

MANGAUNG METROPOLITAN MUNICIPALITY CONSOLIDATED ANNUAL REPORT

2021/2022

Prepared by office of the City Manager
IDP AND OPM

Mangaung Metropolitan Municipality – Consolidated Annual Report 2021/2022

Table of Content

Chapter 1 – Executive Mayor’s Foreword and Acting City Manager’s Overview	7
Component A: Executive Mayor’s Foreword	7
Component B: Acting City Manager’s Overview.....	8
1.1 Mangaung’s Vision	8
1.2 Mission Statement	9
1.3 Mangaung Population	9
1.4 Socio Economic Status.....	10
1.5 Relative importance of MMM economy	12
1.6 Municipal functions per department and opportunities	12
1.6.1 Planning	12
1.6.2 Economic and Rural Development	13
1.6.3 Engineering Services	13
1.6.4 Social Services.....	15
1.6.5 Municipal Police Services.....	20
1.6.6 Finance	21
1.6.7 Human Settlement.....	22
1.6.8 Centlec.....	22
1.6.9 Solid Waste	23
1.6.10 Office of the City Manager.....	24
1.6.11 Corporate Services.....	25
1.7 Overall MMM Service Delivery Overview for 2021/2022	26
1.7.1 Planning Department.....	26
1.7.2 Economic and Rural Development Department.....	26
1.7.3 Engineering Services Department	32
1.7.4 Solid Waste and Fleet Management Department	39
1.7.5 Centlec Department	40
1.7.6 Social and Municipal Police Services	41
1.7.7 Human Settlement Department	42
1.7.8 Office of the City Manager.....	43
1.7.9 Corporate Services Department	44
1.7.10 Financial Health Overview.....	53
Chapter 2 – Governance.....	55
Components A: Introduction.....	55

Component B: Political and Administrative Governance	55
2.1 Political Governance	55
2.1.1 Political Structure of MMM.....	55
2.2 Administrative Governance.....	57
Component C: Intergovernmental Relations	58
2.3 Intergovernmental Relations in the Municipality	58
Component D: Overview of Public Accountability and Participation	59
2.4 Public Meetings	60
2.5 IDP Participation and Alignment	61
Component E: Corporative Governance	62
2.6 Risk Management	62
2.7 Anti-Fraud and Corruption	64
2.8 Internal Audit	62
2.9 Municipal Website: Content and Currency of Material.....	67
 Chapter 3 - Service Delivery Performance	 78
3.1 Introduction.....	78
Component A: Basic Services Delivery.....	78
3.2 Roads and Stormwater	78
3.3 Water and Sanitation Provision.....	78
3.4 Solid Waste and Fleet Management	111
3.5 Centlec	122
3.6 Human Settlement.....	126
Component B: Financial Viability	137
3.7 Finance Department	137
Component C: Local Economic Development.....	143
3.8 Economic and Rural Development.....	143
Component D: Good Governance and Public Participation	150
3.9 Office of the City Manager	150
3.10 Corporate Service.....	166
Component E: Institutional Development and Organisational Transformation.....	189
3.11 Planning Services	189
3.12 Social and Municipal Police Services.....	197
3.13 MFMA Circular 88 Outcome and Output Indicators as reported to National Treasury	242
 Chapter 4 - Organisational Development Performance	 254
Component A: Introduction to Municipal Personnel	254

4.1 Employee Totals, Staff Turnover and Vacancies 2021/2022.....	254
Component B: Managing Workforce	255
Component C: Capacitating the Workforce	261
Chapter 5 - Financial Performance	264
5.1 Statement of Financial Performance.....	264
Component A: Statement of Financial Performance	267
Component B: Spending Against Capital Budget.....	267
Component C: Cash Flows Management and Investments.....	267
5.2 Grants.....	268
5.3 Repairs and Maintenance	268
5.4 Spending Against Capital Budget	269
5.5 Cashflow Management and Investments	272
5.6 Borrowing and Investments	274
Chapter 6 – Auditor General Reports 2021/2022	276
Component A: Auditor – General Opinion of Mangaung Metropolitan Municipality Consolidated Financial Statements	276
Component B: Auditor General Opinion of Mangaung Metropolitan Stand Alone Financial Statement 2021/2022	296
Component C: Auditor General Opinion of Centlec (Soc) Limited Financial Statements 2021/2022	316
Component D: Management Comments and Corrective Actions on Matters Raised By The Auditor General	324
Chapter 7: Reports of Municipal Public Accounts Committee 2021/2022	326
Component A: Municipal Public Accounts Committee On The Annual Report 2021/2022.....	326

Chapter 1 – Executive Mayor’s Foreword and Acting City Manager’s Overview

Component A: Executive Mayor’s Foreword

During the (2021-2022), the City was determined to sustain accelerated municipal service provision in line with the 5 year IDP developmental objectives as adopted by the outgoing council. Key to these priorities were financial viability, good governance and economic and spatial development. However, during this time, the City has endured the most trying times including downgrading of our City’s ratings by the rating institutions and being placed under a mandatory constitutional intervention in terms of section 139 (7).

This report is developed at the critical time as the local community is facing difficulties, such as increasing poverty, unemployment, inequality, non-payment of municipal services as well as poor governance challenges. However, as members of the Council, we have agreed to work together across the party-political spectrum, in order to put the people of Mangaung first and restored their confidence to the collective leadership of the City. Notwithstanding the above challenges, this initiatives by the National Intervention has made a significant difference in the Municipality's governance and to some extent its financial position. Throughout the 2021/2022, the Municipality has executed all its programs, plans, and goals in accordance with the following developmental objectives:

- **Spatial Transformation**: Implement and integrated and targeted strategy that transforms the spatial and economic legacy of Mangaung.
- **Economic Growth**: Boost economic development by strengthening organisational performance
- **Service Delivery Improvement**: Strengthen service delivery as a priority for economic growth
- **Financial Health Improvement**: Implement a financial recovery plan that rebuilds financial strength
- **Organisational Strength**: Strengthen the organisation – the heart of it all

These strategies are tools for monitoring and enforcing sound corporate governance standards and positive relationships with other sectors of government. Moreover, the 2021/2022 was a difficult year due to the government's continued adjustment to a changing economic climate marked by decreasing global growth and rising trade tensions. Providing municipal services to the communities is the Municipality’s first concern and obligation, and the Municipality is still on pace to meet its objective of waste collection, delivering water and sanitation services to its residents and maintaining its surfaced and unsurfaced roadways. Moreover, the City through its entity continues to provide electricCity services to its residents. All registered indigents are still getting their monthly free basic services in accordance with our Service Delivery and Budget Implementation Plan. The Municipality will redouble its efforts in the next fiscal year to relieve the plight of our disadvantaged residents and mostly importantly to improve its economic growth. **I hereby present the 2021/2022 Annual Report.**

Cllr. Mxolisi Siyonzana
Executive Mayor

Component B: Acting City Manager's Overview

As the last report of this term of (2017 – 2022) of local government, it is important that we present the Municipality's 2021 – 2022 Annual Report to provide an account of how the Municipality has performed in attaining its strategic priorities and projects as captured in its Integrated Development Plan.

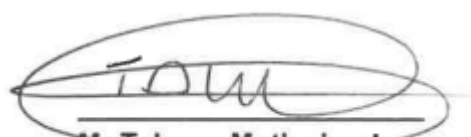

The purpose of this Annual Report is therefore:

- To provide a record of the activities of the Municipality during the 2021 – 2022 financial year;
- To provide a report on the service delivery and budget implementation of the Municipality during the 2021 – 2022 financial year; and
- To promote accountability to the community that we, as the Municipality, serve.

Throughout the 2021 – 2022 financial year the Municipality worked to enhance the lives of those living and working in Mangaung. The Municipality also continued to deliver its array of services to the community.

We are also advancing towards financial sustainability through improved revenue collection and investment attraction. Through our concerted campaign to identify and register all indigent households we are able to identify and target households, which can afford to pay for Municipal services. This campaign has resulted in improved collection of revenue through service charges. We have also tightened our secures in terms of fiscal discipline and sound financial management. This strategy is demonstrated by the improved financial accountability. We are also a continuing to improving our record with regard to the Auditor-General's reports with consideration to the recommendations.

Lastly, it is also necessary to mention, that we have tried to adhere to the principles of good governance, as we believe that good governance is integral to economic growth, the eradication of poverty and for the sustainable development of the community we serve and still focusing on the trajectory of implanting the financial recovery plan to improve the Municipality's performance both on the provision of service and financial viability.

Mr Tebogo Motlashuping
Acting City Manager

1.1 Mangaung's Vision

The development trajectory as advocated by the Executive Mayor in the new council and the outgoing council had confirmed the City's vision as:

‘... globally safe and attractive to live, work and invest in’

1.2 Mission Statement

Moreover, in meeting the said vision as indicated above, the City will achieve this by the following mission statement:

- *Providing democratic and accountable government for local communities;*
- *Ensuring the provision of services to Municipality's communities in a sustainable manner;*
- *Promoting social and economic development to the residents of the Mangaung;*
- *Promoting safe and healthy environment; and*
- *Encouraging the involvement of communities and community organisations in the matters of local government*

1.3 Mangaung Population

Mangaung, in the Free State, has an area of 9,899 km² and is conveniently situated near the main transport networks including the N1 (which links Gauteng with the Southern and Western Cape), the N6 (which links Bloemfontein to the Eastern Cape), and the N8 (which links Bloemfontein to Lesotho in the east and with the Northern Cape in the west).

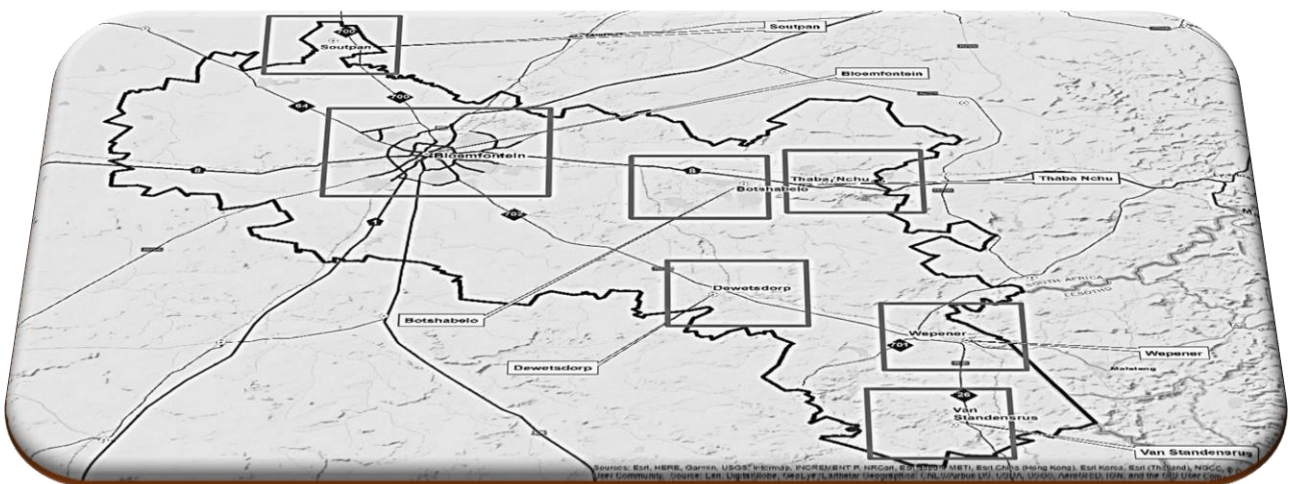

Figure 1: MMM Spatial Depiction

During the compilation of this report, the Census 2022 by Statistics South African (Stats SA) was not yet published. Therefore, the City relied on the existing statistics to be able to complete this important

report with authentic data. The Municipality is home to almost a quarter (28%) of the population in the Free State province. Between 2011 and 2019, the projected Mangaung population grew from 775,028 to 878,834, with an additional 103,806 people which is just about 1.6% increase.

The population represents an estimated 285,385 households at an average household size of 3,1 people per household. About 63% of all households reside in Mangaung/Bloemfontein; 32% in Botshabelo-Thaba Nchu, 2% in the other small towns and 3% in the farm areas. The estimated household increment during the period 2011 to 2019 is approximately 44 752 which translates to approximately 5,594 households per annum as depicted in the figure below.

Figure 2: MMM Households 2011 - 2019

1.4 Socio Economic Status

The size and performance of the economy of a municipal area ultimately influence the well-being of households. Indicators discussed in this sector include the municipal Gross Domestic Product Growth Rate (GDPR), employment, skill levels of workers, gross fixed capital formation as a percentage of GDPR, as well as trade indicators. Figure 2.9 illustrates the size of the economy of the City together with the economic growth estimates between 2016 and 2026.

Figure 3: Municipal GDPR and GDPR 2016 - 2026

Table 1: Number of economically active persons in Mangaung

Area	Male	Female	Total
Botshabelo	51 026	54 758	105 784
Bloemfontein	103 270	103 198	206 468
Thaba Nchu	34 084	34 557	68 641
Soutpan	1 003	895	1 898
Dewetsdorp	14 297	13 200	27 497
Wepener	13 288	10 998	24 286
Van Stadensrus	2 945	1 900	4 845

The economy in the Mangaung Municipality generated around R 105.1 billion in Gross Domestic Product (GDP) in 2019. Over the period 2012 to 2019, the economy grew at an average annual rate of 1.15 %. Compared to the Free State Province (0.29 %), the Mangaung Municipality had a higher average annual growth rate. It is estimated that the value of the economy will grow to around R 111.3 billion by 2026. Table 2 provides the sectoral GDPR for the Mangaung Municipality in 2019. Additionally, the table outlines the percentage share of each sector as well as the average GDPR growth between 2016 and 2019.

Table 2: Sectoral GDPR for the Mangaung Municipality in 2019

	Rmillion	Percentage Share	Average GDPR growth (2016-2019)
Agriculture, forestry & fishing	R1,21	1.1%	2.0%
Mining & quarrying	R806	0.8%	0.3%
Manufacturing	R12,81	12.2%	-0.1%
ElectriCity, gas & water	R3,89	3.7%	-1.2%
Construction	R5,56	5.3%	3.2%
Wholesale & retail trade, catering & accommodation	R18,14	17.3%	2.0%
Transport, storage & communication	R14,05	13.4%	3.2%
Finance, insurance, real estate & business services	R22,99	21.9%	0.8%
General government	R15,38	14.6%	1.3%
Community, social & personal services	R10,31	9.7%	3.1%
Total	R910.34	100.0%	1.5%

The below Figure shows the composition of jobs in the Mangaung Municipality's jurisdiction, according to primary, secondary and tertiary sector employment.

Figure 4: Employment Creation, 2019

The above chart shows that those employed in the primary sector amounted to 3.4 % of the working population, 12.46 % in the secondary sector and 84.14 % were employed in the tertiary sector in the Mangaung Municipality's jurisdiction.

Below is the outline of the unemployment rate, the labour force participation rate and the labour absorption rate of the Mangaung Municipality's jurisdiction when compared to that of South Africa in Quarter 1 of 2022. According to Statistics SA's narrow definition, the unemployment rate is the proportion of the labour force who are unemployed. The labour force participation rate shows the proportion of the working-age population (15 to 64) who are economically active, while the labour absorption rate indicates the proportion of working-age people who are employed.

	Unemployment rate	Labour Force Participation Rate	Labour Absorption Rate
<i>Mangaung</i>	21,9%	47.7%	61%
<i>South Africa</i>	34.5%	37,3%	56,9%

The Mangaung Municipality has an unemployment rate of 21.9%. Furthermore, 54.5% of working-age people are economically active and 42% of working-age people are employed.

1.5 Relative importance of MMM economy

The City is ardent to create an environment that promotes the development of the local economy

- Regulatory frameworks that is conducive
- Facilitate business that is responsive
- Create new investment opportunities at the Industrial Zones, Urban Development Zone (UDZ) and Corridors
- Invest in physical infrastructure.

Furthermore, the following is prioritized to facilitate job creation initiatives, expanded value chains, development of informal economy, expanded public works programmes, Tourism Development, Rural Development, Sector Development (manufacturing, medical and pharmaceutical, Knowledge and innovation, Transport and logistics) and the Economic Development Strategy (EDS) highlights key programmes Industrial Cluster Development and Sector Development, Agricultural Development Programmes, Business Expansion and Retention, Trade and Investment Promotion Programme, Tourism Development Programme.

1.6 Municipal functions per departments and opportunities

1.6.1 Planning

To plan for livable and sustainable urban and regional communities, to rectify the spatial inequalities caused by previous laws, promote social and economic inclusion and to promote optimal use of land within a political, social, cultural, environmental and economic context.

Furthermore, it applies all Legislation and Municipal By-Laws, such as Spatial Planning and Land Use Management Act (SPLUMA), 16 OF 2013 and the Spatial Development Framework (SDF) is the Key planning instrument and a component of the Integrated Development Plan (IDP) (chapter 5 of the IDP) that guides and informs all the decisions for the future land development within the municipal area of jurisdiction. Moreover, it has in place the Regional Structure Plans (RSP) and Land Use Management Scheme (LUMS).

Geographic Information Service (GIS) is defined as the information system designed to input, manage, update, analyse and present spatially related information collected and managed by the Municipality.

The objectives are to share spatial information and to promote the use of geographic information, to ensure service excellence within and around the Municipality. Moreover, to stimulate integrated and sustainable economic development, improve and sustain financial, human resource and management excellence; and to evolve institutional excellence by institutional reengineering, and effective long range development planning.

1.6.2 Economic and Rural Development

The Directorate Economic and Rural Development core focus areas is to stimulate and facilitate economic growth and development in the City by concentrating on cultivating a positive investment climate, enhancing the City Tourism potential, promoting and mainstreaming Small Medium and Micro Enterprises (SMME) and advancing the holistic development of our rural settings.

Investment Promotion: This component focuses on facilitation and mobilization of domestic and foreign private investment in the City that progressively contribute to the economic development and sustainability of the Municipality and its citizenry. In particular, key activities look at promoting the City as an attractive investment destination and embedding friendly and easy investment business processes to land and fast-track investments.

Tourism: The promotion of the City as a prime tourism destination is key in the economic growth and development of all the seven geographic areas of the City. This is facilitated through packaging and marketing the leisure, business, heritage, cultural and events tourism assets of the City.

SMME Development: The role of the unit is to facilitate the development and mainstreaming of small, medium enterprises through support and provision of information. In partnership with other government departments and private sector the component focuses on skills development, access to opportunities including funding.

Rural Development: The component focuses on provision of holistic socio-economic development opportunities to the rural areas of the City so as to bridge the rural-urban divide.

1.6.3 Engineering Services

The Municipality is dedicated to upgrading road/stormwater and water/sanitation infrastructure. However, there is a backlog regarding the latter services. The Municipality is moving forward with the finalization of the Botshabelo, and phase 3 of Thaba Nchu Wastewater Treatment Works (WWTW) and to speed up the recycling of wastewater at Maselspoort Water Treatment Works.

Roads

The Municipality has a Road Asset Management System which can help with road-maintenance planning. However, there is a lot of work that needs to be done to ensure that operations and maintenance are undertaken in a manner that would satisfy the community and other stakeholders. RAMS avails data, but there is a need for management to understand what to do with the data collected and the maintenance plans developed. The holistic approach ensuring budget and resources are better catered should be pursued.

The City must prioritise then implementation of Cities' Infrastructure Delivery and Management System (CIDMS) which is a fully compliant SANS 55001 asset management system specifically designed for cities with large and varied immovable asset portfolios of asset management system and processes.

Based on reported, researched and observed reasons of poor maintenance of roads, it can be argued that many municipalities in South Africa, including Mangaung Metro Municipality, are not prioritizing effective asset management; they are operating on a reactive basis for road network maintenance. CIDMS can be of paramount importance in bettering poor maintenance.

The City does take cognisance that infrastructure that is reliable and accessible is essential for social and economic development. It helps to increase production, reduces travel time and expenses, and helps to generate employment and bring communities together. The world's first economic and social network is the road network.

It is the overall aim of this plan to accomplish the following:

- one of the main strategies to prolong the life of the paved roads is to delay the need for extensive repair.
- to build or repair roads when necessary
- to verify that the functional class of the road is consistent with road standards.

Stormwater

Currently, stormwater service is not included into the Municipality's level of service. Whenever roads are upgraded, the building of stormwater infrastructure is almost usually part of the project. Stormwater infrastructure maintenance is conducted in a responsive way, and stormwater management is based on these four principles:

- The necessity to safeguard the public's health, welfare, and safety, as well as to safeguard properties from flood risks, via the safe routing and discharge of rainwater.
- The possibility of conserving water and making it accessible for public use.
- The need of achieving economic growth while maintaining a sustainable environment.
- The goal to offer the most effective techniques for regulating runoff in such a way that the primary beneficiaries pay a price commensurate with their potential advantages.

Prioritization of CIDMS implementation will assist the City in managing the stormwater systems better than the responsive approach. The City is currently undertaking conditions assessments of stormwater network with practical maintenance plans planned to follow condition assessments.

Water

The Municipality is both a Water Services Authority and a Water Service Provider, and as such is obligated to carry out its duty of supplying its residents with safe and dependable drinking water.

The Water Services Authority (WSA) is responsible for developing a formal Water Services Development Plan (WSDP) that includes information about the area's physical characteristics, socio-economic characteristics, existing infrastructure, and water use, as well as a long-term water services plan with a five-year implementation timeline.

The WSDP is an integral component of a WSA's Integrated Development Plan (IDP) and should be developed concurrently with the IDP. The report's main findings are included in the Mangaung Bulk Water Augmentation Programme (MBWAP), since they impact and inform short-, medium-, and long-term planning for Mangaung's water sources and delivery. This may be ascribed to domestic services – basic and higher levels of care – as well as growth and development-related services such as schools, clinics, and hospitals.

As part of the Municipality Bulk Water Augmentation Program, a study was commissioned that determined the present supply system's capacity is 187ml/day, compared to 218ml/day when the system is operating normally. This implies a 60ml/day supply deficit at the moment. As a result, water conservation and demand management, as well as water re-use projects and infrastructure upgrades, are required.

Based on the above, MMM takes responsibility to strengthen water security, supply assurance, and infrastructural capacity in order to handle existing backlogs and future demands.

Sanitation

In terms of sanitation, a significant number of households (84%) have access to facilities that exceed the level set by the Reconstruction and Development Programmes (RDP's) (VIP toilet and higher). A further 10% use pit toilets without ventilation, while 6% use bucket toilets or have no facilities. Backlogs in this region are particularly severe in rural places such as Botshabelo and Thaba-Nchu.

The Municipality now has 8.5 million litres of spare capacity to support its primary programs such as the VIP and Bucket Eradication Program and the Catalyst Development Program. The goal is to reduce the number of sewer pump stations by replacing them with gravitational pipes and focusing on preventive maintenance.

1.6.4 Social Services

The Directorate: Social Services is one of the largest and most diverse Directorate in the City. The Directorate finds itself at the coalface of service delivery challenges ranging from “soft” / social matters to “hard” life and death scenarios. These diverse community needs demand focus and continued attention in the City. The office of the acting Head: Social Services is responsible for the management

and oversight of the Directorate to ensure compliance with / execution of the IDP, SDBIP (Quarterly, Mid- term, Annual reports), budget spending and adherence to control measures.

The Department is also responsible for the promotion of literacy in communities through ensuring access to library material, marketing of the library services and offering library outreach programmes to communities. Literacy in communities is promoted through ensuring access to library material, marketing of the library services and offering library outreach programmes

The plight of vulnerable groups such as street children, people with disabilities, the elderly and children are priorities for the Directorate. Poverty alleviation through community projects and the promotion of arts and cultural programmes are also areas of focus for the Directorate.

Environmental Health Services within the Municipality includes all activities associated with the provision of municipal health services in terms of the National Health Act (No 61 of 2003), Cosmetic and Disinfectants Act (No 54 of 1972) and the Business Act (No 71 of 1991) to ensure the sustainable wellbeing of communities.

Render Municipal Health Services as required in terms of Legislation:

- Water Quality
- Food Control
- Waste Management
- Pollution Control
- Surveillance of Premises
- Pest & Vector Control
- Burial of unidentified Bodies (State Mortuary)
- Communicable Diseases Control
- Chemical Safety

Micro-Laboratory

Testing of the drinking water, milk, sno-cremes, sewage and surface swabs must constantly be conducted in order to properly monitor the health and safety of the communities in the City.

Regular daily testing of the Bloemfontein reservoirs (Brandkop and Hamilton) and other reservoirs surrounding Bloemfontein must resume to ensure water safety.

Sport and Recreation South Africa has opted to only engage with recognized legitimate structures. Participants sports are required to be members of such structures. Likewise, the Directorate prefers to engage federations and not individuals. Sport programs are the competency of the various federations.

Sports development programmes are presented in areas were they were historically weak.

The programs amongst others includes:

- Active recreation (Kasi Wheel-Chair Race; Mangaung Relay Extravaganza; Aged Sport Day; Mandela View (Heritage Fun Run)
- Community Sport (Women's Sport Day; Youth Sport Festival; Rural Sport Festival; Disability Sports Day; Learn to Swim; OR Tambo Games; Rose Sport Festival)
- Sport Development (Wrestling Dev Games; Cricket Development League; SAFA Dev League; Swimming, Netball, Athletics, etc.)

The City's facilities plan is focused on:

- Refurbishing/rebuilding old sport facilities in the townships.
- Upgrading of existing facilities.
- Building of new facilities.

Art & Culture

- To ensure co-ordination and promotion of Art, Culture and Heritage activities.
- To preserve, protect and conserve Heritage Resources
- Management of Initiation Schools in compliance with Free State Initiation School Health Act no 1 of 2004.

The Sub – Directorate Emergency Services (Fire and Rescue) is responsible for the provision of emergency response to fires and incidents requiring the rescue of humans and animals. Communities are also protected against fire by pro – active approaches which includes, fire safety compliance and public education and awareness.

The Service Delivery functions of the Emergency Services are as follows:

Preventing fire through statutory fire safety

- Scrutiny of building plans
- Conducting inspections to ensure compliance with safety standards
- Conducting fire investigations to determine causes of fires
- Certification of premises and vehicles for storage of flammable substance

Protecting against fire through education and skills development

- Basic training of recruits in respect of fire, rescue, hazardous materials, and life support
- Advanced / specialized training in respect of fire, rescue, and hazardous materials
- Delivery of public education programs
- Fire Service Museum

Responding to fires and emergencies

- Fire suppression
- Rescue of humans and animals from danger
- Dealing with hazardous materials
- Public displays / station visits

- Maintenance of vehicles, equipment, and hydrants

The Disaster Management Sub – Directorate performs its functions and duties in accordance with the Disaster Management Act 2005 (No 57 of 2002). The Mangaung Disaster Management Centre is the focal point for all disaster management related activities. The Centre renders a critical service to the community relating to emergency call receiving and resource dispatching all types of emergencies and disaster incidents. Call Centre Operators are deployed 24 / 7 on a shift system.

The function is governed by:

- Disaster Management Act, 57 of 2002.

The Act provides for:

- An integrated and coordinated Disaster Management policy that focuses on preventing or reducing the risk of disasters, mitigating the severity of disasters, emergency preparedness, rapid and effective response to disasters and post-disaster recovery.
- The establishment of national, provincial, and municipal disaster management centers.
- Disaster Management volunteers

Constitution of South Africa, Act 108 of 1998.

- Schedules 4 and 5 of Part B of the Constitution requires local government to provide for functions which are closely linked to disaster risk management.

Service Delivery Functions of disaster management are as follows:

Prevention And Mitigation

Functions

- Disaster prevention / reduction
- Disaster mitigation
- Emergency planning
- Coordination of disaster response
- Post disaster recovery and rehabilitation
- Public education
- Exercising of contingency plans
- Management of public events

Emergency Control Centre

Functions

- Receipt of emergency calls in
- Respect of fire, rescue, and traffic
- Dispatching of appropriate
- resources
- Management of resources
- Designated Control Centre for
- Incidents on N1, N6 and N8
- routes

Disaster Management: Service Delivery Activities

- Emergency Control Centre receives and dispatch emergency distress calls relating to fire, rescue, traffic, and humanitarian services. Dispatch to all the relevant line functionaries.
- Conduct assessments of individual properties affected by unplanned disaster related occurrences (e.g., severe weather, fire, etc)

- Facilitate immediate relief for affected communities through involvement of MMM directorates, Prov. Departments, External stakeholders (Red Cross and etc)
- Conduct Safety and Grading assessment in terms of the SA Sports & Recreation Events Act (**SASREA Act**)
- Conduct public education and information sessions
- Participate during events in the Joint Operations Centre or Venue Operating Centre.
- Compilation / updating / review of contingency plans of municipal premises, entities like businesses, health care facilities, educational institutions etc.
- Conduct risk reduction assessments of vulnerable areas relating to disaster risks (floods).
- Participate in multi-disciplinary structures such as Provincial Advisory Forum, Provincial and District Priority Committees as well as National Key Points which involved role players such as Emergency Medical Services, Fire and Rescue, SAPS, and South African Air Force.
- Identify, evaluate and monitor hazards and vulnerabilities within municipal areas.
- Joint participation in drills or mock exercises to instill preparedness and easy evacuation in high-risk buildings within Metro.
- Plays an advisory role to municipal Executives in terms of all disasters – natural and human induced ones.
- Advocate for risk development within Metro areas.

