets for the 4-year period to 2023.

Yours faithfully

. . . . .

Adv./Vankiso Mea City Manager

PO Box 3704, Bloemfontein, 9300 2<sup>nd</sup> Floor, Bram Fischer Building, De Villiers Street, Bloemfontein Tel: +27(0)51 405 8621, Fax: +27(0)51 405 8108

Your Ref:	Our Ref:

Clr Mokgadi Kganakga Ward 47 Mangaung Metro Municipality

Dear Councilor Kganakga

#### THE RULE 38 QUESTION: ILLEGAL MEETING DURING COVID-19 LOCKDOWN

With reference to your letter dated May 25 February 2019 received by Office of the City Manager on May 25, 2020 regarding the above-mentioned matter bears reference.

Firstly, we need to put it on record that the meeting held by MMM officials was not illegal as alleged in your letter.

Question 1 - The GM Tello Tebisi indicated to both me and the police that it was Mr. Maine that gave him instructions to hold the meeting: Why is the HOD calling Meetings in Wards without informing the Ward Councillor?

- The GM Mr Tello Tebesi was asked for the explanation of the engagement with yourself and he
  refutes and denies the assertion made you in this regard.
- The work and engagement that the officials had with the people of commonages was in line with their line of responsibilities and daily operations and therefore as Municipal officials, they are allowed to hold meetings with other stakeholders within the area of jurisdiction of the City.

Question 2 - Why is Mr Maine calling a meeting in my ward without my permission?

 He and his team were executing their responsibilities and that activity did not require the Councillor. He was doing so in his capacity as the functionary of the City and no additional permission was required for him to do so.

**Question 3 -** GM Tello Tebesi informed me that he was not aware of the lockdown regulations and that the meeting was a mistake. Does the GM not live in South Africa?

 The GM refutes and denies this assertion. As an official of the City, he did indicate that he is aware of the Regulations, which I can also confirm because from the Management perspective, we have ensured that all employees are properly informed about regulations. **Question 4 -** On Day 45 of the Hard Lockdown how does the GM Tello Tebesi not understand the rules and regulations of the gazetted Disaster Management Act 2002 as Amended.

Please refer to 3 above.

**Question 5** - What is the disciplinary procedures for Metro Officials contravening the National Disaster Management Act, when the President placed Minister Stella Ndabani-Abrahams on special leave for nothing adhering to lockdown regulations.

 The Disaster Management Act is a national legislation and any contraventions thereof is a domain of the SAPS.

Question 6 - Why did the HOD sent the GM to have that meeting during the hard lockdown?

Because they have to work as part of the essential service of the Municipality.

Question 7 - Was the HOD setting the GM up to be arrested by the Police.

 No. The HOD has authority to issue instructions and directives to his subordinates and the assignment that was given to Mr Tebesi was a lawful instruction.

Question 8 - Will the HOD and the GM follow similar discipline as Minister Stella Abrahams?

No. The circumstances and merits are different.

Question 9 - Who will be paying the fines of the community members as they were called to a public meeting by a municipal official, whilst they knew meetings were prohibited under" hard" lockdown?

 The municipality and broadly no one will be paying any cost as the meeting was lawful and in compliance with the Disaster Management Act (57/2002) Regulations. To this effect, the prosecutor cancelled all the charges as they were baseless.

Question 10 - Does the HOD think that he is above the law?

 The HOD is not above the law. The HOD respects laws and regulations governing the Republic of South Africa.

**Question 11** - Does the GM think he is above the law, law set by the President of the Republic of South Africa?

 The GM is not above the law. The HOD respects laws and regulations governing the Republic of South Africa.

# Yours faithfully

Cllr Mokgadi Kganakga Mangaung Metro Municipality

Dear Councilor

#### RULE 38 QUESTION: BLOEMFONTEIN ABATTOIRS

With reference to your letter received on the 18 June 2020 regarding the above-mentioned matter bears reference:

- 1. In 2010 the blood has been flowing since 03 March 2020 till today 17 June 2020, the Municipality has on three occasions send the contractors to re- open the line only to be blocked again, where is the permanent solution?
  - When municipality receives a complaint regarding sewer blockage the main aim is to remove the blockage as to limit environmental pollution. The complaints received during the mentioned period were treated as "normal" occurring blockage that needs to be acted upon in the shortest possible time. The blockages mentioned were removed but soon afterwards the sewer blocked again. The municipal health departments were involved, and the following investigation revealed that"
  - a) The sewer was blocked, and that blood and manure was flowing from the overflowing manhole
  - b) According to the available sewer maps there are two main lines connecting and that the one line in question originated at the two abattoirs, although the blockages occurs after (below) the connection of the two main lines
  - c) A physical survey of the sewer line inspecting every manhole, as indicated on the map, showed that it was indeed blocked solid. (therefore opening, unblocking, the sewer line will alleviate the blockages temporary.)
  - d) The survey further revealed that several manhole covers are missing, allowing external pollution in t the sewer which can also contribute to blockages.
  - e) Communication with Mr Wagener, water and sanitation, revealed that the industrial effluent originating from the two abattoirs is allowed to be dumped into the municipal sewer system. The abattoirs are paying industrial effluent levy to the municipality. This effluent is also tested regularly to determine compliance to the standards set to them.
    - f) Inspection of the abattoirs revealed the following:

