Chapter 1 – Executive Mayor’s Foreword and City Manager’s Overview

Component A: Executive Mayor’s Foreword

As the Executive Mayor of Mangaung Metropolitan Municipality, which is at the “Heart of it All”, it is my pleasure and privilege to present the Annual Report for the 2022/23 financial year. This year is my first presentation to this Council and the communities of Mangaung of what we have accomplished in the previous financial year. I stand proud of what we have achieved in terms of our Integrated Development Plan which ultimately contributes to the vision of this city and inspired priorities as outlined in the National Development Plan 2030.

With only few months in office, I must indicate that, as the city we should be proud of the resilience that we have displayed during these hard times in respect of financial constraints. Moreover, the innovation that we employed to ensure that we provide services as mandated by the constitution displayed character of a Municipality that truly cares about its communities. The Municipality did well in the achievement of its objectives for the year despite the circumstances. Although we were not able to achieve all our objectives, we continuously monitor our performance and implement corrective measures to ensure a high standard of basic service provision, good governance, and stringent fiscal control.

Some of the key highlights of the year include but not limited to:

- The reclaiming the city programmes in all regions of Mangaung
- Continues acceleration of refuse removal
- The completion and opening of the Vereeniging Drive
- Provision of Tittle Deeds and Permission to Occupy
- The renewal of Memorandum of Understanding with higher learning institutions
- Installation and Replacement of water meters

In conclusion, I would like to express a special word of thanks to our communities for the resilience and support, thank the Municipality and every member of staff for their support and hard work during the year under review and lastly, thank my fellow councillors for robust and constructive support in ensuring that the Municipality achieve its objectives as mandated by the different constituencies.

Cllr. Gregory Nthatsi
Executive Mayor

Component B: City Manager's Overview

This Annual Report reflects the performance of the Municipality for the period 1 July 2022 to 30 June 2023. We are committed to fulfilling our constitutional powers and functions, albeit with limited financial and human resources in a severely constrained macro-economic environment.

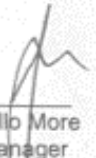

I am pleased to report that despite this, we have performed well in relation to creating a sustainable municipal institution that renders good quality services, promotes economic development and maintains stringent governance and financial management controls. This is seen with the appointments of permanent senior managers and this brings a much-needed stability for the institution.

The Municipality is the sphere of government closest to the people, and as such, the community look to us for all their needs, irrespective of whether such needs fall within our mandate or that of Provincial or National Government.

This necessitates the fostering of good relations and co-operative governance to ensure that all our community's needs are addressed. I would like to thank all Provincial and National Departments for their ongoing support. Despite the municipality's financial position, the Municipality continues to address its staff productivity, remain committed to implementing the financial recovery plan to ensure our financial sustainability, and in return we are able to render quality services which are value for money and in return to boost the municipality's collection rate.

To ensure that we achieve our strategic objectives we implement an effective, efficient and transparent systems of enterprise-wide risk management and for the year under review all identified strategic risks were monitored in a comprehensive and integrated manner.

In conclusion, I would like to extend our warmest appreciation to our Community, Councillors, Ward Committee members as well as the management team and their respective staff for their contribution to deliver on our vision of a city that is '... globally safe and attractive to live, work and invest in'.

Mr. Sello More
City Manager

1.1 Mangaung's Vision

A city that is

'... globally safe and attractive to live, work and invest in'

1.2 Mission Statement

- Providing democratic and accountable government for local communities;
- Ensuring the provision of services to Municipality's communities in a sustainable manner;
- Promoting social and economic development to the residents of the Mangaung;
- Promoting safe and healthy environment; and
- Encouraging the involvement of communities and community organisations in the matters of local government

1.3 Mangaung Population

Mangaung, in the Free State, has an area of 9,899 km² and is conveniently situated near the main transport networks including the N1 (which links Gauteng with the Southern and Western Cape), the N6 (which links Bloemfontein to the Eastern Cape), and the N8 (which links Bloemfontein to Lesotho in the east and with the Northern Cape in the west).

According to Census 2022, Mangaung Metropolitan Municipality accounts for a total population of 811,000 and is almost a quarter of the total population of the Free State Province, which is the most populous region in the Free State Province for 2022.

Mangaung Metropolitan Municipality is comprised of 229 000 households.

1.4 Socio Economic Status

With a GDP of R 123 billion in 2021 (up from R 67.5 billion in 2011), the Mangaung Metropolitan Municipality contributed 39.73% to the Free State Province GDP of R 309 billion in 2021 increasing in the share of the Free State from 39.59% in 2011. The Mangaung Metropolitan Municipality contributes 1.97% to the GDP of South Africa which had a total GDP of R 6.23 trillion in 2021 (as measured in nominal or current prices). It's contribution to the national economy stayed similar in importance from 2011 when it contributed 2.03% to South Africa, but it is lower than the peak of 2.04% in 2015.

Table 1: Number of economically active persons in Mangaung

Area	Male	Female	Total
Botshabelo	51 026	54 758	105 784
Bloemfontein	103 270	103 198	206 468
Thaba Nchu	34 084	34 557	68 641
Soutpan	1 003	895	1 898
Dewetsdorp	14 297	13 200	27 497
Wepener	13 288	10 998	24 286
Van Stadensrus	2 945	1 900	4 845

In 2021, the Mangaung Metropolitan Municipality achieved an annual growth rate of 3.87% which is a slightly higher GDP growth than the Free State Province's 3.57%, and is lower than that of South Africa, where the 2021 GDP growth rate was 4.91%. Contrary to the short-term growth rate of 2021, the longer-term average growth rate for Mangaung (0.87%) is very similar than that of South Africa (0.95%).

Table 2: GROSS VALUE ADDED (GVA) BY BROAD ECONOMIC SECTOR - MANGAUNG METROPOLITAN MUNICIPALITY, 2021 [R BILLIONS, CURRENT PRICES]

	Mangaung	Free State	National Total	MAN as % of province	MAN as % of national
Agriculture	2.6	18.4	152.8	14.3%	1.72%
Mining	1.6	28.3	474.9	5.5%	0.33%
Manufacturing	5.5	27.2	729.8	20.0%	0.75%
Electricity	2.6	9.1	171.7	28.5%	1.51%
Construction	2.1	4.7	141.0	44.1%	1.47%
Trade	17.0	34.9	751.3	48.7%	2.26%
Transport	11.8	21.4	397.8	55.1%	2.96%
Finance	28.7	56.3	1,320.5	51.0%	2.17%
Community services	40.6	77.1	1,432.9	52.7%	2.84%
Total Industries	112.4	277.4	5,572.6	40.5%	2.02%

Below figures show the 2023 Quarter 3 labour force survey by Stats SA provide details in relation to active labour participation. Between the age population of 15-64 218 000 are employed, while 114 000 are unemployed. Moreover, 224 000 are not economically active and 44 000 are discouraged work seekers.

The unemployment rate for quarter 3 is sitting at 34% and Labour force participation at 64%.

2023 Stats SA: Quarter 3 Labour Force Survey

2023 QLFS

1.5 Relative importance of MMM economy

The City is ardent to create an environment that promotes the development of the local economy

- Regulatory frameworks that is conducive
- Facilitate business that is responsive
- Create new investment opportunities at the Industrial Zones, Urban Development Zone (UDZ) and Corridors
- Invest in physical infrastructure.

Furthermore, the following is prioritized to facilitate job creation initiatives, expanded value chains, development of informal economy, expanded public works programmes, Tourism Development, Rural Development, Sector Development (manufacturing, medical and pharmaceutical, Knowledge and innovation, Transport and logistics) and the Economic Development Strategy (EDS) highlights key programmes Industrial Cluster Development and Sector Development, Agricultural Development Programmes, Business Expansion and Retention, Trade and Investment Promotion Programme, Tourism Development Programme.

1.6 Municipal functions per departments and opportunities

1.6.1 Planning

To plan for livable and sustainable urban and regional communities, to rectify the spatial inequalities caused by previous laws, promote social and economic inclusion and to promote optimal use of land within a political, social, cultural, environmental and economic context.

Furthermore, it applies all Legislation and Municipal By-Laws, such as Spatial Planning and Land Use Management Act (SPLUMA), 16 OF 2013 and the Spatial Development Framework (SDF) is the Key planning instrument and a component of the Integrated Development Plan (IDP) (chapter 5 of the IDP) that guides and informs all the decisions for the future land development within the municipal area of jurisdiction. Moreover, it has in place the Regional Structure Plans (RSP) and Land Use Management Scheme (LUMS).

Geographic Information Service (GIS) is defined as the information system designed to input, manage, update, analyse and present spatially related information collected and managed by the Municipality.

The objectives are to share spatial information and to promote the use of geographic information, to ensure service excellence within and around the Municipality. Moreover, to stimulate integrated and sustainable economic development, improve and sustain financial, human resource and management excellence; and to evolve institutional excellence by institutional reengineering, and effective long range development planning.

1.6.2 Economic and Rural Development

The Directorate Economic and Rural Development core focus areas is to stimulate and facilitate economic growth and development in the City by concentrating on cultivating a positive investment climate, enhancing the City Tourism potential, promoting and mainstreaming Small Medium and Micro Enterprises (SMME) and advancing the holistic development of our rural settings.

Investment Promotion: This component focuses on facilitation and mobilization of domestic and foreign private investment in the City that progressively contributes to the economic development and sustainability of the Municipality and its citizenry. In particular, key activities look at promoting

the City as an attractive investment destination and embedding friendly and easy investment business processes to land and fast-track investments.

Tourism: The promotion of the City as a prime tourism destination is key in the economic growth and development of all the seven geographic areas of the City. This is facilitated through packaging and marketing the leisure, business, heritage, cultural and events tourism assets of the City.

SMME Development: The role of the unit is to facilitate the development and mainstreaming of small, medium enterprises through support and provision of information. In partnership with other government departments and private sector the component focuses on skills development, access to opportunities including funding.

Rural Development: The component focuses on provision of holistic socio-economic development opportunities to the rural areas of the City so as to bridge the rural-urban divide.

1.6.3 Engineering Services

The Municipality is dedicated to upgrading road/stormwater and water/sanitation infrastructure. However, there is a backlog regarding the latter services. The Municipality is moving forward with the finalization of the Botshabelo, and phase 3 of Thaba Nchu Wastewater Treatment Works (WWTW) and to speed up the recycling of wastewater at Maselspoort Water Treatment Works.

Roads

The Municipality has a Road Asset Management System, which can help with road-maintenance planning. However, there is a lot of work that needs to be done to ensure that operations and maintenance are undertaken in a manner that would satisfy the community and other stakeholders. RAMS avails data, but there is a need for management to understand what to do with the data collected and the maintenance plans developed. The holistic approach ensuring budget and resources are better catered should be pursued.