The main objective of the Sub – Directorate Parks and Cemeteries is to provide a clean, green, and healthy environment to the residents of Mangaung. The unit is responsible for the horticultural maintenance and development of open spaces, parks, traffic islands, buffer zones, sports fields, street trees, fire belts and City gardens, and conservation of the natural resources of MMM. Sub-directorate is also responsible for the provision of Cemetery and Crematoria Services, as well as responsible for the management of the Bloemfontein Zoo and the Kwaggafontein Game farm.

Key service delivery areas are:

- Parks and open space management and maintenance of 152 developed parks, 10 City entrances and 25 000 hectare of open areas / veld areas and 16 operational Cemeteries
- Cemetery Management
- Zoo and Kwaggafontein Game Farm Management
- Natural Resource Management / Nature Conservation

Broad Functioning of the Directorate

The Directorate Social Services on the one extreme is expected to cater for children in their early childhood development phase and on the other extreme to rescue persons or animals from danger. In between these two diverse poles other aspects like access to library material, ensuring safe drinking water by testing, to name only some functions, are scattered / dispersed.

This diverse basket of functions “is carried” with extremely limited, and in some instances simply totally inadequate, resources.

The Directorate aims to deliver on its diverse mandate by balancing / juggling / directing available resources to match the constantly changing service delivery challenges / expectations.

Challenges

- Budget constraints
- High vacancy rate
- Lack of tools of trade
- Closure of the drama library – Need two librarians to be open
- Closure of the Zoo
- Requesting Wi-Fi in all libraries
- Lack of medical consumables
- Shortage of sports equipment
- Lack of maintenance of buildings
- Air quality station decommissioned
- Pesticides and many more
- Finalisation of the procurement processes on time delays the completion of a number of capital projects on time.

1.6.5 Municipal Police Services

The Traffic Division of the Sub – Directorate Public Safety/ Municipal Police is responsible to ensure a free flow of traffic and the enforcement of applicable legislation that governs road usage.

The enforcement of legislation relating to road traffic is governed by the provisions of the Criminal Procedure Act, No 51 of 1977. The Traffic Division is responsible for the enforcement of traffic rules and regulations in the City as well as by laws.

Road rehabilitation projects have impeded negatively on the normal flow of traffic and overstretched the available resources hampering effective law enforcement to ensure free flow of traffic at strategic locations where traffic congestion is experienced.

Council has approved a standard operating procedure for management of traffic fines to tighten internal control. The total / entire traffic fine process must be executed in accordance with the Criminal Procedure Act. Unlike other service charges (rates, water and electricity) where payment can be enticed by cutting or restricting a service traffic fine can only be collected within the parameters of the Criminal Procedure Act.

Mangaung Municipality is one of seven accredited traffic training centers in the country and over the years traffic officers have completed the training program to meet minimum requirements for appointment as a traffic officer.

Enforcement of traffic offences has effectively collapsed. The intensified road refurbishment projects and the new areas developed within Mangaung has diluted the visibility of traffic officers. The prevailing situation can only be addressed through the recruitment of traffic officers.

Law Enforcement Division

Law Enforcement is responsible for the enforcement of by – laws and to provide safety support to other internal and external role players. Moreover, the Municipal Law Enforcement Division is

responsible for the minimisation of security risks, threats, crime, and the enforcement of applicable laws and by laws.

Predicament for achieving the plan

High vacancy rate at Traffic and Law Enforcement (Operational personnel and Administration), unfunded mandate, installation of CCTV cameras at crime hot spots, installation of alarm systems in all Municipal buildings, insufficient budget for Private Security, maintenance of access control system at parking garage, non – allocation of budget for parking meter installation, non – allocation of budget for uniform, lack of ammunition for firearm competency training for traffic and law enforcement personnel and insufficient budget for purchasing of traffic fine books. Mostly frustrating is the protracted procurement processes of the Municipality.

Resources needed for effective functioning of the Sub Directorate are as follows:

- ICT equipment
- Patrol vehicles Traffic
- Patrol vehicles Law enforcement
- K 78 Roadblock trailer
- PPE (Uniform and riot gear, shields and bullet proof vests)
- Lack of staff (Traffic guards, traffic officers, admin support and general workers parking garage, traffic wardens CBD)
- Lack of office space
- Lack of firearms and holsters
- Ammunition for firearm competency training
- Fixed traffic speed law enforcement cameras
- Maintenance budget for access control system at parking garage
- Funding for procurement of CCTV cameras at new crime hot spots and replacement of outdated / obsolete cameras
- Tools of trade, torches, traffic cones, measuring wheel tapes, tyre depth measuring devices and marker for road accidents

1.6.6 Finance

The Municipality has created, evaluated, and approved policies and procedures, which are now being implemented. Additionally, it has accepted and implemented new performance reforms at all levels, as outlined in MFMA Circular No. 88, and its budgeting and reporting systems are compatible with the Municipal Standard Chart of Accounts (mSCOA).

A strategic overview of revenue collection and expenditure is being implemented, and the Municipality is ensuring prudent financial management and fiscal discipline by establishing and reviewing internal controls with various oversight committees and strengthening financial management capaCity. Credit control procedures will be tightened further to strengthen the Municipality's financial liquidity situation.

The Municipality's attention and efforts will need to be concentrated on executing the Financial Recovery Plan, Revenue Enhancement plan, cost reduction measures, and efficiency improvements to prevent waste. This is expressed in the following manner:

- Utilization of cutting-edge technologies to monitor telephone usage;
- Overtime management and supervision by supervisors and management;
- Cost monitoring for information and communication technologies (ICT);
- Water demand initiatives are being implemented to help minimize water loss.
- Cost savings on events, conferences, meetings, workshops, trainings, and seminars, among other things;
- Conduct a review of the travel policy and ensure that it adheres to MFMA Circular 82.
- Gradual transition from printed to electronic declarations
- Reduce the cost of consulting and contractual services;
- Creating a donation policy
- Examine outsourcing of security services, trash disposal, and lawn care, among other things.
- Procurement that is cost effective
- Internal control rollout to user departments to monitor consumables expenditures such as fuel, printer paper, and toilet paper.

1.6.7 Human Settlement

The strategic goal is to enhance the quality of life of households' life. In accordance with this, the Metro is concentrating its efforts on improving the level of services of households, providing security of tenure, and upgrading existing informal settlements and the delivery of Catalytic Programs for the implementation of Integrated Human Sustainable Development. Additionally, the Metro concentrated on decreasing the housing backlog and expanding housing options.

The growth of human settlements in the Municipality is built on three basic pillars: the human settlements development logic, the mixed development delivery vehicle, and the plan for upgrading informal settlements. All of the Municipality's catalytic initiatives have used a mixed development strategy. The RRRIC Strategy, abbreviated for Residential, Recreational, Retail, Industrial, and Community Amenities, is a critical component of this delivery vehicle.

The Municipality's mission statement includes the goal of "building wealthy, liveable, and inclusive living environments with an abundance of social and recreational facilities." These goals serve as a critical guide in providing municipal services, housing and supporting facilities, as well as possibilities for economic growth to all residents.

1.6.8 Centlec

Centlec (SOC) Ltd is currently the license holder and distributes electriCity to over 190 477 customers in the area of Mangaung, Kopanong, Naledi, Mohokare and Mantsopa in the Southern Free State Towns. CENTLEC's customer base consists of 97% of domestic customers and 3% commercial users.

The foundation of CENTLEC' existence is premised on delivering services in a financially sustainable manner. Moreover, the company has a critical role to play in assisting Mangaung Metropolitan Municipality to achieve its developmental objectives through the following:

- Improving access to basic services
- Reliable & affordable energy supply
- Job creation, capaCity building and skills development
- Efficient administration and good governance
- Investment in infrastructure
- Increased financial capability & revenue enhancement

One of the objectives of CENTLEC (SOC) Ltd is to establish its own generation to avoid over reliance from ESKOM. A detailed Energy Assessment has been completed to achieve this milestone. An indicative gesture to the latter is that an energy assessment was used for the compilation of the Energy Plan. Given the above, the following milestones have been achieved:

- Feasibility study
- Tariff studies

The next step is to advertise the Request for Information (RFI) to source potential investors for the renewable energy solutions. It should be noted that CENTLEC (SOC) Ltd rely on Human Settlement information on the list of formalized and unformalized settlement. List of formalized and unformalized settlements received from Human Settlement include the followings amongst others:

- Klipfontein,
- Matlharantlheng,
- Rodenbeck,
- Gaba Square-Van Stadensrus,
- Khayelitsha Phase 5, Kanana C-Wepener,
- U Section-Botshabelo

Proclaimed and registered erven are electrified and additional erven form part of the MTREF program. Specific number of erven are electrified based on the allocated CAPEX for each financial year. The following is a list of electrified settlements:

- Matlharantlheng
- Hillside View
- Botshabelo L
- Botshabelo R
- Khayelitsha
- Dewetsdorp

Proclaimed and registered areas are provided with public lighting and additional areas form part of MTREF program. Specific number of areas for execution are based on the allocated CAPEX for each financial year. Areas with and without access to public lighting are listed hereunder.

1.6.9 Solid Waste and Fleet Management

Solid Waste Management's responsibility includes managing all the waste functions in the waste value chain including public cleansing, door to door domestic and trade waste collection and

management of the landfill sites to protect the environment and enhance the health of the communities of Mangaung Municipality, by providing reasonable measures for the prevention of pollution and ecological degradation. The Department is also responsible for education, awareness and compliance although the Department is presently unable to enforce the by-laws due to lack of capacity.

The main objective is to improve service delivery by increasing access to refuse removal services to communities. Waste Management is also a Constitutional Mandate through the Constitution of South Africa (Act 108 of 1996) - The right to environmental protection and to live in an environment that is not harmful to health or well-being is set out in the Bill of Rights (section 24 of Chapter 2).

It is a requirement of the National Environmental Management: Waste Act (Act No 59 of 2008) (hereafter referred to as the Waste Act) in Section 11 that each Municipality must develop an Integrated Waste Management Plan (IWMP). An IWMP provides a framework within which local municipalities can deliver a waste management service to all residents and businesses.

The Fleet Division is centralized service and responsible to make vehicles available to all Directorates of the Municipality. The Fleet Division must ensure that, on daily basis there are reliable, roadworthy vehicles to address service delivery issues. Furthermore, there should also be vehicles for monitoring thereof. The vehicles may be sourced inhouse or outsourced depending on the circumstances at the time.

1.6.10 Office of the City Manager

The function and responsibility of the City Manager is cited in the Municipal Systems Act, section 55 as outlined below:

- (1) As head of administration the municipal manager of a Municipality is, subject to the policy directions of the municipal Council, responsible and accountable for:
 - (a) the formation and development of an economical, effective, efficient, and accountable administration
 - (i) equipped to carry out the task of implementing the Municipality's integrated development plan in accordance with Chapter 5;
 - (ii) operating in accordance with the Municipality's performance management system in accordance with Chapter 6; and
 - (iii) responsive to the needs of the local community to participate in the affairs of the Municipality;
 - (b) the management of the Municipality's administration in accordance with this Act and other legislation applicable to the Municipality
 - (c) the implementation of the Municipality's integrated development plan, and the monitoring of progress with implementation of the plan;
 - (d) the management of the provision of services to the local community in a sustainable and equitable manner;
 - (e) the appointment of staff other than those referred to in section 56(cz), subject to the Employment Equity Act, 1998 (Act No. 55 of 1998);
 - (f) the management, effective utilisation and training of staff
 - (g) the maintenance of discipline of staff

- (h) the promotion of sound labour relations and compliance by the Municipality with applicable labour legislation;
- (i) advising the political structures and political office bearers of the Municipality
- (j) managing communications between the Municipality's administration and its political structures and political office bearers;
- (k) carrying out the decisions of the political structures and political office bearers of the Municipality;
- (l) the administration and implementation of the Municipality's by-laws and other legislation;
- (m) the exercise of any powers and the performance of any duties delegated by the municipal Council, or sub-delegated by other delegating authorities of the Municipality, to the municipal manager in terms of section 59:
- (n) facilitating participation by the local community in the affairs of the Municipality;
- (o) developing and maintaining a system whereby community satisfaction with municipal services is assessed;
- (p) the implementation of national and provincial legislation applicable to the Municipality; and
- (q) the performance of any other function that may be assigned by the municipal Council.

(2) As accounting officer of the Municipality the municipal manager is responsible and accountable for—

- (a) all income and expenditure of the Municipality;
- (b) all assets and the discharge of all liabilities of the Municipality; and
- (c) proper and diligent compliance with applicable municipal finance management legislation.

1.6.11 Corporate Services

Corporate Services Directorate is mainly an internally focused support function and gives strategic support to core service delivery line departments. It plays a critical role in ensuring that we have the right organizational processes to enable the delivery of enhanced service delivery to the community. In the main Corporate Services deals with the following key municipal administrative and governance processes and areas:

- Human Resource Management (Benefits Administration, Performance Improvement, Employment, Job Evaluation, Payroll, Benefits Administration)
- Human Resource Development (Traffic Training, Skills Development)
- Occupational Health and Wellness
- Labour Relations
- Legal Services
- Communications
- Facilities Management
- Information Communication and Technology
- Committee Services

Moreover, the Employment Equity Policy (EEP) is set to provide an organisational framework and basic strategies for the development and implementation of Municipality's employment equity

programme, in compliance with the prescripts of the Employment Equity Act (EEA), and to further provide guidance for the development of suitable employment equity plans for all employees.

1.7 Overall MMM Service Delivery Overview for 2021/2022

The following section will provide an overall overview of the Municipality service delivery performance for the 2021/2022 financial year by the departments.

1.7.1 Planning Department

Fresh Produce Market

The Fresh Produce Market continues to be one of the important revenue sources of the Municipality. Over the last three financial years, it has managed to exceed its revenue targets.

It continues to play its role in the Municipality of socio-economic development. It still an important player in job creation in the small business sector in the region and beyond, providing food security and a hub of economic activity among various stakeholders in the Fresh Produce Market industry.

For the last three years, the Mangaung Fresh Produce Market has consistently held position four in the country according to data provided by Fresh Mark Systems in terms of both the annual turnover generated and the mass volume of produce sold.

The Fresh Produce Market has been successful to form working partnership with SAPS in the last financial year. This partnership has been able to drastically reduce the incidents of crime in the Market. This was done through regular search a seizer operation by the SAPS on the Market and daily patrols.

In the last two years, the Fresh Produce Market has been able to form a working partnership with the Free State Department of Agriculture. This partnership has been able to introduce learners in the field of Agriculture and emerging farmers to the Fresh Produce Market as a place they can do business. This has culminated in the Department committing to inject funds in the upgrade of the Fresh Produce Market facility. This commitment is yet to be realised.

Construction of a new Community Centre in Thaba Nchu

The construction of the new community hall in Thaba Nchu has undergone the process of SCM process and the contractor has been appointed.

Rehabilitation of Arthur Nathan swimming pool

The Rehabilitation of Arthur Nathan swimming pool has undergone the process of SCM process, and the contractor has been appointed.

Construction of Fire Station in Botshabelo

The construction of new Fire Station in Botshabelo has undergone the process of SCM process and the contractor has been appointed.

Town and Regional Planning (Township Establishment Projects)

Projects in progress

No.	Project Description	Status	Challenges/Comments
1.	Township establishment Farm Klipfontein	Final layout completed; surveying completed	Environmental Impact Assessment (EIA) outstanding.
2.	Land Surveying Farm Klipfontein	Surveying completed	Awaiting EIA & Municipal Planning Tribunal (MPT) approval for compilation and submission of the SG Plans with SG Office
3.	Township establishment Farm Sepane	Layout completed	A report for submission to MPT is ready just awaiting comments from Transport Planning An application will serve in the next MPT
4.	Township establishment Remainder of the Farm Botshabelo 826, Erf K1689	Layout completed Services reports circulated; EIA submitted	Awaiting all comments and EIA approval
5.	Township establishment for the Remainder of the Farm Veekraal	Layout completed Services reports circulated; EIA submitted	Awaiting all comments and EIA approval
6.	Formalization of infill Planning (please see Table 1 below)	Please see Table 1 below	Projects at different stages Please see the table below
7.	Township establishment Ikgomotseng	Layout completed; Services reports circulated	Awaiting all comments and EIA approval
8.	Township establishment Morojaneng	New project	Appointment not yet done. Appointment will be done from panel of town planners in the 2022/23 financial year
9.	Township establishment Remainder of the Farm Selosesha 904	New project	Appointment not yet done Appointment will be done from panel of town planners in the 2022/23 financial year.
10.	Township establishment Portion 3 of the Farm Selosesha 900	New project	Appointment not yet don Appointment will be done from panel of town planners in the 2022/23 financial year.

No.	Project Description	Status	Challenges/Comments
11.	Township establishment Plot 7 Grasslands	New Project	Appointment not yet done. Appointment will be done from panel of town planners in the 2022/23 financial year.
12.	Formalization of infill projects (projects not yet compiled)	New Projects (All Wards)	Appointment not yet done. Appointment will be done from panel of town planners in the 2022/23 financial year

Environmental Management any Other Operational Activities

Apart from our day-to-day work schedule, we also attended to the following:

- Compliance inspections at the landfill sites in the South; North of Bloemfontein and Botshabelo
- Compliance inspections at the Fresh Produce Market and other sectors or directorates within the Metro.
- Inputs on environmental issues for the IPTN project
- Compile Terms of Reference for the Bid Specifications Committee to set out a Bid/Tender document for prospective bidders/service providers
- Attend and investigate urgent issues that pose a possible threat to the Environment such as the Noise and Dust Pollution; The possible ground water pollution; Report on the stream/river that flows from the Industrial Area through the townships.
- Participate in various clean-up operations with sister directorates.
- Run environmental awareness campaigns at various Car Washes;
- Start to write policies and strategies in house - such as a Tree Policy and Alien and Invasive Species Strategy for the Municipality. This policy/strategy at present is awaiting adoption from Council.
- Attend various meetings with Department of Environment, Forestry and Fisheries (DEFF), Provincial and National both and establish a good working relationship.
- Establishment of an Over Arching Committee on Environmental Issues such as Laws, by laws and other relevant topics.
- Run of awareness and education programs within our area of jurisdiction, both in house and external at schools and in the broader public domain (wards and towns)
- Give comments and make recommendations on EIA's
- Pitch a presentation to the World Bank and National Treasury for a project on Climate Resilience – Cleaning and closing of the Spruit.
- Various workshops on Climate Change and other legislation and policies presented for the incumbents of the Metro

1.7.2 Economic and Rural Development Department

Naval Hill Parking Area

The first phase was to create walkways and paths that will link the various tourist attraction points, ablution facilities and Edge Restaurant. Linked walkways were also created to the newly build Kiosk, which is now available to be rented out to contribute to the income account of the Municipality. The dedicated parking areas with the linked walkways will promote and aim to limit walking to the dedicated walkways.

This project consists of the construction of Phase 3 Parking area and the connection and linking of walkways to the parking area. The Directorate Economic and Rural Development started with this project to improve the accessibility on Naval Hill by paving walkways to link parking areas from 2018 (Phase 1) and 2019 (Phase 2) with Red Pavers and Grass Blocks as part of the Masterplan for the Redevelopment of Naval Hill.

Naval Hill Gate Design and Upgrade

Inception and concept designs were concluded.

Fan-Mile and Bloemspruit Greening

This specific project is one of the sub-phase projects of the Waaihoek Precinct Redevelopment and involves the upgrading of the Fan Mile, the paved sidewalks along Bloemspruit, which is the construction of a 2.5m wide pedestrian linkage (walkways) covering a distance of 3km pedestrian network to connect with Hoffman Square, President Brand Street, Waterfront shopping centre and the Bloemspruit inner-City park including greening of Bloemspruit, creation of seating and view areas to strengthen the pedestrian route

5. Photos

Figure 5: Fan-Mile and Bloemspruit Greening

Klein Magasa Heritage Precinct Rehabilitation

The project involves the upgrading and rehabilitation of the Klein Magasa Hall in Kadali Street, Batho, Bloemfontein. Next to the hall in Kadali Street is the residence of Caleb Motshabi, a prominent member of the liberation struggle.

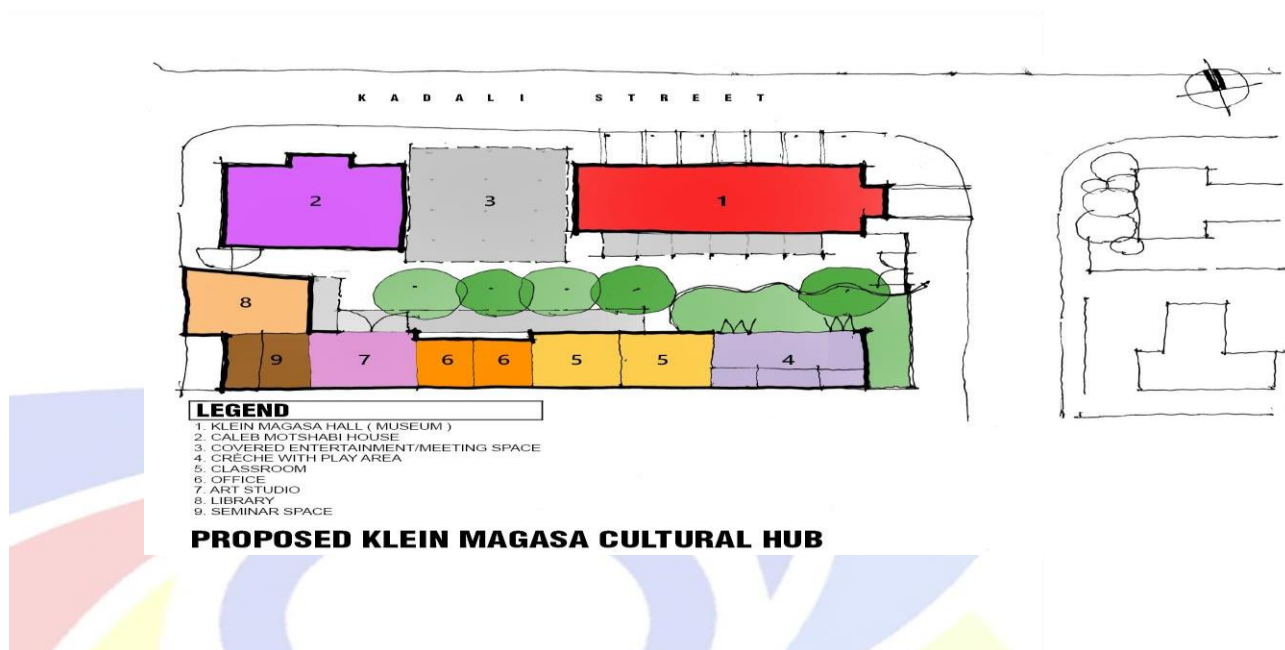

Figure 6: proposed Klein Magasa Cultural Hub

Batho is a historical urban landscape that came into existence after the displacement of the residents of Waaihoek. This specific project has a rich heritage content and involves the restoration and upgrade of Klein Magasa Precinct. The Directorate Economic and Rural Development engaged in this specific project to exploit the potential of a small cultural hub that it offers. This specific project's concept and preliminary designs were approved.

The restoration of Klein Magasa Hall in Batho, offers the potential of a small cultural hub, that could include the following:

Design of Bochabela Boxing Arena

The Bochabela Boxing Arena situated in the Batho suburb, has historical value. The Bochabela Boxing Arena has been full of rich history known for producing many boxers within the community it is an iconic space and the need to upgrade it, into its former glory is a major achievement and sentiment for the local community. The Arena to date remains a space that has depleted infrastructure, The surface area within the Arena has become uneven because of poor stormwater drainage and existing layer works.

Condition assessment of the arena and the preliminary designs have been completed. On completion of the upgrades to the existing Bochabela Boxing Arena, the facility will become a roofed, multipurpose centre capable of holding events such as:

- Boxing
- Indoor cricket
- Mini indoor soccer
- Volley Ball
- Bandminton
- Basket Ball
- Netball

- Judo, Karate and Mixed Martial Arts (MMA)
- Cultural events, Wedding functions and Musical events
- Theatre · Ball room dancing

The venue could also be used by various clubs involved in encouraging the youth to take up various sporting activities in a safe and all-weather facility

1.7.3 Engineering Services Department

Potable Water Service

The reliability and security of water supply remain a considerable challenge. The theoretical water supply deficit is 60 Mega litres per day. The Non-Revenue Water percentage is 46.54%. Additionally, the Municipality has been under water restrictions since 2014. Below are programmes and projects that were budgeted in the 2021/2022 financial year to address the challenges.

Water Security

A three-pronged approach has been adopted by MMM to address current and long-term water security concerns, namely:

1. Addressing current water distribution system inefficiencies through prioritising Water Conservation Demand Management efforts (discussed in the following sub-section)
2. Implementing the Maselspoort Water Reuse Project to address current water security backlogs
3. Implementing the Gariep Water Supply Augmentation Project to address future water security requirements.

The Municipality budgeted for the wastewater reclamation (re-use) project as part of the interventions to address water security. The project will increase water supply yield by 77 Ml/day. The specific project under water re-use is Maselspoort gravity line to Mockes dam (which is currently utilised as raw water storage), Pump station, rising main, upgrading of Mockes dam, gravity line to North Eastern WWTW and upgrading of Maselspoort Water Treatment works.

The Gariep pipeline project will address future potable water requirements for the next 20 years (up to 2040). The phasing and implementation of the above project, combined with the effects of improved Water Conservation Demand Management (WCDM) are summarised in Figure 1 below.

MMM Bulk Water Programme - Projects Implementation Timeline: System Yield vs. Demand

Figure 7: MMM Bulk Water Programmes

Water Conservation and Water Demand Management (WC/WDM)

The target for WC/DM programme was not achieved due to, amongst others, the delayed procurement process and contractual matters. The WC/WDM projects and activities are targeted at addressing both cost containment and revenue collection. Specific achievements are the commissioning of 19 Pressure Reducing Valves (PRV), the installation of 1021 conventional water meters and the installation of 4846 pre-paid water meters.

Water Refurbishment Programme

The Municipality embarked on the refurbishment of its water assets, to ensure the reliability of the water supply as prescribed in the Water Services Act. Some of the projects were affected by community disruptions (Business Forums) that demanded sub-contracting opportunities. The details of the projects are as follows:

- (i) Hamilton Park Pump station. This project will stabilise the water supply to the northern side of the Municipality. There is currently a single pump that is operational. The project is in the documentation stage and is planned for construction in the 2022/2023 financial year.
- (ii) Refurbishment of Krugersdrift Water Treatment Works (WTW). The project is in the construction phase, and the progress stands at 80%. The project will stabilise the Water Supply to Soutpan.
- (iii) Pellissier reservoir. The project is at the feasibility stage and seeks to address water supply pressure challenges around Pellissier
- (iv) Real loss reduction programme. The project is earmarked to reduce water losses on our network. The Municipality completed all planned major refurbishment work.

Water Maintenance Programme

The Water Maintenance Programme encompasses the repair of reticulation leakages, pipe bursts and sealing and cleaning of reservoirs. The Municipality did not achieve its target of attending all

complaints within 24 hours as prescribed under MFMA Circular 88. The main causes of unsatisfactory performance are the lack of tools, equipment, budget and human resources.

Sanitation

The Municipality is faced with a massive backlog on waterborne sanitation, refurbishment of assets, and bulk infrastructure and maintenance provision. Below are programmes and projects, that were budgeted for in the 2021/2022 financial year, to accelerate eradication of these backlogs.

Refurbishment of Sewer Systems

The physical progress achieved on unplanned refurbishment was 95%. The progress was affected by community disruptions (Business Forums), who demanded subcontracting from contractors appointed by the Municipality.

Bulk Sanitation Infrastructure

The City plans to upgrade its Wastewater Treatment Works (WWTW) by 75 Mega litres per day capaCity. The overall programme will encompass the North East WWTW (30 Mega litres per day), Sterkwater WWTW (13 Mega litres per day), Botshabelo WWTW (20 Mega litres per day) and Thaba Nchu WWTW (12 Mega litres Per day). Only Thaba Nchu WWTW was planned for construction in the IDP target of 2021/20212 and the project is progressing well and is at 22% with the budget spent at 45% despite the delayed commencement.

The other bulk sanitation project that was planned for 2021/2022 IDP, was the main outfall sewer in the Botshabelo region, which is currently flowing at full capaCity. This means that there are no new connections that can be achieved until this bulk sewer line is upgraded. The project is at the design stage and planned for construction in the 2021/2022 financial year.

Waterborne Sanitation Backlog

The Municipality decided to convert all Ventilated Improved Pit (VIP) latrines, unimproved latrines and buckets into a full waterborne system. The City still has a massive backlog due to, amongst others, bulk constraints and budget. The budget allocated for the programme was significantly small; hence it was moved to cover the deficit under the bulk infrastructure.

Sewer Maintenance

The Sewer Maintenance Programme encompasses the unblocking of sewer, sweeping sewer lines, and rebuilding and replacing manhole covers. The Municipality did not achieve its target of attending all complaints within 48 hours, as prescribed under MFMA Circular 88. The main causes of unsatisfactory performance are the lack of tools, equipment, budget and human resources.