#### SMA abattoir:

- All blood is removed at the culling area; the blood is contained in a tank which is emptied regularly which is transported by road tanker to the Bloemspruit wastewater treatment plant
- A screen system is installed to remove all manure and solids from the effluent before being discharged into the municipal sewer system
- Management issues regarding the removal of the separated manure was addressed

#### Bloemfontein abattoir:

- The blood is removed at the culling area and transferred by pipe to the rendering plant where it is processed
- A screen system is installed to remove manure and solids from the effluent
- Management issues regarding the cleaning of the holding kraals were identified as to be contributing to the blockages.
- The cleaning method has been changed from a dry-cleaning method (where kraals were swept clean before rinsing) to a spray method. This allowed all manure from the kraals to be washed into the premise sewer system. This wastewater did however not pass any screening process.
- Additional preventative measures were installed by Mr Wagener. (the compliance is monitored by him)

The activities regarding the unblocking of the sewer line were conducted with Mr Luzuko Ntlabezo, GM water and sanitation. A contractor was appointed, and the unblocking process has started. The process did not only focus on unblocking the sewer line but started a process of cleaning every manhole. Contributing to the permanency of the process will include the following activities:

- a) All missing manhole covers will be replaced
- b) The line will be inspected on a regular basis to allow actions even prior to a blockage occurring
- c) Regular maintenance of this sewer line is of utmost importance as there will always be dissolved fats in the effluent originating from the abattoirs (water from the slaughtering floor is discharged at temperatures of  $\pm 40^{\circ}$  C which allows fats to be dissolved, fats will only solidify when cooled down, when mixing with effluent in the system.)

Currently the system is functioning to design specification with no blockages or overflows.

2. The Abattoirs says they have arrangements with the Metro to dump waste in the sewerage which is legal, what are the contents of the contracts?

- By law no person may discharge substances into the municipal sewerage that will interfere with the free flow of sewerage. The sewerage reticulation system is only geared to accept domestic waste.
- Both abattoirs are contracted to the municipality and can discharge industrial effluent into the sewer system. Content of the contracts is not available from municipal health services. Copy of that contract can be obtained at Legal Services

- 3. The HOD, GM and the workers agrees that what is clogging up the system are the ears, noses, feathers and eye" which is unlawful to dump in the sewerage system, has the Metro done a report on what the abattoirs are dumping?
  - Inspections were done by Environmental Health Practitioners and Mr P Wagener (responsible for Industrial effluent regulations) at Bloemfontein abattoir. It revealed that they were indeed discharging manure into the sewer. This was as a result of a change in washing process; it was rectified during the inspection.
  - According to Mr Wagener regular monitoring is done to determine if the discharge is still complying with the prescribed requirement for dumping of industrial effluent. Officials from water and sanitation dealing with this activity will be able to provide more detailed information regarding this issue.

# 4. This illegal dumping of waste has been going on since 2015 that we have been reporting to the Metro reference number: 1711920 why till today there has not been a long term solution.

 A private contractor was appointed to assist with unblocking the mainline sewer servicing the abattoirs. The Contractor started at the pit, where the pump station is located. The contractor is still busy cleaning out to ensure free flow of sewerage.

NB: Please see response on question 1 where this issue has been addressed.

#### 5. Why has these abattoirs never been fined by the Metro?

- The matter involves several internal stakeholders within the Metro like, Environmental Health, Water and Sanitation, and Planning. The Metro needs to undertake a thorough investigation to verify any and all allegations to avoid unnecessary legal action. The relevant departments are still busy with the investigations regarding the Abattoirs which are located adjacent to each other, and they are both using the same municipal sewerage system. The city must clearly identify the culprit.
- Water and Sanitation is responsible for managing industrial effluent and is in a better position to give detail information in this regard,

# 6. Why is the Metro allowing abattoirs to flush down solid blood and waste into the Metro sewerage system?

 It will not be able to prevent all fat and blood from being discharged. Both abattoirs remove the blood at the culling areas. SMA is removing the blood to \_ Bloemspruit purification-works-while-Bleemfontein abattoir is-utilizing it in-theirrendering plant. Blood in the sewer is as result of the intestines being cleaned and washed.

See response on question 1.

- Furthermore, the blood present in the effluent is from the cleaning gut and intestines. This is a mixture of blood and water, the removal of this blood before the effluent is discharged into the sewer system is not possible.
- 7. Why has the Metro Environmental Health department not taken the abattoirs to book over the dumping of this waste?