The City must prioritise the implementation of Cities' Infrastructure Delivery and Management System (CIDMS) which, is a fully compliant SANS 55001 asset management system specifically designed for cities with large and varied immovable asset portfolios of asset management system and processes.

Based on the reported, researched and observed reasons of poor maintenance of roads, it can be argued that many municipalities in South Africa, including Mangaung Metro Municipality, are not prioritizing effective asset management; they are operating on a reactive basis for road network maintenance. CIDMS can be of paramount importance in bettering poor maintenance.

The City does take cognisance that infrastructure that is reliable and accessible is essential for social and economic development. It helps to increase production, reduces travel time and expenses, and helps to generate employment and bring communities together. The world's first economic and social network is the road network.

It is the overall aim of this plan to accomplish the following:

- one of the main strategies to prolong the life of the paved roads is to delay the need for extensive repair.
- to build or repair roads when necessary
- to verify that the functional class of the road is consistent with road standards.

Stormwater

Currently, stormwater service is not included into the Municipality's level of service. Whenever roads are upgraded, the building of stormwater infrastructure is almost usually part of the project. Stormwater infrastructure maintenance is conducted in a responsive way, and stormwater management is based on these four principles:

- The necessity to safeguard the public's health, welfare, and safety, as well as to safeguard properties from flood risks, via the safe routing and discharge of rainwater.
- The possibility of conserving water and making it accessible for public use.
- The need of achieving economic growth while, maintaining a sustainable environment.
- The goal to offer the most effective techniques for regulating runoff in such a way, that the primary beneficiaries pay a price commensurate with their potential advantages.

Prioritization of CIDMS implementation will assist the City in managing the stormwater systems better than the responsive approach. The City is currently undertaking conditions assessments of stormwater network with practical maintenance plans planned to follow condition assessments.

Water

The Municipality is both a Water Services Authority and a Water Service Provider, and as such is obligated to carry out its duty of supplying its residents with safe and dependable drinking water.

The Water Services Authority (WSA) is responsible for developing a formal Water Services Development Plan (WSDP) that includes information about the area's physical characteristics, socio-economic characteristics, existing infrastructure, and water use, as well as a long-term water services plan with a five-year implementation timeline.

The WSDP is an integral component of a WSA's Integrated Development Plan (IDP) and should be developed concurrently with the IDP. The report's main findings are included in the Mangaung Bulk Water Augmentation Programme (MBWAP), since they impact and inform short-, medium-, and long-term planning for Mangaung's water sources and delivery. This may be ascribed to domestic services – basic and higher levels of care – as well as growth and development-related services such as schools, clinics, and hospitals.

As part of the Municipality Bulk Water Augmentation Program, a study was commissioned that determined the present supply system's capacity is 187ml/day, compared to 218ml/day when the system is operating normally. This implies a 60ml/day supply deficit at the moment. As a result, water conservation and demand management, as well as water re-use projects and infrastructure upgrades, are required.

Based on the above, MMM takes responsibility to strengthen water security, supply assurance, and infrastructural capacity in order to handle existing backlogs and future demands.

Sanitation

In terms of sanitation, a significant number of households (84%) have access to facilities that exceed the level set by the Reconstruction and Development Programmes (RDP's) (VIP toilet and higher). A further 10% use pit toilets without ventilation, while 6% use bucket toilets or have no facilities. Backlogs in this region are particularly severe in rural places such as Botshabelo and Thaba-Nchu.

The Municipality now has 8.5 million litres of spare capacity to support its primary programs such as the VIP and Bucket Eradication Program and the Catalyst Development Program. The goal is to reduce the number of sewer

pump stations by replacing them with gravitational pipes and focusing on preventive maintenance.

1.6.4 Social Services

The Directorate: Social Services is one of the largest and most diverse Directorate in the City. The Directorate finds itself at the coalface of service delivery challenges ranging from "soft" / social matters to "hard" life and death scenarios. These diverse community needs demand focus and continued attention in the City. The office of the acting Head: Social Services is responsible for the management and oversight of the Directorate to ensure compliance with / execution of the IDP, SDBIP (Quarterly, Mid- term, Annual reports), budget spending and adherence to control measures.

The Department is also responsible for the promotion of literacy in communities through ensuring access to library material, marketing of the library services and offering library outreach programmes to communities. Literacy in communities is promoted through ensuring access to library material, marketing of the library services and offering library outreach programmes

The plight of vulnerable groups such as street children, people with disabilities, the elderly and children are priorities for the Directorate. Poverty alleviation through community projects and the promotion of arts and cultural programmes are also areas of focus for the Directorate.

Environmental Health Services within the Municipality includes all activities associated with the provision of municipal health services in terms of the National Health Act (No 61 of 2003), Cosmetic and Disinfectants Act (No 54 of 1972) and the Business Act (No 71 of 1991) to ensure the sustainable wellbeing of communities.

Render Municipal Health Services as required in terms of Legislation:

- Water Quality
- Food Control
- Waste Management
- Pollution Control
- Surveillance of Premises
- Pest & Vector Control
- Burial of unidentified Bodies (State Mortuary)
- Communicable Diseases Control
- Chemical Safety

Micro-Laboratory

Testing of amongst others, the drinking water, milk, sewage and surface swabs, must constantly be conducted in order to properly monitor the health and safety of the communities in the City.

Regular daily testing of the Bloemfontein reservoirs (Brandkop and Hamilton) and other reservoirs surrounding Bloemfontein must resume to ensure water safety.

Sport and Recreation South Africa has opted to only engage with recognized legitimate structures. Participants sports are required to be members of such structures. Likewise, the Directorate prefers to engage federations and not individuals. Sport programs are the competency of the various federations.

Sports development programmes are presented in areas where they were historically weak.

The programs amongst others includes:

- Active recreation (Kasi Wheel-Chair Race; Mangaung Relay Extravaganza; Aged Sport Day; Mandela View (Heritage Fun Run)
- Community Sport (Women's Sport Day; Youth Sport Festival; Rural Sport Festival; Disability Sports Day; Learn to Swim; OR Tambo Games; Rose Sport Festival)
- Sport Development (Wrestling Dev Games; Cricket Development League; SAFA Dev League; Swimming, Netball, Athletics, etc.)

The City's facilities plan is focused on:

- Refurbishing/rebuilding old sport facilities in the townships.
- Upgrading of existing facilities.
- Building of new facilities.

Art & Culture

- To ensure co-ordination and promotion of Art, Culture and Heritage activities.
- To preserve, protect and conserve Heritage Resources
- Management of Initiation Schools in compliance with Free State Initiation School Health Act no 1 of 2004.

The Sub – Directorate Emergency Services (Fire and Rescue) is responsible for the provision of emergency response to fires and incidents requiring the rescue of humans and animals. Communities are also protected against fire by pro – active approaches which includes, fire safety compliance and public education and awareness.

The Service Delivery functions of the Emergency Services are as follows:

Preventing fire through statutory fire safety

- Scrutiny of building plans
- Conducting inspections to ensure compliance with safety standards
- Conducting fire investigations to determine causes of fires
- Certification of premises and vehicles for storage of flammable substance

Protecting against fire through education and skills development

- Basic training of recruits in respect of fire, rescue, hazardous materials, and life support
- Advanced / specialized training in respect of fire, rescue, and hazardous materials
- Delivery of public education programs
- Fire Service Museum

Responding to fires and emergencies

- Fire suppression
- Rescue of humans and animals from danger
- Dealing with hazardous materials
- Public displays / station visits
- Maintenance of vehicles, equipment, and hydrants

The Disaster Management Sub – Directorate performs its functions and duties in accordance with the Disaster Management Act 2005 (No 57 of 2002). The Mangaung Disaster Management Centre is the focal point for all disaster management related activities. The Centre renders a critical service to the community relating to emergency call receiving and resource dispatching all types of emergencies and disaster incidents. Call Centre Operators are deployed 24 / 7 on a shift system.

The function is governed by:

- Disaster Management Act, 57 of 2002.

The Act provides for:

- An integrated and coordinated Disaster Management policy that focuses on preventing or reducing the risk of disasters, mitigating the severity of disasters, emergency preparedness, rapid and effective response to disasters and post-disaster recovery.
- The establishment of national, provincial, and municipal disaster management centers.
- Disaster Management volunteers

Constitution of South Africa, Act 108 of 1998.

- Schedules 4 and 5 of Part B of the Constitution require local government to provide functions which are closely linked to disaster risk management.

Disaster Management: Service Delivery Activities

- Emergency Control Centre receives and dispatch emergency distress calls relating to fire, rescue, traffic, and humanitarian services. Dispatch to all the relevant line functionaries.
- Conduct assessments of individual properties affected by unplanned disaster related occurrences (e.g., severe weather, fire, etc)
- Facilitate immediate relief for affected communities through involvement of MMM directorates, Prov. Departments, External stakeholders (Red Cross and etc)
- Conduct Safety and Grading assessment in terms of the SA Sports & Recreation Events Act (**SASREA Act**)
- Conduct public education and information sessions
- Participate during events in the Joint Operations Centre or Venue Operating Centre.
- Compilation / updating / review of contingency plans of municipal premises, entities like businesses, health care facilities, educational institutions etc.
- Conduct risk reduction assessments of vulnerable areas relating to disaster risks (floods).
- Participate in multi-disciplinary structures such as Provincial Advisory Forum, Provincial and District Priority Committees as well as National Key Points which involved role players such as Emergency Medical Services, Fire and Rescue, SAPS, and South African Air Force.
- Identify, evaluate and monitor hazards and vulnerabilities within municipal areas.
- Joint participation in drills or mock exercises to instill preparedness and easy evacuation in high-risk buildings within Metro.
- Plays an advisory role to municipal Executives in terms of all disasters – natural and human induced ones.
- Advocate for risk development within Metro areas.

The main objective of the Sub – Directorate Parks and Cemeteries is to provide a clean, green, and healthy environment to the residents of Mangaung. The unit is responsible for the horticultural maintenance and development of open spaces, parks, traffic islands, buffer zones, sports fields, street trees, fire belts and City gardens, and conservation of the natural resources of MMM. Sub-directorate is also responsible for the provision of Cemetery and Crematoria Services, as well as responsible for the management of the Bloemfontein Zoo and the Kwaggafontein Game farm.