Roads and Stormwater

Operational budget

Under operations and maintenance, the Municipality had targeted to undertake maintenance of unsurfaced roads to the length of 750 km, but 1462.32 km length was achieved. The target was planned due to budget constraints and an unreliable fleet. The 1462.32 km achieved is only 65 % of the total unsurfaced network of roads. The total thereof is 2227 km.

For surfaced roads, the City had a target of resealing the total length of 8 km, but 8.28 km of surfaced road length was resealed. The targets were set after consideration of budget constraints and unreliable fleet. The City is still budgeting way below the recommendation of MFMA circular 71 which recommends 8% of the value of the asset to be budgeted for maintenance. 8.28 Km was achieved through the Resealing Program that was funded through USDG.

Capital Programme

At the start of the 2021/2022 financial year, the Roads and Stormwater sub-directorate had twenty-three (23) capital projects on the Service Delivery and Budget Implementation Plan (SDBIP). These capital projects included two projects of catalytic nature, i.e., T1534: Vereeniging avenue extension: Bridge over rail and T1534B: Vereeniging avenue extension: Roads.

Projects that were not achieved

Seven (07) projects of the twenty-three (23) capital projects were targeted to achieve a milestone of completion of designs with intersections upgraded targeted to procure contractors as well. However, four (4) projects managed to have their designs complete, two (2) projects achieved preliminary designs, and on the other project, there was no achievement at all due to budget constraints.

One (01) project of the twenty-three (23) was targeted to achieve a milestone of construction stage in the 2021 / 2022 financial year. Two (02) projects were targeted to be at implementation stage, projects being roads and stormwater master plan and refurbishment management systems. These projects did achieve targeted milestones.

Eight (08) projects of the twenty-three (23) were targeted for completion in the 2021/2022 financial year. The idea was to deliver 12.9 km of new lanes built, 1 bridge and associated interchange and to attend to five (5) areas under stormwater refurbishment. One (01) project was completed in 2021/2022, delivering 2.64 km of new lanes built. Other seven (07) projects that were targeted to be completed are in the construction phase.

Areas that were targeted under stormwater refurbishment are Botshabelo W section, Botshabelo West, Botshabelo industrial area, fort street and Heidedal, Perish Avenue. However, only Botshabelo West and Botshabelo Section W, could realise a construction phase only with other areas realising just problem investigation. The main challenge affecting stormwater refurbishment program is constrained budget.

Challenges experienced

- Ineffective project and contract management processes.
- The Municipality has a great plan of working or supporting the Qualifying Small Enterprises (QSE) contractors, but this great plan requires the Mangaung MM to be timeous in compensating the month-to-month works. Delayed payments contribute to the delay of capital projects.
- The Municipality should invest to ensure that engineering personnel attend Continuous Professional Development (CPD) courses every year. Working with minimum creativity and confidence in your work affects the delivery thereof; projects are delayed because project managers are working, while referring more than it would benefit the projects.
- The Engineering Services or, more relevantly, Roads and Stormwater sub-directorate have too much vacancy rate, which makes the personnel work on overload basis.

Proposed action

A portion of the 3% of USDG allocation should be utilised for financing the continuous professional development of the engineering services personnel.

Technical and contractual decisions that are not affecting the budget should be delegated to the Chief Technical Officer or the HOD: Engineering Services.

Vacant positions should be filled; this would assist in the implementation of projects, and it could assist in bettering the support given to the processes of procurement.

Planning of projects implementation periods should accommodate lengthy compliance requirements required by finance department.

1.7.4 Solid Waste and Fleet Management Department

Although waste collection functions were augmented by contracts that collect waste from businesses and complexes, the targeted 95% of households receiving a basic refuse removal was not achieved due to severe shortage of compaction vehicles, but only 55.6% could be achieved. Out of 47 known informal settlements one informal settlement at R Section in Botshabelo had no access to refuse removal due to non - availability of access roads. 291 clean ups/removal of illegal dumps and 211 awareness and education sessions were conducted and 21 compliance notices in terms of the Municipality's Waste Management by-laws were issued within 72 hours after identification of culprit /s. By the end of the financial year, the draft review of the 2016 Integrated Waste Management Plan (IWMP) had been submitted to Council for noting, as the draft still had to go through other processes before approval by Council.

The Department also benefited in the Presidential Stimulus Programme, where participants that were allocated to Solid Waste assisted with the cleaning of open spaces and public cleansing generally.

The Fleet Division has also attended to 625 vehicles brought for minor maintenance, serviced 160 vehicles, and inspected 420 vehicles for roadworthiness.

Challenges

- Lack of adequate resources to collect waste as per Collection Schedule is a huge challenge.
- The landfills not operating in line with their license/permit conditions and are therefore non-compliant. This is partially due to lack of suitable plant, equipment and skills deficit.
- The Department could not implement 13 of its Capital projects. This was either due to incorrect specifications, expired validity period or funds being moved during the adjustment budget. The procurement processes were further delayed when procurement was on hold after the Preferential Procurement Regulations case between 16 February 2022, until lifted on 30 May 2022.
- Budgetary constraints.
- Finalisation of the procurement processes on time delays the completion of a number of capital projects on time.
- Delays in paying the service providers on time for service rendered.

1.7.5 Centlec Department

Performance on Service Delivery and Budget Implementation Plan (SDBIP) was utilised to evaluate, monitor and report achieved and non-achieved targets. From this, the Entity saw an average increase of 0.91% in overall prepaid sales. This was achieved by revenue enhancement, which was enforced by prepaid meter audits and rotational meter conversion to prepaid meters. The Vending Systems was upgraded to a Standard Transfer Specification (STS) compliance version 2 for 2024 readiness.

CENTLEC (SOC) Ltd was hard hit in that there was an average decrease of 4.48% in bulk energy purchases. The overall energy sales analysed depicts the top twenty (20) customer decline with an average of 7.8 % as compared to the previous financial year. Losses are 10.92%, which is below the NERSA benchmark of 12%. Performance on Service Delivery and Budget Implementation Plan (SDBIP) was utilised to evaluate, monitor and report achieved and non-achieved targets. From this, the Entity saw an average decrease of 2.51% in overall prepaid sales. Revenue enhancement thus needs to be enforced by prepaid meter audits and rotational meter conversion to prepaid meters. The Vending System was upgraded to a Standard Transfer Specification (STS) compliance version 2 for 2024 readiness.

The Entity executed inspections and remedial work on the 132kV overhead lines in the Mangaung Metropolitan Municipality (MMM) area of supply. This project was mainly implemented to minimise power outages and to improve the quality of supply to all customers. A total of 477.92 kilometres of 132kV line was inspected. The inspections were done to ensure reliable network and compliance with the NRS standards. Amongst the achievements, fifteen (15) high masts were erected and commissioned. Further to this, 348 DC Transformer Inspections were completed and 504 Distribution Centre Panels tested for the financial year (FY) 2021/2022.

1.7.6 Social and Municipal Police Service

Social Services

Capital projects

70% of the Sub-Directorate's capital projects were executed on time and within budget. The directive in February 2022 from National Treasury effectively suspending the procurement processes to the end of May 2022, unfortunately resulted in three projects not being successfully completed.

Fire Safety

A total of 2 410 (Target: 2 340) fire safety inspections were conducted during the period under review. While the targets in respect of the high and moderate risk categories were not achieved the target relating to low category premises were exceeded mainly due to an increase in demand for inspections at the last-mentioned premises.

All (100%) building plans submitted to the Fire and Rescue Service for scrutiny were handled within 5 working days after the plans had been received. The target was to deal with 80% of the plans within 5 working days. The aim is to ensure that developers do not experience delays in obtaining approval for construction projects.

Fire suppression

The extensive geographic area of the Municipality remains a challenge for the Fire and Rescue Service as it often translates into lengthy response times and pose a considerable veldfire risk.

Out of 384 responses to structure / building fires, only 57,81% of the responses had the first fire engine arrive on the scene with 14 minutes. The solution is the opening of closed fire stations to reduce response distances.

Veldfires again severely tested the mettle of the Fire and Rescue Service.

The "Burn Scars" graph depicts the number of veldfire incidents in Mangaung during respectively the 2019, 2020 and 2021 veldfire seasons.

Figure 8: Burn Scars (Veldfire)

The "Hectares burnt" graph indicates that the area damaged by veldfires during 2021 is nearly three times that which was damaged during 2020.

Figure 9: Hectares Burnt

The Fire and Rescue Service, like most other municipal services, is severely affected by the limited resources available. The Metro's active participation in the Mangaung Fire Protection Association has contributed greatly to the successful managing of the veldfire challenge.

Challenges

- 2 Construction of Regional Parks (Grassland and Turflaagte) could not be realized, due to budget cuts and funds moved to Nalisview Cemetery project
- Upgrading of Bloemfontein Zoo did not realize due to budget removed during Adjustment Budget

Municipal Police Services

- 12 Crime Prevention activities conducted targeting known hotspots
- 12 Street trading operations conducted
- 882 Notices issued to motorists driving un-roadworthy vehicles
- 807 Notices issued to motorists driving without safety belts
- Project completed on Traffic Contravention system installed

1.7.7 Human Settlement Department

The Catalytic Programme is under construction in Vista Park 3 with internal services completed comprising roads, stormwater, water, and sewer. The Developer is constructing internal services including electrical infrastructure for extensions 261, 262, 263, which are identified for subsidised housing. On the other hand, there has been not much progress in Vista Park 2 that is concerning. The Directorate is working on the issues that are impeding progress so that works can commence.

There is satisfactory progress in the Hillside View project with houses already constructed and completed although there are a few challenges in terms of bulk sewer. One of the main challenges in Hillside View project is the outstanding matter of the Social Housing Institution (SHI), for the management of the social housing units. Upon the completion, Council had not concluded on the matter as a result, the Developer is managing these units outside the framework of the Social Housing Act. It is imperative that Council prioritise this matter and provide direction.

The Directorate is implementing the Upgrading of Informal Settlement Programme and had a target to upgrade 3500 households to phase 3 of the programmes i.e., provision of individual access to basic services “water and sanitation”. Three projects for the provision of water and sanitation are under construction in three informal settlements for a total of 245 households. There are two projects of water reticulation under construction targeting a total 5 265 households almost completed. The Directorate has scheduled the completion of these project in the first quarter of the 2022/23 financial year. In another project of water reticulation targeting 1799 households, a contractor was appointed however, the project was stalled due to an interdict by the court, due to litigation from one of the contractors who bid for the project. The case will sit on the 2nd October 2022 to make a decision on the project. Four more projects of informal settlements are at Bid Specifications committee to be advertised to appoint Contractors for the construction of water and sanitation to 718 households, while three projects will be re-advertised for the provision of sewer to 4463 households. The Directorate is working with appointed consultants to ensure that these projects get implemented and completed.

A total of 359 erven are identified for sale for affordable market. The projects for the provision of water and sanitation to these settlements are at Bid Specific Committee and contractors will be appointed by November 2022. The erven will be valuated and offered to the households in the affordable market to construct their own houses reducing the housing backlog of the Metro.

In terms of the provision of tenure security, we managed to issue 760 households with Permission to Occupy (PTO's) and 416 title deeds registered. These numbers are below the target however, there are several title deeds that are in the process of being registered by the instructed conveyancers and there are challenges with many households not coming in numbers to collect their title deeds. The Directorate is sitting with over 9000 title deeds and to speed the issuing, verifications will be speeded up and wards will be visited to issue title deeds to their rightful beneficiaries.

The Municipality in the new financial year has put in place measures to accelerate the programmes that were performing slowly.

1.7.8 Office of the City Manager

The Office of the City Manager has continued to operate its functions effectively. This Office comprises of the office responsible for IDP and Organisational Performance, Risk and Anti-Fraud unit, Internal Audit, Integrated Public Transport Network (IPTN), Knowledge Management, Intergovernmental and International Relations.

For the financial year under review, the Internal Audit Unit has completed 38 internal audit reviews and issued reports with recommendations to Management on internal control deficiencies found.

The office is also responsible in ensuring that the overall performance of the Municipality is monitored, evaluated and reported according to Council, including the implementation of Circular 88. The Internal audit continues to audit all the information reported by department and other audit related matter as per their audit plan and the Risk office ensures that all risk identified are mitigated on time. The IPTN unit is performing at 70% of its planned target. Lastly, the IGR and Knowledge Management units are functional and able to partially achieve their targets as well.

Challenges

The challenges in the City Manager's office are a lack of human resource capacity in some sub directorates. The implementation on some programmes and projects was hampered largely by delayed project payments, poor project implementation and community unrests.

Proposed Action

The Municipality in the new financial year has put in place measures to accelerate the programmes that were performing slowly, to date comprehensive engagement with the taxi industry is being implemented, the ITPN structure is being reconfigured, delayed projects are being fast-tracked etc.

1.7.9 Corporate Services Department

Committee Services:

Election of Office Bearers post 2021 Local Government Elections

During the financial year 2021/22 was the year that marks the end of term of council of 2016 on October 2021 and ushering of new municipal councils. MMM held the inaugural meeting to elect office bearers on 22 November 2021 in accordance with the Municipal Structures Act, Act 117 of 1998.

Processes leading to inaugural meeting were undertaken and completed by the 10 November 2021, and the inaugural meeting took place on 22 November 2021, wherein

- 1) A new municipal council and office bearers were elected on 22 November 2021.
- 2) The ward committee was dissolved on 31 October 2021 and the process to elect new ward committees was concluded by way of council resolution, of which these meeting was held on 08 December 2021.
- 3) The composition of multiparty committee was finalized through the office of Council Whip on 28 January 2022, and all committee started to perform their functions in earnest from 3 February 2022 and all our governing structures are now functional.

The following are the 5 committees of Council which are fully functional:

SECTION 79 COMMITTEES	
1	Public Places and Street
2	Remunerations
3	Petitions and Community Liaison
4	Municipal Public Accounts
5	Rules

The following are the 5 committees of the Executive Mayor which are fully functional:

SECTION 80 COMMITTEES	
-----------------------	--

1	Public Safety
2	Social Services
3	Corporate Services
4	Human Settlement
5	Rural Development
6	Planning and Economic Development
7	Finance
8	Infrastructure
9	Waste and Fleet Management

Challenges at Committee Services

During the year under review, committee services sub directorate faced challenges regarding provision of tool of trade in the form of municipal vehicles to deliver Council and Council committees' agendas. A point of emphasis is that the drivers or mobile messengers must ensure that the delivery must take place 48 hours prior the meeting of council documentation, and this contribute to execution of delivery beyond the call of duty and can even be extended to weekend depending on when the reprographic staff complete their printing schedule. It should be further noted that the turn-around time for the formulation and circulation of all Committee minutes is 48 hours or 02 days after the sitting of such meeting aimed at ensuring that decisions are implemented timeously.

High Vacancy rate is another challenge, whereby Committee Services is worst affected mostly in supervisory positions that are vacant and staff members at lower levels had been performing responsibilities functions of higher positions. A case in point is three members, who were appointed as Dispatch Aids, yet performing work secretarial support functions. Moreover, two manager positions became vacant as far as May 2014 and the other became vacant in January 2021. These critical positions remain vacant today.

Human Resource Management

The strategic objective of human resource management is to lead, manage and direct human resource within the Municipality. In the recent past the following strategic project has been completed:

Organisational Structure:

- **Integrated Public Transport Network (IPTN) Structure** – The Sub-Directorate structure of the Hauweng (IPTN) Unit has recently been approved and the positions have been created on the official Staff Establishment. Appointments have also been made in this structure in anticipation of the operationalisation of bus service which shall take place soon.
- **Political Office Bearer's (POBs) Structure** – Huge strides have been made in rightsizing the structure for the support staff of Political Office Bearer's support staff. This has been done by substantially reducing the number of the support staff to align them with those prescribed in the Local Government: Municipal Staff Regulations as promulgated in September 2021. This structure has served in all committees for mandatory consultation and will soon be submitted to council for approval.

Municipal Police Service:

- The process for the establishment of the Metro Police has been put in abeyance, as per the directives of the National Treasury, citing the current financial constraints of the Municipality.

Integration of Payroll:

- The process to integrate payroll with other HR systems is at an advanced stage. The Payroll-Focus module has been procured, but the process to migrate to this system has been stalled due to the possible non-compliance with mSCOA. This matter will be addressed to ensure compliance with mSCOA requirements.

Vacancy Rate:

- Municipality is currently experiencing a high vacancy rate of 50.58% in relation to all approved positions on the Staff Establishment. The reduction of this figure remains a challenge amidst the budgetary constraints of the organisation.

Reducing of Overtime payments:

- Excessive expenditure on overtime continues to be a thorn on MMM's side, and it remains abnormally high. Efforts to bring it in line with budget and within legislative provisions have been unsuccessful as user-directorates continue to exceed the prescribed budget and legislated overtime hours.

Reducing of Acting Allowances:

- In relation to the above mentioned the payment of Acting allowances have also dramatically increased over the past twelve months and is receiving the urgent attention.

Electronic Leave Management system:

- An electronic Leave Management System (My Focus), which is a comprehensive Employee Self Service (ESS), solution that enables personal details administration and selected workflow routing (Leave applications, Performance Management, and e-Recruitment) have been introduced.
- The My Focus Self Service Module was successfully implemented in the Corporate Services Directorate. Information and Training Sessions then took place during March 2020 for employees in the Directorates of the Office of the City Manager, Economic and Rural Development and Strategic Projects and Service Delivery Regulations.
- After training employees were provided with the live link to the system to apply for leave online and update their personal details. These employees have however, not utilized the system given that shortly afterwards a National State of Disaster was declared, and the country was placed on a National Lockdown.
- Employees will also be given the opportunity to attend individual training sessions, should they feel the need. This can however only be implemented once proper resources are available such as computers, printers, and scanners.

- Currently, the challenge with rolling out the module to all user Directorates, is a lack of resources. The option is currently under investigation that provision is made for employees to apply for leave via the Municipal Intranet via their smartphones.

Individual Performance Management System:

- The Municipality is continuing to receive Municipal support from SALGA National on best practice in terms of introducing and implementing the system. The intervention also covers HR capabilities optimization such as Talent Management; Succession Planning; Exit Management; Sourcing and Placing etc.

Human Resource Development:

Even though there were challenges we faced throughout the year, a lot was achieved and it's only fair that we capture and celebrate our gains for the year.

What was planned to be implemented in the financial year 2021/2022 could not easily be implemented, because of Covid 19 regulations, capaCity constraints and new LGSETA guideline on grants application process.

Despite above difficulties several training intervention programmes were successfully organised and delivered through contact and virtual sessions. During the year in question HRD sub directorate managed to develop the Workplace Skills Plan (WSP) and submit it within the timeline. Most of SDBIP targets were achieved and the Risk Mitigation and preventive measures were successfully implemented.

Although we have appointed a panel of three Skills Development Providers (SDPs), that is not enough, a process of augmentation has begun and that will be finalised in the current financial year 2022/23.

The following projects were achieved:

- Workplace Skills Plan (WSP) and Annual Training Report (ATR), submissions for the year in question was realized, acknowledged, and awaiting approval from LGSETA.
- Successful Discretionary Grant (DG) application completed, awaiting implementation of programmes.
- Report on Minimum Competency Level Regulations
- The online Skills Development Questionnaire was utilized to identify, and capture skills needs of employees within the different directorates.
- A total of three (3) Skills Development Providers (SDPs) has signed contracts and have been appointed on a panel to assist the sub-directorate to execute training on the following programmes: (1) Construction Road works Level 3 and (2) Municipal Finance Management Level 6.
- HRD Sub Directorate managed to meet its target as per SDBIP targets for 2021/22 of implementing 5 learnerships. Municipal Finance (on-going), Paralegal, ICT, LED 4 & 6 learnership programmes were completed.

Study Assistance Scheme

YEAR	ADMISSION	COMPLETION
2021/2022	23	22

Internships:

Municipal Financial Management	Pioneer Business Consulting NQF Level 6	28	11	17	2	25	1
National Certificate: Information Technology: Technical Support/System Development	Africa Training College	5	2	3		5	

Legal Services:

Legal Services provide professional legal advice and assistance to the Municipality to ensure the proper protection of the Municipality's interest and compliance with its obligations. The sub-directorate consists of the By-laws, Contract and Performance Management as well as Litigation sections.

Administration:

Achievements

- Legal Service has established a MMM Legal Corner, which contains relevant case law, legal opinion, presentations of Legal Services, updated by-laws, FAQ etc.

- Legal advice has taken part in the National wills week for the past three years.
- During interactions with other municipalities in other provinces, it was found that the legal challenges are the same in all municipalities. In order to share information, ideas, resources etc. a Municipal Consultative Forum was established. The Forum consists of various Metro Municipalities and have established a good working relationship.
- Legal Services has managed to always achieve the targets set in the SDBIP with a hundred percent achievement. A quarterly workshop is held to inform and empower the municipal employees and councillors on legislative matters in regard to legislation, legal precedence and any legal issue that need to be conveyed to employees and councillors.

Challenges

- There is currently a 50% vacancy at Legal Service, which places severe pressure on the General Manager and the existing Employees to fill in the “gaps” for the vacant positions. The position of Manager litigation and the Manager by-laws is currently vacant and must be filled urgently.
- The current structure of Legal Service is also in the process of being revised and this will improve the performance of Legal Services extensively.

Litigation:

Achievements

- To supplement the staff at Legal Service, Legal Services embarked on a project whereby young, admitted attorneys from law firms, who were on the municipalities panel, were contracted to be utilized by the Municipality daily.
- Notwithstanding the post of Manager: Litigations being vacant, Legal Services has still managed to execute the functions of litigation.

Challenges

- MMM placed under Provincial Intervention due to financial issues. The inability to pay Services Provider resulted in an increase litigation against the Metro. Legal Services compelled to pay litigation cost, as well as cost outstanding on capital projects in terms of Court Orders.
- Unstable senior management impacts negatively on performance of the Municipality, which increases litigation.
- Solution would be to stabilise senior management by ensuring appointment of City Manager and HOD's to provide stability, leadership, and good governance.

By-Laws:

Achievements

- Twenty-seven (27) by-laws revised for rationalization process.
- Nine (9) new by-laws developed.

Challenges

- Council sittings to consider and approve draft by-laws.
- Committee sittings for consideration of draft by-laws for Council approval.
- Inability to conduct public participation processes due Covid 19.

Contract Management:

Achievements

- To enhance the performance of contract management in the Municipality, a Contract Management Committee has been established. The Committee is fully established and consists of members from the various Directorates and project managers.

Challenges

- Meetings which are scheduled are not adequately attended.
- Meetings are scheduled from the Office of the HOD, and instability has resulted in suspension of these meetings.

Legal Services plays a vital role in the protection and promotion of the rights of the Municipality. For Legal Services to execute its functions effectively and efficiently, the cooperation and active participation of all Directorate is of vital importance

Occupational Health and Wellness:

Occupational Health and Safety Act 85 of 1993 requires the employer to provide and maintain as far as reasonable and practical a work environment, that is safe and without risk to the health of employees. This means the employer must ensure that the workplace is free of hazardous, ergonomics and substance, microorganism etc., which may cause injury or diseases. Where this is not possible the employer has to inform the employees of the risk and dangers, and how these may be prevented. Mangaung Metro Municipality for all its employees, is legally obliged and committed to create a healthy and safe environment.

Challenges

- Immunization fridge: To maintain cold chain, an option of generator to maintain cold chain during load shedding.
- Audiometer: for eye testing
- Spirometer: lung function testing
- Examination instrument: Hypertension testing machine, ear, eye testing (ENT) machine
- Stainless steel chairs: they are meant for public places, to prevent cross infection (infection infections).
- Cubicle equipment: blanket, towels, pillows, pillowcase, glass barriers/screens
- Medical Attire: attire for health staff infection control
- Washing Machine: for washing of towels and clinic material
- Air conditioners for the cubicles and reception
- Refurbishment of the clinic

- Appointment of critical vacancies (Doctor, Psychologist, Receptionist and Messenger/Driver)
- Going green (Paperless and Green Environment)
- Migration from manual to digital filing
- All cubicles must have computers, except the laptops that the occupational health nurses utilize especially when doing administration and visit
- Record keeping (migration to technology)
- Record keeping for forty years (OHS Act 85 of 1993)
- A need for all the files to be captured on computer to avoid loss of information due to disasters.

Facilities Management:

Facilities Management is responsible for the maintenance and upkeep of an organization's buildings, ensuring that they meet legal requirements and health and safety standards and the following projects for 2021/2022 were implemented:

Achievements

- Installation of two stage diesel pump for Bram Fischer Building
- Fire Detection Systems in the MMM buildings.
- Upgrading of the 5th Floor at Gabriel Dichabe.
- Refurbishment of aircon units at Thaba Nchu Regional Offices.

Challenges

During and over the period of the past two financial year's Facilities Management has since noticed a decrease in revenue of its venues. The burning of the City Hall as the Municipality's attraction and the COVID – 19 Pandemic also contributed to a further zero revenue.

- Budgetary constraints.
- Under staffing.
- Lack of qualified artisans in certain trades
- Lack management support and understanding of Facilities Management environment.

Labour Relations:

Labour Relations mandate is to manage and implement sound Labour Relations practices in accordance with the relevant legislation so that harmonious relations between the employer and employees are maintained, historically the role of Labour Relations has broadly been to advise both Management and Employees and to represent Council at the Bargaining Council.

Achievements

- During the last financial year, Labour Relations Officers were assigned various Directorates, to ensure prompt service. This has improved our ability to serve our internal clients and we hope to strengthen this strategy going forward.
- Also, the Sub Directorate had previously embarked on informational sessions with employees educating them on the various collective agreements, more than 700 employees were trained.

- Labour Court Cases: Number of Labour Court cases have been reduced considerably, despite great progress made, the momentum was severely hampered by Covid-19.

Challenges

The above mandate has been blurred due to the need for Labour Relations Officers being employer representatives in disciplinary hearings due to the shortage of officials who can do this function. The unintended consequence of this practice is that employees may lose confidence in Labour Relations to give it advice. There is thus a need to clearly define the role of the sub-directorate.

- Labour Relations Sub-Directorate has been without leadership for more than 3 years, with the General Manager seconded to Legal Services to deal with by-laws. The position of Manager Labour Relations has not been filled and it remains vacant. Non-compliance with legislation and or policies, e.g., Collective Agreement Disciplinary Procedure, Grievance Procedure, Acting Procedure, etc. This causes unnecessary disputes that ultimately lead to litigation.
- Labour laws evolve continuously, and Labour Relations Practitioners need to reskill to keep up with the changes in Labour Law.
- Labour Relations Officer (LRO's) have not been able to obtain any form of development to better their performance because of lack of funds. The unit is not consulted on labour related issues by line function managers for advice, but only when disputes arise.

Information Communication and Technology:

ICT's priority is to enable the Municipality to function in an efficient manner, by means of providing tools of trade and granting access to application systems. It is also responsible to connect all municipal regions to create a metropolitan network for communication purposes.

Achievements

- Implemented and rolled out Microsoft Teams to all employees, including Councillors to host virtual meetings during the nationwide lockdown.
- Procured a backup server as a risk mitigation factor to ensure that the Municipality's information is backed up and replicated.
- A Service provider has recently been appointed for the completion and approval of the current Draft ICT Governance Policy by Council.
- Number of Municipality's wide projects and/or programmes implemented that catapult Municipality in the direction of a SMART CITY
- A workshop was held, and the draft 4th IR Roadmap developed for submission to the ICT Committee.

Challenges

- High managerial vacancy in ICT.
- Lack of ICT skills provided for officials.
- No approved ICT policies.
- Inadequate allocation of ICT budget.
- No critical service providers appointed to provide critical IT services such, as procurement of goods and services.

1.7.10 Financial Health Overview

Reduction of interim readings

Almost through the year, the Municipality managed to have an average (21%) interim reading. Failure to access properties, covered / hidden meters etc. are some factors, which led to interim readings. Installation of pre-paid water meters is ongoing and has therefore substantially assisted in maintaining interim readings within the set target. Thus far the Municipality have successfully managed to install approximately thirty-five thousand (35 000) meters throughout the Municipality for both residential properties and businesses. Functional handheld meter reading devices have also positively contributed to the reduction thereof.

Consumer accounts issued to correct addresses

The Municipality must ensure that all revenue due to the Municipality is calculated on a monthly basis and collected. It is therefore of utmost importance that municipal accounts are issued to correct addresses. Approximately twenty-five (25%) percent of consumers have registered to receive their municipal accounts electronically. We are intending to register more consumers to receive e-statement, which is rapid and cost effective. The Municipality has developed a municipal website account portal, where consumers can look up outstanding municipal account balances for payment of accounts.

Improved collection rate

Implementation of the Council's credit control policy has impacted positively on the collection rate. At year end, the collection rate was at (81%) percent. Although there has not been much success on collaborating with Centlec for collection initiatives, the exercise will still be pursued in the new financial year. The debt incentive scheme will also be re-introduced in the new financial year, which aims to encourage all consumers to pay their municipal bill.

Defaulting businesses litigated

The two (2) companies that were appointed to assist the Municipality with the collection of debt for businesses that have failed to meet their obligations has ended. However, there are three-hundred and fifty-two (352) businesses that have been litigated and processes are still undergoing. This will bring substantial increase in the collection of revenue from the settlement of those litigations of businesses.

Updating of fixed asset register

The Municipality's fixed asset registers have been successfully updated.