3

- Water and Sanitation is responsible for managing industrial effluent and is in a better position to give detail information in this regards,
- 8. These blood water starts in the sewerage system and overflow into the Renoster spring which is used for irrigation and other agriculture functions. With the water being polluted with blood its bad for animals and plants, thus affecting clean water as well. Why on earth is this not taken seriously?
  - Mr Wagener has already intervened and set additional requirements, as he is the custodian for the "industrial effluent regulations". Interim measures have already been put in place which prevents the manure from being discharged into the sewer. Mr Wagener continuously monitors the "quality" of the discharge.
  - All complaints are taken serious therefore this investigation to enable a longterm solution preventing pollution of the stream
- 9. What is it that the citizen of this Metro needs to do finally to resolve this issue with Mangaung Metro and the Abattoirs.
  - It must be noted that missing (stolen) manhole covers can also increase the chances of blockages and overflows. The open manholes act as magnets for illegal dumping. Citizens are urged to report missing manhole covers, and those who transgress the wastewater and Industrial Effluent Bylaw will be dealt with according to the law.

Ž,

Yours faithfully

38.3 All questions duly given notice of ond.all responses submitted shall be recorded in the minutes of the meeting.

#### NEMA, Water Act, 1998 (Act 36 of 1998)

**Part 1:** The water resources of the republic must be protected, used developed, conserved, managed and controlled in accordance with the national water resource strategy.

Part 4: Any persons who owns, controls or occupies or uses the land is responsible for taking measures to prevent pollution of water resources. If measures are not taken catchment management agencies my itself do whatever is necessary to prevent the pollution or to remedy its effects, and to recover all reasonable cost proportionally from the persons responsible for the pollution.

In 1986 as result of *Bovine Spongiform Encephalopathy* (BSE or "mad cow disease") restrictions were imposed on abattoirs to dump animal waste from cattle. From September 1990 banned waste from meat-and -bone from cattle and poultry.

South African Abattoirs are allowed to discharge, after appropriate pre-treatment into municipal sewers.

These effluents have to be around these values:

- A COD of 3000 to 5000mg/L
- TSS of 500 mg/L
- NH3-N of 200 to 300mg/L
- pH6 to 10

#### The Constitution Act 108 of 1996 Section 24

Everyone has the right to an environment that is not harmful to their health or wellbeing and to have the environment through reasonable legislative measures. Mangaung waste Management By-Law

**No.5** Every person has the obligation to manage any waste generated by his or her activities or the activities if those persons working under his or her direction in such a manner that the waste does not cause harm to human health or damage to the environment.

Therefore, I ask the following questions in terms of Rule 38 of the Standing Rules and Orders:

- In 2020 the blood has been flowing since 03 March 2020 till today 17 June 2020, the municipality has on three known occasions send contractors to re-open the "line" only to be blocked again, where is the permanent solution?
- 2. The abattoirs say they have an arrangement with the metro to "dump" waste in the sewerage line which is legal, what are the contents of the arrangement?

Dear Councillor Terblanche

Vour Dof

# RESPONSE TO RULE 38. OF THE STANDING RULES AND ORDERS OF COUNCIL: GATVOL INFORMAL SETTLEMENTS IN HEIDEDAL

Your letter dated 27 January 2020, with regard to the above-mentioned matter refers.

#### 1. Are the residents that are staying at Gatvol allowed to stay there.

• The school site was invaded illegally, and we were informed when they started, but they forced to stay in that area. The municipality has been trying to relocate them to other areas, but they refused because they do not want to move from the families.

#### 2. If yes, why is there no service delivery, running water, toilets and electricity.

- The municipality is providing them with water during this Covid-19 pandemic situation
- 3. If No, what is the MMM plan with the residents and when will they be moved.
  - They will be moved as soon as the municipality has acquired land for relocation

#### 4. If they will be re-located where will the residents be re-located to.

• Unfortunately, the municipality cannot confirm as to where will they be relocated because we are currently in a process of acquiring land

#### 5. Why is there no water and part-time toilets at the moment to help the residents.

• As indicated on question 1, that the municipality is providing water to Gatvol residents sine the Covid-19 pandemic, and with regard to other services, it will not be possible as they have invaded the school site, that will be illegal.

- 6. Every time that it is raining in Bloemfontein this settlement is underwater, how will this crisis be handled in future.
  - It is a school site, and they are illegal, we have no plans for future except relocation when the land is available

Yours faithfully.

. .

Adv. Tankiso Mea

City Manager

27 January 2020

To: THE CITY MANAGER: Adv. T Mea Mangaung Metro Municipality.

Further To: THE SPEAKER Mr. MA Siyonzana

BY HAND.

## BRAM FISHER BUILDING, BLOEMFONTEIN 9301

Dear Gentlemen

#### **RE: Gatvol informal settlement in Heidedal**

I refer your attention to Rule 38 of the Standing Rules and Orders that states:

**38.1** Any member may submit a question requiring a written reply from any political office bearer, the municipal manager or senior manager of the municipality, concerning any matter related to the effective performance of the functions of the municipality and the exercise of its powers, provided that a written notice of such a questions has been submitted to the Speaker or chairperson and the municipal manager ot least 10 (ten) days prior to the councillor committee meeting and the political office bearer and the City Monager shall ensure that the member receive a written reply at the meeting. **38.2** If after the question has been replied to, a member is of the opinion that the reply is nat clear or satisfactory, he or she may with the permission of the speaker or chairpersan, request a follow-up question, fallow –up question should be in writing.