Key service delivery areas are:

- Parks and open space management and maintenance of 152 developed parks, 10 City entrances and 25 000 hectare of open areas / veld areas and 16 operational Cemeteries
- Cemetery Management
- Zoo and Kwaggafontein Game Farm Management
- Natural Resource Management / Nature Conservation

Broad Functioning of the Directorate

The Directorate Social Services on the one extreme is expected to cater for children in their early childhood development phase and on the other extreme to rescue persons or animals from danger. In between these two diverse poles other aspects like access to library material, ensuring safe drinking water by testing, to name only some functions, are scattered / dispersed.

This diverse basket of functions "is carried" with extremely limited, and in some instances simply totally inadequate, resources.

The Directorate aims to deliver on its diverse mandate by balancing / juggling / directing available resources to match the constantly changing service delivery challenges / expectations.

Challenges

- Budget constraints
- High vacancy rate
- Lack of tools of trade
- Closure of the drama library – Need two librarians to be open
- Closure of the Zoo
- Requesting Wi-Fi in all libraries
- Lack of medical consumables
- Shortage of sports equipment
- Lack of maintenance of buildings
- Air quality station decommissioned
- Pesticides and many more
- Finalisation of the procurement processes on time delays the completion of a number of capital projects on time.

1.6.5 Municipal Police Services

The Traffic Division of the Sub – Directorate Public Safety/ Municipal Police is responsible to ensure a free flow of traffic and the enforcement of applicable legislation that governs road usage.

The enforcement of legislation relating to road traffic is governed by the provisions of the Criminal Procedure Act, No 51 of 1977. The Traffic Division is responsible for the enforcement of traffic rules and regulations in the City, as well as by laws.

Road rehabilitation projects have negatively impeded the normal flow of traffic and overstretched the available resources hampering effective law enforcement to ensure free flow of traffic at strategic locations where traffic congestion is experienced.

The council has approved a standard operating procedure for management of traffic fines to tighten internal control. The total / entire traffic fine process must be executed in accordance with the Criminal Procedure Act. Unlike other service charges (rates, water and electricity) where payment can be enticed by cutting or restricting a service traffic fine can only be collected within the parameters of the Criminal Procedure Act.

Mangaung Municipality is one of seven accredited traffic training centers in the country and over the years traffic officers have completed the training program to meet minimum requirements for appointment as a traffic officer.

Enforcement of traffic offences has effectively collapsed. The intensified road refurbishment projects and the new areas developed within Mangaung have diluted the visibility of traffic officers. The prevailing situation can only be addressed through the recruitment of traffic officers.

Law Enforcement Division

Law Enforcement is responsible for the enforcement of by – laws and to provide safety support to other internal and external role players. Moreover, the Municipal Law Enforcement Division is responsible for the minimisation of security risks, threats, crime, and the enforcement of applicable laws and by laws.

Predicament for achieving the plan

High vacancy rate at Traffic and Law Enforcement (Operational personnel and Administration), unfunded mandate, installation of CCTV cameras at crime hot spots, installation of alarm systems in all Municipal buildings, insufficient budget for Private Security, maintenance of access control system at parking garage, non – allocation of budget for parking meter installation, non – allocation of budget for uniform, lack of ammunition for firearm competency training for traffic and law enforcement personnel and insufficient budget for purchasing of traffic fine books. Mostly frustrating is the protracted procurement processes of the Municipality.

Resources needed for effective functioning of the Sub Directorate are as follows:

- ICT equipment
- Patrol vehicles Traffic
- Patrol vehicles Law enforcement
- K 78 Roadblock trailer
- PPE (Uniform and riot gear, shields and bullet proof vests)
- Lack of staff (Traffic guards, traffic officers, admin support and general workers parking garage, traffic wardens CBD)
- Lack of office space
- Lack of firearms and holsters
- Ammunition for firearm competency training
- Fixed traffic speed law enforcement cameras
- Maintenance budget for access control system at parking garage
- Funding for procurement of CCTV cameras at new crime hot spots and replacement of outdated / obsolete cameras
- Tools of trade, torches, traffic cones, measuring wheel tapes, tyre depth measuring devices and marker for road accidents

1.6.6 Finance

The Municipality has created, evaluated, and approved policies and procedures, which are now being implemented. Additionally, it has accepted and implemented new performance reforms at all levels, as outlined in MFMA Circular No. 88, and its budgeting and reporting systems are compatible with the Municipal Standard Chart of Accounts (mSCOA).

A strategic overview of revenue collection and expenditure is being implemented, and the Municipality is ensuring prudent financial management and fiscal discipline by establishing and reviewing internal controls with various oversight committees and strengthening financial management capacity. Credit control procedures will be tightened further to strengthen the Municipality's financial liquidity situation.

The Municipality's attention and efforts will need to be concentrated on executing the Financial Recovery Plan, Revenue Enhancement plan, cost reduction measures, and efficiency improvements to prevent waste. This is expressed in the following manner:

- Utilization of cutting-edge technologies to monitor telephone usage;
- Overtime management and supervision by supervisors and management;
- Cost monitoring for information and communication technologies (ICT);
- Water demand initiatives are being implemented to help minimize water loss.
- Cost savings on events, conferences, meetings, workshops, trainings, and seminars, among other things;
- Conduct a review of the travel policy and ensure that it adheres to MFMA Circular 82.
- Gradual transition from printed to electronic declarations
- Reduce the cost of consulting and contractual services;
- Creating a donation policy
- Examine outsourcing of security services, trash disposal, and lawn care, among other things.
- Procurement that is cost effective
- Internal control rollout to user departments to monitor consumables expenditures such as fuel, printer paper, and toilet paper.

1.6.7 Human Settlement

The strategic goal is to enhance the quality of life of households' life. In accordance with this, the Metro is concentrating its efforts on improving the level of services of households, providing security of tenure, and upgrading existing informal settlements and the delivery of Catalytic Programs for the implementation of Integrated Human Sustainable Development. Additionally, the Metro concentrated on decreasing the housing backlog and expanding housing options.

The growth of human settlements in the Municipality is built on three basic pillars: the human settlements development logic, the mixed development delivery vehicle, and the plan for upgrading informal settlements. All of the Municipality's catalytic initiatives have used a mixed development strategy. The RRRIC Strategy, abbreviated for Residential, Recreational, Retail, Industrial, and Community Amenities, is a critical component of this delivery vehicle.

The Municipality's mission statement includes the goal of "building wealthy, liveable, and inclusive living environments with an abundance of social and recreational facilities." These goals serve as a critical guide in providing municipal services, housing and supporting facilities, as well as possibilities for economic growth to all residents.

1.6.8 Centlec

The Municipal Entity is mandated to provide electricity services to all its customers. As the electricity distribution service provider of the MMM, the municipal entity's core competency is to purchase, distribute and sell electricity within its geographical footprint.

CENTLEC (SOC) Ltd was established as a municipal entity wholly owned by MMM in terms of the Municipal Systems Act (Act 32 of 2000) and the Companies Act, (Act 71 of 2008).

Electricity distribution/energy services: the municipal entity distributes electricity to Mangaung, Kopanong and Mohokare municipalities. The

municipal entity purchases its energy from Eskom at 25 supply points in 18 towns in the Southern Free State and the Mangaung supply area.

Construction of electrical networks: All new electrification networks and upgrading of existing networks are handled by the municipal entity's design and construction sections, and where additional capacity is required, it is done through the supply chain processes and the appointment of private companies.

Operation, maintenance, and extension of networks: The maintenance of electricity distribution networks form a large part of the municipal entity's operations. A 24-hour standby service ensures that customers are not inconvenienced by long power outages. Ongoing evaluation is performed on existing networks to detect any overloading or failure, and this is addressed with the upgrading and/or extension of the network.

Metering, pre-payment vending and billing services: Modern metering systems are employed to meter the various categories of customers. Pre-payment and credit metering systems are in use. Extensive pre-payment vending facilities are available to customers to always ensure convenience and availability. Credit meter reading and billing have been done in-house from 01 July 2011 to date.

The Municipal Entity has approximately 184 458 active customers within Mangaung Metropolitan Municipality, ranging from domestic to commercial and industrial properties, as detailed below. For Southern Free State the total number of active customers is 14 001 The number of customers has increased slightly compared to the previous year due to new connections.

1.6.9 Solid Waste and Fleet Management

Solid Waste Management's responsibility includes managing all the waste functions in the waste value chain including public cleansing, door to door domestic and trade waste collection and management of the landfill sites to protect the environment and enhance the health of the communities of Mangaung Municipality, by providing reasonable measures for the prevention of pollution and ecological degradation. The Department is also responsible for education, awareness and compliance although the Department is presently unable to enforce the by-laws due to lack of capacity.

The main objective is to improve service delivery by increasing access to refuse removal services to communities. Waste Management is also a Constitutional Mandate through the Constitution of South Africa (Act 108 of 1996) - The right to environmental protection and to live in an environment that is not harmful to health or well-being is set out in the Bill of Rights (section 24 of Chapter 2).

It is a requirement of the National Environmental Management: Waste Act (Act No 59 of 2008) (hereafter referred to as the Waste Act) in Section 11 that each Municipality must develop an Integrated Waste Management Plan (IWMP). An IWMP provides a framework within which local municipalities can deliver a waste management service to all residents and businesses.

The Fleet Division is centralized service and responsible to make vehicles available to all Directorates of the Municipality. The Fleet Division must ensure that, on daily basis there are reliable, roadworthy vehicles to address service delivery issues. Furthermore, there should also be vehicles for monitoring thereof. The vehicles may be sourced inhouse or outsourced depending on the circumstances at the time.

1.6.10 Office of the City Manager

The function and responsibility of the City Manager is cited in the Municipal Systems Act, section 55 as outlined below:

(1) As head of administration the municipal manager of a Municipality is, subject to the policy directions of the municipal Council, responsible and accountable for:

- (a) the formation and development of an economical, effective, efficient, and accountable administration
 - (i) equipped to carry out the task of implementing the Municipality's integrated development plan in accordance with Chapter 5;
 - (ii) operating in accordance with the Municipality's performance management system in accordance with Chapter 6; and
 - (iii) responsive to the needs of the local community to participate in the affairs of the Municipality;
- (b) the management of the Municipality's administration in accordance with this Act and other legislation applicable to the Municipality
- (c) the implementation of the Municipality's integrated development plan, and the monitoring of progress with implementation of the plan;
- (d) the management of the provision of services to the local community in a sustainable and equitable manner;
- (e) the appointment of staff other than those referred to in section 56(cz), subject to the Employment Equity Act, 1998 (Act No. 55 of 1998);
- (f) the management, effective utilisation and training of staff
- (g) the maintenance of discipline of staff
- (h) the promotion of sound labour relations and compliance by the Municipality with applicable labour legislation;
- (i) advising the political structures and political office bearers of the Municipality
- (j) managing communications between the Municipality's administration and its political structures and political office bearers;
- (k) carrying out the decisions of the political structures and political office bearers of the Municipality;
- (l) the administration and implementation of the Municipality's by-laws and other legislation;

- (m) the exercise of any powers and the performance of any duties delegated by the municipal Council, or sub-delegated by other delegating authorities of the Municipality, to the municipal manager in terms of section 59;
- (n) facilitating participation by the local community in the affairs of the Municipality;
- (o) developing and maintaining a system whereby community satisfaction with municipal services is assessed;
- (p) the implementation of national and provincial legislation applicable to the Municipality; and
- (q) the performance of any other function that may be assigned by the Municipal Council.