Compliance with SCM Policy and awarding of contracts in line with SCM regulations

As per Section 111 of the MFMA, each Municipality must have and implement Supply Chain Management policy, which gives effect to the legislative mandate. The objectives of the Policy, amongst other entails:

- Transform procurement provisioning practices in the Municipality into an integrated SCM function.
- Promote consistency in respect of the SCM Policy and other related policy initiatives in the Municipality.
- Ensure that expenditure on goods and services is incurred in terms of an approved budget in terms of Section 15 of MFMA.
- Ensure that any Treasury guidelines on procurement are properly considered.

The Municipality have fully complied with all SCM legislative requirements and ensured the following aspects were adhered to:

- Approval of the annual Procurement Plan of the Municipality by the Accounting Officer.
- Sourcing of quotations from different providers preferably, but not limited to providers whose names appear on the Central Supplier Database as mandatory requirement of Section 14(1)(b) of the Municipal SCM Regulations.
- Advertisement of bids on newspapers and Municipal website.
- Submission of quarterly reports, as well as the Annual Report to Council on the implementation of the Municipal SCM Policy.

Fiscal Prudence

- The Municipality has ring-fenced all conditional grants to ensure timeous payment of all CAPEX creditors.
- Reduction of debt to Bloemwater in line with payment arrangement.
- Improved settlement of outstanding creditors.

Compliance with legislative requirements

The following requirements were complied with:

- Timeous submission of reports to Treasury in line with Sections 71 and 52 of the MFMA.
- Timeous submission of annual and consolidated financial statements to the Auditor General
- Tabling and approval of the credible and funded budget as well as the adjustment budget.

Chapter 2 – Governance

Components A: Introduction

Municipalities in South Africa are governed by Municipal Councils. Mangaung Council is therefore the governing body of the Municipality and the custodian of its powers, duties and functions are both legislative and administrative. Essentially, the Council performs a legislative and executive role. The Constitution of the Republic of South Africa, 1996, Chapter 7, Section 160 (1) defines the role of the Council as being:

- (making) decisions concerning the exercise of all the powers and the performance of all the functions of the Municipality;
- (electing) its chairperson;
- (electing) an executive committee and other committees, subject to national legislation;
- (employing) personnel that are necessary for the effective performance of its functions.

Municipal Council comprises the governing and the decision-making body of the Municipality, whilst municipal officials focus on implementing the decisions made by the Council. Council determines the direction for the Municipality by setting the course and allocating the necessary resources. It further establishes the policies, and municipal staff ensures that those policies are implemented. Decisions made at Council or Committees levels are often the result of a lot of research, consultation and advice from staff, residents, business community, and interested parties. Often there are competing interests and financial constraints that must be considered.

Component B: Political and Administrative Governance

2.1 Political Governance

The Mangaung Metropolitan Municipality is governed by a Council led by an Executive Mayor. All major policy and administrative decisions are presented, resolved and implemented after the approval by Council. The political system in the Municipality is functioning well in that all major committees and participatory organs in the Metro are fully functional. There is a functional Audit Committee that periodically provide advice to Council. There is a Municipal Public Accounts Committee (MPAC) that continues to interrogate municipal performance and thus assist the Municipality to act in the manner that assist service delivery. The Annual Report is publicised for scrutiny and comment of the public as well.

2.1.1 Political Structure of MMM

- 1) Executive Mayor: Councillor Mxolisi A Siyonzana
- 2) Deputy Executive Mayor: Councillor Mapaseka M Mothobi-Nkoane
- 3) Speaker: Councillor Stefanie B Lockman-Naidoo
- 4) Chief Whip: Councillor Vumile E Nikelo

Table 3: Members of the Mayoral Committee

Members of the Mayoral Committee	Responsible Councillor
Infrastructure	Cllr Morake (Molefi Andries)
Social Services	Cllr Tladi (Motshewa Martha)
Solid Waste and Fleet Management	Cllr Matsoetlane (Meditaba Joyce)
Public Safety	Cllr Mogotloane (Thabo Joel)
Human Settlement	Cllr Van der Ross (Kevin Etienne)
Planning and Economic Development	Cllr Jonas-Malephane Vuyelwa
Rural Development	Cllr Twala (Pani Sidney)
Corporate Services	Cllr Mosala (Motlhokung Theodora)
Finance	Cllr Titi-Odili Lulama
Chairperson: Petitions and Community Liaison	Cllr Qai (Alfred)
Chairperson: Remunerations	Cllr Nhlapo (Ntombi Anna)
Chairperson: MPAC	Cllr Mokoakoa (Mpho Isaac)
Chairperson: Public Places and Street Naming Committee	Cllr Seleke (Puseletso Leticia)

The Mangaung Council is constituted by 101 elected public representatives of which 51 are ward representatives and 50 represent their political parties on a proportional basis. The parties in Council are illustrated in the table below.

Table 4: Political Parties Represented in the Council

Political Parties in Council	Total Seats	Ward Seats	PR Seats
ANC	51	40	11
DA	26	11	15
EFF	12	-	12
FFPLUS	5	-	5
ASSD	2	-	2
PA	2	-	2
ACDP	1	-	1
AIC	1	-	1
ATM	1	-	1
TOTAL	101	51	50

Table 5: The Governance Structure of Mangaung Metropolitan Municipality

Structure	Responsible for	Oversight Over	Accountable to
Council	Approve policies and budget	Executive Mayor, Mayoral Committee and Audit Committee	Community
Executive Mayor	Policies, budget, outcomes, management and oversight over City Manager	City Manager	Council
City Manager	Outputs and implementation	The administration	Executive Mayor
CFO & Executive	Outputs and implementation	Financial management and operational functions	City Manager

Structure	Responsible for	Oversight Over	Accountable to
Management Team (EMT)			

Political Decision Making

A routing system of matters reserved referred to the Council is followed, namely:

Reports are initiated by the Heads of Departments and submitted to the Corporate Secretariat Sub-Directorate. The reports are registered in the Council Item Register Book to indicate that the reports have been entered as an item into the system. The items are sent to the City Manager for scrutiny. The City Manager engages with the reports, indicates under comments whether the reports are recommended for consideration to the Executive Mayor, signs it and the items are then forwarded to the Executive Mayor for political engagement.

The Executive Mayor then under comments indicates whether s/he approves the items, whether the items should be served on an agenda of the relevant Section 80 Committee meeting or whether the items should go to Council. The items now fully completed with all the necessary comments and signatures, are then included in the agenda of the next ordinary/special agenda of the Mayoral Committee, where all the approved items be placed on the agenda of the Council to serve before the Council for final approval.

Items on the agenda of the ordinary meetings of the Mayoral Committee and the Council are categorized as follows, namely:

- Section A - Items for Consideration
- Section B - Items in terms of Delegated Power
- Section C - Items for Information

Once the Council has decided on a report, it is then a resolution of the Council. The City Manager executes the decision/resolution taken by the Council by issuing execution letters to the relevant Departments.

2.2 Administrative Governance

The administration is led by the City Manager as the Chief Accounting Officer. The day-to-day management of the Municipality is done by staff under the direction of the City Manager and Heads of Departments. The City Manager and Heads of Departments have broad and general management responsibilities, such as ensuring that staff is kept informed on Council's direction and identifying gaps in service provision. Together with Council they must monitor progress on set goals and priorities.

Top administrative structure

The administration is made up of the following Departments headed by members of the Executive Management Team (EMT):

Table 6: Heads of Departments

Departments	HOD Responsible
Acting City Manager	Mr. Tebogo Motlashuping
Nation Cabinet Representative	Mr. P Maseko
Acting Corporate Services	Adv Nkateko Mpangane
Acting Chief Financial Officer	Mr. Timothy Sediti
Acting Engineering Services	Mr. Wallace Mcleod
Acting Waste and Fleet Services	Mr. Francois Nel
Acting Social Services	Mr. Israel Kgamanyane
Municipal Police Services	Mr. Israel Kgamanyane
Acting Planning	Ms Nkateko Mabunda
Acting Human Settlement	Ms Ngaka Dumalisile
Acting Economic and Rural Development	Mr. Wallace Mcleod
CEO: Centlec (entity)	Mr. Malefane Sekoboto

Component C: Intergovernmental Relations

2.3 Intergovernmental Relations in the Municipality

The foundation of a constitutional democracy in South Africa as laid and articulated in the Constitution of the Republic of South Africa, 1996 and the implications thereof, poses unique capabilities by the local sphere of government. It is expected that municipalities must take responsibility to engage various sectors and development protagonists, such as the national and provincial governments, State Owned Enterprises, business forums, to mention but a few. This means that, joint planning is important for the attainment of the shared outcome. Whilst Section 40(1) of the Constitution established three distinctive, yet interdependent and inter-related spheres of government, municipalities remain at the center of development, given the responsibilities enshrined in Sections 151-154, 156 and Schedule 5 (part B) of the Constitution.

The Municipality participates in the national and provincial spheres of governments intergovernmental Forums. Provincially, the Municipality actively participates in the Premier Co-ordinating Forum (PCF) and the Member of Executive Council and Local Government (MECLOGA) to raise issues affecting the Municipality with other municipalities, provincial government Departments, and the Free State Provincial Chapter of the South African Local Government Association (SALGA). The province's Forum of Heads of Departments (FOHOD), Municipal Manager's Forum, Provincial IDP Manager's Forum, and Provincial Performance Manager's Forum all have active involvement. The latter two are administered by the Provincial Department of Cooperative Governance.

Moreover, Nationally, the Municipality participates in the Ministers and Members of Executive Councils (MINMECs) which serve as platforms for reporting on progress toward implementing the Urban Settlement Development Grant (USDG). Additionally, the Municipality participates in the Circular 88 Metro Forum, which is comprised of representatives from the National Treasury, the SA Cities Network, Stats SA, the Department of Planning, Monitoring and Evaluation (DPME), and all metro municipalities. MMM also participates in the SA Cities Network Intergovernmental and International Group. The City has successfully established the internal procedures of intergovernmental structures as per Section 33(1) of the Intergovernmental Relations Framework Act, 2005(Act 13 of 2005). The terms of reference for the establishment of Mangaung metropolitan

municipal technical Intergovernmental Relations (IGR) forum; and rules to govern procedures for the functioning of Mangaung metropolitan technical IGR forum were approved by Council as instrument to strengthen and harness joint planning.

The value of membership in these organizations is emphasized by the possibilities for the Municipality to use in establishing strategic relationships with government agencies.

Relationship with Municipal Entities

The Municipality has created Centlec as a municipal entity to offer electrical services to its citizens as well as administer and maintain public lighting on its behalf. Centlec's decisions are made by a legally constituted Board of Directors, and the entity accounts to the Municipality via the Executive Mayor and the authorized stakeholder representative through the Business Plan and Sale of Business Agreement.

Component D: Overview of Public Accountability and Participation

One of the main justifications given for participatory governance in the South African setting, especially at the level of local government, is that it broadens and deepens democracy by increasing the number of people involved in making or influencing local government decisions. The Municipality is no exception to this statement in this situation.

The Municipality had to react to the requirement of being “developmental institutions” in nature in order to eliminate poverty and improve the lives of its people. The developmental mandate, as stated in developmental policies and laws, notably the Municipal Systems Act, emphasizes community involvement as an essential mechanism for growth. Furthermore, this Act acknowledges ward Councillors and other democratized organizations as essential advisory mechanisms for ensuring public involvement in municipal governance.

The process of creating a legally valid IDP is seen to be supported by the community. This is explicitly stated in section 16(1)(a)(i) of the Municipal Systems Act, which states that “a Municipality must develop a culture of municipal governance...” and further that “a Municipality must encourage, and create conditions for, the local community to participate in the affairs of the Municipality, including in the preparation, implementation, and review of its Integrated Development Plan in terms of legislative requirement.

This Act also states that a Municipality must establish appropriate mechanisms, processes, and procedures to allow the local community to participate in municipal affairs, as well as initiate consultative sessions with locally recognized community organizations and, where appropriate, traditional authorities.

According to Chapter 5 of the Municipal System Act, 2000 (Act 32 of 2000), a municipal Council is expected to annually review its IDP in accordance with an assessment of its performance measures, and the Municipality may also amend its IDP in accordance with a prescribed process if changing circumstances so demand. Annual reports detail the Municipality's performance against the performance measures specified in the SDBIP.

The SDBIP mainly covers the Municipality's yearly delivery objective as outlined in the Integrated Development Plan and the budget. The context of the delivery during the time under evaluation was extremely participative, in keeping with the strongly established ethos of public engagement. Participation in the IDP as well as the budget included engagement in development planning and budget allocation, as well as the execution of programs and initiatives that need community involvement in order to be sustainable and have a long-term effect.

2.4 Public Meetings

The Municipality consulted with the public throughout the financial year on IDP and tariffs including annual reports and by-laws. The Municipality has 51 wards, because of the vast nature of our Municipality we cluster wards to be able to reach a wider audience as possible and consult with our public from November to April during the course of the financial year on the revised tariffs and IDP priorities. The Municipality publishes its public meetings in local newspapers and radio stations and also on municipal website.

The following is a list of documents published and made available to the public yearly:

- The annual and adjustments budgets and all budget-related documents;
- All budget related policies
- The Annual Report
- All Performance Agreements required in terms of Section 56 of the Municipal Systems Act
- All municipal tenders
- All weekly quotations of the Municipality
- All quarterly reports tabled in the Council in terms of Section 52 (d)
- All vacancies of the Municipality
- Information about tourism and places of interest in Mangaung
- Contact information for all Directorates and Sub-Directorates
- The Integrated Development Plan (IDP)
- The Service Delivery and Budget Implementation Plan (SDBIP)
- Spatial Development Framework (SDF).

Ward Committees

Ward committees in the Municipality serves as an interface between the community and the Municipality. Because of its proximity to the residents of a particular Ward, the committee members listen to community concerns and they pick up on day-to-day service provision issues in their Wards and through the Ward Councillors, they advance those issues to the attention of the Council. Ward committees are a single most important institutional arrangement to ensure efficient and result based participatory system.

Table 7: Public Meetings

Nature and purpose of the meeting	Dates of event	No of participating Councillors	No of participating Municipal Councillors	Number of community members attending	Dates and manner of feedback given to community
IDP and budget consultative meetings SDF and the Sectoral Plans are discussed Annual report	Nov to April	All ward Councillors of the clusters involved	All ward Councillors of the clusters involved, the deputy mayor and the Speaker	Numbers vary from cluster to cluster	Feedback is provided during the first round of the consultations and after the first quarter in November
	Feb to March	All Councillors	All Councillors	Numbers vary from cluster to cluster	Feedback is provided during the second round of the consultations in February and March
By laws	As and when they are up for public consumption	Councillors affected	Councillors affected and the relevant MMC	Numbers vary from cluster to cluster	Feedback provided after consultations have been finalised and Council has resolved
Tariffs	Nov to April	All ward Councillors of the clusters involved	Councillors affected and the relevant MMC	Numbers vary from cluster to cluster	Feedback is provided during the second round of the consultations in April and mid-May before final approval

Public engagements in the Municipality provide opportunities for the public to contribute, interrogate and engage municipal priorities. Furthermore, the Municipality organise feedback sessions to report back on what communities have been reflecting and how the Municipality is responding. The IDP of the Municipality also has a section that addresses issues raised by communities and municipal responses.

2.5 IDP Participation and Alignment

Table 8: IDP and Alignment

IDP Participation and alignment criteria	Yes/no
Does the Municipality have impact, outcome, input, output indicators	Yes
Does the IDP have priorities, objectives, KPI's development strategies?	Yes

IDP Participation and alignment criteria	Yes/no
Does the IDP have multiyear targets?	Yes
Are the above aligned and can they calculate to a score	Yes
Does the budget align directly to the KPI in the strategic plan?	Yes
Does the IDP KPI align to section 56 managers?	Yes
Do the IDP KPI lead to functional area KPI as per SDBIP	Yes
Were the indicators communicated to the public	Yes
Were the four quarter aligned reports submitted within stipulated time frames?	Yes

Component E: Corporate Governance

Overview of Corporate Governance

The primary objectives underpinning the Municipality's governance, provision of municipal service and institutional transformation, which is also consistent with the spirit and purport of relevant statutes saw the Municipality prioritising systematic actions, programmes and/or interventions appropriately to capacitate and strengthen both the Audit and Risk Managements Committees. This was to enable the committees to execute their oversight role. To date, more than satisfactory progress is already being witnessed in this regard.

There is one approved house of Traditional Leadership in the Municipality's jurisdiction with whom we enjoy not only cordial, but also working relationship. The Municipality will not relent its efforts to continue building and further strengthening this sound working relationship.

As would be appreciated from our preceding reports, the obtaining Governance Model continues to respond fairly well to the Municipality's quest to deliver quality services in a cost-effective manner yet the need for a significant departure from the current system of a combined Model of Governance to a fundamentally new and different system of separation of powers between Governance (Legislature) and the Executive was previously expressed and to which the Municipality responded well.

2.6. Risk Management

In terms of MFMA Act 56 of 2003, section 62(1)(c)(i) "the Accounting Officer of a Municipality is responsible for managing the financial administration of the Municipality and must for this purpose take all reasonable steps to ensure the Municipality has and maintains effective, efficient and transparent systems of financial and risk management and internal control".

The City Manager appointed a Risk Management Committee to provide an appropriate forum and governance structure to assist the City Manager and management in discharging their risk management responsibilities. It also intended to provide an enabling environment for the City to comply with laws, regulations and recognised governance framework.

Table 9: The Risk Management Committee members:

Member	Status	Attendance			
		12/08/2021	18/11/2021	16/02/2022	11/05/2022
ML Ralikonyana (Chairperson)	External Member	Attended	Attended	Attended	No meeting
V Koma	External member	Attended	Attended	Attended	No meeting
SE Mofokeng	Chief Financial Officer	Attended	Attended	Not Attended	No meeting
D Nkaiseng	HOD: Corporate Services	Attended (rep)	Attended	Attended	No meeting
J Phaladi	HOD: Human Settlements	Attended	Attended	Attended	No meeting
M Ndlovu	HOD: Engineering Services	Attended	Attended	Attended	No meeting
MG Nkungwana	HOD: Social Services	Attended (rep)	Attended	Not Attended	No meeting
I Kgamanyane	Chief of Metro Police	Not Attended	Not Attended	Not Attended	No meeting
S More	HOD: Solid Waste & Fleet Management	Acting CM	Acting CM	Not Attended	No meeting
BS Mthembu	HOD: Planning	Attended	Attended	Attended	No meeting
T Maine	HOD: Economic & Rural development	Attended	Attended	Attended (rep)	No meeting
MB Comakae	Acting DED: Operations	Attended	Attended	Not a member	Not a member

The meeting of May 2022 could not be held as majority of HODs' employment contracts ended. The following activities were carried out by the Committee:

- Review of the Risk Management Committee Terms of Reference
- Review of the Risk Management Policy
- Review of the Risk Management Strategy
- Review of the Risk Management Implementation Plan
- Review of the Risk Assessment Report for 2021/2022
- Quarterly review of the implementation of the risk mitigation strategies
- Quarterly review of the risk implementation plan.

Tables 10: Top 5 strategic and operational risks the Municipality grappled with during the financial year:

STRATEGIC	OPERATIONAL
Financial instability	Inadequate resources
Political instability	Non-compliance with laws and regulations
High unemployment	Unrests
Litigation	Loss of revenue
Unplanned infrastructure demand	Aging infrastructure

The risk maturity assessment was undertaken for the financial year and the Municipality achieved a score of level 3 (Control) which means “Institution-wide risk assessments have been completed and the necessary institutional capacity and structures to support risk management are in place. Risk management processes, practices and systems satisfy legislative requirements at this stage, but have limited influence on the control environment”.

Though the risk management culture is not yet at a desired level, the Municipality continues to implement its enterprise-wide risk management strategy to ensure effective mitigation of risks and identification of any opportunities there may be.

2.7 Anti-Fraud and Corruption

The Municipality has a Fraud Prevention Plan that outlines the Municipality’s approach to curtailing the likelihood of fraud occurring, its prevention as well as the early detection thereof. Anti-Fraud and Corruption Unit conduct investigations and depending on the outcome of the investigations, other cases are further referred to South African Police Services and HAWKS.

The Municipality takes a zero-tolerance stance towards fraud and corruption, and pursues a corruption-free administration. The Municipality encourages those who suspects acts of fraud or corruption to report such allegations through the National Anti-Corruption hotline (0800 701 701) and reporting mechanisms available through the municipal website.

Effective investigation and monitoring the implementation of recommendations emanating from completed investigations within the Municipality is usually hampered by inadequate staffing capacity within the Anti-Fraud and Corruption Unit. The Municipality continues to expedite its staffing capacity to ensure that speedy investigation processes are implemented as part of fraud prevention mechanisms.

2.8 Internal Audit

Audit Committee

The Municipality has a functional Audit Committee that operates in terms of the Council approved Terms of Reference (ToR). For the period under review (2021/22), the Committee met eight (8) times to perform its functions as outlined under MFMA section 166(2) as follows;

- (a) advise the municipal council, the political office-bearers, the accounting officer and the management staff of the Municipality, on matters relating to

- i) internal financial control and internal audits;
 - ii) risk management;
 - iii) accounting policies;
 - iv) the adequacy, reliability and accuracy of financial reporting and information;
 - v) performance management;
 - vi) effective governance;
 - vii) compliance with this Act, the annual Division of Revenue Act and any other applicable legislation;
 - viii) performance evaluation; and
 - ix) any other issues referred to it by the Municipality;
- (b) review the annual financial statements to provide the council of the Municipality, with an authoritative and credible view of the financial position of the Municipality, its efficiency and effectiveness and its overall level of compliance with this Act, the annual Division of Revenue Act and any other applicable legislation;
- (c) respond to the council on any issues raised by the Auditor-General in the Audit Report.

The Committee further compiled two (2) Audit Committee reports with recommendations for submission to Council.

Internal Audit

The Municipality has a functional Internal Audit Unit. This Unit is working in collaboration with both the Risk and Anti-Fraud Units to strengthen the Municipality's efforts to manage risks and eradicate fraud and corruption. For the period under review (2021/22), the Unit completed all audit assignments planned for the year and the following internal audit reports were issued during the period under review;

Table 11: Internal Audit Reports

Report number	Description of report
Internal Audit report number 01/2021-22	Metro Police Uniforms (Ad hoc request)
Internal Audit report number 02/2021-22	Review of the Annual Financial Statements
Internal Audit report number 03/2021-22	Review of the Annual Performance Report
Internal Audit report number 04/2021-22	Review of Management Audit Action Plan (Quarter 1 of 2021/22)
Internal Audit report number 05/2021-22	Audit of Performance Information (2021/2022 SDBIP / IDP and Performance Agreements for Municipal Manager and Section 56 Employees)
Internal Audit report number 06/2021-22	Audit Review of Councillors' Burials
Internal Audit report number 07/2021-22	Direct assistance to the Auditor-General: employee physical verification (Ad hoc request)
Internal Audit report number 08/2021-22	Expanded Public Works Programme Audit
Internal Audit report number 09/2021-22	Review of Management Audit Action Plan (Quarter 2 of 2021/22)
Internal Audit report number 10/2021-22	Compliance Checklist (Quarter 4 of 2020/21 and Quarter 1 of 2021/22)

Report number	Description of report
Internal Audit report number 11/2021-22	Audit of performance Information (Q1 SDBIP Progress Report 2021/22)

Chapter 3 - Service Delivery Performance

3.1 Introduction

Despite the challenges confronted by the Municipality and the impact of the Covid -19, there has been continues strides in extending access to water and sanitation services, facilitated access to housing and social housing opportunities, implemented a number of projects to support Small Medium and Micro Enterprises (SMME); ensured that indigent households had access to Free Basic Water, ElectriCity, Sanitation and Refuse removal services and promoted development through prompt processing of development applications, provided efficient environmental health and emergency services and rehabilitated social amenities. Effective maintenance of assets was carried out that included resurfacing roads, rehabilitation of roads, storm-water canals, catch pits and pedestrian paving and provision of connecting households in informal settlement to electriCity and the upgrading of electriCity service infrastructure (network and streetlights).

Below sections will be segmented into 5 Key Performance Areas (KPA's) that are also linked to the City Strategic Development Objectives (SDO):

Table 12: Linkage between KPA's and MMM SDO

Components	Key Performance Areas (KPA's)	MMM Strategic Development Objectives
A	Basic Service Delivery and Infrastructure Development	Service Delivery Improvement
B	Financial viability	Financial Health Improvement
C	Local Economic Development	Economic Growth
D	Good governance and Public participation	Organisational Strength
E	Institutional Development and Organisational Transformation	Spatial Transformation

Additionally, the tables that will follow programmes and projects will be financial expenditures both on Capital and Operational budget.

Component A: Basic Services Delivery

3.2 Roads and Stormwater

The Municipality is progressing on the delivery of unsurfaced roads and due to financial limitations and an unstable fleet, not 100% of the targets were reached.

3.3 Water and Sanitation Provision

The Municipality is both the Water Services Authority and Water Service Provider and therefore obliged to fulfil its mandate that of providing access to safe and reliable portable water to its consumers. The Mangaung Metropolitan Municipality currently serves a combined 96% (273 980) of all households with water inside the yard and those that receives piped water inside the

house/dwelling and only 4% (11 415) of households that are using community stand that is approximately 200m to 500m from the dwellings.

Moreover, as far as sanitation is concerned, an estimated 84% (240 201) of households have access to sanitation facilities above Reconstruction and Development Programme (RDP) standard (VIP toilet and higher). An additional 10% (29 194) households have pit toilets without ventilation and 6% (16 000) households have bucket toilets/no facilities.

Table 13: Service Delivery Objectives on Roads/Stormwater and Water/Sanitation

3.4 Solid Waste and Fleet Management

The Department has increased access to refuse removal to known informal settlements. Due to a severe shortage of human and capital resources the Department was not able to service all the formal areas consistently according to the weekly door to door refuse removal schedule.

Moreover, the unit responsible for municipal fleet is fairly progressing relatively despite challenges regarding aging fleet and budget constraint.

3.6 Human Settlement

The Directorate Human Settlements intended to provide sustainable human settlements with particular focus on implementation of the different programmes such as: Catalytic Projects, upgrading of informal settlements, rental/social housing development, and expanding tenure security to improve the quality life for the Mangaung households. At the beginning of the financial year, the Metro had set targets for the twelve (12) months of implementation. The Directorate did its best to achieve the set targets and there are instances where these targets were achieved and where they were not due to reasons to be outlined in the report.

Component B: Financial viability

3.7 Finance Department

The Office coordinates all the functions such as budgeting, accounting, analysis, financial reporting, cash management, debt management, supply chain management, financial management. Moreover, since the Municipality is under Section 139 of the Constitution, a lot of work is being done more on the implementation of the financial recovery plan.

Component C: Local Economic Development

3.8 Economic and Rural Development

The Municipality will enable environment for local economic and rural development to stimulate competitive, inclusive and sustainable development. Furthermore, the Municipality's RDP will be linked to certain segments which are arranged to meeting basic needs, infrastructure development, emerging rural industrial and credit financial sectors driven by micro to macro scale enterprise markets (economic activities) and land reform.

An important developmental principle underlying economic development is the broadening of the local economic base. This includes the introduction of new activities to Mangaung (e.g., introducing new industrial activities), exploiting latent resources identified through beneficiation, and the consequent establishment of SMMEs.

Component D: Good Governance and Public Participation

3.9 Office of the City Manager

Internal Audit

The Municipality has established a functional Internal Audit Unit in terms of Section 165(1) of the Municipal Finance Management Act, 56 of 2003 (MFMA). To this end, the unit has carried out its functions as outlined in its Charter and Section 165(2) of the MFMA.

Risk Management

The Municipal Finance Management Act (MFMA), Act 56 of 2003 stipulates that the Municipality must maintain an effective, efficient, transparent and accountable system of Risk Management.

Organisational Planning and Performance Management

- To ensure that the Municipality's Integrated Development Plan (IDP) and budget agreed with all stakeholders, and in which communities have participated, which addresses the challenges of growth and redistribution of resources.
- To ensure that residents are aware of the policies, services and activities of the Municipality.

Knowledge Management

Knowledge Management is therefore a tool to enable MMM to execute its developmental duties. The Knowledge Management unit serves multiple municipal needs by:

- Creating a collaborative platform where knowledge and innovation programmes and initiatives from various departments across the Municipality can be coordinated and supported, and building a model of peer-to-peer learning and sharing grounded in the City of Mangaung's experience and practice but with a broad reach across Sub-Saharan Africa.

Intergovernmental Relations

The City has successfully established the internal procedures of intergovernmental structures as per Section 33(1) of the Intergovernmental Relations Framework Act, 2005(Act 13 of 2005). The terms of reference for the establishment of Mangaung Metropolitan Municipality technical IGR forum; and rules to govern procedures for the functioning of Mangaung Metropolitan technical IGR forum were approved by Council as instrument to strengthen and harness joint planning.

The new guidelines for the development of Integrated Development Plan for the Metropolitan Municipalities advocates for decisive leadership by both the political and administrative structures in realizing joint planning, implementation, monitoring and evaluation.

3.10 Corporate Service

Corporate Policy Offices

The role of the unit is to provide the following services:

- To ensure effective management of the Municipality addressing agreed political priorities.
- To ensure that the operation of the Municipality is restructured to deliver effectively.
- To ensure that citizens are given sufficient information, opportunity and encouragement to participate in and influence the affairs of the Municipality.
- To ensure that the Municipality will use information and communication technology effectively to assist in decision making, in working efficiently, and in delivering services more effectively to clients.
- To promote the overall wellness of Municipality's staff and provide support systems to maintain such.