38.3 All questions duly given natice of and all responses submitted shall be recorded in the minutes of the meeting.

Most of the residents of the Gatvol informal settlement in Heidedal are living in extreme poverty and their health is of utmost concern to us because this area use to be a rubbish dump. There are no toilets and no water. After being invited by the Gatvol residents in a letter dated 18 October 2019 and the visit of the Mayor on the 3 November 2019 the residents of Gatvol are still awaiting feedback from the Mayor. Because most of the residents are unemployed, this is a very dangerous area. Last week, Thursday the 23 January 2020 tyres where burned in Dr. Belcher Rd in protest of service delivery. Six of the Gatvol protesters were arrested.

Therefore I ask the following questions in terms of Rule 38 of the Standing Rules and Orders:

- 1. Are the residents that are staying at Gatvol allowed to stay here?
- 2. If yes, why is there no service delivery, running water, toilets and electricity?
- 3. If No, what is the MMM plan with the residents and when will they be moved?
- 4. If they will be re-located where will the residents be re-located to?
- 5. Why is there no water and part-time toilets at the moment to help the residents?
- 6. Every time that it is raining in Bloemfontein this settlement is underwater, how this will crises be handled in future?

Looking forward in having a written reply at our next council meeting.

MANE Kind regards,

Cllr AP Terblanche Ward 16 Mobile: 083 787 5050

.

Your Ref:	Our Ref:
Room 201, Bram Fischer Building	Date: 23 June 2020

#### Cllr Mokgadi Kganakga Mangaung Metro Municipality

Dear Councilor

### RULE 38 QUESTION: RACEWAY PARK AND CENTLEC

With reference to the letter dated 18 June 2020, with regards to the above-mentioned matter refers.

- 1. Why is the security removed?
  - The appointed Security Service Provider Contract expired on the 31<sup>st</sup> August 2019.
- 2. When will the security be placed back in the area?
  - CENTLEC is busy with the Supply Chain Management process to appoint a new Security Service provider before end of September 2020.
- 3. What other mechanism do the City and Centlec have to try and combat these types of crimes?
  - CENTLEC has currently put into place the following mechanisms to combat crime within Raceway Park:
  - Involvement of the HAWKS to assist on CENTLEC illegal connections relating to meters;
  - Security Patrols conducted by CENTLEC armed response team to assist on alarm system incidents;
  - Installation of alarm systems and cameras to some of Distribution Centers (DC) for monitoring; and
  - Opening of Security Control Room in March 2019.

- ---

- 4. Do the Metro or Centlec have tip off-line where cable theft can be reported?
  - CENTLEC has a call center number which the community is encouraged to utilize to report cable theft and any illegal connection.
- 5. Why after the third cable theft incident did the Metro or Centlec not re-deploy the security?
  - After the third incident, CENTLEC through its security management division, increased the number of patrols at Raceway and other high-risk distribution centers (DC).
- 6. How much does it cost each time including overtime for the type of repairs associated with cable theft?
  - The overtime incurred by Engineering Wires was with regard to the dispatching
    of personnel on standby to restore any power failures related to the theft of
    cables. It usually takes an average of four (04) hours to restore the power
    failures in any of the affected areas. The employees' cost associated with such
    incident will most of the time be rated @ R133/h (Electricity) and that of the
    Technician @ R172/h). Therefore, the minimum average cost based on the
    employee rates for a duration of four (04) hours will be R1,222.00.

## 7. hat wages for security personnel that were removed in December.

1. Security personnel wages were follows:

No.	Security Personnel	Wages per day, Day & night shift	Monthly total cost
1.	Armed Response Unit	R150 per hour x 8= R1,200.00	R24,000.00

- 8. What process were undertaken to make the decision to remove the personnel?
  - The security contract came to an end.
- 9. What did Centlec and the Metro consult with before removing the set security
  - · The appointed security service providers management was consulted,
  - communication was done through a letter.

Yours faithfully

Adv. Táf o Mea City M

-- Dear public officials

#### **RE: RACWAY PARK and Centlec**

I refer your attention to Rule 38 of the Standing Rules and Orders that states:

38.1 Any member may submit a question requiring a written reply from any political office bearer, the municipal manager or senior manager of the municipality, concerning any matter related to the effective performance of the functions of the municipality and the exercise of its powers, provided that a written notice of such a questions has been submitted to the Speaker or chairperson and the municipal manager at least 10 (ten) days prior to the councillor committee meeting and the political office bearer and the City Manager shall ensure that the member receive a written reply at the meeting.