1.6.11 Corporate Services

Corporate Services Directorate is mainly an internally focused support function and gives strategic support to core service delivery line departments. It plays a critical role in ensuring that we have the right organizational processes to enable the delivery of enhanced service delivery to the community. In the main Corporate Services deals with the following key municipal administrative and governance processes and areas:

- Human Resource Management (Benefits Administration, Performance Improvement, Employment, Job Evaluation, Payroll, Benefits Administration)
- Human Resource Development (Traffic Training, Skills Development)
- Occupational Health and Wellness
- Labour Relations
- Legal Services
- Communications
- Facilities Management
- Information Communication and Technology
- Committee Services

Moreover, the Employment Equity Policy (EEP) is set to provide an organisational framework and basic strategies for the development and implementation of Municipality's employment equity programme, in compliance with the prescripts of the Employment Equity Act (EEA), and to further provide guidance for the development of suitable employment equity plans for all employees.

1.7 Overall MMM Service Delivery Overview for 2022/2023

The following section will provide an overall overview of the Municipality service delivery performance for the 2022/2023 financial year by the departments.

1.7.1 Planning Department

The Fresh Produce Market continues to be one of the important revenue sources of the Municipality. Over the last three financial years, it has managed to exceed its revenue targets.

It continues to play its role in the Municipality of socio-economic development. It still an important player in job creation in the small business sector in the region and beyond, providing food security and a hub of economic activity among various stakeholders in the Fresh Produce Market industry.

For the last three years, the Mangaung Fresh Produce Market has consistently held position four in the country according to data provided by Fresh Mark Systems, in terms of both the annual turnover generated and the mass volume of produce sold. The Fresh Produce Market has been successful to form working partnership with SAPS in the last financial year. This partnership has been able to drastically reduce the incidents of crime in the Market. This was done through regular search a seizer operation by the SAPS on the Market and daily patrols.

In the last two years, the Fresh Produce Market has been able to form a working partnership with the Free State Department of Agriculture. This partnership has been able to introduce learners in the field of Agriculture and emerging farmers to the Fresh Produce Market, as a place they can do business. This has culminated in the Department committing to inject funds in the upgrade of the Fresh Produce Market facility. This commitment is yet to be realised.

Moreover, 6 township establishment planning process are almost completed. 27 Municipal Planning Tribunal (MPT) decision letter were completed with 8 meeting being held. Lastly, 4 Educational and awareness programs completed and 4 Compliance Audits.

Challenges are with the deferment of projects and budget constraints.

1.7.2 Economic and Rural Development Department

Naval Hill Gate Design and Upgrade

All designs and planning studies completed for project implementation.

Klein Magasa Heritage Precinct Rehabilitation

All designs and heritage studies completed for project implementation. Batho is a historical urban landscape that came into existence after the displacement of the residents of Waaihoek. This specific project has a rich heritage content and involves the restoration and upgrade of Klein Magasa Precinct.

Lastly, the Department continues to provide boreholes and windmills.

Challenges are amongst others, budget constraints.

1.7.3 Engineering Services Department

Potable Water Service

The reliability and security of water supply remain a considerable challenge. The theoretical water supply deficit is 60 Mega litres per day.

Water Security

A three-pronged approach has been adopted by MMM to address current and long-term water security concerns, namely:

1. Addressing current water distribution system inefficiencies through prioritising Water Conservation Demand Management efforts (discussed in the following sub-section)
2. Implementing the Maselspoort Water Reuse Project to address current water security backlogs.
3. Implementing the Gariep Water Supply Augmentation Project to address future water security requirements.

The Municipality budgeted for the wastewater reclamation (re-use) project as part of the interventions to address water security. The project will increase water supply yield by 77 Ml/day. The specific project under water re-use is Maselspoort gravity line to Mockes dam (which is currently utilised as raw water storage), Pump station, rising main, upgrading of Mockes dam, gravity line to North Eastern WWTW and upgrading of Maselspoort Water Treatment works.

Water Conservation and Water Demand Management (WC/WDM)

The target for WC/DM programme was not achieved due to, amongst others, the delayed procurement process and contractual matters. The WC/WDM projects and activities are targeted at addressing both cost containment and revenue collection.

Water Refurbishment Programme

The Municipality embarked on the refurbishment of its water assets, to ensure the reliability of the water supply as prescribed in the Water Services Act. Some of the projects were affected by community disruptions (Business Forums) that demanded sub-contracting opportunities. The details of the projects are as follows:

- (i) Hamilton Park Pump station. This project will stabilise the water supply to the northern side of the Municipality. There is currently a single pump that is operational. The project is in the documentation stage and is planned for construction in the 2022/2023 financial year.
- (ii) Refurbishment of Krugersdrift Water Treatment Works (WTW). The project will stabilise the Water Supply to Soutpan.
- (iii) Pellissier reservoir. The project is at the feasibility stage and seeks to address water supply pressure challenges around Pellissier

- (iv) Real loss reduction programme. The project is earmarked to reduce water losses on our network. The Municipality completed all planned major refurbishment work.

Water Maintenance Programme

The Water Maintenance Programme encompasses the repair of reticulation leakages, pipe bursts and sealing and cleaning of reservoirs. The Municipality did not achieve its target of attending all complaints within 24 hours as prescribed under MFMA Circular 88. The main causes of unsatisfactory performance are the lack of tools, equipment, budget and human resources.

Sanitation

The Municipality is faced with a massive backlog on waterborne sanitation, refurbishment of assets, and bulk infrastructure and maintenance provision. Below are programmes and projects, that were budgeted for in the 2022/2023 financial year, to accelerate eradication of these backlogs.

Refurbishment of Sewer Systems

The challenges in regard to sewer system is still a huge challenge and the City has put in place a plan to curb it.

Bulk Sanitation Infrastructure

The City plans to upgrade its Wastewater Treatment Works (WWTW) by 75 Mega litres per day capacity. The overall programme will encompass the North East WWTW (30 Mega litres per day), Sterkwater WWTW (13 Mega litres per day), Botshabelo WWTW (20 Mega litres per day) and Thaba Nchu WWTW (12 Mega litres Per day).

The other bulk sanitation project that was planned for 2022/2023 IDP, was the main outfall sewer in the Botshabelo region, which is currently flowing at full capacity. This means that there are no new connections that can be achieved until this bulk sewer line is upgraded. The project is at the design stage and planned for construction in the 2022/2023 financial year.

Waterborne Sanitation Backlog

The Municipality decided to convert all Ventilated Improved Pit (VIP) latrines, unimproved latrines and buckets into a full waterborne system. The City still has a massive backlog due to, amongst others, bulk constraints and budget. The budget allocated for the programme was significantly small; hence it was moved to cover the deficit under the bulk infrastructure.

Sewer Maintenance

The Sewer Maintenance Programme encompasses the unblocking of sewer, sweeping sewer lines, and rebuilding and replacing manhole covers. The Municipality did not achieve its target of attending all complaints within 48 hours, as prescribed under MFMA Circular 88. The main causes of unsatisfactory performance are the lack of tools, equipment, budget and human resources.

Roads and Stormwater

Operational budget

Under operations and maintenance, the Municipality had targeted to undertake maintenance of unsurfaced roads and the municipality achieved 42.4%. The target was planned but due to budget constraints and an unreliable fleet, not all roads were completed as planned.

For surfaced roads, the City had a programme of resealing. The targets were set after consideration of budget constraints and unreliable fleet. The City is still budgeting way below the recommendation of MFMA Circular 71, which recommends 8% of the value of the asset to be budgeted for maintenance.

Capital Programme

At the start of the 2022/2023 financial year, the Roads and Stormwater sub-directorate had amongst others two capital projects of catalytic nature, i.e., T1534: Vereeniging avenue extension: Bridge over rail and T1534B: Vereeniging avenue extension: Roads which are completed.

Areas that were targeted under stormwater refurbishment are Botshabelo W section, Botshabelo West, Botshabelo industrial area, fort street and Heidedal, Perish Avenue. However, only Botshabelo West and Botshabelo Section W, could realise a construction phase only with other areas realising just problem investigation. The main challenge affecting stormwater refurbishment program is constrained budget.

Challenges experienced

- Ineffective project and contract management processes.
- The Municipality has a great plan of working or supporting the Qualifying Small Enterprises (QSE) contractors, but this great plan requires the Mangaung MM to be timeous in compensating the month-to-month works. Delayed payments contribute to the delay of capital projects.
- The Municipality should invest to ensure that engineering personnel attend Continuous Professional Development (CPD) courses every year. Working with minimum creativity and confidence in your work affects the delivery thereof; projects are delayed because project managers are working, while referring more than it would benefit the projects.
- The Engineering Services or, more relevantly, Roads and Stormwater sub-directorate have high vacancy rate, which makes the personnel work on overload basis.

Proposed action

A portion of the 3% of USDG allocation should be utilised for financing the continuous professional development of the engineering services personnel.

Technical and contractual decisions that are not affecting the budget should be delegated to the Chief Technical Officer or the HOD: Engineering Services.

Vacant positions should be filled; this would assist in the implementation of projects, and it could assist in bettering the support given to the processes of procurement.

Planning of projects implementation periods should accommodate lengthy compliance requirements required by finance department.

1.7.4 Solid Waste and Fleet Management Department

Although waste collection functions were augmented by contracts that collect waste from businesses and complexes, the targeted 95% of households receiving a basic refuse removal was not achieved due to severe shortage of compaction vehicles, but only 71.8% could be achieved. Out of 47 known informal settlements one informal settlement at R Section in Botshabelo had no access to refuse removal due to non - availability of access roads. 440 Clean ups/removal of illegal dumps and 232 awareness and education sessions were conducted and 37 compliance notices in terms of the Municipality's Waste

Management by-laws were issued within 72 hours after identification of culprit /s.

The Department also benefited in the Presidential Stimulus Programme, where participants that were allocated to Solid Waste assisted with the cleaning of open spaces and public cleansing generally.