Information Communication Technology

The ICT Sub Directorate serves as the focal point for technology advancement in the institution. The ICT Sub Directorate provides control in areas of planning, operation, and maintenance of technology infrastructure, systems, and applications, provide value-added ICT services and solutions to all of the Mangaung Metropolitan Municipality that enhances service delivery to the Municipality. Furthermore, the ICT Sub Directorate is responsible for the institution's communications and computer systems, which include voice, and computer-based technologies. These services and technologies provide the Municipality with the tools essential to effectively carry out day to day operations to support the overall Municipality mission and goals.

The ICT Sub Directorate operates in a collaborative relationship with user departments by facilitating the identification of the appropriate technology and assisting users and management with the implementation of that technology. Although management should have the final say in application-specific decision, the ICT Sub Directorate should guide the selection process by defining standards. These standards are not hard and fast rules; rather a framework within which range of solutions are feasible, both from the functional perspective as well as ICT Sub Directorate technical support capabilities.

Human Resource Management

The strategic objective of Human Resource Management is to lead, manage and direct human resource functions within the Municipality through the following:

- a) Labour relations;
- b) Occupational health and wellness;
- c) HR benefits;
- d) Work study;
- e) Job evaluation;
- f) Payroll Management;
- g) Safety and loss control;

- h) HR Systems;
- i) Individual performance Management; and
- j) Employment.

Legal Services

The Legal Services Sub-Directorate's main purpose is to provide a professional legal advice and assistance service to the Municipality to ensure the proper protection of the Municipality's interests and compliance with its obligations.

3.11 Planning Services

The Department aims to establish new and formalise townships and other strategic investment nodes in the Municipality. Fundamental to the planning process is the Implementation of the Spatial Planning Land Use Management Act (Act 16 of 2013). Through this process the Municipality has established a development tribunal to fast track land use applications.

Key priorities should address the following:

- **Densification of the Municipality through infill planning and group housing schemes;**
- **Elimination of informal settlements and facilitating access to proper community services;**
- **Creation of liveable urban spaces;**

- Integration of the Municipality through the creation of economically viable urban transport corridors; and
- Creating economic and social opportunities for all the residents of the Municipality to benefit .

3.12 Social and Municipal Police Services

The Municipality is doing very well in meeting all its set targets in relation to the promotion of literacy in communities through ensuring access to new library materials, marketing of the library services and implementing library outreach programmes to communities. Improve services to ameliorate the plight of vulnerable groups such as street children, people with disability, the elderly and children. Alleviate poverty through community projects and promote arts and cultural programmes. The Municipality has succeeded in supporting the vulnerable groups in our society. The main objective of the park's division is to provide a clean, green and healthy environment to the residents of Mangaung. It is responsible for the horticultural maintenance and development of open spaces, parks, traffic islands, buffer zones, sports fields, street trees, Municipality gardens and fire belts. The main objective of natural resource management is to conserve the natural resources of Municipality, which consist of 28, 000 hectares. Pollution control initiatives within the Municipality are implemented and managed by an integrated approach (waste management, environmental management, environmental health, parks, etc.). With regards to the 2 indicators listed below we can report that water quality and air pollution programmes are in place.

Environmental health practitioners take water samples on a daily basis from the 2 main reservoirs (*Brandkop and Maselspoort*) and on a monthly basis at household points evenly spread amongst all suburbs, our current compliance status is well within the parameters of SANS 241.

We also monitor the quality of air by means of one (1) air quality stations, with the main focus on sulphur dioxide emissions. We can safely report that no incidences in this regard were recorded during this reporting period. The function of provision of environmental health services within the Municipality includes all activities associated with the provision of municipal health services in terms of the National Health Act (No 61 of 2003). Service delivery provision here includes:

Water Quality Monitoring in accordance to Water Services Act and SANS 241 for water quality has been carried out successfully.

To ensure consumer protection in accordance to (Cosmetic and Disinfectants Act no 54 of 1972) a food safety programme has been carried out. This has been achieved by regular inspections (including special events), monitoring, rendering microbiological laboratory services for the analysis of food stuffs as per legislative (sampling,) and compliance (by fulfilling functions of the local trading authority by enforcing the Business Act No 71 of 1991) thus ensuring sustainable health and well-being of citizens.

Surveillance of premises (built environment) has been done in accordance to the National Building Regulations.

The Municipality continued to provide effective health services in relation to inspection of mortuaries to ensure compliance. Furthermore, it has continued to carry out its responsibility in ensuring safe disposal of unidentified bodies in collaboration with Forensic Pathology, in accordance with CHAPTER 10 (Unclaimed bodies or unidentified human Remains) of Regulations relating to Rendering of Forensic Pathology Services in the Government Notice No.636 of July 2007

The **Law-enforcement** sub directorate is to enhance order and enforce compliance with road traffic rules in the road network of the Municipality and to ensure that Mangaung is a safe and secure place

to live in, visit and do business. To achieve this, the division aims to prevent and minimize all security risks and threats to municipal property, services and people, crime prevention, enforcement of municipal by- laws and other applicable legislation and the investigation of municipal related crime. Mangaung Metropolitan Municipality is targeting the hotspots as identified by law enforcement agencies, i.e., South African Police Services (SAPS, etc.). This will in future be utilised for traffic violations supplemented by, **speed law enforcement cameras**. The implementation of such measures has resulted in a decline of motor accidents and behavioural change of motorists.

These units work on a four-shift system. Units comprises of the following: - Operational unit; Shifts; Reaction group; Dog unit; Investigation unit; Administration unit and Social crime prevention unit

The Fire and Rescue Services aims to prevent fires. Focus is thus placed on fire prevention and public education / awareness with emergency response being the last line of defence.

The Disaster Management sub-directorate is performing its functions and duties in accordance with the Disaster Management Act 2005 (57/2002). The Municipality established a Disaster Management Centre that is the focal point for all disaster related management activities. It effectively renders a critical service to the community relating to call receiving and dispatching emergency resources to all types of emergency and disaster incidents. The centre is making use of an Intelligence Information Management System (IIMS) to capture all information. Call Centre Operators are deployed 24/7 on a shift system. The top 3 service delivery priorities are:

- a) Enhance emergency preparedness.
- b) Ensure prompt and appropriate response to emergency incidents; and
- c) Ensure prompt and appropriate post incident recovery.

Disaster Management encompasses a continuous, integrated, multi-sectoral and multi-disciplinary process of planning and implementation measures incorporating strategies for pre disaster risk reduction as well as post disaster recovery, aimed at:

- preventing or reducing the risk of disasters.
- mitigating the severity or consequences of disaster.
- emergency preparedness.
- rapid and effective response to disasters; and
- post disaster recovery and rehabilitation.

Checklists and measurements were implemented to ensure compliance with standards set to ensure service delivery. Disaster Management staff are involved in public education programmes to enhance community resilience against disasters and negative effects thereof. The Municipality is in its strides to comply with National Legislation relating to risk reduction and response and has complied and completed the following:

- Disaster Management Plan.
- Disaster Management Framework; and
- Risk and Vulnerability Assessment.

3.13 MFMA Circular 88 Outcome and Output Indicators as reported to National Treasury

Performance indicator	Ref No.	Data element	Baseline (Annual Performance of 2020/21 estimated)	Annual target for 2021/22	Annual Actual	Annual Actual Expenditure	Variation	Reason(s) for variation	Remedial action
C88 Output Indicators for Annual Reporting									
EE4.12		Installed capaCity of approved embedded generators on the municipal distribution network	0,00	0,00	0,00		0,00	Nine (09) Approved applications were received for the embedded generation with a total capaCity of 1053kVA	
	EE4.12(1)	1 Sum of all embedded generation installation capacities among municipal customer base			0				
EE2.11		Percentage of total residential electricity provision allocated as Free Basic Electricity (FBE)	5,0%	0%	3.6%		3.6%	None	None
	EE2.11(1)	1 Sum of the MWh of electricity provided as FBE by the Municipality to residential customers			23007,2				
	EE2.11(2)	2 Total MWh of electricity provided to residential customers			626377,2				
ENV1.12		Percentage of AQ monitoring stations providing adequate data over a reporting year	33.3%	100,0%	33,3%		66,7%	Only Pelonomi Hospital is operational	Prioritisation for the upgrading of the 2 station that are not working
	ENV1.12(1)	1 Number of fully operational AQ monitoring stations			1				
	ENV1.12(2)	2 Total number of government owned (all spheres) monitoring stations within municipal area			3				
ENV3.11		Percentage of known informal settlements receiving basic refuse removal services	100,0%	91%	100,0%		9%	None	None
	ENV3.11(1)	1 Number of informal settlements receiving waste handling services			47				
	ENV3.11(2)	2 The total number of recognised informal settlements			47				
ENV4.11		Percentage of biodiversity priority area within the Municipality	15%	28%	9,6%		11,4%	None	None
	ENV4.11(1)	1 Total land area in hectares classified as "biodiversity priority areas"			95000,00				

Performance indicator	Ref No.	Data element	Baseline (Annual Performance of 2020/21 estimated)	Annual target for 2021/22	Annual Actual	Annual Actual Expenditure	Variation	Reason(s) for variation	Remedial action
	ENV4.11(2)	2 Total municipal area in hectares			989786,00				
ENV4.21		Percentage of biodiversity priority areas protected	20%	5%	3,2%		1.8%	None	None
	ENV4.21(1)	1 Area of priority biodiversity area in hectares which is protected			31733,00				
	ENV4.21(2)	2 Total area identified as a priority biodiversity area in hectares			989786,00				
ENV5.11		Percentage of coastline with protection measures in place	0,0%	0,0%	0,0%		0,0%	Not a coastal City	Not a coastal City
	ENV5.11(1)	1 Km of coastline with protection measures in place			0				
	ENV5.11(2)	2 Total Km of coastline within the municipal area			0				
HS1.12		Number of serviced sites	1 424,00	244	0,00		244	Budget Constrains	Prioritise budget
	HS1.12(1)	1 Number of all sites serviced receiving all three of the basic services.			0				
HS1.13		Hectares of land acquired for human settlements in Priority Housing Development Areas	0,00	0	0,00		0,00	Budget Constrains	Prioritise budget
	HS1.13(1)	1 Total land area (in hectares) acquired for human settlement within PHDAs within a municipal area			0				
HS1.22		Number of title deeds registered to beneficiaries	1 927,00	1000	416,00		584,00	None	None
	HS1.22(1)	1 Number of title deeds registered to beneficiaries within a Municipality in the period under assessment			416				
HS1.31		Number of informal settlements assessed (enumerated and classified)	47,00	0	19		28	None	None
	HS1.31(1)	1 Number of informal settlements enumerated and classified according to the UISP categorisation, or equivalent.			19				
HS1.32		Number of informal settlements upgraded to Phase 2	23,00	244	0,00		0,00	Budget Constrains	Prioritise budget

Performance indicator	Ref No.	Data element	Baseline (Annual Performance of 2020/21 estimated)	Annual target for 2021/22	Annual Actual	Annual Actual Expenditure	Variation	Reason(s) for variation	Remedial action
	HS1.32(1)	1 Number of informal settlements that have been upgraded to Phase 2 in terms of the National Housing Code- Upgrading Informal Settlements			0				
HS2.21		Number of rateable residential properties in the subsidy housing market entering the municipal valuation roll	0,00	0	146 000,00		146 000,00	None	None
	HS2.21(1)	1 Number of all housing units completed within the municipal area entering the municipal valuation roll			146000				
TR5.11		Number of scheduled public transport access points added	0,00	28,00	0,00		28,00	There has been delays in approval for payments which hampered the contractors cashflow	
	TR5.11(1)	1 Number of scheduled public transport service access points added			0				
TR6.11		Percentage of unsurfaced road graded	52,4%	100,0%	65,7%		34,3%	Budget Constrains	Prioritise budget
	TR6.11(1)	1 Kilometres of municipal road graded			1462,32				
	TR6.11(2)	2 Kilometres of unsurfaced road network			2226,5				
WS4.11		Percentage of water treatment capacity unused	0,0%	80%	98,2%		18,2%	Budget Constrains	Prioritise budget
	WS4.11(1)	1 Total volume water treated over the last year			720000000				
	WS4.11(2)	2 Daily water treatment plant available design capacity			110000000				
WS4.21		Percentage of industries with trade effluent inspected for compliance	0,0%	0,0%	0,0%		0,0%	No metering device	Vandalism and budget constraints
	WS4.21(1)	1 Number of industry trade effluent inspections undertaken			0				
	WS4.21(2)	2 Number of registered industries with trade effluent			0				
WS4.31		Percentage of wastewater treatment capacity unused	0,0%	14%	0,0%		14%	No metering device	Vandalism and budget constraints
	WS4.31(1)	1 Total volume of wastewater treated over the last year			0				

Performance indicator	Ref No.	Data element	Baseline (Annual Performance of 2020/21 estimated)	Annual target for 2021/22	Annual Actual	Annual Actual Expenditure	Variation	Reason(s) for variation	Remedial action
	WS4.31(2)	2 Daily wastewater treatment plant available design capaCity			0				
WS5.21	Infrastructure Leakage Index		0,00	0,00	0,01		-0,01	None	None
	WS5.21(1)	1 Current annual real water losses in the network			280				
	WS5.21(2)	2 Unavoidable annual water losses			19602				
WS5.31	Percentage of total water connections metered		61,2%	100%	81,1%		18.9%	None	None
	WS5.31(1)	1 Number of water connections metered			158352				
	WS5.31(2)	2 Number of connections unmetered			36908				
GG3.12	Percentage of councillors who have declared their financial interests		100,0%	100,0%	85,1%		14,9%	Due to the outgoing of previous Councillors and the elections of new Councillors the 100% target was not met hence the 85% target which was achieved during the 2021/2022	
	GG3.12(1)	1 Number of councillors that have declared their financial interests			86				
	GG3.12(2)	2 Total number of municipal councillors			101

	LED2.2(2)	2 Total population of the Municipality			878834				
Compliance Indicators									
C5		Number of recognised traditional leaders within your municipal boundary	1,00		1,00			non attendance due to covid 19 pandemic however since the lifting of the covid 19 regulations the attendance of traditional leaders will be encouraged	
C21		Number of approved environmental health practitioner posts in the Municipality	18,00		18,00				
C41		Number of approved engineer posts in the Municipality:	6,00		6,00			The number reflects registered and non registered engineers	
C46		Number of approved waste management posts in the Municipality:	515,00		515,00			Natural attrition	
C52		Number of maintained sports fields and facilities	17,00		17,00				
C53		Square meters of maintained public outdoor recreation space	5,00		500,00				
C54		Number of Municipality-owned community halls	21,00		22,00				
C55		Number of housing recipients issued with title deeds	1 927,00		419,00				
C60		Total number of sewer connections	0,00		0,00				

Performance indicator	Ref No.	Data element	Baseline (Annual Performance of 2020/21 estimated)	Annual target for 2021/22	Annual Actual	Annual Actual Expenditure	Variation	Reason(s) for variation	Remedial action
C62		Total number of Ventilation Improved Pit Toilets (VIPs)	0,00		0,00				
C72		Date of the last municipal Disaster Management Plan tabled at Council	31/05/2022		22/06/2022				
C80		Date of the last Council adopted Development Charges policy	31/05/2022		22/06/2022				
C82		Value of Commercial Projects Constructed by adding all of the estimated costs of construction values on building permits	0,00	0,00	0,00				
C90		Date of the last Climate Change Needs and Response Assessment tabled at Council	31/05/2022		22/06/2022				
C91		Date of the last Climate Change Response Implementation Plan tabled at Council	31/05/2022		22/06/2022				

Chapter 4 - Organisational Development Performance

Component A: Introduction to Municipal Personnel

The attainment of a capable and developmental state as envisioned in the National Development Plan (NDP) hinges amongst others on the right quality and quantity of human resources. The delivery of quality enhanced services in a sustainable manner to the broader population of Mangaung is also influenced by the creation of an adequately balanced and skilled workforce that promotes the ideals of Batho Pele. The Municipality continually strives for establishing an “appropriately sized” institutions with a balance of skills related to our core functions and administrative support.

4.1 Employee Totals, Staff Turnover and Vacancies 2021/2022

Table 34: Employees

Departments	Year 2021/2022	
	Employees	Vacancies
	No.	No.
Corporate Services	381	276
Economic and Rural Development	22	42
Engineering Services	739	1224
Finance	248	233
Human Settlements and Housing	113	150
Office of the City Manager	355	102
Planning	84	176
Social Services	466	561
Strategic Programmes and Service Delivery Monitoring	62	78
Waste and Fleet Management	591	491
Municipal Police Services	277	1388
Totals	3338	4721

Table 35: Vacancy Rate

Designations	Total Approved Posts	No Vacancies
Municipal Manager	1	1
CFO	1	1

Designations	Total Approved Posts	No Vacancies
Other S57 Managers (excluding Finance Posts)	9	8
Other S57 Managers (Finance posts)	0	0
Traffic officers	198	56
Fire fighters	169	69
Senior management: Levels 002-003 (excluding Finance Posts)	243	120
Senior management: Levels 002-003 (Finance posts)	32	18
Highly skilled supervision: levels 004-006 (excluding Finance posts)	895	434
Highly skilled supervision: levels 004-006 (Finance posts)	83	44

Staff Turnover across the Municipality relates to all terminations (dismissals, resignations, retirements, medical terminations etc.) for the period under review.

Table 36: Staff Turn-Over Rate

Details	Total Appointments as of beginning of Financial Year	Terminations during the Financial Year	Turn-over Rate*
	No.	No.	
Year – 2021/2022	3578	521	14.56%

Component B: Managing Workforce

Note: MSA 2000 S67 Requires Municipalities to develop and adopt appropriate systems and procedures to ensure fair; efficient; effective; and transparent personnel administration in accordance with the Employment Equity Act 1998.

Work force management within the Municipality is compliant with all legislative requirements governing the workplace together with collective agreements concluded by the parties at the SALGBC. There is an extensive consultation process with organized labour on issues of mutual interest at the Local Labour Forum.

This is done through management of the recruitment process, selection and placement of staff; so that the best suitably qualified candidates are employed.

Employee benefits including sick leave are administered in terms of applicable labour legislation, Conditions of Service, Collective Agreements and policies by means of an integrated Electronic Human Resource Management System.

The Directorate Corporate Services is tasked with the responsibility of ensuring that the Human Resources Management, Labour Relations, and Human Resource Development Sub- Directorates develop and implement internal Human Resources Policies, which are compliant to legislation and that ensures that the Municipality achieves its vision and developmental objectives

The HR Policies Unit obtains its mandate from Section 67 of the MSA and therefore strives to develop and implement cutting-edge internal Human Resources Policies, which are compliant to legislation and ensures that the Municipality achieves its vision and developmental objectives as set out in the Municipality's Integrated Development Plan (IDP).

The policies and procedures supplement the conditions of employment of every employee, the workplace rules issued from time to time by the Municipality, and the code of conduct for staff members of municipalities contained in Schedule 2 of the Municipal Systems Act. As such it attempts to establish a set of rules for the consistent interpretation and application of collective agreements and legislation governing human resources management in the Municipality

HR Policies contributes to improving compliance in terms of workplace legislation and collective agreements and provides an improved state of corporate governance. It gives direction and guidance to employees to do their work and provide workplace structure and support in the way that a Municipality defines roles and responsibilities and explain the consequences of actions and behaviours.

The Human Resource Management Sub-Directorate established an internal HR Policy Forum and has as a result developed a number of policies that have been referred to discussion and consultative forums such as the EMT, Section 80 Committee for Corporate Services and the Local Labour Forum (LLF). The policies are finally referred to Council for approval.

Table 37: HR Policies and Plans (01 JULY 2021 – 30 JUNE 2022)

HR Policies and Plans				
Name of Policy	Completed	Reviewed	Date adopted by Council or comment on failure to adopt	
Employment Equity Policy	2017/18	Pending		
Employment Equity Report	2017/18	Pending		
Career Management Policy	2017/18	Feb 2020	Council preferred to refer all these policies back to the LLF plenary for further consultative discussions	
HRM&D Strategy	2017/18	Feb 2020	Council adopted this policy on the 17 th November 2017	
Succession Planning Policy	2017/18	Feb 2020	Council preferred to refer all these policies back to the LLF plenary for further consultative discussions	

HR Policies and Plans			
Name of Policy	Completed	Reviewed	Date adopted by Council or comment on failure to adopt
Internship and Work Integrated Learning Policy	2017/18	Feb 2020	Council adopted this policy on the 17th November 2017
Recognition of Prior Learning (RPL)	2017/18	Feb 2020	Council adopted this policy on the 17th November 2017
Occupational Health and Safety Policy	2017/18	Feb 2020	Council preferred to refer all these policies back to the LLF plenary for further consultative discussions
Employee Wellness Policy	2017/18	Feb 2020	Council preferred to refer all these policies back to the LLF plenary for further consultative discussions
Personal Protective Equipment Policy (PPE)	2017/18	Feb 2020	Council preferred to refer all these policies back to the LLF plenary for further consultative discussions
Bereavement Policy	2017/18	Feb 2020	Council preferred to refer all these policies back to the LLF plenary for further consultative discussions
Control of Official Firearm Policy	2017/18	Feb 2020	Council preferred to refer all these policies back to the LLF plenary for further consultative discussions
Workplace Skills Plan	2019/20	April 2020	Submitted to LG SETA for approval.
HIV Aids STI and TB Policy	2017/18	Feb 2020	Council preferred to refer all these policies back to the LLF plenary for further consultative discussions
Disability Policy	2017/18	Feb 2020	Council preferred to refer all these policies back to the LLF plenary for further consultative discussions
Overtime Policy	2017/18	Feb 2020	Council preferred to refer all these policies back to the LLF plenary for further consultative discussions
Placement Policy	2017/18	Feb 2020	Council preferred to refer all these policies back to the LLF plenary for further consultative discussions
Employee Study Assistance Policy	2017/18	Feb 2020	Council preferred to refer all these policies back to the LLF plenary

HR Policies and Plans			
Name of Policy	Completed	Reviewed	Date adopted by Council or comment on failure to adopt
			for further consultative discussions
Skills Development Policy	2017/18	Feb 2020	Council adopted this policy on the 17th November 2017
Workplace Discrimination and Harassment Policy	2017/18	Feb 2020	Council preferred to refer all these policies back to the LLF plenary for further consultative discussions

Table 38: Number and Cost of Injuries on Duty 2021/2022

Number and Cost of Injuries on Duty					
Type of injury	Injury Leave Taken	Employees using injury leave	Proportion employees using sick leave	Average Injury Leave per employee	Total Estimated Cost
	Days	No.	%	Days	R
Required basic medical attention only	102	43	-	2.3	R27 154.71
Approved Section 24 Cases	60	5	`	12	R4 700.13
Temporary total disablement	-	-	-	-	-
Permanent Disablement	-	-	-	-	-
Fatal	-	-	-	-	-
Total	162	48	-	14.3	R31 854.84

Injuries: Cognisance should be taken that although the statistics represent all cases reported to the Safety and Loss Control Sub-directorate, there are cases which to date have not been approved by the Compensation Commissioner. Medical expenses inquired will be incorrect as it only reflects expenses paid for approved cases, therefore the estimated costs only refer to the salary cost for the leave taken.

The **total estimated cost** not only includes the injury on duty cases, but also the sundry payments for injury on duty pensioners. Furthermore, cognisance should be taken that an injury on duty case run over a two-year period and whilst the injury on duty date was not in the financial year, cost can still be payable in the next year.

Injuries: The **classification** under type of injury does not clearly make provision to capture serious injury on duty cases, where the injured was of duty 14 days or longer some up to 6 months, but the

employee returned to his work after rehabilitation. Therefore, we added another classification namely, **approved Section 24 cases**.

Examination of injury on duty cases

Examination of injury on duty cases are done by a doctor, who treated the patient as determined /required by the Compensation for Occupational Injuries and Diseases act, If the injured was treated by the Doctor at our clinic, then that doctor will be responsible for all follow-ups.

Table 39: Number of Days and Cost of Sick Leave 2021/2022

Number of days and Cost of Sick Leave (excluding injuries on duty)						
Salary band	Total sick leave	Proportion of sick leave without medical certification	Employees using sick leave	Total employees in post	Average sick leave per Employee Days	Estimated cost
	Days	%	No.	No.		R' 000
Lower skilled (Levels 016-018)	6472	17.46	578	1505	11.20	R4,333,115.59
Skilled (Levels 013-015)	1394	3.30	39	98	35.74	R1 025,029.03

Component C: Capacitating the Workforce

One of the key challenges around an integrated process of skills development within the Municipality has been a lack of a comprehensive, holistic and integrated framework for human capital development that will guide and integrate key processes such as training needs analysis, career pathing and planning, succession planning, management and leadership development, knowledge exchange and innovation.

The following programmes were implemented during 2021/2022 financial year

Table 41: Programmes Implemented on Capacity Workforce

Funding Source	Name of Learning Programmes	LGSETA Supporting Interventions	No of 18.1 Beneficiaries	Status quo
Discretionary Grant	NC: Local Economic Development Plan NQF L.6	Learnership	13	Halted by national lockdown regulations (To resume soon)

chain managem ent units						
Supply chain managem ent managers	2	2	2	2		2
TOTAL	235	235	235	138	95	127

Financial competency development programmes could not be implemented for financial year 2021 – 2022. Municipal Finance Management Development Programme was identified as an intervention to address finance competency shortage in the Municipality and so listed in the WSP as one of those interventions in addressing deficit in skills competency.

Two processes un-folded, the first one was application for Discretionary Grants, which was approved by LGSETA and Service Provider appointed, awaits first tranche payment to get the project going.

EMPLOYEE EXPENDITURE

It is extremely important to control workforce expenditure since it is one of the largest single expenditure items on the operational budget of the Municipality. Spending is controlled by means of the approved staff establishment and budget control. Expenditure on overtime is still a huge challenge and not yet limited in accordance with “Collective Agreement”.

CHAPTER 5 - FINANCIAL PERFORMANCE

5.1 Statement of Financial Performance

The table 43 below gives an overview of municipal performance against the budget.

Table 43: Reconciliation of Table A1 Budget Summary

The Budget Summary Table is divided into three components namely:

- A. Statement of Financial Performance
- B. Spending against Capital Budget
- C. Other Financial Matters.

COMPONENT A: STATEMENT OF FINANCIAL PERFORMANCE

A. Total Revenue

The Municipality out of its original budget of R8 073 billion performed at 99% of its adjusted revenue budget of R7 980 billion for the year. The main variance on the final budget can be attributed to the following:

- Investment revenue was less than the target by 8%;
- Service charges performed less by 6%; and
- Other own revenue performed at 61% of the Adjustment Budget.

B. Total Expenditure

The Municipality's actual expenditure stood at R9 582 billion, of the adjusted expenditure budget of R7 441 billion.

C. Surplus / (Deficit)

The deficit was R752 million.

COMPONENT B: SPENDING AGAINST CAPITAL BUDGET

At end of the financial year 2021/2022 the actual spending on the capital expenditure is R 853 million of the final Budget R1 641 billion with a variance of R (788 million).

COMPONENT C: CASH FLOWS MANAGEMENT AND INVESTMENTS

At the end of the financial year 2021/2022 the municipal cash and investments balances is at -177%.

5.2 Grants

A. Operating Grants

Table 44: Operating Grants

GRANT EXPENDITURE				
DESCRIPTION	Adjustment Budget 2021/22	June 2022 Actual	Balance	Percentage Spent
ENERGY & DEMAND SIDE MNG GRANT	269 869		269 869	-100%
EQUITABLE SHARE	830 046 000	830 046 000	-	-2%
EPWP GRANT	1 316 000	1 301 864	14 136	-26
LOCAL GOV FIN MNG GRANT	2 100 000	1 998 719	101 281	-43%

PUBLIC TRANSPORT NETWORK GRANT	60 142 674	130 861 420	(70 718 746)	-93%
URBAN SETTLEMENT DEV GRANT	14 858 070	80 275 470	(65 417 400)	-100%
TOTAL	935 394 061	930 168 350	5 225 711	99,44%

The Municipality is a recipient of the Operating Grants and Subsidies from the National and Provincial Government's respectively. For the reporting period the actual spending was R930 million.

B. Capital Grants

The capital expenditure budget stood at R1 380 billion by the end of the 2021/2022 financial year.

Table 45: Conditional Grants Received: Excluding MIG

Grants Received	Budget
Neighbourhood Development Partnership Grant	10 000 000
Public Transport Infrastructure & Systems Grant	163 505 326
Informal Settlement Upgrading Partnership	213 893 000
USDG Grant	784 503 004
Human Settlement Development Grant Provincial	196 000 000
Public Contributions	13 000 000
Total	1 380 901 330

5.3 Repairs and Maintenance

Table 46: Repairs and Maintenance

Repair and Maintenance Expenditure: Year 2021/2022				
R' 000				
	Original Budget	Adjustment Budget	Actual	Percentage
Repairs and Maintenance Expenditure	497 607	508 194	626 973	123,37%

Repairs and Maintenance Budget spending was at **R 598 million (117.8%)** by the end of the 2021/2022 financial year.