38.3 All questions duly given notice of and all responses submitted shall be recorded in the minutes of the meeting.

PO Box 3704, Bloemfontein 9300 Room ###, #th floor, Bram Fischer Building, Cnr Nelson Mandela & Markgraaf Street. Tel: +27 51 ### #### Fax: +27 51 ### #### E-Mail:name@civic.mangaung.co.za Website: <u>www.manguang.co.za</u>

Page 1 of 2

#### National Energy Act 34 of 2008.

Section 2 of the National Energy Act (NEA) states that its object, among others is to ensure an uninterrupted supply of energy to the nation and facilitate energy access to improve the quality of life of the people of South Africa.

Section 5 (1) Measures must be adopted that provide for universal access to appropriate forms of energy, energy services, to the citizens of South Africa at affordable prices.

#### Municipal Systems Act 32 of 2000 (MSA)

Section 73(1)(a) Municipalities must give effect to the provision of the Constitution and give priority to the basic needs of the local community.

Municipal services must be provided in such a manner that is conductive to the prudent, economic, efficient and effective use of available resources.

Raceway Park has been experiencing a number of power outages in the last six months solely credited to cable theft. Their security that was positioned at the power station has been removed, by information given January 2020. This can be linked to the cable thefts going up since December 2019. The cost of replacing these cables in the numbered cable theft incidences by my own calculation exceeds those of security personnel.

**Recorded** incidences 08 Jan 2020 29 Feb 2020 16 Mar 2020 20 Mar 2020 9 May 2020

Therefore, I ask the following questions in terms of Rule 38 of the Standing Rules and Orders:

- 1. Why was the security removed?
- 2. When will the security be placed back in the area?
- 3. What other mechanism do the city and Centlec have to try and combat these types of crimes?
- 4. Do the metro or Centlec have tip=off line where cable theft can be reported?
- 5. Why after the third cable theft incident did the Metro or Centlec not re-deploy the security?
- 6. How much does it cost each time including overtime for the type of repairs associated with cables theft?

- 7. What are the wages for security personnel that were removed in December?
- 8. What processes were undertaken to make the decision to remove the personnel?
- Who did Centlec or the metro consult with before removing the set security?

Looking forward in having a written reply as soon as possible or at our next council meeting

Sincerely,

Cllr Mokgadi Kganakga Ward 47 Mobile: 083 886 9494 Email: mokgadikganakga99@gmail.com

MANGAUNG METRO MUNICIPALITY METRO MUNISIPALITEIT LEKGOTLA LA MOTSE
PO Box 3704, Bloemfontein, 9300 2 <sup>nd</sup> Floor, Bram Fischer Building, De Villiers Street, Bloemfontein Tel: +27(0)51 405 8621, Fax: +27(0)51 405 8108

Your Ref:	Our Ref:
Room 201, Bram Fischer Building	Date: 31 July 2020

Councillor M. Kganakga MMM

**Dear Councillors** 

## **REPLY TO RULE 38 QUESTIONS: ADDITIONAL CONTRACTORS**

The above matter and the questions received on the 29th July 2020 refer.

On 9 July 2020 the metro issued communication to the public about the provision of essential services (water and sewerage blockages). In this communication the metro made mention that they will be adding six additional independent contractors.

#### 1) Who are the six additional contractors?

- There were no additional contractors appointed. The contractor's referred to in the public communique are the same contractors in our panel and these are as follows:
  - o Batlokoa Trading.
  - o Bene-tech Service Delivery.
  - o Dithale Development Services.
  - o TCM Development.
  - Seqhobong Trading.
  - -o Planet Center Holding
- 2) How many contractors besides the mentioned six are working with the water and sewerage department?
  - In addition to the six contractors mentioned above, we have one sewer refurbishment contractor (Khanya Lesedi), and three water maintenance contractors (Calandra trading, Manyoni and Gija, and Setshabelo Trading) for the maintenance works.
- 3) How were the services of these contractors obtained, the additional six contractors being mentioned in the Mangaung Media Briefing?
  - No additional contractors were procured

- 4) What other services do these six additional companies provide for Mangaung?
  - No additional contractors were procured
- 5) Can the city provide advertised tenders, or links to advertisements placed for all six companies for any services that they provide for the metro? (Please do not refer me to any other department; the reason the office of the city manager has personnel is so that they can perform these functions and answer questions when they arise)?
  - Please see the attachment. Adverts are usually placed on the website and the local newspapers.
- 6) Are there contracts in place between the city and these six contractors?
  - Not Applicable
- 7) What are the names of the other contractors assisting the city with the backlog?
  Only those mentioned under question one.
- 8) The sewerage problem in Pine heaven is still there, what are these contractors doing if we still have the same problems?
  - The sewer problems in Pine Heaven are emanating from the pump station. A refurbishment consultant will be appointed to assess the pump station for possible upgrade. From visual inspection, it looks like the pumps installed by the developer cannot cope with the flow.