The Fleet Division has also attended to 346 vehicles brought for minor maintenance, serviced 169 vehicles, and inspected 848 vehicles for roadworthiness.

Challenges

- Lack of adequate resources to collect waste as per Collection Schedule is a huge challenge.
- The landfills not operating in line with their license/permit conditions and are therefore non-compliant. This is partially due to lack of suitable plant, equipment and skills deficit.
- Budgetary constraints.
- Finalisation of the procurement processes on time delays the completion of a number of capital projects on time.
- Delays in paying the service providers on time for service rendered.

1.7.5 Centlec Department

The Entity's efforts to realise these concrete results in line with the commitments outlined above were confronted by countless challenges. CENTLEC (SOC) Ltd suffered financial loss due to the ongoing theft of copper cables and vandalism of critical electrical infrastructure at distribution centres and substations. The institution further encountered numerous incidents of tampering, bypassing of electricity meters and illegal electricity connections. The impact of illegal connections and loadshedding has led to a decline in revenue, increased power outages and poses a threat to human lives.

The impact of cable theft was flagged and remains a core area that must be addressed. These expenses lead to high maintenance as material had to be procured for the replacement of infrastructure due to tempering and theft of electricity. CENTLEC (SOC) Ltd was negatively impacted due to a decrease of 5% in bulk energy purchases in comparison to the previous financial year. The overall bulk energy sales analysed depicts the top twenty (20) customer decline of 8.24% as compared to the previous financial year.

The Entity experienced an average increase of 9% in overall prepaid sales. This was achieved by revenue enhancement, by way of enforcing auditing of prepaid meters and rotational meter conversion to prepaid meters. The entity completed the electrification backlog of thousand one hundred and fifty-nine (2 159) household connections emanating from the previous year and including the period under review.

In addition to the above, during the 2022/2023 financial year, CENTLEC (SOC) Ltd successfully implemented a maintenance project focused on inspecting a substantial area of 505.12 kilometres of 132 kV overhead lines within the Mangaung Metropolitan Municipality (MMM) area of supply. The primary objective of this project was to minimize power outages and enhance the quality of electricity supply for all customers.

With a commitment to ensure that the strategic goals of the Integrated Development Plan (IDP) which emanates from the community aspirations are met, the entity erected and commissioned forty-seven (47) high mast lights in various wards of Mangaung Metro Municipality. These high mast lights play a crucial role in providing adequate lighting and improving the safety and visibility within the communities they serve.

As part of the routine maintenance, the Entity conducted thorough inspections of 348 DC Transformers and carried out comprehensive testing of 504 Distribution Centre Panels. These inspections and tests were undertaken to identify potential issues and proactively address them, ensuring the smooth functioning and efficiency of the distribution network.

To stay on par with the Entity's mandate, there was a need to further capacitate the Entity's workforce to allow them to be capable of delivering their responsibilities effectively. This was done by sourcing discretionary grants for twenty-five (25) employees to be enrolled for Adult Educational Training (AET). Sixty-six (66) employees enrolled on Artisan Recognition of Prior Learning (ARPL) programmes. These programmes intend to recognise the previously disadvantaged groups that are performing all the critical duties within the core functions. In addition to this, the Entity partnered with the Central University of Technology (CUT) where thirty-seven (37) students have been accommodated to date through Work Integrated Learning (WIL).

1.7.6 Social and Municipal Police Service

Social Services

Capital projects

70% of the Sub-Directorate's capital projects were executed on time and within budget.

Fire Safety

All (100%) 234 building plans submitted to the Fire and Rescue Service for scrutiny were handled within 5 working days after the plans had been received. The target was to deal with 80% of the plans within 5 working days. The aim is to ensure that developers do not experience delays in obtaining approval for construction projects.

Fire suppression

The extensive geographic area of the Municipality remains a challenge for the Fire and Rescue Service as it often translates into lengthy response times and pose a considerable veldfire risk.

(9.4 out of 10) Emergency calls received are dispatched within 3 minutes Veldfires again severely tested the mettle of the Fire and Rescue Service.

The Fire and Rescue Service, like most other municipal services, is severely affected by the limited resources available. The Metro's active participation in the Mangaung Fire Protection Association has contributed greatly to the successful managing of the veldfire challenge.

Eleven (11) campaigns on disaster risk management education and awareness campaigns conducted. 10 out of 10 (184 disaster risk assessments within 48 hours after disaster or emergency incident occurred conducted. Additionally, 71 High risk premises inspected, 230 Moderate risk premises inspected, 1821 Low risk premises inspected.

1 Air Quality Station (Pelonomi) Functional, 1329 Drinking Water Samples taken, 9544 Food premises inspected, 747 Library program activities to communities and 13 Training programs on HIV/AIDS prevention.

Challenges are due to budget cuts or non-rollover of USDG funding.

Municipal Police Services

- 12 Crime Prevention activities conducted targeting known hotspots
- 12 Street trading operations conducted
- 679 Notices issued to motorists driving un-roadworthy vehicles
- 493 Notices issued to motorists driving without safety belts

1.7.7 Human Settlement Department

The Catalytic Programme is under construction in Vista Park 3 with internal services completed comprising roads, stormwater, water, and sewer. The Developer is constructing internal services including electrical infrastructure for extensions 261, 262, 263, which are identified for subsidised housing. Moreover, 100% of site establishment is complete in Vista Park 2.

The Directorate is implementing the Upgrading of Informal Settlement Programme such as provision of individual access to basic services "water and sanitation". 48 households provided with water and sewer at Thabo Mbeki and 3820 Botshabelo West Installation of water. 847 PTO and 250 title deeds were issued.

The Municipality in the new financial year has put in place measures to accelerate the programmes that were performing slowly.

1.7.8 Office of the City Manager

The Office of the City Manager has continued to operate its functions effectively. This Office comprises of the office responsible for IDP and Organisational Performance, Risk and Anti-Fraud unit, Internal Audit, Integrated Public Transport Network (IPTN), Knowledge Management, Intergovernmental and International Relations.

For the financial year under review, the Internal Audit Unit has completed 38 internal audit reviews and issued reports with recommendations to Management on internal control deficiencies found.

The Office is also responsible in ensuring that the overall performance of the Municipality is monitored, evaluated and reported according to Council, including the implementation of Circular 88. The Internal audit continues to audit all the information reported by the department and other audit related matter as per their audit plan and the Risk office ensures that all risk identified are mitigated on time. The IPTN unit is performing at 70% of its planned target. Lastly, the IGR and Knowledge Management units are functional and able to partially achieve their targets as well.

Challenges

The challenges in the City Manager's office are a lack of human resource capacity in some sub directorates. The implementation on some programmes and projects was hampered largely by delayed project payments, poor project implementation and community unrests.

Proposed Action

The Municipality in the new financial year has put in place measures to accelerate the programmes that were performing slowly, to date comprehensive engagement with the taxi industry is being implemented, the IPTN structure is being reconfigured, delayed projects are being fast-tracked etc.

1.7.9 Corporate Services Department

Committee Services:

Committee Services is a sub-directorate within the Corporate Services Department responsible for coordination of Committees of Council. The function of Committees involves primarily setting operational standards and systems towards successful achievement of meetings.

Ensures that records of the Municipality are classified in terms of records classification systems and Records Management Policy to ensure that these systems satisfy the requirements of accountability and transparency. Inspect records for disposal which are no longer required for the functional purposes of the Municipality. Ensure that records are electronically reproduced for preservation so that the requirements for archival preservation are addressed timeously.

However below are challenges identified in the Sub-Directorate:

- Number of unscheduled meetings.
- Aging staff in the records division and transfer of skills.
- High vacancy rate in the two (2) Division (Council Support and Translation, Records and Archives Services) within the Sub-Directorate Committee Services.
- Slow pace in moving from manual/paper systems to digitization/electronic systems.

There are however achievements with the Committee Secretariat during the 2022/2023 Financial year which are:

- Adoption of Program Schedule of Council: The Municipality adopted a program schedule for the financial year. The number of unscheduled meetings reduced to five (in the financial year. The attendance of all meetings scheduled and unscheduled at approximately 85%. Significant reduction in the number of postponed and cancelled meetings.
- Digitization/electronic system: Success in ensuring that all Committee meetings notices including the documentation are done electronically even though the system is moving at a slow pace.
- Review of the Standing Rules and Orders: The Section 79 Committee Rules is at a final stage of reviewing the Council's Standing Rules and Orders.
- Disposal of obsolete and dormant files: The dormant hard copy files had been disposed in line with our disposal authority measures about 265 linear metres were disposed during the period under review.
- High volume printers: The Reprographic Unit has been provided with high volume printers in 2022.
- Adherence to service standards and quality secretarial support service: Agenda and minutes formulation and crafting had been standardized and all Committee officers are at equal footing in ensuring that our service standards are achieved. Including the provision of technical support and advice to the political and administrative leadership.

The following are the 5 committees of Council which are fully functional:

SECTION 79 COMMITTEES

1	Public Places and Street
2	Remunerations
3	Petitions and Community Liaison
4	Municipal Public Accounts
5	Rules

The following are the 5 committees of the Executive Mayor which are fully functional:

SECTION 80 COMMITTEES

1	Public Safety
2	Social Services
3	Corporate Services
4	Human Settlement
5	Rural Development
6	Planning and Economic Development
7	Finance
8	Infrastructure
9	Waste and Fleet Management

Human Resource Management

The strategic objective of human resource management is to provide, lead, manage and direct human resources within the Municipality. In the recent past the following strategic project has been completed:

Review of organizational structure

HRM through its work-study unit has successfully completed the review of the macro-structure which, has since been adopted by the Municipal Council. Further to this, the structure for Political Office Bearers (POBs) support staff has also been developed in line with the provisions of the Municipal Staff Regulations (MSR) and subsequently approved by council. Council also resolved to request concurrence from the MEC/Minister of COGTA for addition of certain posts to the prototype structure. The decision of the MEC/Minister in this regard is still pending. There is also a process for the review of the micro-structure that is currently undertaken by Lekoko Consultants who have been appointed by National COGTA as part of their validation of prototype staff establishment.

Job Evaluation

The Local Labour Forum has re-established the Job Evaluation Committee which is composed of nominees from organized labour as well as the employer. The job evaluation committee, through the job evaluation unit, has recently submitted a programme of action which was approved. The programme of action is geared at the review, validation, evaluation and grading of the different posts submitted to it for evaluation. The objective is to ensure that all the unique posts in our staff establishment have approved job descriptions, which are graded and that the municipality migrates to TASK job evaluation pay scales/wage curves.