5.4 Spending Against Capital Budget

Table 47: Capital Expenditure

R'000	Original Budget	Adjustment Budget	Actual
Capital Expenditure	1 221 005 654	1 641 936 399	908 332

Chapter 6 – Auditor General Reports 2021/2022

Component A: Auditor – General Opinion of Mangaung Metropolitan Municipality Consolidated Financial Statements

Report of the auditor-general to the Free State Legislature and the Council on Mangaung Metropolitan Municipality

Report on the audit of the consolidated financial statements

Qualified opinion

1. I have audited the consolidated financial statements of the Mangaung Metropolitan Municipality and its municipal entity (the group) set out on pages 7 to 147, which comprise the consolidated statement of financial position as at 30 June 2022, the consolidated statement of financial performance, statement of changes in net assets, cash flow statement and statement of comparison of budget and actual amounts for the year then ended, as well as the notes to the consolidated financial statements, including a summary of significant accounting policies.
2. In my opinion, except for the effects and possible effects of the matters described in the basis for qualified opinion section of this auditor's report, the consolidated financial statements present fairly, in all material respects, the financial position of the group as at 30 June 2022, and its financial performance and cash flows for the year then ended in accordance with the Standards of Generally Recognised Accounting Practice (Standards of GRAP) and the requirements of the Municipal Finance Management Act 56 of 2003 (MFMA) and the Division of Revenue Act 9 of 2021 (Dora).

Basis for qualified opinion

Employee-related costs

3. I was unable to obtain sufficient appropriate audit evidence for expenditure relating to overtime, shift and standby allowances included in employee-related costs due to inadequate processes to ensure that a need was established for overtime to be worked or that overtime was actually worked by the municipal officials. I was unable to confirm overtime, shift and standby allowances by alternative means. Consequently, I was unable to determine whether any adjustments were necessary to overtime, shift and standby allowances, stated at R233 731 926 in note 43 to the consolidated financial statements.

Current liabilities

4. The group did not recognise all current liabilities that met the definition of a liability in accordance with GRAP 1, *Presentation of financial statements*. The group received goods and services before year-end; however, these were not recognised as current liabilities. Consequently, current

liabilities were understated and general expenditure and contracted services were understated by R105 692 508.

Context for the opinion

5. I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the auditor-general's responsibilities for the audit of consolidated financial statements section of my report.
6. I am independent of the group in accordance with the International Ethics Standards Board for Accountants' *International code of ethics for professional accountants (including International Independence Standards)* (IESBA code) as well as other ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA code.
7. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my qualified opinion.

Material uncertainty relating to going concern

8. I draw attention to the matter below. My opinion is not modified in respect of this matter.
9. Note 62 to the consolidated financial statements indicates that the group incurred a net loss of R872 688 325 (2021: R20 230 382) during the year ended 30 June 2022 and that, as of that date, the group's current liabilities exceeded its total assets by R485 444 061 (2021: R167 767 918). The municipality was experiencing labour difficulties and vacancies in key positions (91%) and the average payment term of suppliers was 165 days (2021: 162 days). In addition, the group owed the water board R568 836 830 (2021: R670 029 022) as at 30 June 2022, which amount was long overdue. These events or conditions, along with other matters as set forth in note 62, indicate that a material uncertainty exists that may cast significant doubt on the group's ability to continue as a going concern.

Emphasis of matters

10. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Restatement of corresponding figures

11. As disclosed in note 70 to the consolidated financial statements, the corresponding figures for 30 June 2021 were restated as a result of errors in the consolidated financial statements of the group at, and for the year ended, 30 June 2022.

Material impairments

12. As disclosed in note 49 to the consolidated financial statements, material losses of R1 857 510 907 (2021: R823 611 587) were incurred as a result of bad debts written off and impairment of consumer and traffic fine receivables.

Material losses

13. As disclosed in note 51 to the consolidated financial statements, material water losses of R406 666 962 (2021: R337 156 450) were incurred, which represent 45% (2021: 45%) of total water purchased. These losses were due to burst water pipes, leakages and unmetered sites.
14. As disclosed in note 51 to the consolidated financial statements, material electricity distribution losses of R241 915 025 (2021: R182 694 562) were incurred, which represent 10,96% (2021: 10,05%) of total electricity purchased. The losses were as a result of line losses, tampering, theft, and variances due to monthly consumption estimates.

Underspending of the conditional grant

15. As disclosed in note 20 to the consolidated financial statements, the group materially underspent the conditional grants by R571 039 043 because most of the funds were received close to year-end, leaving the group with limited time to meet the grant requirements.

Unauthorised expenditure

16. As disclosed in note 64 to the consolidated financial statements, the group incurred unauthorised expenditure of R1 448 495 011 (2021: R757 143 500) due to overspending of the budget.

Irregular expenditure

17. As disclosed in note 66 to the consolidated financial statements, the group incurred irregular expenditure of R186 535 056 (2021: R222 865 051) due to non-compliance with supply chain management processes.

Fruitless and wasteful expenditure

18. As disclosed in note 65 to the consolidated financial statements, the group incurred fruitless and wasteful expenditure of R93 607 043 mainly due to payments made on key service delivery projects that were not delivered.

Events after the reporting date

19. I draw attention to note 63 in the consolidated financial statements which deals with subsequent events and specifically the effects of the council resolution to write off the additional indigent accounts in the 2022 financial year. The additional write-off was included in the 2022 financial year's transactions.

Other matter

20. I draw attention to the matter below. My opinion is not modified in respect of this matter.

Unaudited disclosure notes

21. In terms of section 125(2)(e) of the MFMA, the group is required to disclose particulars of non-compliance with the MFMA in the consolidated financial statements. This disclosure requirement

did not form part of the audit of the consolidated financial statements and, accordingly, I do not express an opinion thereon.

Responsibilities of the accounting officer for the consolidated financial statements

22. The accounting officer is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Standards of GRAP and the requirements of the MFMA and Dora, and for such internal control as the accounting officer determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.
23. In preparing the consolidated financial statements, the accounting officer is responsible for assessing the group's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the group or to cease operations, or has no realistic alternative but to do so.

Auditor-general's responsibilities for the audit of the consolidated financial statements

24. My objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.
25. A further description of my responsibilities for the audit of the consolidated financial statements is included in the annexure to this auditor's report.

Report on the audit of the consolidated annual performance report

Introduction and scope

26. In accordance with the Public Audit Act 25 of 2004 (PAA) and the general notice issued in terms thereof, I have a responsibility to report on the usefulness and reliability of the reported performance information against predetermined objectives for selected key performance areas (KPA's) presented in the consolidated annual performance report. I was engaged to perform procedures to identify material findings but not to gather evidence to express assurance.
27. I was engaged to evaluate the usefulness and reliability of the reported performance information in accordance with the criteria developed from the performance management and reporting framework, as defined in the general notice, for the following selected KPA presented in the group's consolidated annual performance report for the year ended 30 June 2022:

KPA	Pages in the consolidated annual performance report
KPA 2 – Basic service delivery	78 - 135

28. I performed procedures to determine whether the reported performance information was properly presented and whether performance was consistent with the approved performance planning documents. I performed further procedures to determine whether the indicators and related targets were measurable and relevant, and assessed the reliability of the reported performance information to determine whether it was valid, accurate and complete.
29. The material findings on the usefulness and reliability of the performance information of the selected KPA are as follows:

KPA 2 – Basic service delivery

[Percentage of length of pipeline completed – Botshabelo main outfall sewer](#)

30. The planned indicator and target were ‘final detail designs’, but the reported achievement referred to was the ‘detail design completed’, and the supporting evidence provided materially differed from the reported achievement.

[Percentage of households with access to basic sanitation – upgrading of Wilcocks Road and Rayton sanitation pipeline](#)

31. The planned indicator and target were the ‘completion of the construction work’, but the reported achievement referred to was the ‘retention period expired and practical completion granted on 6 April 2022’.

[Length of electrical infrastructure completed, target 1000 m MV reticulation completed and project Vista Park Ext. \(251\) 2 electricity](#)

32. I was unable to obtain sufficient appropriate audit evidence that systems and processes were established to enable consistent measurement and reliable reporting of performance against the predetermined indicator definitions. This was due to insufficient measurement definitions and processes. As a result, I was also unable to obtain sufficient appropriate audit evidence for the achievement of zero reported against the target ‘1 000 m MV reticulation completed’ in the consolidated annual performance report. I was unable to validate the existence of systems and confirm the reported achievements by alternative means. Consequently, I was unable to determine whether any adjustments were required to the reported achievement.

[Length of electrical infrastructure completed, Park Ext. \(256,257,261\) 3 electrical infrastructure](#)

33. The planned indicator and target were ‘70% completion of the switch room building’, but the reported achievement referred to was ‘zero’. Furthermore, I was unable to obtain sufficient appropriate audit evidence that systems and processes were established to enable consistent measurement and reliable reporting of performance against the predetermined indicator definitions. This was due to insufficient measurement definitions and processes. As a result, I

was unable to obtain sufficient appropriate audit evidence for the achievement and the related measures taken to improve performance as reported in the consolidated annual performance report. I was unable to validate the existence of the systems and confirm the reported achievement and the reported measures taken by alternative means. Consequently, I was unable to determine whether any adjustments were required to the reported achievements and the reported measures taken to improve performance.

Number of new households – Makurung internal water reticulation

34. The planned indicator and target were to ‘finalise detail designs’, but the reported achievement referred to was the ‘final detailed design report completed’. Furthermore, I was unable to obtain sufficient appropriate audit evidence that clearly defined the predetermined method of collection to be used when measuring the actual achievement for the indicator. This was due to insufficient measurement definitions or processes. I was unable to test by alternative means whether the indicator was well defined. As a result, the achievements reported in the consolidated annual performance report materially differed from the supporting evidence provided.

To upgrade the pump station – Hamilton Park pump station refurbishment

35. The planned indicator and target were to ‘start with construction’, but the reported achievement referred to was ‘tender approved by the bid evaluation committee (BEC)’. Furthermore, I was unable to obtain sufficient appropriate audit evidence that clearly defined the predetermined method of collection or that related systems and processes were established to enable consistent measurement and reliable reporting of the actual achievement for the indicator. This was due to insufficient measurement definitions and processes. I was unable to test by alternative means whether the indicator was well defined and verifiable. As a result, I was unable to audit the reliability of the achievement for the indicator. I was also unable to obtain sufficient appropriate audit evidence to support the measures taken to improve performance against the target – the tender was approved by the BEC, as reported in the consolidated annual performance report. This was due to limitations placed on the scope of my work. I was unable to confirm the reported measures taken by alternative means. Consequently, I was unable to determine whether any adjustments were required to the reported measures taken to improve performance.

Draft sanitation masterplan reports finalised draft WSDP topics developed (3-8) – sewer master and development plans

36. The masterplan reports of Botshabelo and Thaba Nchu and the small towns (Dewetsdorp, Wepener, Van Stadensrus, Soutpan) have has been compiled. Soutpan was assigned to a sub-consultant appointed by the Mangaung Metropolitan Municipality (MMM) (ROMH) and the draft was in progress. WSDP document preparation (draft in progress, pending the outcome of masterplan data collection) was reported on against the target in Bloemfontein, Thaba Nchu, Dewetsdorp, Wepener, Van Stadensrus and Soutpan WSDP topics 3-8 in the consolidated annual performance report. However, the supporting evidence provided differed materially from the reported achievement. Furthermore, I was unable to obtain sufficient appropriate audit evidence to support the measures taken to improve performance against this target, as reported in the consolidated annual performance report. This was due to limitations placed on the scope of my work, as the corroborating evidence for the measures taken to improve performance was

not submitted. I was unable to confirm the reported measures taken by alternative means. Consequently, I was unable to determine whether any adjustments were required to the reported measures taken to improve performance.

Refurbish 60 Ml/d – Maselspoort WTW upgrade

37. The planned indicator and target were 'land surveying', but the reported achievement referred to was 'submitted to the MMM' where Legal had to assist with land matters submitted. However, the supporting evidence provided differed materially from the reported achievement. Furthermore, I was unable to obtain sufficient appropriate audit evidence to support the measures taken to improve performance against the target 'land surveying' as reported in the consolidated annual performance report. This was due to limitations placed on the scope of my work, as the corroborating evidence for the measures taken to improve performance was not submitted. I was unable to confirm the reported measures taken by alternative means. Consequently, I was unable to determine whether any adjustments were required to the reported measures taken to improve performance.

Percentage of households with access to basic sanitation – Extension Thaba Nchu WWTW (Seloseshu) mechanical and electrical

38. The planned indicator and target were '100% spending on the allocated budget', but the reported achievement was that the allocated budget for the project had been spent within the financial year and they were busy finalising designs for mechanical and electrical works. However, some supporting evidence provided materially differed from the reported achievement, while in other instances, I was unable to obtain sufficient appropriate audit evidence. This was due to the lack of accurate and complete records. Furthermore, I was unable to obtain sufficient appropriate audit evidence to support the measures taken to improve performance against the target of '100% spending on the allocated budget' as reported in the consolidated annual performance report. This was due to limitations placed on the scope of my work, as the corroborating evidence for the measures taken to improve performance was not submitted. I was unable to confirm the reported achievements and measures taken by alternative means. Consequently, I was unable to determine whether any adjustments were required to these reported achievements and measures taken to improve performance.

Various indicators

39. The planned indicators and targets were not consistent with the reported achievements for the listed indicators below. Furthermore, I was unable to obtain sufficient appropriate audit evidence to support the measures taken to improve performance as reported in the consolidated annual performance report for these indicators. This was due to limitations placed on the scope of my work, as the corroborating evidence for the measures taken to improve performance was not submitted. I was unable to confirm the reported measures taken by alternative means. Consequently, I was unable to determine whether any adjustments were required to the reported measures taken to improve performance:

Indicator description	Planned target	Reported achievement
Households connected – sewer connections	30 households connected	None (budget to be moved)

% completion of mechanical and electrical work (sludge stream) – north eastern WWTW mechanical and electrical works (sludge stream)	Appoint PSP	0
---	-------------	---

Various indicators

40. The planned indicators and targets of the following indicators as per the approved revised consolidated annual performance plan and the performance against the planned targets were not reported in the consolidated annual performance report. As a result, a comparison between the planned and actual performance and the measures taken to improve performance against the target were not reported in the consolidated annual performance report.

Indicator description	Planned target
WS1.11 Number of new sewer connections meeting minimum standards	30
WS2.11 Number of new water connections meeting minimum standards	423
WS3.11 Percentage of callouts responded to within 24 hours (sanitation/wastewater)	80%
WS3.21 Percentage of callouts responded to within 24 hours (water)	80%
ENV5.21 Number of inland water samples tested for monitoring purposes	Need to be determined

Various indicators

41. I was unable to obtain sufficient appropriate audit evidence for the reported achievement of nine of the 60 listed indicators relating to this KPA. This was due to the lack of accurate and complete records. I was unable to confirm the reported achievements by alternative means. Consequently, I was unable to determine whether any adjustments were required to the reported achievements in the consolidated annual performance report for the indicators listed below:

Indicator description	Planned target	Reported achievement
Percentage of households with access to basic sanitation – refurbishment of sewer systems	100% spending on the approved budget	100% spending on the approved budget
Percentage of households with access to basic sanitation – refurbishment of WWTW's	100% Spending on the approved budget	100% spending on the approved budget
Length of pipeline completed for internal water and sewer on CCP subsidised units - Vista Park Ext. (251) 2 - internal water & sewer	1000 m completed of internal water and sewer on CCP subsidised units	0
Length of bulk sewer pipeline completed - Vista Park Ext. (251) 2 bulk sewer	850 m length of bulk sewer pipeline completed	0
Number of households living in informal settlements provided with sewer - Botshabelo Sec D installation of sewer	100 households connected with sewer	0
Number of households living in informal settlements provided with sewer - Botshabelo Sec M installation of sewer	100 households connected with sewer	0
Number of households living in informal settlements provided with water and sewer - Soutpan installation of water and sewer reticulation	22 households connected with water and sewer	0
Number of erven installed with water and sewer - Dewetsdorp installation of water and sewer	100 households connected with water and sewer	0
WS5.21 infrastructure leakage index	0	0,01

Various indicators

42. I was unable to obtain sufficient appropriate audit evidence for the achievement and the related measures taken to improve performance as reported in the consolidated annual performance report for the indicators listed below. Limitations were placed on the scope of my work, as the actual level of achievement for the year was not quantified. I was unable to confirm the reported achievement and the reported measures taken by alternative means. Consequently, I was unable to determine whether any adjustments were required to the reported achievements and the reported measures taken to improve performance.

Indicator description	Planned target	Reported achievement
Percentage of households with access to basic sanitation – Extension Thaba Nchu WWTW (Selosesha) civil	100% spending on the approved budget	The allocated funds for the project were spent and 45% on billed items certified
Percentage of households with access to basic sanitation – refurbishment of sewer systems in Soutpan	100% spending on the approved budget	0% expenditure on the Soutpan Vote but the work was done and claimed on other refurbishment vote
Percentage of households with access to basic water - refurbishment of water supply systems	100% completion of all targeted unplanned system failures	95% completion of all targeted unplanned system failures

Indicator description	Planned target	Reported achievement
WS4.11 percentage of water treatment capacity unused	80%	98,2%
WS4.31 percentage of wastewater treatment capacity unused	14%	0%
WS5.31 percentage of total water connections metered	100%	81,1%

Various indicators

43. I was unable to obtain sufficient appropriate audit evidence to support the measures taken to improve performance against the targets as reported in the consolidated annual performance report for the indicators listed below. This was due to limitations placed on the scope of my work, as the corroborating evidence for the measures taken to improve performance was not submitted. I was unable to confirm the reported measures taken by alternative means. Consequently, I was unable to determine whether any adjustments were required to the reported measures taken to improve performance.

Indicator description	Planned target	Reported achievement
Number of pressure reducing vales (PRVs) commissioned and refurbished – pressure and network zone management (including auditing of valves and PRV commissioning)	Number of PRVs: 24	19 PRVs commissioned / refurbished
Number of households living in informal settlements provided with water and sewer – Bloemside 9 installation of water and sewer	200 households connected with water and sewer	0
Number of households living in informal settlements provided with water and sewer – Bloemside 10 installation of water and sewer	100 households connected with water and sewer	0
KPI: Number of households living in informal settlements provided with water and sewer – Bloemside 7 installation of water and sewer	500 households connected with water and sewer	0
Number of households living in informal settlements provided with water and sewer – Sonderwater phase 2 installation of water and sewer reticulation	80 households connected with water and sewer	0
Number of households living in informal settlements provided with water and sewer – Chris Hani 28747 installation of water and sewer reticulation	50 households connected with water and sewer	0
Number of households living in informal settlements provided with water and sewer – F/Dom SQ 37321 Zuma SQ installation of water and sewer reticulation	117 households connected with water and sewer	0
Number of households living in informal settlements provided with water and sewer – Marikana SQ installation of water and sewer reticulation	80 households connected with water and sewer	0
Number of households living in informal settlements provided with water and sewer – Botshabelo Section C and E – installation of water and sewer reticulation	138 households connected with water and sewer	0

Indicator description	Planned target	Reported achievement
Number of households living in informal settlements provided with water and sewer – Thabo Mbeki SQ installation of water and sewer reticulation	48 households connected with water and sewer	0
Number of erven installed with water and sewer – Maditlhabela installation of water and sewer	938 households connected with water and sewer	0
Number of erven installed with water and sewer – Matlharantlheng installation of water and sewer	3 108 households connected with water and sewer	0

Various indicators

44. I was unable to obtain sufficient appropriate audit evidence that clearly defined the predetermined method of collection or that related systems and processes were established to enable consistent measurement and reliable reporting of the actual achievement for the indicator. This was due to insufficient measurement definitions and processes. I was unable to test by alternative means whether the indicator was well defined and verifiable. As a result, I was unable to audit the reliability of the achievement for the indicators listed below. Furthermore, I was unable to obtain sufficient appropriate audit evidence to support the measures taken to improve performance against the targets as reported in the consolidated annual performance report for the listed indicators. This was due to limitations placed on the scope of my work. I was unable to confirm the reported measures taken by alternative means. Consequently, I was unable to determine whether any adjustments were required to the reported measures taken to improve performance.

Indicator description	Planned targets	Reported achievement
Percentage of households with access to basic sanitation – Sterkwater WWTW phase 3 mechanical and electrical (liquid stream)	Complete documentation and start SCM process	None
% complete pump station and rising main – Botshabelo section K pump station and rising main	Continue with designs	None
Total metres of sewer pipeline upgraded – Bloemspruit network upgrade because of densification in MMM	Appoint PSP, complete field work, designs and documentation and start with SCM process	None

Various indicators

45. I was unable to obtain sufficient appropriate audit evidence that clearly defined the predetermined method of collection to be used when measuring the actual achievement for the indicator. This was due to a lack of measurement definitions and processes. I was unable to test by alternative means whether the indicators were well defined. Furthermore, I was unable to obtain sufficient appropriate audit evidence to support the measures taken to improve performance as reported in the consolidated annual performance report for the indicators listed below. This was due to limitations placed on the scope of my work, as the corroborating evidence for the measures taken

to improve performance was not submitted. I was unable to confirm the reported measures taken by alternative means. Consequently, I was unable to determine whether any adjustments were required to the reported measures taken to improve performance.

Indicator description	Planned target	Reported achievement
Households – waterborne sanitation ward 8	Appoint PSP	None
Households – waterborne sanitation ward 17	Appoint PSP	None

Unplanned interruptions of the supply should be restored as per Nersa licence requirement in terms of NRS 047 by 30 June 2022

46. I was unable to obtain sufficient appropriate audit evidence for the achievement reported in the consolidated annual performance report against the target tabled below, due to the lack of accurate and complete records. I was unable to confirm the reported achievement by alternative means. Consequently, I was unable to determine whether any adjustments were required to the reported achievement.

Indicator description	Planned target	Reported achievement
Unplanned interruptions of the supply should be restored as per Nersa licence requirement in terms of NRS 047 by 30 June 2022.	Unplanned interruptions of the supply should be restored as per Nersa licence requirements in terms of NRS 047 (2005) by 30 June 2022.	A) Calls within 1,5 hours 26%
		b) Calls within 3,5 hours 57%
		c) Calls within 7,5 hours 91%
		d) Calls within 24 hours 100%
		e) Calls within a week 100%

Percentage of valid customer applications for new electricity connections processed in terms of municipal services by June 2022

47. The planned target for this indicator was not specific in identifying the required level of performance.

Installed capacity of approved embedded generators on the municipal distribution network by June 2022

48. The planned target was 'approved applications received for embedded generation by June 2022', but the reported achievement referred to was 'installed capacity of small-scale embedded generators on the municipal distribution network'. Therefore, the target and the reported achievement are not consistent.

Other matters

49. I draw attention to the matters below.

Achievement of planned targets

50. Refer to the consolidated annual performance report on page(s) 78 to 135 for information on the achievement of planned targets for the year. This information should be considered in the context of material findings on the usefulness and reliability of the reported performance information in paragraphs 30 to 48 of this report. The MMM achieved 13% of the planned targets for the year in respect of the selected KPA – Basic service delivery. Some of the planned targets that were not achieved related to key service delivery indicators on water, sanitation and electricity, per the table below:

No.	Indicator	Planned target	Reported achievement
1	WS4.31 Percentage of wastewater treatment capacity unused	14%	0%
2	EE1.11 Number of dwellings provided with connections to the mains electricity supply by municipality	1 550 dwellings provided with electricity connections by 30 June 2022	0
3	Length of pipeline completed for internal water and sewer on CCP subsidised units – Vista Park Ext. (251) 2 – internal water & sewer	1000m completed of internal water and sewer on CCP subsidised units	0
4	Length of bulk sewer pipeline completed – Vista Park Ext. (251) 2 bulk sewer	850m length of bulk sewer pipeline completed	0
5	Length of electrical infrastructure completed - Vista Park Ext. (251) 2 Electricity; - Vista Park Ext. (256,257,261) 3 Electrical Infrastructure	1 000m MV reticulation completed	0
		70% completion of switch room building	0
6	Number of households living in informal settlements provided with sewer – Botshabelo Sec D installation of sewer; Botshabelo Sec M installation of sewer	100 households connected with sewer	0
		100 households connected with sewer	0
7	Number of households living in informal settlements provided with water and sewer	200 households connected with water and sewer	0
		100 households connected with water and sewer	0
		500 households connected with water and sewer	0
		80 households connected with water and sewer	0
		50 households connected with water and sewer	0
		117 households connected with water and sewer	0
		80 households connected with water and sewer	0
		111 households connected with water and sewer	0
		124 households connected with water and sewer	0

No.	Indicator	Planned target	Reported achievement
		138 households connected with water and sewer	0
		48 households connected with water and sewer	0
		80 households connected with water and sewer	0
		22 households connected with water and sewer	0
		119 households connected with water and sewer	0
8	Number of households living in informal settlements provided with water: - Grassland Phase 4 Installation of water reticulation - Botshabelo West installation of water reticulation - Botshabelo Sec R installation of water reticulation (1 000 U) - Ratau Ext. 40 installation of water reticulation	1 000 households connected with water	0
		1 000 households connected with water and sewer	0
		1000 households connected with water and sewer	0
		100 households connected with water and sewer	0
9	Number of erven installed with water and sewer	100 households connected with water and sewer	0
		22 households connected with water and sewer	0
		90 households connected with water and sewer	0
		34 households connected with water and sewer	0
		938 households connected with water and sewer	0
		3 108 households connected with water and sewer	0
		320 households connected with water and sewer	0
10	Percentage of households with access to basic sanitation - Sterkwater WWTW phase 3 mech and electrical (liquid stream)	Complete documentation and start SCM process.	None
11	Households – waterborne sanitation ward 8	Appoint PSP	None
12	Households – waterborne sanitation ward 17	Appoint PSP	None
13	Households connected	30 households connected	None (budget to be moved)
14	% complete pump station and rising main – Botshabelo section K pump station and rising main	Continue with designs	None

No.	Indicator	Planned target	Reported achievement
15	Total metres of sewer pipeline upgraded – Bloemspruit network upgrade because of densification in MMM	Appoint PSP, complete field work designs and documentation and start with SCM process	None
16	% completion of mechanical and electrical work (sludge stream) – north eastern WWTW mechanical and electrical works (sludge stream)	Appoint PSP	0%

Adjustment of material misstatements

51. I identified material misstatements in the consolidated annual performance report submitted for auditing. These material misstatements were in the reported performance information of KPA 2 – Basic service delivery. As management subsequently corrected only some of the misstatements, I raised material findings on the usefulness and reliability of the reported performance information. Those that were not corrected are reported above.

Report on the audit of compliance with legislation

Introduction and scope

52. In accordance with the PAA and the general notice issued in terms thereof, I have a responsibility to report material findings on the municipality's compliance with specific matters in key legislation. I performed procedures to identify findings but not to gather evidence to express assurance.
53. The material findings on compliance with specific matters in key legislation are as follows:

Financial statements and annual reports

54. The financial statements submitted for auditing were not prepared in all material respects in accordance with the requirements of section 122(1) of the MFMA. Material misstatements of non-current assets, current assets, revenue, expenditure and disclosure items identified by the auditors in the submitted financial statements were corrected and the supporting records were provided subsequently, but the uncorrected material misstatements and supporting records that could not be provided resulted in the financial statements receiving a qualified audit opinion.
55. The council failed to adopt an oversight report containing the council's comments on the 2020-21 annual report, as required by section 129(1) of the MFMA.

Procurement and contract management

56. Sufficient appropriate audit evidence could not be obtained that the performance of contractors or providers was monitored on a monthly basis as required by section 116(2) of the MFMA. A similar limitation was also reported in the prior year.
57. Sufficient appropriate audit evidence could not be obtained that contract performance and monitoring measures were in place to ensure effective contract management, as required by section 116(2)(c)(ii) of the MFMA. A similar limitation was also reported in the prior year.

58. Two contracts above R30 million did not include a condition for mandatory subcontracting to advance designated groups, as required by the 2017 preferential procurement regulation 9(1).

Expenditure management

59. Money owed by the municipality was not always paid within 30 days, as required by section 65(2)(e) of the MFMA.
60. Reasonable steps were not taken to ensure that the municipality implemented and maintained an effective system of expenditure control, including procedures for the approval, authorisation and payment of funds, as required by section 65(2)(a) of the MFMA.
61. An adequate management, accounting and information system was not in place which recognised expenditure when it was incurred, and accounted for creditors as required by section 65(2)(b) of the MFMA.
62. Reasonable steps were not taken to prevent irregular expenditure amounting to R186 535 056 as disclosed in note 66 to the consolidated financial statements, as required by section 62(1)(d) of the MFMA. The majority of the irregular expenditure was caused by non-compliance with supply chain management regulations and recurring expenditure from contracts that had been reported as irregular in prior financial years.
63. Reasonable steps were not taken to prevent fruitless and wasteful expenditure amounting to R93 607 043, as disclosed in note 65 to the consolidated financial statements, in contravention of section 62(1)(d) of the MFMA. The majority of the disclosed fruitless and wasteful was caused by payments made on key service delivery projects that were not delivered.
64. Reasonable steps were not taken to prevent unauthorised expenditure amounting to R1 448 495 011, as disclosed in note 64 to the consolidated financial statements, in contravention of section 62(1)(d) of the MFMA. The majority of the unauthorised expenditure was caused by overspending the approved budget.