Yours faithfully

Adv. Tankiso Mea City Manager

Dear Councillors

# REPLY TO RULE 38 QUESTIONS: MRS DUDU MYENI DELINQAUNT DIRECTOR JUDGEMENT

The above matter and the questions received on the 16th April 2020 refer.

I refer your attention to the High Court judgment declaring Mrs Dudu Myeni who currently serves as the Deputy Chairperson of the Centlec Board. The judgment handed down by Judge Ronel Tomay stated that Mrs Myeni is declared a delinquent director for life.

Therefore, I ask the following questions in terms of Rule 38 of the Standing Rules and Orders:

- 1. What is the total cost to company salary Mrs Myeni received from Centlec?
- 2. How many meetings did Mrs Myeni attend during her tender as board member of Centlec?
- 3. Can you please supply the council with the attendance register of the meetings mentioned in question 2?
- 4. Have you requested Mrs Myeni to step down as a member of the Centlec Board?

**Answer:** Please be advised that the matter of the High Court judgment was taken up with Me. Myeni soon after it was made and the Municipality and Centlec became aware of it. We advise that Me. Myeni and her attorneys have made us aware that she is appealing the judgment and therefore we will await the outcomes of the appeal process before referring the matter to Council for discussions and determination.

Yours faithfully

Adv. Tankiso Mea City Manager

PO Box 3704, Bloemfontein, 9300 2<sup>nd</sup> Floor, Bram Fischer Building, De Villiers Street, Bloemfontein Tel: +27(0)51 405 8621, Fax: +27(0)51 405 8108 Our Ref:

#### Cllr JF Britz Mangaung Metropolitan Municipality

Dear Councilor

## **RESPONSE TO RULE QUESTION: OUTSTANDING DEBTORS OF THE TOWNSHIPS**

Your letter dated 19 February 2020 with regards to the above mentioned

- 1. Can you supply me with a break-up of outstanding debtors per income source for each of the townships in the metro.
- Please kindly refer to the attached list

Yours Faithfully Adv Tankiso Mea City Manager

.

Ward Councillors

19 Feb 2020

To: THE CITY MANAGER: Adv. T Mea Mangaung Metro Municipality.

Further To: THE SPEAKER Mr. MA Siyonzana

BY HAND.

BRAM FISHER BUILDING, BLOEMFONTEIN 9301

**Dear Gentlemen** 

#### **RE: Outstanding Debtors of the Townships**

SPEAKER'S OFFICE

I refer your attention to **Rule 38** of the **Standing Rules and Orders** that states: **38.1** Any member may submit a question requiring a written reply from any political office bearer, the municipal manager or senior manager of the municipality, concerning any matter related to the effective performance of the functions af the municipality and the exercise of its powers, provided that a written notice of such a questions has been submitted to the Speaker or chairperson and the municipal manager at least 10 (ten) days prior to the councillor committee meeting and the political office bearer and the City Manager shall ensure that the member receive a written reply at the meeting. **38.2** If after the question has been replied ta, a member is of the opinion that the reply is not clear ar satisfactory, he or she may with the permission of the speaker or chairperson, request a follow-up question, fallow –up question should be in

writing.

38.3 All questions duly given notice of and all responses submitted shall be recorded in the minutes of the meeting.

Is not clear from the information at our disposal to determine the distribution of outstanding debtors

Therefore I ask the following questions in terms of Rule 38 of the Standing Rules and Orders:

1. Can you supply me with a break-up of outstanding debtors per income source for each of the townships in the metro. (by township please use the classification as in the valuation roll)

#### Cir M Kgananga Mangaung Metro Municipality

Dear Councilor

5

## THE RULE 38 QUESTION: POWER OUTAGES ROODWAL

With reference to your letter dated 16 January 2020 regarding the above-mentioned matter bears reference.

## 1. What is the state of infrastructure in and around Roodewal?

- · The infrastructure is in a fair condition considering its age
- 2. How many recorded power outages have there been from 01 October 2019 till 10 January 2020?
  - There were 112 power outages in total.
- 3. Of the recorded power outages, how many were due to thunderstorms and on which date?
  - 69.64% of them were attributed to inclement weather conditions.

Period	Medium Voltage
	Trips
Oct-19	2
Nov-19	4
Dec-19	4

10
20

Table 1: Forced power interruptions report

- 4. Why is the area so severely affected by weather changes?
  - The weather conditions do not only affect the Roodewal area, there is evidence of power failures that affect other areas as well.
- 5. What makes this area different from the likes of Westdene, why doesn't Westdene for instance have power outage for days when there is rain?
  - The Medium Voltage (11000 volts or 11kV) infrastructure in the Westdene area is underground whereas in Roodewal is overhead. 11kV overhead networks are more likely to be affected by inclement weather conditions due to their exposed nature. These overhead lines are long, and they supply a bigger number of customers in Roodewal.
  - The Low Voltage (400 volts) infrastructure in Roodewal are for individual customer connections and not necessarily for a small area or a street like in Westdene. Inclement weather conditions do not affect the Westdene area like they affect the Roodewal area.