REVIEW, DEVELOPMENT AND ALIGNMENT OF POLICIES TO MSR

Individual Performance Management Policy (IPMS)

The draft policy has been developed and was submitted to the NCR Governance Expert for review and refinement. The policy will be taken through the Corporate Services Policy Forum and then subjected to the various consultation forums prior to being tabled to council for approval. This policy will require collaborative efforts from HRM, Labour Relations, Human Resources Development and perhaps the wellness division.

Recruitment, Selection and Appointment Policy

The process to review the current employment policy which, was adopted in 2003 is currently at an advanced stage. The policy has been reviewed and aligned to the MSR in many respects save for two areas viz. secondments as well as appointment of support staff for political office bearers. The employment

division is finalizing research work for regulation of secondments within the municipality.

The regulation on appointment of support staff to political office bearers (POBs) will be largely the same as those contained in the MSR and will be further augmented with inputs from the National Cabinet Representative (NCR) Governance Expert. The policy will then be subjected to various fora for mandatory consultation prior to approval by council.

Development of Overtime Policy

Excessive overtime expenditure has been a problem plaguing the Municipality for several years resulting in numerous adverse audit findings. This has necessitated that an overtime policy with strict control measures be developed to augment the current regulatory framework. At the moment the regulation of overtime is done as per the provisions of the Basic Conditions of Employment Act, 75 of 1997 as well as the South African Local Government Bargaining Council Collective Agreement of the Free State Division. A draft overtime policy has been developed and reviewed to include the recommendations from the Auditor General. It will soon be submitted to the Local Labour Forum (LLF) and other fora as part of the mandatory consultation process.

Development of a Human Resource Management and Development Strategy/Plan

The Municipality's Human Resource Management and Development strategy was adopted by the Council in 2017 and should be aligned to the Municipality's Integrated Development Plan (IDP), which is a five-year plan. This plan has not been reviewed and, to a very large extent, never implemented. The HRM has started work to review the HRM Strategy which, will be inclusive of a Human Resources Plan aligned to the IDP adopted by council.

Absorption of Temporary Employees and other Non-standard forms of employment

MMM has inherited third party Interns, turned them into own Interns and locked them in perpetual extensions thus posing a potential risk of litigation for legitimate expectation of permanent employment. Other officials held temporary contracts with MMM and equally posed similar litigation risks. It is precisely the litigious risk to which MMM had become exposed to that necessitated the compilation of the report on the regularizations of identified contracts of employment with MMM and its subsequent consideration by the Local Labour Forum (LLF).

In addition, the Municipality failed to develop a policy to address the intake of Interns and Temps into the system. At the same time, the Exco Rep had ratified such extensions of Internship contracts on condition that a report seeking to regularize such contracts finds its way to the Local Labour Forum (LLF). Having considered the report before it, the Local Labour Forum (LLF) resolved in favor of getting the affected incumbents contained in the founding report in the permanent employ of the City, and this decision has been implemented accordingly.

CHALLENGES IN HRM

Obsolete Human Resources Processes

Several critical functions within HRM are still manual and prone to manipulation and quite susceptible to human error. Some audit findings have confirmed this assertion. As a case in point, there have been recurring findings relating to miscalculations (under/overpayments) relating to remuneration of employees. This has been caused by the nature of operations within the payroll division as it is a high-pressure environment. The ordinary pressures experienced by the division, coupled with staff shortages and manual calculations of some salary items, are at the center of payroll challenges. The challenges in payroll also resulted in material irregularity findings by the Auditor General for FY2020/21.

The institution is still using manual (paper) processes for administration of leave, acting appointments as well as time and attendance. This has also resulted in several audit findings where there are misstatements, or the integrity of these records (leave records and attendance registers) do not reconcile. The other cause of these challenges is that the two HR systems in HRM (Payday and HR-Focus) are not integrated, and this is highly risky due to two points of entry into the system. This anomaly has resulted in data integrity issues where the records in the main HR system do not reconcile with those in the payroll system.

HRM is still using manual document management and record keeping, something which is an operational and legal risk. There have been instances where employee records are lost after having been asked by auditors or senior managers.

Contravention of HRM regulatory framework

In terms of operational risk management, non-adherence to regulatory framework is a common risk with a critical impact. Whereas HRM is the custodian of HR related processes, policies and legislations, the powers non-adherence to same is mostly emanating from user directorates outside of HRM.

The recent irregular appointments of staff in political offices, payments of overtime without pre-approvals and hours in excess of legislated hours are some of the examples that can be cited. Whilst these are administered in HRM, the commissioning and approval powers rest outside the HRM domain. Even in these circumstances HRM still has an inherent obligation to advise something which is sometimes misconstrued as questioning authority. The unfortunate part about it is that the adverse audit findings remain with HRM hence the notion that HRM is dysfunctional.

Human Resource Development

HRD Skills development action plan 2022/23 outlines strategic projects the sub-directorate planned to execute in line with Municipal Integrated Development Plan (IDP), in response to MFMA circular 88 annual reporting templates from National Treasury, Service Delivery and Budget Implementation Plan (SDBIP) and alignment to Municipal Staff Regulations (MSR).

Mandate for the sub-directorate is to strategically align human capital, develop/capacitate it and ensure proper match to the Municipal objective. The plan covers scarce and critical skills, observe compliance matters, participation to professional bodies, strengthening partnerships with all the stakeholders etc.

Active projects/functions for the financial year 2022/23

Even though a number of these projects intertwine or overlaps to the other, they remain standalone projects that requires a lot of time, efforts, and precision to executes and to provide the desired results. The objective here is synonymous - to develop, motivate, create a long live culture of learning where decisions are well informed, and where municipality can fully utilise its human capital to its full potential and ultimately the city's goal.

- **Skills Audit**
Mangaung Metropolitan Municipality (MMM), Corporate Service, Human Resource Development (HRD) Sub-Directorate in partnership with SALGA and CoGTA initiated the Skills Audit process in February 2023, by training of audit champions, followed by capacitation of Gap Skill systems for Senior Skills Development Facilitators (SDFs) and supervisors. The project was piloted at Corporate Service, ITC Sub-Directorate. Prior the implementation, there were extensive engagements with all relevant stakeholders where all parties briefed about the process, and all took ownership of the process and gave it a go ahead. Submission is available to provide all the nitty gritty of the project. A detailed report on the

milestones of the pilot is also available but must also qualify it that alignment to MSR is not entirely complete as it does not cover competencies according to the framework. Reasons being that the available tool (GAP Skill System) still needs to be revised. The Project is still within the two-year cycle as stipulated in the regulations.

- **Personnel Development**
Individual Personnel Development Plan (PDP) document was approved.
- **Recommendation for Skills Development** to be included as key performance area (KPA) in HOD's performance management tool. Submission drafted and went through relevant offices for approval. Recommendation was shared with IDP office for inputs and have made their contribution and will wait for the final approval before they could affect the changes/recommendations.
- **Discretionary Grants projects 2022/23**
A total of seven learnership programmes and one internship programme for the unemployed was granted to the Municipality by LGSETA with a total allocation of 450 beneficiaries. So far, the Bachelors – Built Construction Management internship programme is continuing without any hassles. Whereas the learnership programmes has been halted due to the replacement of the Skills Development Provider (SDP) due to expiry of accreditation. Efforts are in place to resurrect the project as soon as parties involved comply with grants regulations.
- **Mandatory Grants Projects**
Two projects are currently running. The first project is the National Certificate - Construction Road works, NQF Level 3 learnership with a total of 60 beneficiaries (MMM employees), the project is primarily focused on infrastructure, service delivery. The second project Municipal Finance Management NQF Level. 6, learnership with a total number of 20 beneficiaries (MMM employees) deals with finances and promotion of healthy financial viability of the municipality.
- **Internships and Work Integrated Learning (WIL) Projects**
Municipality is forever in service of the community it operates on. The high rate of unemployment amongst the youth is very much alarming, that is why HRD has taken a bold step to accommodate as many students as possible seek opportunities for experiential training, to craft their skill, develop.
- **Skills Development Legislative Compliance**
The municipality has submitted to the Local Government Sector Education and Training Authority (LGSETA) the municipality has submitted the Workplace Skills Plan and Annual Training Report (WSP/ATR) on the 30th of April 2023 successfully.
- **Midterm reports on Minimum Competency Compliance**
Minimum Competency Framework is a monitoring tool to see if municipalities comply with regulations on minimum competencies. i.e., Annexure C provides the necessary data for senior managers, financial and supply chain management staff competency areas and how best can HRD assist in terms of gaps identified. Both January and July report submitted.
- **MoU signed between MMM and CUT**
To strengthen relations with institutions of higher learning in our city and to continuously seek ways to nurture and realise opportunities to collaborate and maximise on each other's

strengths. Future applications for Discretionary Grants (DG), National Skills Funds (NSF) will be easier and will be in a better position to tap into a number of training modes with a well experienced SDP with a training catalogue that is vast and has stood the test of time. The idea is to do the same with other Institutions and augment the existing panel of service providers.

- **Risk Management**
Guiding the municipality towards managing risk in an effective and simplistic way. Quarterly reports are submitted with a supportive POE to ensure that progress is made in managing risk. HRD over a period of time, its biggest threat has always been micro economic factors as well as internal realities to improve governance of the Municipality.
- **Revised Study Assistance Policy**
The policy was tabled for inputs and has been revised and will serve as an agenda item for the next HR Policy Forum.
- **Graduation Ceremony**
A successful graduation ceremony was held, wherein employees received qualification in NC: Paralegal services, NC: End User Computing, local economic development, first aid, paralegal.
- **Basic Traffic Officers course** provided to a total of 45 traffic cadets: 10 Centlec, 4 Antifraud and Corruption, 31 Law Enforcement
- **Law Enforcement Skills programme** provided to a total of 49 participants: 10 Centlec, 5 Antifraud and Corruption, 34 Law Enforcement.
- **First Aid Training:** Unit Standards 119587, Perform Basic Life Support and First Aid procedures provided to 100 employees across the municipality.

Legal Services

Legal Services provide professional legal advice and assistance to the Municipality to ensure the proper protection of the Municipality's interest and compliance with its obligations. The sub-directorate consists of the By-laws (Legislative & Policy Drafting), Conveyancing, Contract and Performance Management as well as Litigation. The position of Manager Litigation and the Manager By-laws is currently vacant and must be filled urgently. The current structure of Legal Service is still in the process of being revised which will improve the performance of Legal Services extensively.