Utilisation of conditional grants

65. I was unable to obtain sufficient appropriate audit evidence that the public transport network grant (PTNG) was spent for its intended purposes in accordance with the applicable grant framework, as required by section 16(1) of Dora.
66. Performance in respect of programmes funded by the PTNG was not evaluated within two months after the end of the financial year, as required by section 12(5) of Dora.
67. I was unable to obtain sufficient appropriate audit evidence that the urban settlement development grant (USDG) was spent for its intended purposes in accordance with the applicable grant framework, as required by section 16(1) of Dora.
68. Performance in respect of programmes funded by the USDG was not evaluated within two months after the end of the financial year, as required by section 11(6)(b) of Dora.

69. The informal settlement upgrading partnership grant was not spent for its intended purposes in accordance with the applicable grant framework, as required by section 16(1) of Dora.

Consequence management

70. Unauthorised expenditure incurred by the municipality was not investigated to determine whether any person was liable for the expenditure, as required by section 32(2)(a) of the MFMA.
71. Irregular expenditure incurred by the municipality was not investigated to determine whether any person was liable for the expenditure, as required by section 32(2)(b) of the MFMA.
72. Fruitless and wasteful expenditure incurred by the municipality was not investigated to determine whether any person was liable for the expenditure, as required by section 32(2)(b) of the MFMA.

Strategic planning and performance management

73. The performance management system and related controls were inadequate due to the significant internal control deficiencies identified, resulting in findings on the usefulness and reliability of indicators and targets, in contravention of municipal planning and performance management regulation 7(1).

Revenue management

74. An effective system of internal control for revenue was not in place, as required by section 64(2)(f) of the MFMA.

Asset management

75. An effective system of internal control for assets was not in place, as required by section 63(2)(c) of the MFMA.

Human resource management

76. Appropriate systems and procedures to monitor, measure and evaluate performance of staff were not developed and adopted, as required by section 67(1)(d) of the Municipal Systems Act 32 of 2000.

Environmental management

77. The Botshabelo, Thaba Nchu, Bloem industrial, Bainsvlei, Northern Works, Welvaart, Bloemspuit, Dewetsdorp, Wepener, Soutpan and Van Stadensrus wastewater treatment works did not have a valid operating licence, as required by section 22(1)(b) of the National Water Act 36 of 1998.
78. The Wepener solid waste management facility did not have a valid operating licence, as required by section 20(b) of the National Environmental Management Waste Act 56 of 2018.

Other information

79. The accounting officer is responsible for the other information. The other information comprises the information included in the annual report. The other information does not include the

consolidated financial statements, the auditor's report and those selected KPAs presented in the consolidated annual performance report that have been specifically reported in this auditor's report.

80. My opinion on the consolidated financial statements and findings on the reported performance information and compliance with legislation do not cover the other information and I do not express an audit opinion or any form of assurance conclusion on it.
81. In connection with my audit, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements and the selected KPAs presented in the consolidated annual performance report, or my knowledge obtained in the audit, or otherwise appears to be materially misstated.
82. I did not receive the other information prior to the date of this auditor's report. When I do receive and read this information and if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance and request that the other information be corrected. If the other information is not corrected, I may have to retract this auditor's report and re-issue an amended report as appropriate. However, if it is corrected this will not be necessary.

Internal control deficiencies

83. I considered internal control relevant to my audit of the consolidated financial statements, reported performance information and compliance with applicable legislation; however, my objective was not to express any form of assurance on it. The matters reported below are limited to the significant internal control deficiencies that resulted in the basis for the qualified opinion, the findings on the consolidated annual performance report and the findings on compliance with legislation included in this report.
84. There has been a slow response from management to address governance concerns within the group due to frequent changes in the role of the accounting officer and high vacancy rate within key positions.
85. Leadership did not adequately monitor and enforce the implementation of the corrective measures included in the audit action plan to address inadequate internal control measures and apply consequence management for weaknesses identified during prior year audits.
86. Management's failure to prioritise, develop and apply standard operating procedures to manage performance reporting, including the safeguarding of information and effective monitoring and evaluation of reported performance information against the set indicators, resulted in material findings in the consolidated annual performance report.
87. Management's lack of detailed review of the consolidated financial statements and the underlying records resulted in material misstatements which were not detected and corrected or prevented by the group's internal processes. The corrected misstatements resulted in material non-compliance included in this report.

88. Management did not prepare regular, accurate and complete financial and performance reports that are supported by reliable information, as the consolidated financial statements and consolidated annual performance report contained numerous misstatements.
89. Management did not implement proper record keeping in a timely manner to ensure that complete, relevant and accurate information is accessible and available to support financial and performance reporting.

Material irregularities

90. In accordance with the PAA and the Material Irregularity Regulations, I have a responsibility to report on material irregularities identified during the audit and on the status of the material irregularities reported in the previous year's auditor's report.

Material irregularities in progress

91. I identified material irregularities during the audit and notified the accounting officer, as required by material irregularity regulation 3(2). By the date of this auditor's report, I had not yet completed the process of evaluating the responses from the accounting officer. These material irregularities will be included in the next year's auditor's report.

Status of previously reported material irregularities

Under-declaration of employee taxes

92. For the month of July 2019, the municipality withheld pay-as-you-earn (PAYE) from its employees' salaries but under-declared the amount paid to Sars, in contravention of section 2(1) of the fourth schedule of the Income Tax Act 58 of 1962. Under-declaration of these amounts resulted in a material financial loss for the municipality in the form of a penalty of R1 070 034 and interest of R627 282 charged by Sars. The penalty and interest formed part of the prior year amount disclosed as fruitless and wasteful expenditure in note 63 to the 2020-21 financial statements.
93. The accounting officer was notified of this material irregularity on 8 March 2021. The following actions have been taken to resolve the material irregularity:
- A permanent project leader was appointed with effect from 1 September 2020 to process Sars submissions to prevent such non-compliance from recurring.
 - The municipality requested remission from Sars on 16 November 2021 to waive the interest and penalties. In a letter dated 9 December 2021, Sars confirmed that the penalties had been waived.
 - The responsible official has been subjected to an internal disciplinary process.
94. Therefore, the material irregularity has been resolved.

Other reports

95. In addition to the investigations relating to material irregularities, I draw attention to the following engagements conducted by various parties which had, or could have, an impact on the matters reported in the group's consolidated financial statements, reported performance information, compliance with applicable legislation and other related matters. These reports did not form part of my opinion on the consolidated financial statements or my findings on the reported performance information or compliance with legislation.
96. The Special Investigating Unit (SIU) received information regarding alleged corruption within the metro police and IPTN at the municipality during the period 2017 to date. However, the municipality has not submitted all the requested documents to the SIU. The SIU is still analysing the partially submitted information in order to establish the legitimacy of the allegations. These proceedings were still in progress at the date of this auditor's report.
97. An independent consultant was investigating an allegation of improper procurement of buses and appointment/rollout of the infrastructure project for the IPTN as from the 2015-16 financial year to date. The investigation is still in progress. The outcome of the first stage of the investigation is expected in January 2023, while the second stage of the investigation is still ongoing.
98. The Directorate for Priority Crime Investigation (Hawks) was investigating an allegation of overtime payments to VIP bodyguards employed in the offices of the political office-bearers, which covered the period 2017 to December 2021. These proceedings were still in progress at the date of this auditor's report.
99. The Hawks were investigating allegations of irregularities in the municipality's procurement processes regarding a security service tender awarded for the period 1 March 2019 to 28 February 2021. The outcome was unknown as the investigation report was in progress at the date of this auditor's report.
100. An independent legal firm was appointed to provide a legal opinion on allegations of the irregular appointment and payment of political staff. It is alleged that the political staff were appointed to occupy positions that were not vacant or provided for in the staff establishment for a period of two months starting in January 2022. The report was issued to the Municipal Public Accounts Committee (MPAC) on 19 April 2022; however, the MPAC has not finalised its own report on this matter. The investigation was concluded on 25 February 2022 and resulted in the salaries being disclosed as irregular expenditure.

Auditor-General

Cape Town
26 January 2023

AUDITOR-GENERAL
SOUTH AFRICA

Auditing to build public confidence

Component B: Auditor General Opinion of Mangaung Metropolitan Stand Alone Financial Statement 2021/2022

Report of the auditor-general to the Free State Legislature and the Council on Mangaung Metropolitan Municipality

Report on the audit of the financial statements

Qualified opinion

1. I have audited the financial statements of the Mangaung Metropolitan Municipality set out on pages 7 to 135, which comprise the statement of financial position as at 30 June 2022, the statement of financial performance, statement of changes in net assets, cash flow statement and statement of comparison of budget and actual amounts for the year then ended, as well as the notes to the financial statements, including a summary of significant accounting policies.
2. In my opinion, except for the effects and possible effects of the matters described in the basis for qualified opinion section of this auditor's report, the financial statements present fairly, in all material respects, the financial position of the Mangaung Metropolitan Municipality as at 30 June 2022, and its financial performance and cash flows for the year then ended in accordance with the Standards of Generally Recognised Accounting Practice (GRAP) and the requirements of the Municipal Finance Management Act 56 of 2003 (MFMA) and the Division of Revenue Act 9 of 2021 (Dora).

Basis for qualified opinion

Employee-related costs

3. I was unable to obtain sufficient appropriate audit evidence for expenditure relating to overtime, shift and standby allowances included in employee-related costs, as inadequate processes were in place to ensure that a need was established for overtime to be worked or that overtime was actually worked by the municipal officials. I was unable to confirm overtime, shift and standby allowances by alternative means. Consequently, I was unable to determine whether any adjustments were necessary to overtime, shift and standby allowances, stated at R182 066 600 in note 43 to the financial statements.

Contracted services

4. I was unable to obtain sufficient appropriate audit evidence for expenditure relating to contracted services. Adequate supporting documentation could not be provided to confirm that the goods and services were actually received at the correct quantity, quality and price. I was unable to confirm contracted services by alternative means. Consequently, I was unable to determine whether any adjustments were necessary to contracted services stated at R508 843 210 in the financial statements.

Payables from exchange transactions

5. The Municipality did not recognise all trade payables that met the definition of a liability in accordance with GRAP 1, *Presentation of financial statements*. The Municipality received goods and services before year-end; however, these were not recognised as trade payables. Consequently, trade payables included in note 19 to the financial statements was understated and general expenditure and contracted services were understated by R55 748 293.

Revenue from exchange transactions

6. I was unable to obtain sufficient appropriate audit evidence for revenue from exchange transactions due to the Municipality not having adequate systems in place to recognise revenue from the rendering of services. I was unable to confirm the revenue from exchange transactions by alternative means. Consequently, I was unable to determine whether any adjustments were necessary to revenue from exchange transactions, stated at R2 218 632 410 in the financial statements.

Context for the opinion

7. I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the auditor-general's responsibilities for the audit of financial statements section of my report.
8. I am independent of the Municipality in accordance with the International Ethics Standards Board for Accountants' *International code of ethics for professional accountants (including International Independence Standards)* (IESBA code) as well as other ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA code.
9. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my qualified opinion.

Material uncertainty relating to going concern

10. I draw attention to the matter below. My opinion is not modified in respect of this matter.
11. Note 62 to the financial statements indicates that the Municipality incurred a net loss of R676 871 419 during the year ended 30 June 2022. The Municipality was experiencing labour difficulties and vacancies in key positions (91%) and its average repayment term of suppliers was 261 days (2021: 274 days). In addition, the Municipality owed the water board R568 836 830 (2021: R 670 029 022) as at 30 June 2022, which was long overdue. These events or conditions, along with other matters as set forth in note 62, indicate that a material uncertainty exists that may cast significant doubt on the Municipality's ability to continue as a going concern.

Emphasis of matters

12. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Restatement of corresponding figures

13. As disclosed in note 70 to the financial statements, the corresponding figures for 30 June 2021 were restated as a result of errors in the financial statements of the Municipality at, and for the year ended, 30 June 2022.

Material impairments

14. As disclosed in note 49 to the financial statements, material losses of R1 780 309 540 (2021: R804 852 430) were incurred as a result of bad debts written off and impairment of consumer and traffic fine receivables.

Material losses

15. As disclosed in note 51 to the financial statements, material water losses of R406 666 962 (2021: R337 156 450) was incurred, which represents 45% (2021: 45%) of total water purchased. The losses were due to burst water pipes, leakages and unmetered sites.

Underspending of the conditional grant

16. As disclosed in note 22 to the financial statements, the Municipality materially underspent the conditional grants by R571 039 043 due to majority of funds received close to year-end leaving the Municipality with limited time to meet the grant requirements.

Unauthorised expenditure

17. As disclosed in note 64 to the financial statements, the Municipality incurred unauthorised expenditure of R1 253 981 315 (2021: R570 024 938) due to overspending of the budget.

Irregular expenditure

18. As disclosed in note 66 to the financial statements, the Municipality incurred irregular expenditure of R185 427 971 (2021: R190 844 856) due to non-compliance with supply chain management processes.

Fruitless and wasteful expenditure

19. As disclosed in note 65 to the financial statements, the Municipality incurred fruitless and wasteful expenditure of R83 931 856 due payments made on key service delivery projects that were not delivered.

Events after the reporting date

20. I draw attention to note 63 in the financial statements, which deals with subsequent events and specifically the effects of the council resolution to write off the additional indigent accounts in the 2022 financial year. The additional write off was included in the 2022 financial year's transactions.

Material uncertainty relating to claims against the Municipality

21. With reference to note 59 to the financial statements, the Municipality is the defendant in various claims against the Municipality. The Municipality is opposing these claims. The ultimate outcome of these matters could not be determined and no provision for any liabilities that may result was made in the financial statements.

Other matters

22. I draw attention to the matter below. My opinion is not modified in respect of these matters.

Unaudited disclosure notes

23. In terms of section 125(2)(e) of the MFMA, the Municipality is required to disclose particulars of non-compliance with the MFMA in the financial statements. This disclosure requirement did not form part of the audit of the financial statements and accordingly I do not express an opinion thereon.

Responsibilities of the accounting officer for the financial statements

24. The accounting officer is responsible for the preparation and fair presentation of the financial statements in accordance with the Standards of GRAP and the requirements of the MFMA and Dora, and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.
25. In preparing the financial statements, the accounting officer is responsible for assessing the Municipality's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the Municipality or to cease operations, or has no realistic alternative but to do so.

Auditor-general's responsibilities for the audit of the financial statements

26. My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
27. A further description of my responsibilities for the audit of the financial statements is included in the annexure to this auditor's report.

Report on the audit of the annual performance report

Introduction and scope

28. In accordance with the Public Audit Act 25 of 2004 (PAA) and the general notice issued in terms thereof, I have a responsibility to report on the usefulness and reliability of the reported performance information against predetermined objectives for selected key performance areas (KPAs) presented in the annual performance report. I was engaged to perform procedures to identify material findings but not to gather evidence to express assurance.
29. I was engaged to evaluate the usefulness and reliability of the reported performance information in accordance with the criteria developed from the performance management and reporting framework, as defined in the general notice, for the following selected KPA presented in the Municipality's annual performance report for the year ended 30 June 2022:

KPA	Pages in the annual performance report
KPA 2 – basic service delivery	78 - 135

30. I performed procedures to determine whether the reported performance information was properly presented and whether performance was consistent with the approved performance planning documents. I performed further procedures to determine whether the indicators and related targets were measurable and relevant, and assessed the reliability of the reported performance information to determine whether it was valid, accurate and complete.
31. The material findings on the usefulness and reliability of the performance information of the selected KPA are as follows:

KPA 2 – basic service delivery

Percentage of length of pipeline completed – Botshabelo main outfall sewer

32. The planned indicator and target were final detail designs, but the reported achievement referred to was the detail design completed, and the supporting evidence provided materially differed from the reported achievement.

Percentage of households with access to basic sanitation – upgrading of Wilcocksroad and Rayton sanitation pipeline

33. The planned indicator and target were the completion of the construction work, but the reported achievement referred to was the retention period expired and practical completion granted on the 6 April 2022.

Length of electrical infrastructure completed, target 1000 m MV reticulation completed and project Vista Park Ext. (251) 2 electriCity

34. I was unable to obtain sufficient appropriate audit evidence that systems and processes were established to enable consistent measurement and reliable reporting of performance against the predetermined indicator definitions. This was due to insufficient measurement definitions and processes. As a result, I was also unable to obtain sufficient appropriate audit evidence for the achievement of zero reported against the target 1000 m MV reticulation completed in the annual performance report. I was unable to validate the existence of systems and confirm the reported

achievements by alternative means. Consequently, I was unable to determine whether any adjustments were required to the reported achievement.

Length of electrical infrastructure completed, Park Ext. (256,257,261) 3 Electrical Infrastructure

- 35.** The planned indicator and target were 70% completion of the switch room building, but the reported achievement referred to was zero. Furthermore, I was unable to obtain sufficient appropriate audit evidence that systems and processes were established to enable consistent measurement and reliable reporting of performance against the predetermined indicator definitions. This was due to insufficient measurement definitions and processes. As a result, I was unable to obtain sufficient appropriate audit evidence for the achievement and the related measures taken to improve performance as reported in the annual performance report. I was unable to validate the existence of the systems and confirm the reported achievement and the reported measures taken by alternative means. Consequently, I was unable to determine whether any adjustments were required to the reported achievements and the reported measures taken to improve performance.

Number of new households – Makurung internal water reticulation

- 36.** The planned indicator and target were to finalise detail designs, but the reported achievement referred to was the final detailed design report completed. Furthermore, I was unable to obtain sufficient appropriate audit evidence that clearly defined the predetermined method of collection to be used when measuring the actual achievement for the indicator. This was due to insufficient measurement definitions or processes. I was unable to test by alternative means whether the indicator was well defined. As a result, the achievements reported in the annual performance report materially differed from the supporting evidence provided.

To upgrade the pump station – Hamilton Park pump station refurbishment

- 37.** The planned indicator and target were to start with construction, but the reported achievement referred to was tender approved by the bid evaluation committee (BEC). Furthermore, I was unable to obtain sufficient appropriate audit evidence that clearly defined the predetermined method of collection or that related systems and processes were established to enable consistent measurement and reliable reporting of the actual achievement for the indicator. This was due to insufficient measurement definitions and processes. I was unable to test by alternative means whether the indicator was well defined and verifiable. As a result, I was unable to audit the reliability of the achievement for the indicator. I was also unable to obtain sufficient appropriate audit evidence to support the measures taken to improve performance against the target – the tender was approved by the BEC, as reported in the annual performance report. This was due to limitations placed on the scope of my work. I was unable to confirm the reported measures taken by alternative means. Consequently, I was unable to determine whether any adjustments were required to the reported measures taken to improve performance.

Draft sanitation masterplan reports finalised draft WSDP topics developed (3-8) – sewer master and development plans

- 38.** The achievement of Botshabelo and Thaba Nchu masterplan report has been compiled and the small towns (Dewetsdorp, Wepener, Van Stadensrus, Soutpan) masterplan report has been

compiled. Soutpan was assigned to a sub-consultant appointed by the Mangaung metropolitan Municipality (MMM) (ROMH) and the draft was in progress. WSDP document preparation (draft in progress, pending the outcome of masterplan data collection) was reported against the target in Bloemfontein, Thaba Nchu, Dewetsdorp, Wepener, Van Stadensrus and Soutpan WSDP topics 3-8 in the annual performance report. However, the supporting evidence provided differed materially from the reported achievement. Furthermore, I was unable to obtain sufficient appropriate audit evidence to support the measures taken to improve performance against this target as reported in the annual performance report. This was due to limitations placed on the scope of my work, as the corroborating evidence for the measures taken to improve performance was not submitted. I was unable to confirm the reported measures taken by alternative means. Consequently, I was unable to determine whether any adjustments were required to the reported measures taken to improve performance.

Refurbish 60 MI/d – Maselspoort WTW upgrade

39. The planned indicator and target were land surveying, but the reported achievement referred to was submitted to the MMM where Legal had to assist with land matters submitted. However, the supporting evidence provided differed materially from the reported achievement. Furthermore, I was unable to obtain sufficient appropriate audit evidence to support the measures taken to improve performance against the target land surveying as reported in the annual performance report. This was due to limitations placed on the scope of my work, as the corroborating evidence for the measures taken to improve performance was not submitted. I was unable to confirm the reported measures taken by alternative means. Consequently, I was unable to determine whether any adjustments were required to the reported measures taken to improve performance.

Percentage of households with access to basic sanitation – Extension Thaba Nchu WWTW (Seloseshu) mechanical and electrical

40. The planned indicator and target were 100% spending on the allocated budget, but the reported achievement was that the allocated budget for the project had been spent within the financial year and they were busy finalising designs for mechanical and electrical works. However, some supporting evidence provided materially differed from the reported achievement, while in other instances, I was unable to obtain sufficient appropriate audit evidence. This was due to the lack of accurate and complete records. Furthermore, I was unable to obtain sufficient appropriate audit evidence to support the measures taken to improve performance against the target of 100% spending on the allocated budget as reported in the annual performance report. This was due to limitations placed on the scope of my work, as the corroborating evidence for the measures taken to improve performance was not submitted. I was unable to confirm the reported achievements and measures taken by alternative means. Consequently, I was unable to determine whether any adjustments were required to these reported achievements and measures taken to improve performance.

Various indicators

41. The planned indicators and targets were not consistent with the reported achievements for the listed indicators below. Furthermore, I was unable to obtain sufficient appropriate audit evidence to support the measures taken to improve performance as reported in the annual performance report for the indicators listed below. This was due to limitations placed on the scope of my work,

as the corroborating evidence for the measures taken to improve performance was not submitted. I was unable to confirm the reported measures taken by alternative means. Consequently, I was unable to determine whether any adjustments were required to the reported measures taken to improve performance:

Indicator description	Planned target	Reported achievement
Households connected – sewer connections	30 households connected	None (budget to be moved)
% completion of mechanical and electrical work (sludge stream) – north eastern WWTW mechanical and electrical works (sludge stream)	Appoint PSP	0

Various indicators

42. The planned indicators and targets of the following indicators as per the approved revised annual performance plan and the performance against the planned targets were not reported in the annual performance report. As a result, a comparison between the planned and actual performance and the measures taken to improve performance against the target were not reported in the annual performance report.

Indicator description	Planned target
WS1.11 Number of new sewer connections meeting minimum standards	30
WS2.11 Number of new water connections meeting minimum standards	423
WS3.11 Percentage of callouts responded to within 24 hours (sanitation/wastewater)	80%
WS3.21 Percentage of callouts responded to within 24 hours (water)	80%
ENV5.21 Number of inland water samples tested for monitoring purposes	Need to be determined

Various indicators

43. I was unable to obtain sufficient appropriate audit evidence for the reported achievement of nine of the 60 listed indicators relating to this KPA. This was due to the lack of accurate and complete records. I was unable to confirm the reported achievements by alternative means. Consequently, I was unable to determine whether any adjustments were required to the reported achievements in the annual performance report for the indicators listed below:

Indicator description	Planned target	Reported achievement
Percentage of households with access to basic sanitation – refurbishment of sewer systems	100% spending on the approved budget	100% spending on the approved budget
Percentage of households with access to basic sanitation – refurbishment of WWTW's	100% Spending on the approved budget	100% spending on the approved budget
Length of pipeline completed for internal water and sewer on CCP subsidised units - Vista Park Ext. (251) 2 - internal water & sewer	1000 m completed of internal water and sewer on CCP subsidised units	0
Indicator description	Planned target	Reported achievement
Length of bulk sewer pipeline completed - Vista Park Ext.(251) 2 bulk sewer	850 m length of bulk sewer pipeline completed	0
Number of households living in informal settlements provided with sewer - Botshabelo Sec D installation of sewer	100 households connected with sewer	0
Number of households living in informal settlements provided with sewer - Botshabelo Sec M installation of sewer	100 households connected with sewer	0
Number of households living in informal settlements provided with water and sewer - Soutpan installation of water and sewer reticulation	22 households connected with water and sewer	0
Number of erven installed with water and sewer - Dewetsdorp installation of water and sewer	100 households connected with water and sewer	0
WS5.21 infrastructure leakage index	0	0,01

Various indicators

44. I was unable to obtain sufficient appropriate audit evidence for the achievement and the related measures taken to improve performance as reported in the annual performance report for the indicators listed below. Limitations were placed on the scope of my work, as the actual level of achievement for the year was not quantified. I was unable to confirm the reported achievement and the reported measures taken by alternative means. Consequently, I was unable to determine whether any adjustments were required to the reported achievements and the reported measures taken to improve performance.

Indicator description	Planned target	Reported achievement
Percentage of households with access to basic sanitation – Extension Thaba Nchu WWTW (Selosesha) civil	100% spending on the approved budget	The allocated funds for the project were spent and 45% on billed items certified
Percentage of households with access to basic sanitation – refurbishment of sewer systems in Soutpan	100% spending on the approved budget	0% expenditure on the Soutpan Vote but the work was done and claimed on other refurbishment vote
Percentage of households with access to basic water -	100% completion of all targeted unplanned system failures	95% completion of all target unplanned system failures

refurbishment of water supply systems		
WS4.11 percentage of water treatment capacity unused	80%	98,2%
WS4.31 percentage of wastewater treatment capacity unused	14%	0%
WS5.31 percentage of total water connections metered	100%	81,1%

Various indicators

45. I was unable to obtain sufficient appropriate audit evidence to support the measures taken to improve performance against the targets as reported in the annual performance report for the indicators listed below. This was due to limitations placed on the scope of my work, as the corroborating evidence for the measures taken to improve performance was not submitted. I was unable to confirm the reported measures taken by alternative means. Consequently, I was unable to determine whether any adjustments were required to the reported measures taken to improve performance.

Indicator description	Planned target	Reported achievement
Number of pressure reducing valves (PRVs) commissioned and refurbished - pressure and network zone management (including auditing of valves and PRV commissioning)	Number of PRVs: 24	19 PRVs commissioned / refurbished
Number of households living in informal settlements provided with water and sewer - Bloemside 9 installation of water and sewer	200 households connected with water and sewer	0
Number of households living in informal settlements provided with water and sewer - Bloemside 10 installation of water and sewer	100 households connected with water and sewer	0
KPI: Number of households living in informal settlements provided with water and sewer - Bloemside 7 installation of water and sewer	500 households connected with water and sewer	0
Number of households living in informal settlements provided with water and sewer - Sonderwater phase 2 installation of water and sewer reticulation	80 households connected with water and sewer	0
Number of households living in informal settlements provided with water and sewer - Chris Hani 28747 installation of water and sewer reticulation	50 households connected with water and sewer	0
Number of households living in informal settlements provided with water and sewer - F/Dom SQ 37321 ZUMA SQ installation of water and sewer reticulation	117 households connected with water and sewer	0
Number of households living in informal settlements provided with water and sewer - Marikana SQ installation of water and sewer reticulation	80 households connected with water and sewer	0
Number of households living in informal settlements provided with water and sewer - Botshabelo Section C and E - installation of water and sewer reticulation	138 households connected with water and sewer	0

Number of households living in informal settlements provided with water and sewer - Thabo Mbeki SQ installation of water and sewer reticulation	48 households connected with water and sewer	0
Number of erven installed with water and sewer - Maditlhabela install of water and sewer	938 households connected with water and sewer	0
Number of erven installed with water and sewer - Matlharantlheng installation of water and sewer	3 108 households connected with water and sewer	0

Various indicators

46. I was unable to obtain sufficient appropriate audit evidence that clearly defined the predetermined method of collection or that related systems and processes were established to enable consistent measurement and reliable reporting of the actual achievement for the indicator. This was due to insufficient measurement definitions and processes. I was unable to test by alternative means whether the indicator was well defined and verifiable. As a result, I was unable to audit the reliability of the achievement for the indicators listed below. Furthermore, I was unable to obtain sufficient appropriate audit evidence to support the measures taken to improve performance against the targets as reported in the annual performance report of the listed indicators. This was due to limitations placed on the scope of my work. I was unable to confirm the reported measures taken by alternative means. Consequently, I was unable to determine whether any adjustments were required to the reported measures taken to improve performance.

Indicator description	Planned targets	Reported achievement
Percentage of households with access to basic sanitation - Sterkwater WWTW phase 3 mech and electrical (liquid stream)	Complete documentation and start SCM process	None
% Complete pump station and rising main – Botshabelo section K pump station and rising main	Continue with designs	None
Total meters of sewer pipeline upgraded – Bloemspruit network upgrade because of densification in MMM	Appoint PSP, complete field work, designs and documentation and start with SCM process	None

Various indicators

47. I was unable to obtain sufficient appropriate audit evidence that clearly defined the predetermined method of collection to be used when measuring the actual achievement for the indicator. This was due to a lack of measurement definitions and processes. I was unable to test by alternative means whether the indicators were well defined. Furthermore, I was unable to obtain sufficient appropriate audit evidence to support the measures taken to improve performance as reported in the annual performance report for the indicators listed below. This was due to limitations placed on the scope of my work, as the corroborating evidence for the measures taken to improve performance was not submitted. I was unable to confirm the reported measures taken by

alternative means. Consequently, I was unable to determine whether any adjustments were required to the reported measures taken to improve performance.

Indicator description	Planned target	Reported achievement
Households – waterborne sanitation ward 8	Appoint PSP	None
Households – waterborne sanitation ward 17	Appoint PSP	None

Unplanned interruptions of the supply should be restored as per NERSA licence requirement in terms of NRS 047 by 30 June 2022

48. I was unable to obtain sufficient appropriate audit evidence for the achievement reported and its target as tabled below, in the annual performance report, due to the lack of accurate and complete records. I was unable to confirm the reported achievement by alternative means. Consequently, I was unable to determine whether any adjustments were required to the reported achievement.