## 6. Is there regular maintenance being done from Centlec in the area?

• Corrective maintenance is done on a regular basis.

## 7. If maintenance is done, when was it and what type of maintenance?

- Annually CENTLEC review maintenance plan and objectives. Corrective maintenance is done during power restoration and when faults are detected before a power failure can occur. It is for that reason that we have emergency outages in order to prevent the likelihood of power failures. Intermittent power interruptions as a result of load shedding have a negative impact on CENTLEC's electrical infrastructure.
- 8. How does Centlec plan to resolve the current power situation in Roodewal with the residents being without electricity every other day?
  - All identified faults were repaired around Roodewal area amongst other streets the following were covered Maselspoort pad, Uitsiglaan, Ronesterlaan and Wilgelaan. Activities performed included replacement of faulty sectionalizers; pin insulators, lightning arrestors and pruning of trees.

- 9. In terms of rainfail that is expected every year, how does the power utility plan for the rain not to result in power outages?
  - The damages that result from thunderstorms are unpredictable and they are beyond our control. It is an act of God.
- 10. Is Centlec ever ready for any weather change?
  - Yes, we do our best to allocate additional resources to deal with damages and emergencies.
- 11. If yes on Question 10, then why is it every year as soon as season changes the electricity supply changes for the worst?
  - The damages that result from thunderstorms are unpredictable and they are beyond CENTLEC's control. Climate change is also contributing on the performance of the infrastructure. We've had a long drought and extreme heat; now we are going through thunderstorms.
- 12. If no, why not?
  - Not applicable
- 13. Are CENTLEC customers allowed to seek compensation for unplanned power outages that resulted into a financial loss?
  - No, please refer to the by-law below

Yours faithfully Adv. Tankisk Mea City Manager

Dear Councilor Thomas Ferreira Mangaung Metropolitan Municipality

# RESPONSE TO RULE 38. OF THE STANDING RULES AND ORDERS OF COUNCIL: GRASSLAND 4 PROVISION OF BASIC SERVICES

Your letter dated 13 January 2020, regarding the above-mentioned matter refers.

- 1. When will the sewer infrastructure project will commence in Grassland 4, Khayelisha.
- The Metro has appointed a Contractor in June 2020 for the installation of water in Grassland 4 for all the households and this project will be implemented for a period beyond twelve (12) months. The site has already been handed over to the Contractor.
- In terms of sanitation, it would not be feasible to reticulate at this point. We would require constructing the pump station in order to pump the sewer. This is the reason that the appointment is for water only however, plans are underway to sort out sanitation.

Yours faithfully.

Adv. Tankiso Mea

City Manager

**Dear Councillors** 

# REPLY TO RULE 38 QUESTIONS: DROUGHT RELIEF PROJECTS: R239 MILLION

The above matter and the questions received on the 27 January 2020 refer.

# 1. Can the administration mention the 20 projects to be funded out of the drought relief grant?

# Table 1: Project Details and Project Progress

Proj. No.	Project Name	Progress	Proj. No.	Project Name	Progress
1	Water System Management Integration & Optimisation: Telemetry & SCADA	PSP = 38% Construction = 0%	11	Purchase of vehicles. Replaced by Project 16	PSP = 0% Construction = 0%
2	Filter and Clarifier Refurbishment (Filter Wash Water Recovery) (Maselspoort	PSP = 30% Construction = 0%	12	Refurbishment of Infrastructure (Pipelines, Hoofweg, Maroela and Slabbert)	PSP = 100% Construction = 100%
3	Maselspoort Bloemfontein Rising Main, Condition Assessment, Leak Detection & Repair	PSP = 23% Construction = 0%	13	Condition Assessment Development Programme (Phased Approach)	PSP = 85% Construction = 0%
4	Old and New Arboretum Reservoir Leak Repair	PSP = 100% Construction =	14	Pipe Replacement (Long, King Edward, Martie Du Plessis)	PSP = 85% Construction =

		100%			95%
			• ; .		
5	Hamilton Park Pump Station Refurbishment	PSP = 60% Construction = 0%	15	Meter Monitoring & Top Consumers ID (Billing Programme)	PSP. = 90% Construction = N/A
6	Bulk Supply Meter Audit Verification Study, Calibration & Installation	PSP = 98% Construction = N/A	16	Installation of meters on unmetered connections and metering of informal settlements (Makurung in Thaba Nchu)	PSP = 0% Construction = 0%
7	Bulk Supply Meters Location, Replacement, Calibration, and Installation of Control Meters	PSP = Not appointed Construction = 0%	17	Prepaid programme (automated meters)	PSP = 100% Construction = 100%
8	Pressure and Network Zone Management (including auditing of valves and PRV commissioning)	PSP = 47% Construction = 0%	18	Replace water meters (post-paid)	PSP = 21% Construction = 22%
9	Pro-Active Leak Detection & Repair Programme	PSP = 45% Construction = 0%	19	Consumer Awareness and Education Programme	PSP=MMM =0% Construction = N/A
10	Purchase of leak detection devices, tools, equipment and vehicles	PSP (MMM) =0% Construction = N/A	20	Fire Hydrants (Auditing, locking & repairs etc.)	PSP = 15% Construction = 0%

# 2. Identify the progress on all the 20 projects?

- Please refer to Table 1 above for details.
- 3. Identify if any of these projects are completed and if so what is the project of projects that are completed?
  - Please refer to Table 1 above for details.