Administration

The function of the General Manager is to lead and direct the Legal Services Sub-Directorate in order to provide professional legal advice and assistance to the Municipality for the proper protection of the Municipality's interests and compliance with its commitments. Legal Services provides amongst other legal advice and opinions in the Bid Adjudication Committee, Disciplinary Board, Municipal Planning Committee, Troika, Municipal Public Accounts Committee, OCM, Directorates, Executive Mayor, Council Meetings, and any other requests received. Manages responses to Human Rights Commission and the Public Protector. Attended to all legal compliance queries of Internal Audit and the Auditor General.

➤ Challenges:

- Silo Operations between the directorates resulting in late payments and litigation.

- Contingent Liability challenges
- Non-Payments of Service Providers by Directorates resulting in litigation
- Poor Project management of contracts resulting in negative AG finding on Contract Performance
- Attachments of Municipal bank account and Municipalities movable properties resulting in inability to perform certain functions.
- Lack of Consultation and commitment by Directorates
- Legal Costs- Capital and Operational Cost.
- Legislation preventing internal lawyers from having right of appearance in court.
- Selective payment of firms of attorneys
- Legal advice/ opinions not implemented - Wrong decisions taken and implemented against advice of Legal Services
- Implementation of wrong decision results in negative financial implication for the Municipality

Legislative and Policy Drafting:

After the amalgamations of other municipal areas into MMM, one of the major challenges was that the other municipalities had limited or no By-laws for different categories of competencies. There was a need for the Rationalisation of all By-laws within MMM's geographical jurisdiction. The Rationalisation process, which consisted of extensive drafting, reviewing, public participation, adoption by Council and finally promulgation, was necessary to ensure the uniform application of all By-laws to the entire geographical jurisdiction of MMM.

➤ Challenges

- The attempts to unlock a political office were unsuccessful.
- The Policy on Development and Review of Policies and By-laws provides the guidelines on the processes that must be followed prior the drafting of the new or review of the By-laws.
- Where held several meetings with the office of the speaker to setup public hearings to enable our By-laws team to reach out to the community in the forthcoming public participation for the purposes of obtaining comments on the new/draft By-Laws but it seems such process was placed on hold.
- Lack of resources e.g. Legislative library (Lexis Nexis)
- Lack of capacity for the drafting of the new By-laws.
- Lack of training of officials to be familiarize with the new drafting style of By-laws.
- Lack of implementation of By-laws by user department.
- Lack of training of officials on the importance and the implementation of By-laws.

➤ Achievements

- Successfully agreed with the current Speaker for the public participation.
- Successfully got approval to establish By-Law Review Committee (BRC) which will strengthen the By-law unit especially with the drafting of new By-Laws.
- Successfully benchmarked with eThekweni Municipality on how they operate especially in the drafting of new By-laws and how their team/committee was formed to improve service delivery.
- Successfully draft SOP (Standard Operational Procedure) for Council documents for Council meetings.

Conveyancing:

This function is currently based in the office of General Manager: Legal Services. Its mandate is to expedite and ensure that the properties of the municipality are protected from being sold illegally. Whereby there was a sale of land or municipal property/building it should be transferred to the third party through municipality consent. The function also requires the appointment of Firm of attorneys (conveyancing) must be in line with Supply Chain Policy

which makes provision for rotation of firms of attorneys listed on the panel list. It is also a centre of power mainly because Deeds Office want every transfer lodged at its offices should be accompanied by Building clause certificate which is obtainable from the municipality. Without such certificate no transfer will be approved.

➤ Challenges

- Lack of capacity, this one that need urgent attention.
- Lack of structure, It should be a stand-alone unit within legal services because it requires lot of responsibilities.
- Lack of resources e.g., Legislative library, new Files, and stationaries.
- Poor turnaround time for Planning inspection report to enable Corporate Services to issue the building clause certificates.
- Delay in the signing of Deed of Sale and Power of attorney to pass transfer.
- Poor preparation of relevant documents by user department e.g., Human settlements and finance

➤ Achievements

- Issued several building clause certificates.
- Issued several letters of consent.
- Developed standard application form for building clause certificate whereby the applicant/conveyancer pay R330.00 (Three hundred and thirty rand) to MMM account number **6542142455029ZZZZ11** in line with Finance billing tariffs.
- Developed standard application form for consent letter whereby the applicant/conveyancer pay R1466.00 (one thousand four hundred and sixty-six rand) to MMM account number **6542142455029ZZZZ11**, which is in line with Finance billing tariffs.
- Corporate services/Legal services have successfully collected some revenue as part of its Financial Recovery Plan.
- Corporate services have signed several documents /deeds of sale and power of attorney to pass transfer.
- Legal services have developed a register where all these applications are recorded, and the register is updated weekly.
- At least 6(six) title deeds where registered on behalf of MMM in the first semester during this financial year.

Contract Performance Management:

The contracts of the Mangaung Municipality are managed by the Contract Management Unit within Legal Service. Contract Management provides administrative support and assistance to the Municipality by providing a high standard of service to User Directorates and customers as well as to ensure the proper protection of the Municipality's interests and compliance with its obligations.

➤ Challenges:

- Poor Project management of contracts resulting in negative AG finding on Contract Performance
- The divisional staff establishment that is not aligned to the functions that the Division should execute by law, no staff to deal with the S116 reports and provide feedback to User Departments
- Keeping of active Lease and Non - Procurement contracts is a serious problem as files are always said to being out when they with MMM Records. No proper filing and processes in place to issue out and receive the files.
- Non-response from the Project Managers when sent a communication on the termination of their contracts. CPM is unable to close files on time and this creates audit problems.

- Loss of documents out of contract files and files are only issued out to Executives.
- Non signing of contracts by the accounting officer to an extent that some contracts get implement and finalized without a signed contract.
- Delays in approving or disapproving submissions requesting extensions of time. This leads to contracts that already terminated being extended. No turnaround time for executives in dealing with contracts documents.
- Recommendations by HODs to City Manager for approval of extensions of time of contracts in violation of Section 116 of the MFMA
- Non reporting of Project Performance Monitoring as required by Section 116 of the MFMA by Project Managers and no effort made by HODs to see to it that their Departments comply with the requirements of the law.
- Departments request files and keep them for long after they are done with them.
- Department requesting files and then giving them to third parties outside the Municipality without the knowledge of Contracts Management and without them taking the details of the person they are giving the files to.

Litigation:

The Litigation process is managed by the Litigation Unit. The Municipality either is litigated against or initiates the litigation against a third party.

The function and purpose of the Litigation Unit is to deal with litigation processes for criminal or civil cases in which the municipality, councillors or officials may become involved in their official capacity to ensure that the municipality's interests are properly protected. Litigation further arises due to non-payment of service providers for performance rendered, late payment of invoices, insurance claims etc. Litigation manages the litigation process instituted by the MMM against third parties in instances where there are land invasions, fraud, illegal business operation etc. Legal advice and Opinions are also provided to Councillors/Directorates/ Council etc.

The Litigation Unit also manages litigation through the facilitation of consultations internally as well as between internal stakeholders and attorneys and/or Advocates and mitigation of legal risk to Council/ Municipality.

Challenges:

- Non-Payments of Service Providers by Directorates resulting in litigation
- Lack of consultation and commitment by Directorates
- Lack of communication or adequate response from Directorates resulting in courts making judgments that favor the other party and not the MMM.
- Directorates criticizing and/ not implementing legal advice given by litigation. Moreover, not providing an alternative legal opinion.
- Being provided with information late by Directorates resulting in late drafting and/ filing of court papers.
- Failure of User Departments to promptly comply with court order leading to either contempt of court or attachment of the MMM's bank account.
- Delayed approval of extension of service providers contract which leads to the user's failure to pay, thus leading to unnecessary litigation.

Achievements

- Effectively communicating with Directorates.
- Effectively attending to legal matters and thus, saving costs against the MMM.
- Adequately identifying a problem and a solution for it.

- Providing adequate assistance with Town Planning and saving time for the MMM.
- Proper keeping of status of matters.

Facilities Management:

Facilities Management is responsible for the maintenance and upkeep of an organization's buildings, ensuring that they meet legal requirements and health and safety standards and the following projects for 2022/2023 were implemented:

Achievements

- Installation of two stage diesel pump for Bram Fischer Building
- Fire Detection Systems in the MMM buildings.
- Upgrading of the 5th Floor at Gabriel Dichabe.
- Refurbishment of aircon units at Thaba Nchu Regional Offices.

Challenges

During and over the period of the past two financial year's, Facilities Management has since noticed a decrease in revenue of its venues. The burning of the City Hall as the Municipality's attraction and the COVID – 19 Pandemic also contributed to a further zero revenue.

- Budgetary constraints.
- Under staffing.
- Lack of qualified artisans in certain trades
- Lack management support and understanding of Facilities Management environment.

Labour Relations

Labour Relations mandate is to manage and implement sound Labour Relations practices in accordance with the relevant legislation so that harmonious relations between the employer and employees are maintained, historically the role of Labour Relations has broadly been to advise both Management and Employees and to represent Municipality at the Bargaining Council.

Challenges

- Officials/employees do not want to be presiding officers or employer representatives in disciplinary hearings – that compels Labour Relations officials to avail themselves as either presiding officer or employer representatives and such it compromises the main mandate of the Sub-directorate of ensuring that the harmonious relations exist between the employer and the employees. The other unintended consequence of this practice is that employees may lose confidence in LR to give it advices.
- The Sub-directorate does not have a fully-fledged organogram – it consists of GM, Manager and Labour Relations Officers.
- The LLF does not sit regularly as prescribed by the Collective Agreement – it sat one or two in the period of six months.
- Some officials choose not to comply with relevant legislation, policies and collective agreements – This causes unnecessary disputes that ultimately lead to litigation. Often the Sub-directorate is not consulted on labour related issues by line function managers for advice but consulted only when disputes arise.

- Labour Relations Officials have not been able to obtain any form of development to better their performance because of lack of funds – labour law evolves continuously, and Labour Relations Practitioners need to reskill to keep up with the changes in any form of labour law – also, as a result of lack of funds, the Labour Relations is not subscribing to any service provider in order get or be up to date with any new development in labour law.

Achievements

- The slight improvement in management of cases (suspensions, disciplinary cases, and litigations matters)
- Advice was provided to officials and employees in order to avoid unnecessary disputes.
- Information sessions were held in order to capacitate the employees.
- Placement Policy was approved by LLF and Council. The Placement Committee finished its work in terms of placement of the former employees of disestablished Naledi Local Municipality and Soutpan/kgomotseng community.
- There were three LLF sittings and issues were successfully agreed upon and resolved.