Indicator description	Planned target	Reported achievement
Unplanned interruptions of the supply should be restored as per Nersa licence requirement in terms of NRS 047 by 30 June 2022.	Unplanned interruptions of the supply should be restored as per Nersa licence requirements in terms of NRS 047 (2005) by 30 June 2022.	a) Calls within 1,5 hours 26%
		b) Calls within 3,5 hours 57%
		c) Calls within 7,5 hours 91%
		d) Calls within 24 hours 100%
		e) Calls within a week 100%

Percentage of valid customer applications for new electriCity connections processed in terms of municipal services by June 2022

49. The planned target for this indicator was not specific in clearly identifying the required level of performance.

Installed capaCity of approved embedded generators on the municipal distribution network by June 2022

50. The planned target was approved applications received for embedded generation by June 2022, but the reported achievement referred to was installed capaCity of small-scale embedded generators on the municipal distribution network. Therefore, the target and the reported achievement are not consistent.

Other matters

51. I draw attention to the matters below.

Achievement of planned targets

52. Refer to the annual performance report on page(s) 78 - 135 for information on the achievement of planned targets for the year. This information should be considered in the context of material

findings on the usefulness and reliability of the reported performance information in paragraph(s) 33 to 52 of this report. The MMM achieved 13% of the planned targets for the year in the selected KPA basic service delivery. Some of the planned targets that were not achieved related to key service delivery indicators on water, sanitation and electricity, per the table below:

No	Indicator	Planned Target	Reported Achievement
1	WS4.31 Percentage of wastewater treatment capacity unused	14%	0%
2	EE1.11 Number of dwellings provided with connections to the mains electricity supply by Municipality	1550 dwellings provided with electricity connections by 30 June 2022	0
3	Length of pipeline completed for internal water and sewer on CCP subsidised units - Vista Park Ext. (251) 2 - internal water & sewer	1000m completed of internal water and sewer on CCP subsidized units	0
4	Length of bulk sewer pipeline completed - Vista Park Ext.(251) 2 bulk sewer	850m length of bulk sewer pipeline completed	0
5	Length of electrical infrastructure completed - Vista Park Ext. (251) 2 Electricity; - Vista Park Ext. (256,257,261) 3 Electrical Infrastructure	1000m MV reticulation completed	0
		70% completion of switch room building	0
6	Number of households living in informal settlements provided with sewer - Botshabelo Sec D installation of sewer; Botshabelo Sec M installation of sewer	100 households connected with sewer	0
		100 households connected with sewer	0
		200 households connected with water and sewer	0
		100 households connected with water and sewer	0
		500 households connected with water and sewer	0
		80 households connected with water and sewer	0
		50 households connected with water and sewer	0
		117 households connected with water and sewer	0
		80 households connected with water and sewer	0

No	Indicator	Planned Target	Reported Achievement
16	% Completion of mechanical and electrical work (sludge stream) – north eastern WWTW mechanical and electrical works (sludge stream)	Appoint PSP	0%

Adjustment of material misstatements

53. I identified material misstatements in the annual performance report submitted for auditing. These material misstatements were in the reported performance information of KPA 2 – basic service delivery. As management subsequently corrected only some of the misstatements, I raised material findings on the usefulness and reliability of the reported performance information. Those that were not corrected are reported above.

Report on the audit of compliance with legislation

Introduction and scope

54. In accordance with the PAA and the general notice issued in terms thereof, I have a responsibility to report material findings on the Municipality's compliance with specific matters in key legislation. I performed procedures to identify findings but not to gather evidence to express assurance.

55. The material findings on compliance with specific matters in key legislation are as follows:

Annual financial statements and annual reports

56. The financial statements submitted for auditing were not prepared in all material respects in accordance with the requirements of section 122(1) of the MFMA. Material misstatements of non-current assets, current assets, revenue, expenditure and disclosure items identified by the auditors in the submitted financial statements were subsequently corrected and the supporting records were provided subsequently, but the uncorrected material misstatements and supporting records that could not be provided resulted in the financial statements receiving a qualified audit opinion.

57. The council failed to adopt an oversight report containing the council's comments on the 2020-21 annual report, as required by section 129(1) of the MFMA.

Procurement and contract management

58. Sufficient appropriate audit evidence could not be obtained that the performance of contractors or providers was monitored on a monthly basis as required by section 116(2) of the MFMA. A similar limitation was also reported in the prior year.

59. Sufficient appropriate audit evidence could not be obtained that contract performance and monitoring measures were in place to ensure effective contract management as required by section 116(2)(c)(ii) of the MFMA. A similar limitation was also reported in the prior year.

60. Two contracts above R30 million did not include a condition for mandatory subcontracting to advance designated groups, as required by the 2017 preferential procurement regulation 9(1).

Expenditure management

61. Money owed by the Municipality was not always paid within 30 days, as required by section 65(2)(e) of the MFMA.
62. Reasonable steps were not taken to ensure that the Municipality implemented and maintained an effective system of expenditure control, including procedures for the approval, authorisation and payment of funds, as required by section 65(2)(a) of the MFMA.
63. An adequate management, accounting and information system was not in place which recognised expenditure when it was incurred and accounted for creditors, as required by section 65(2)(b) of the MFMA.
64. Reasonable steps were not taken to prevent irregular expenditure amounting to R185 427 971 as disclosed in note 66 to the annual financial statements, as required by section 62(1)(d) of the MFMA. The majority of the irregular expenditure was caused by non-compliance with supply chain management regulations and recurring expenditure from contracts that were reported as irregular in prior financial years.
65. Reasonable steps were not taken to prevent fruitless and wasteful expenditure amounting to R83 931 856, as disclosed in note 65 to the annual financial statements, in contravention of section 62(1)(d) of the MFMA. The majority of the disclosed fruitless and wasteful was caused by payments made on key service delivery projects that were not delivered.
66. Reasonable steps were not taken to prevent unauthorised expenditure amounting to R1 253 981 315, as disclosed in note 64 to the annual financial statements, in contravention of section 62(1)(d) of the MFMA. The majority of the unauthorised expenditure was caused by overspending the approved budget.

Utilisation of conditional grants

67. I was unable to obtain sufficient appropriate audit evidence that the public transport network grant (PTNG) was spent for its intended purposes in accordance with the applicable grant framework, as required by section 16(1) of the Dora.
68. Performance in respect of programmes funded by the PTNG was not evaluated within two months after the end of the financial year, as required by section 12(5) of the Dora.
69. I was unable to obtain sufficient appropriate audit evidence that the urban settlement development grant (USDG) was spent for its intended purposes in accordance with the applicable grant framework, as required by section 16(1) of the Dora.
70. Performance in respect of programmes funded by the USDG was not evaluated within two months after the end of the financial year, as required by section 11(6)(b) of the Dora.
71. The informal settlement upgrading partnership grant was not spent for its intended purposes in accordance with the applicable grant framework, as required by section 16(1) of the Dora.

Consequence management

- 72. Unauthorised expenditure incurred by the Municipality was not investigated to determine if any person was liable for the expenditure, as required by section 32(2)(a) of the MFMA.
- 73. Irregular expenditure incurred by the Municipality was not investigated to determine if any person was liable for the expenditure, as required by section 32(2)(b) of the MFMA.
- 74. Fruitless and wasteful expenditure incurred by the Municipality was not investigated to determine if any person was liable for the expenditure, as required by section 32(2)(b) of the MFMA.

Strategic planning and performance management

- 75. The performance management system and related controls were inadequate due to the significant internal control deficiencies identified resulting in usefulness and reliability findings on indicators and targets, as required by municipal planning and performance management regulation 7(1).

Revenue management

- 76. An effective system of internal control for revenue was not in place, as required by section 64(2)(f) of the MFMA.

Asset management

- 77. An effective system of internal control for assets was not in place, as required by section 63(2)(c) of the MFMA.

Human resource management

- 78. Appropriate systems and procedures to monitor, measure and evaluate performance of staff were not developed and adopted, as required by section 67(1)(d) of the Municipal Systems Act 32 of 2000.

Environmental management

- 79. The Botshabelo, Thaba Nchu, Bloem industrial, Bainsvlei, Northern Works, Welvaart, Bloemspruit, Dewetsdorp, Wepener, Soutpan and Van Stadensrus wastewater treatment works did not have a valid operating licence, as required by section 22(1)(b) of the National Water Act 36 of 1998.
- 80. The Wepener solid waste management facility did not have a valid operating licence, as required by section 20(b) of the National Environmental Management Waste Act 56 of 2018

Other information

- 81. The accounting officer is responsible for the other information. The other information comprises the information included in the annual report. The other information does not include the financial statements, the auditor's report and those selected KPAs presented in the annual performance report that have been specifically reported in this auditor's report.

82. My opinion on the financial statements and findings on the reported performance information and compliance with legislation do not cover the other information and I do not express an audit opinion or any form of assurance conclusion on it.
83. In connection with my audit, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements and the selected KPAs presented in the annual performance report, or my knowledge obtained in the audit, or otherwise appears to be materially misstated.
84. I did not receive the other information prior to the date of this auditor's report. When I do receive and read this information, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance and request that the other information be corrected. If the other information is not corrected, I may have to retract this auditor's report and re-issue an amended report as appropriate. However, if it is corrected this will not be necessary.

Internal control deficiencies

85. I considered internal control relevant to my audit of the financial statements, reported performance information and compliance with applicable legislation; however, my objective was not to express any form of assurance on it. The matters reported below are limited to the significant internal control deficiencies that resulted in the basis for the qualified opinion, the findings on the annual performance report and the findings on compliance with legislation included in this report.
86. There has been a slow response from management to address governance concerns within the Municipality, caused by the frequent changes in the role of the accounting officer and high vacancy rate within key municipal positions.
87. Leadership did not adequately monitor and enforce the implementation of the corrective measures included in the audit action plan to address inadequate internal control measures and apply consequence management for weaknesses identified during previous years' audits.
88. Management's failure to prioritise, develop and apply standard operating procedures to manage performance reporting, including the safeguarding of information and effective monitoring and evaluation of reported performance information against the set indicators resulted in material findings in the annual performance report.
89. Management's lack of detailed review of the financial statements and the underlying records resulted in material misstatements, which were not detected and corrected or prevented by the Municipality's internal processes. The corrected misstatements resulted in material non-compliance included in this report.
90. Management did not prepare regular, accurate and complete financial and performance reports that are supported by reliable information, as the financial statements and performance report contained numerous misstatements.

91. Management did not implement proper record keeping in a timely manner to ensure that complete, relevant and accurate information is accessible and available to support financial and performance reporting.

Material irregularities

92. In accordance with the PAA and the Material Irregularity Regulations, I have a responsibility to report on material irregularities identified during the audit and on the status of the material irregularities reported in the previous year's auditor's report.

Material irregularities in progress

93. I identified material irregularities during the audit and notified the accounting officer, as required by material irregularity regulation 3(2). By the date of this auditor's report, the responses of the accounting officer were not yet due for some material irregularities. For the remainder, I had not yet completed the process of evaluating the responses from the accounting officer. These material irregularities will be included in the next year's auditor's report.

Status of previously reported material irregularities

Under-declaration of employee taxes

94. For the month of July 2019, the Municipality withheld pay-as-you-earn (PAYE) from its employees' salaries but under-declared the amount paid to Sars in contravention of section 2(1) of the fourth schedule of the Income Tax Act 58 of 1962. Under-declaration of these amounts resulted in a material financial loss for the Municipality in respect of a penalty of R1 070 034 and interest of R627 282 being charged by Sars. The penalty and interest formed part of the prior year amount disclosed as fruitless and wasteful expenditure in note 63 to the 2020-21 financial statements.
95. The accounting officer was notified of this material irregularity on 8 March 2021. The following actions have been taken to resolve the material irregularity:
- A permanent project leader has been appointed to process Sars submissions to prevent such non-compliance from recurring, with effect from 1 September 2020.
 - The Municipality requested remission from Sars on 16 November 2021, to waive the interest and penalties. In a letter dated 9 December 2021, Sars confirmed that the penalties have been waived.
 - The responsible official has been subjected to an internal disciplinary process.
96. Therefore, the material irregularity has been resolved.

Other reports

97. In addition to the investigations relating to material irregularities, I draw attention to the following engagements conducted by various parties which had, or could have, an impact on the matters reported in the Municipality's financial statements, reported performance information, compliance

with applicable legislation and other related matters. These reports did not form part of my opinion on the financial statements or my findings on the reported performance information or compliance with legislation.

98. The Special Investigating Unit (SIU) received allegations of corruption within the metro police and IPTN at the Municipality for the period starting in 2017 to date. However, the Municipality has not submitted all the requested documents to the SIU. The SIU is still analysing the partially submitted information in order to establish the legitimacy of the allegations. These proceedings were still in progress at the date of this auditor's report.
99. An independent consultant was investigating an allegation of improper procurement of buses and appointment/rollout of the infrastructure project for the IPTN for the period starting in the 2015-16 financial year to date. The investigation is still in progress. The outcome of the first stage of the investigation is expected in January 2023, while the second stage of the investigation is still ongoing.
100. The Directorate for Priority Crime Investigation (Hawks) was investigating an allegation of overtime payments to VIP bodyguards employed in the offices of the political office-bearers, which covered the period 2017 to December 2021. These proceedings were still in progress at the date of this auditor's report.
101. The Hawks were investigating allegations of irregularities in the Municipality's procurement processes regarding a security service tender awarded for the period 1 March 2019 to 28 February 2021. The outcome was unknown as the investigation report was in progress at the date of this auditor's report.
102. An independent legal firm was appointed to provide a legal opinion on allegations of the irregular appointment and payment of political staff. It is alleged that the political staff were appointed to occupy positions that were not vacant or provided for in the staff establishment for a period of two months starting in January 2022. The report was issued to the Municipal Public Accounts Committee (MPAC) on 19 April 2022; however, the MPAC has not finalised its own report on this matter. The investigation was concluded on 25 February 2022 and resulted in the salaries being disclosed as irregular expenditure.

Auditor-General

Opinion

1. I have audited the financial statements of Centlec (SOC) Ltd set out on pages 11 to 114, which comprise the statement of financial position as at 30 June 2022, the statement of financial performance, the statement of changes in net assets, and cash flow statement and statement of comparison of budget and actual amounts for the year then ended, as well as notes to the financial statements, including a summary of significant accounting policies.
2. In my opinion, the financial statements present fairly, in all material respects, the financial position of Centlec (SOC) Ltd as at 30 June 2022, and its financial performance and cash flows for the year then ended in accordance with the Standards of Generally Recognised Accounting Practice (GRAP) and the requirements of the Municipal Finance Management Act 56 of 2003 (MFMA) and the Companies Act 71 of 2008 (Companies Act).

Basis for opinion

3. I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the auditor-general's responsibilities for the audit of the financial statements section of my report.
4. I am independent of the municipal entity in accordance with the International Ethics Standards Board for Accountants' *International code of ethics for professional accountants (including International Independence Standards)* (IESBA code) as well as other ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA code.
5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Material uncertainty relating to going concern

6. I draw attention to the matter below. My opinion is not modified in respect of this matter.
7. Note 41 to the financial statements indicates that the municipal entity incurred a net loss of R189 513 089 during the year ended 30 June 2022 and, as of that date, the municipal entity's current liabilities exceeded its current assets by R236 388 186, these events or conditions, along with other matters as set forth in note 41, indicate that a material uncertainty exists that may cast significant doubt on the municipal entity's ability to continue as a going concern.

Emphasis of matters

8. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Irregular expenditure

9. As disclosed in note 45 to the financial statements, the municipal entity incurred irregular expenditure of R195 620 781 (2021: R219 138 757), mainly due to overspending on the budget.

Restatement of corresponding figures

10. As disclosed in note 39 to the financial statements, the corresponding figures for 30 June 2021 were restated as a result of errors in the financial statements of the municipal entity, and for the year ended, 30 June 2022.

Material losses

11. As disclosed in note 46 to the financial statements, material electricity distribution losses of R241 915 025 (2021: R182 694 562) were incurred by the municipal entity mainly due to theft, vandalism, faulty meters and variances in monthly consumption estimates.

Material impairment

12. As disclosed in note 4 to the financial statements, receivables from exchange transactions was impaired by R689 014 738 (2021: R611 874 721).

Other matters

13. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Unaudited disclosure notes

14. In terms of section 125(2)(e) of the MFMA the municipal entity is required to disclose particulars of non-compliance with the MFMA in the financial statements. This disclosure requirement did not form part of the audit of the financial statements and accordingly I do not express an opinion on it.

Unaudited supplementary schedules

15. The supplementary information set out on pages 11 to 114 does not form part of the financial statements and is presented as additional information. I have not audited these schedules and, accordingly, I do not express an opinion on them.

Responsibilities of the accounting officer for the financial statements

16. The accounting officer is responsible for the preparation and fair presentation of the financial statements in accordance with the GRAP and the requirements of the MFMA and Companies Act, and for such internal control as the accounting officer determines is necessary to enable the

preparation of financial statements that are free from material misstatement, whether due to fraud or error.

17. In preparing the financial statements, the accounting officer is responsible for assessing the municipal entity's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the municipal entity or to cease operations, or has no realistic alternative but to do so.

Auditor-general's responsibilities for the audit of the financial statements

18. My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
19. A further description of my responsibilities for the audit of the financial statements is included in the annexure to this auditor's report.

Report on the audit of the annual performance report

Introduction and scope

20. In accordance with the Public Audit Act 25 of 2004 (PAA) and the general notice issued in terms thereof, I have a responsibility to report on the usefulness and reliability of the reported performance information against predetermined objectives for selected programme presented in the annual performance report. I performed procedures to identify material findings but not to gather evidence to express assurance.
21. My procedures address the usefulness and reliability of the reported performance information, which must be based on the municipal entity's approved performance planning documents. I have not evaluated the completeness and appropriateness of the performance indicators included in the planning documents. My procedures do not examine whether the actions taken by the municipal entity enabled service delivery. My procedures do not extend to any disclosures or assertions relating to the extent of achievements in the current year or planned performance strategies and information in respect of future periods that may be included as part of the reported performance information. Accordingly, my findings do not extend to these matters.
22. I evaluated the usefulness and reliability of the reported performance information in accordance with the criteria developed from the performance management and reporting framework, as defined in the general notice, for the following selected programme presented in the municipal entity's annual performance report for the year ended 30 June 2022:

KPA	Pages in the annual performance report
Programme 5 – engineering wires	122 – 124

23. I performed procedures to determine whether the reported performance information was consistent with the approved performance planning documents. I performed further procedures to determine whether the indicators and related targets were measurable and relevant, and assessed the reliability of the reported performance information to determine whether it was valid, accurate and complete.

24. The material findings on the usefulness and reliability of the performance information of the selected programme are as follows:

Programme 5 – engineering wires

Unplanned interruptions of the supply should be restored as per Nersa licence requirements in terms of NRS 047 by 30 June 2022

25. I was unable to obtain sufficient appropriate audit evidence for the achievement reported and its target as indicated in the table below, in the annual performance report, due to the lack of accurate and complete records. I was unable to confirm the reported achievement by alternative means. Consequently, I was unable to determine whether any adjustments were required to the reported achievement.

Indicator description	Planned target	Reported achievement
Unplanned interruptions of the supply should be restored as per Nersa licence requirement in terms of NRS 047 by 30 June 2022.	Unplanned interruptions of the supply should be restored as per Nersa license requirements in terms of NRS 047 (2005) by 30 June 2022.	a) Calls within 1,5 hours 26%
		b) Calls within 3,5 hours 57%
		c) Calls within 7,5 hours 91%
		d) Calls within 24 hours 100%
		e) Calls within a week 100%

Percentage of valid customer applications for new electriCity connections processed in terms of municipal services by June 2022

26. The planned target of total number of valid customer applications for new electriCity connections processed as a percentage in terms of municipal service standards by June 2022 for this indicator was not specific in clearly identifying the required level of performance.

Installed capaCity of approved embedded generators on the municipal distribution network by June 2022

27. The planned target was approved applications received for embedded generation by June 2022, but the reported achievement referred to was the installed capaCity of small-scale embedded generators in the municipal distribution network. Therefore, the target and the reported achievement are not consistent.

Other matters

28. I draw attention to the matters below.

Achievement of planned targets

29. Refer to the annual performance report on pages 122 to 124 for information on the achievement of planned targets for the year. This information should be considered in the context of the material findings on the usefulness and reliability of the reported performance information in paragraphs 25-27 of this report. Centlec (SOC) Ltd achieved 17% of the planned targets for the year in the selected objective programme 5 – engineering wires. Some of the planned targets that were not achieved relate to key service delivery indicators on electriCity, per the table below:

No.	Indicator	Planned Target	Reported Achievement
1.	Planned scheduled interruptions of the supply should be restored as per Nersa licence requirements in terms of NRS 047 by 30 June 2022.	Planned scheduled interruptions of the Supply should be restored as per Nersa licence requirements in terms of NRS 047 (4.5.5) requirements by 30 June 2022.	156 notices were submitted 72 hours before planned interruptions occurred. Power was restored as per issued Notices. 153 notices, power was restored as per Nersa
2.	Unplanned interruptions of the supply should be restored as per Nersa license requirements in terms of NRS 047 by 30 June 2022.	Unplanned Interruptions of the supply should be restored as per Nersa licence requirements in terms of NRS 047 by 30 June 2022.	a) Calls within 1,5 hours 26% b) Calls within 3,5 hours 57% c) Calls within 7,5 hours 91% d) Calls within 24 hours 100 % e) Calls within a week 100%
3.	Number of dwellings provided with connections to the mains electriCity supply of the Municipality.	1 550 dwellings provided with electriCity connections by 30 June 2022	1 550 dwellings not provided with electriCity connections.

30. Reasons for under achievement of targets are included in the annual performance report on pages 122 to 124

Adjustment of material misstatements

31. I identified material misstatements in the annual performance report submitted for auditing. These material misstatements were in the reported performance information of programme 5 - engineering wires. As management subsequently corrected only some of the misstatements, I raised material findings on the usefulness and reliability of the reported performance information. Those that were not corrected are reported above.

Report on the audit of compliance with legislation

Introduction and scope

32. In accordance with the PAA and the general notice issued in terms thereof, I have a responsibility to report material findings on the municipal entity's compliance with specific matters in key legislation. I performed procedures to identify findings but not to gather evidence to express assurance.

33. The material findings on compliance with specific matters in key legislation are as follows:

Annual financial statements

34. The financial statements submitted for auditing were not prepared in all material respects in accordance with the requirements of section 122(1) of the MFMA. Material misstatements of current liabilities identified by the auditors in the submitted financial statements were subsequently corrected and the supporting records were provided subsequently, resulting in the financial statements receiving an unqualified audit opinion.

Expenditure management

35. Money owed by the municipal entity was not always paid within 30 days, as required by section 99(2)(b) of the MFMA.

36. Reasonable steps were not taken to prevent irregular expenditure of R195 620 781 as disclosed in note 45 to the annual financial statements, as required by section 95(d) of the MFMA. The majority of the irregular expenditure was caused by overspending of the budget.

37. Reasonable steps were not taken to prevent fruitless and wasteful expenditure of R9 675 187 as disclosed in note 44 to the annual financial statements, in contravention of section 95(d) of the MFMA. The majority of the disclosed fruitless and wasteful expenditure was caused by interest charged on overdue accounts.

38. Expenditure was incurred in excess of the approved budget, in contravention of section 87(8) of the MFMA.

Procurement and contract management

39. Some quotations were accepted from bidders whose tax matters had not been declared by the South African Revenue Service to be in order, in contravention of supply chain management (SCM) regulation 43.
40. Some of the quotations were accepted from bidders who did not submit a declaration on whether they are employed by the state or connected to any person employed by the state, as required by SCM regulation 13(c).
41. Some of the contracts were awarded to bidders who did not submit a declaration on whether they are employed by the state or connected to any person employed by the state, as required by SCM regulation 13(c).

Other information

42. The accounting officer is responsible for the other information. The other information comprises the information included in the annual report, which includes the directors' report, the audit committee's report and the company secretary's certificate, as required by the Companies Act. The other information does not include the financial statements, the auditor's report and those selected programmes presented in the annual performance report that have been specifically reported in this auditor's report.
43. My opinion on the financial statements and findings on the reported performance information and compliance with legislation does not cover the other information and I do not express an audit opinion or any form of assurance conclusion on it.
44. In connection with my audit, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements and the selected programmes presented in the annual performance report, or my knowledge obtained in the audit, or otherwise appears to be materially misstated.
45. I did not receive the other information prior to the date of this auditor's report. When I do receive and read this information, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance and request that the other information be corrected. If the other information is not corrected, I may have to retract this auditor's report and re-issue an amended report as appropriate. However, if it is corrected this will not be necessary.

Internal control deficiencies

46. I considered internal control relevant to my audit of the financial statements, reported performance information and compliance with applicable legislation; however, my objective was not to express any form of assurance on it. The matters reported below are limited to the significant internal control deficiencies that resulted in the findings on the annual performance report and the findings on compliance with legislation included in this report.
47. Management did not adequately address prior year findings raised due to slow response and deficiencies in the internal control environment as a result there are still some repeat findings that were raised in the current year.

48. Management did not implement proper record-keeping procedures and controls, this resulted in information to support reported achievements not being sufficient and appropriate.
49. Management did not in all instances exercise oversight on financial and performance reporting, compliance and related internal controls.

Auditor-General

Bloemfontein
30 November 2022

AUDITOR - GENERAL
SOUTH AFRICA

Auditing to build public confidence

Annexure – Auditor-general’s responsibility for the audit

1. As part of an audit in accordance with the ISAs, I exercise professional judgement and maintain professional scepticism throughout my audit of the financial statements and the procedures performed on reported performance information for selected KPA and on the Municipality’s compliance with respect to the selected subject matters.

Financial statements

2. In addition to my responsibility for the audit of the financial statements as described in this auditor’s report, I also:
 - identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error; design and perform audit procedures responsive to those risks; and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control
 - obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Municipality’s internal control
 - evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the accounting officer
 - conclude on the appropriateness of the accounting officer’s use of the going concern basis of accounting in the preparation of the financial statements. I also conclude, based on the audit evidence obtained, whether a material uncertainty exists relating to events or conditions that may cast significant doubt on the ability of the Mangaung Metropolitan Municipality to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor’s report to the related disclosures in the financial statements about the material uncertainty or, if such disclosures are inadequate, to modify my opinion on the financial statements. My conclusions are based on the information available to me at the date of this auditor’s report. However, future events or conditions may cause a Municipality to cease operating as a going concern
 - evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and determine whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Communication with those charged with governance

3. I communicate with the accounting officer regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.
4. I also provide the accounting officer with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence and, where applicable, actions taken to eliminate threats or safeguards applied.

Component D: Management Comments and Corrective Actions on matters raised by the Auditor General

During the audit process by the auditor General, the following matters were identified and as such the details thereof will be provided on the municipal consolidated audit action plan with specific focus on the following:

- Annual financial statements
- Expenditure management
- Strategic planning and performance management
- Procurement and contract management
- Utilisation of conditional grants
- Consequence management
- Other matters

Chapter 7: Reports of Municipal Public Accounts Committee 2020/2021 – 2021/2022

Component A: Municipal Public Accounts Committee on the Annual Report 2020/2021 – 2021/2022

APPENDIX B: COMMITTEE AND COMMITTEE PURPOSE

Committees (other than Mayoral / Executive Committee) and Purposes of Committees	
Municipal Committees	Purpose of Committee
Section 79 Committee	Committees are established by the Council from among its members. Council determines the functions of the committee and may delegate powers and duties to it. The Committees report directly to Council.
Section 80	Committees are established by the Council from its members to assist the Executive Mayor. The Executive Mayor appoints a chairperson for each committee from the Mayoral Committee and may delegate powers and duties. The various committees consider and approve the reports and policies. These reports and policies are forwarded to the Mayoral Committee for consideration. It is then referred to Council for approval. They are advisory committees to the Executive Mayor.
Audit Committee	Committee is appointed by Council in terms of the Municipal Finance Management Act No. 56 of 2003 ("the Act"), Section 166, to assist Council, in discharging its oversight responsibilities. It is an independent advisory body to Council.
Budget steering committee	The Mayor of a Municipality establish a budget steering committee to provide technical assistance to the mayor in discharging the responsibilities as set out in section 168 of the MFMA.
IDP Steering Committee	The Mayor of a Municipality establish IDP steering committee to provide technical assistance to the mayor in discharging the responsibilities as set out in section 30 of the Municipal Systems Act.
Ward Committees	They are committees meant to encourage participation by the community – their job is to make municipal Council aware of the needs and concerns of residents and keep people informed of the activities of municipal Council.
LLF	Section 2.8.11 of the Main Collective Agreement of the SALGBC dictates that every employer must establish a Local Labour Forum with equal representation from the trade unions (SAMWU and IMATU) and the employer to strengthen the relationship between the two.

APPENDIX C: TWO TIER STRUCTURE

Departments	HOD Responsible
Acting City Manager	Mr. Tebogo Motlashuping
Nation Cabinet Representative	Mr. P Maseko
Acting Corporate Services	Adv Nkateko Mpangane
Acting Chief Financial Officer	Mr. Timothy Sediti