4. What amount of money was spent in 2018/2019 and what is the balance if not totally completed at the beginning of January 2020?

Allocated MDRG Grant (MDRG)	R 239,034,000
Total amount not invoiced	R 102,410,223
Total amount invoiced and not paid by MMM	R 50,907,798
Total amount invoiced and paid by MMM	R 85,715,979

- 5. On what basis (monthly or quarterly) did the administration report the progress to National?
  - Monthly progress meetings were held with Provincial Disaster Management Centre (PDMC) and monthly progress reports were submitted to National Disaster Management Centre (NDMC) every month.
- 6. What were the responses from National on these projects?
  - National Disaster Management Centre (NDMC) were generally happy with reports. The only
    problem was that the rollover application was rejected by National Treasury. This led to
    suspension of projects as there was no money to pay Contractors and Professional Service
    Providers.

Yours faithfully /

Adv. Tankiso Mea City Manager

#### DIRECTORATE CORPORATE FERVICES

COUNCILLORS

27 January 2020.

To: THE CITY MANAGER: Adv. T Mea Mangaung Metro Municipality.

Further To: THE SPEAKER Mr. MA Siyonzana

BY HAND.

BRAM FISHER BUILDING, BLOEMFONTEIN 9301

Office of the City Manager	
2 8 -01- 2020	
Manyzung Metropolitan Manyspahly	

Dear Gentlemen

#### RE: NATIONAL GRANT: DROUGHT RELIEF PROJECTS: R239 MILLION.

I refer your attention to Rule 38 of the Standing Rules and Orders that states:

38.1 Any member may submit a question requiring a written reply from any political office bearer, the municipal manager or senior manager of the municipality, concerning any matter related to the effective performance of the functions of the municipality and the exercise of its powers, provided that a written notice of such a questions has been submitted to the Speaker or chairperson and the municipal manager at least 10 (ten) days prior to the councillor cammittee meeting and the political affice bearer and the City Monager shall ensure that the member receive a written reply at the meeting. 38.2 If after the questian has been replied to, a member is of the opinion that the reply is not clear or satisfactory, he or she may with the permission of the speaker or chairperson, request a follow-up question, follow –up question should be in writing.

38.3 All questions duly given notice of and all responses submitted shall be recorded in the minutes of the meeting.

During the end of 2018, National approved a grant for Mangaung Metro Municipality of R239 million and was specific for projects related to the drought. If I remember correct the Municipality approved 20 projects to be funded out of this drought relief grant.

Therefore I ask the following questions in terms of Rule 38 of the Standing Rules and Orders:

- Can the Administration mention the 20 projects to be funded out of the drought relief grant?
- 2. Identify the progress on all the 20 projects?
- 3. Identify if any of these projects are completed and if so what is the project of projects that are completed?
- 4. What amount of money was spent in 2018/2019 and what is the balance if not totally completed at the beginning of January 2020?
- 5. On what basis (monthly or quarterly) did the Administration reported the progress of the projects to National?

Page 1 of 2

6. What were the responses from National on these projects?

. .

Looking forward in having a written reply at our next council meeting.

Sincerely,

. .

٢

Cllr. F.R. Botes. Ward: 25 Mobile: 0836532287 Email: rossouwb@lantic.net

Your Ref:	Our Ref:
Room 201, Bram Fischer Building	Date: 14 July 2020

Councillor Snyman-Van Deventer MMM

Dear Councillor Snyman-Van Deventer

# **REPLY TO RULE 38 QUESTIONS: INTERVENTION TEAM**

The above matter and your letters dated the 5th May and 11th June 2020 refer.

With regard to the questions raised in your letter, please be advised the process of Provincial intervention is regulated both by the Constitution of the Republic of South Africa Act, No. 108 of 1996 as well as the Municipal Finance Management Act. The Provincial Government represented by the MECs for Finance and COGTA visited the Metro in December 2019 regarding the intervention and Council agree with the intervention in the meeting of the 24<sup>th</sup> December 2019.

Please further be advised that draft mandatory financial recovery plan and the draft terms of reference of the intervention were submitted and Council has since requested that legal opinion should be obtained on the matter. The two sets of revised draft mandatory financial recovery and draft terms of reference were submitted by Province and these will be submitted to Council for consideration and determination. All the issues raised in your Rule 38 will be properly dealt with at that stage. We are not in a position to deal in detail on the issues before Council handles the matter since this matter is the competency of Council.

Yours faithfully

Adv. Tankiso Mea City Manager