1.7.10 Financial Health Overview

Reduction of interim readings

Almost through the year, the Municipality managed to have an average (33%) interim reading. Failure to access properties, covered / hidden meters etc. are some factors which led to interim readings. Installation of pre-paid water meters is ongoing and has therefore substantially assisted in maintaining interim readings within the set target. Thus far the Municipality has successfully managed to install approximately thirty-five thousand (35 000) meters throughout the Municipality for both residential properties and businesses. Functional handheld meter reading devices have also positively contributed to the reduction thereof.

Consumer accounts are issued to correct addresses.

The Municipality must ensure that all revenue due to the Municipality is calculated on a monthly basis and collected. It is therefore of utmost importance that municipal accounts are issued to correct addresses. We are intending to register more consumers to receive e-statement, which is rapid and cost effective. The Municipality has developed a municipal website account portal, where consumers can look up outstanding municipal account balances for payment of accounts.

Improved collection rate

Implementation of the Council's credit control policy has impacted positively on the collection rate. At year end, the collection rate was at (80%) percent. Although there has not been much success in collaborating with Centlec for collection initiatives, the exercise will still be pursued in the new financial year. The debt incentive scheme will also be re-introduced in the new financial year, which aims to encourage all consumers to pay their municipal bill.

Defaulting businesses litigated.

The two (2) companies that were appointed to assist the Municipality with the collection of debt for businesses that have failed to meet their obligations have ended. However, there are three-hundred and fifty-two (352) businesses that have been litigated and processes are still undergoing. This will bring a

substantial increase in the collection of revenue from the settlement of those litigations of businesses.

Updating of fixed asset register

The Municipality's fixed asset registers have been successfully updated.

Compliance with SCM Policy and awarding of contracts in line with SCM regulations.

As per Section 111 of the MFMA, each Municipality must have and implement Supply Chain Management policy, which gives effect to the legislative mandate. The objectives of the Policy, amongst other entails:

- Transform procurement provisioning practices in the Municipality into an integrated SCM function.
- Promote consistency in respect of the SCM Policy and other related policy initiatives in the Municipality.
- Ensure that expenditure on goods and services is incurred in terms of an approved budget in terms of Section 15 of MFMA.
- Ensure that any Treasury guidelines on procurement are properly considered.

The Municipality have fully complied with all SCM legislative requirements and ensured the following aspects were adhered to:

- Approval of the annual Procurement Plan of the Municipality by the Accounting Officer.
- Sourcing quotations from different providers preferably, but not limited to providers whose names appear on the Central Supplier Database, as mandatory requirement of Section 14(1)(b) of the Municipal SCM Regulations.
- Advertisement of bids in newspapers and Municipal website.
- Submission of quarterly reports, as well as the Annual Report to Council on the implementation of the Municipal SCM Policy.

Fiscal Prudence

- The Municipality has ring-fenced all conditional grants to ensure timeous payment of all CAPEX creditors.
- Reduction of debt to Bloemwater in line with payment arrangement.
- Improved settlement of outstanding creditors.

Compliance with legislative requirements

The following requirements were complied with:

- Timeous submission of reports to Treasury in line with Sections 71 and 52 of the MFMA.
- Timeous submission of annual and consolidated financial statements to the Auditor General
- Tabling and approval of the credible and funded budget as well as the adjustment budget.

Components A: Introduction

Municipalities in South Africa are governed by Municipal Councils. Mangaung Council is therefore the governing body of the Municipality and the custodian of its powers, duties and functions are both legislative and administrative. Essentially, the Council performs a legislative and executive role. The Constitution of the Republic of South Africa, 1996, Chapter 7, Section 160 (1) defines the role of the Council as being:

- (making) decisions concerning the exercise of all the powers and the performance of all the functions of the Municipality;
- (electing) its chairperson;
- (electing) an executive committee and other committees, subject to national legislation;
- (employing) personnel that are necessary for the effective performance of its functions.

Table 3: Members of the Mayoral Committee

Members of the Mayoral Committee	Responsible Councillor
IDP and Performance	
Finance	Cllr LM Titi-Odili
Infrastructure	Cllr MA Morake
Waste and Fleet Management	Cllr MJ Matsoetlane
Public Safety	Cllr TJ Mogotloane
Social Services	Cllr MM Tladi
Corporate Services	Cllr MT Mosala
Human Settlement	Cllr KE van der Ross
Rural Development	Cllr PS Twala
Planning and Economic Development	Cllr VE Jonas
Chairperson: Rules Committee	Cllr TKW Mokgothu
Chairperson: Motions and Petitions	Cllr A Qai
Chairperson: Remunerations and Benefits Committee	Cllr NA Nhlapo
Chairperson: MPAC	Cllr MI Mokoakoa
Chairperson: Public Places and Street Naming Committee	Cllr PL Seleke

The Mangaung Council is constituted by 101 elected public representatives of which 51 are ward representatives and 50 represent their political parties on a proportional basis. The parties in Council are illustrated in the table below.

Table 4: Political Parties Represented in the Council

Political Parties in Council	Total Seats	Ward Seats	PR Seats
Political Parties in Council	Total Seats	Ward Seats	PR Seats
African National Congress	51	40	11
Democratic Alliance	26	11	15
Economic Freedom Fighters	12		12
Freedom Front Plus	5		5
Afrikan Alliance of Social Democrats	2		2
Patriotic	2		2
African Independent Congress	1		1
African Christian Democratic Party	1		1

Component B: Political and Administrative Governance

2.1 Political Governance

The Mangaung Metropolitan Municipality is governed by a Council led by an Executive Mayor. All major policy and administrative decisions are presented, resolved and implemented after approval by the Council. The political system in the Municipality is functioning well in that all major committees and participatory organs in the Metro are fully functional. There is a functional Audit Committee that periodically provides advice to Council. There is a Municipal Public Accounts Committee (MPAC) that continues to interrogate municipal performance and thus assist the Municipality to act in the manner that assist service delivery. The Annual Report is publicised for scrutiny and comments of the public as well.

2.1.1 Political Structure of MMM

- 1) Executive Mayor: Councillor Mxolisi A Siyonzana
- 2) Deputy Executive Mayor: Councillor MM Mothibi-Nkoane
- 3) Speaker: Councillor SB Lockman-Naidoo
- 4) Chief Whip: Councillor VE Nikelo

Table 5: The Governance Structure of Mangaung Metropolitan Municipality

Structure	Responsible for	Oversight Over	Accountable to
Council	Approve policies and budget	Executive Mayor, Mayoral Committee and Audit Committee	Community
Executive Mayor	Policies, budget, outcomes, management and oversight over City Manager	City Manager	Council
City Manager	Outputs and implementation	The administration	Executive Mayor
CFO & Executive Management Team (EMT)	Outputs and implementation	Financial management and operational functions	City Manager

Political Decision Making

A routing system of matters reserved referred to the Council is followed, namely:

Reports are initiated by the Heads of Departments and submitted to the Corporate Secretariat Sub-Directorate. The reports are registered in the Council Item Register Book to indicate that the reports have been entered as an item into the system. The items are sent to the City Manager for scrutiny. The City Manager scrutinises the reports, and indicates under comments whether the reports are recommended for consideration to the Executive Mayor, signs it and the items are then forwarded to the Executive Mayor for political engagement.

The Executive Mayor then under comments indicates whether s/he approves the items, whether the items should serve on an agenda of the relevant Section 80 Committee meeting, then Mayoral Committee or whether the items should go straight to Council. The items now fully completed with all the necessary comments and signatures, are then submitted to the Committee Services Sub-Directorate and included in the agenda of the relevant Committee and

thereafter all approved items be placed on the agenda of the Council to serve before the Council for final approval.

Items on the agenda of the ordinary meetings of the Mayoral Committee and the Council are categorized as follows, namely:

- Section A - Items for Consideration
- Section B - Items in terms of Delegated Power
- Section C - Items for Information

Once the Council has decided on a report, it is then a resolution of the Council. The City Manager executes the decision/resolution taken by the Council by issuing execution letters to the relevant Departments.

2.2 Administrative Governance

The administration is led by the City Manager as the Chief Accounting Officer. The day-to-day management of the Municipality is done by staff under the direction of the City Manager and Heads of Departments. The City Manager and Heads of Departments have broad and general management responsibilities, such as ensuring that staff is kept informed on Council's direction and identifying gaps in service provision. Together with Council they must monitor progress on set goals and priorities.

Top administrative structure

The administration is made up of the following Departments headed by members of the Executive Management Team (EMT):

Table 6: Heads of Departments

Departments	HOD Responsible	Period of Acting
Acting City Manager	Mr T Motlshuping	Until 30 March 2023
Acting City Manager	Ms N Dumalisile	From 25 April 2023
Acting Corporate Services	Adv N Mpangane	Until December 2023
Acting Chief Financial Officer	Mr T Sediti	Until 30 November 2022
Acting Chief Financial Officer	Mr L Denge	From 19 December 2022
Acting Engineering Service	Mr W McLeod	Until 31 July 2023
Acting Fleet and Solid Waste	Mr F Nel	Until 31 October 2023
Acting Social Services	Ms M Mafisa	Until 30 November 2023
Acting Planning	Ms N Mabunda	Until 30 November 2023
Acting Human Settlement	Ms N Dumalisile	Until 24 April 2023
Acting Economic and Rural Development	Mr C Manyungwana	Until 30 November 2023
CEO: Centlec (entity)	Mr Malefane Sekoboto	N/A

Component C: Intergovernmental Relations

2.3 Intergovernmental Relations in the Municipality

The foundation of a constitutional democracy in South Africa as laid and articulated in the Constitution of the Republic of South Africa, 1996 and the implications thereof, poses unique capabilities by the local sphere of government. It is expected that municipalities must take responsibility to engage various sectors and development protagonists, such as the national

and provincial governments, State Owned Enterprises, business forums, to mention but a few. This means that, joint planning is important for the attainment of the shared outcome. Whilst Section 40(1) of the Constitution established three distinctive, yet interdependent and inter-related spheres of government, municipalities remain at the center of development, given the responsibilities enshrined in Sections 151-154, 156 and Schedule 5 (part B) of the Constitution.

The Municipality participates in the national and provincial spheres of governments inter-governmental Forums. Provincially, the Municipality actively participates in the Premier Co-ordinating Forum (PCF) and the Member of Executive Council and Local Government (MECLOGA) to raise issues affecting the Municipality with other municipalities, provincial government Departments, and the Free State Provincial Chapter of the South African Local Government Association (SALGA). The province's Forum of Heads of Departments (FOHOD), Municipal Manager's Forum, Provincial IDP Manager's Forum, and Provincial Performance Manager's Forum all have active involvement. The latter two are administered by the Provincial Department of Cooperative Governance.

Moreover, Nationally, the Municipality participates in the Ministers and Members of Executive Councils (MINMECs), which serve as platforms for reporting on progress toward implementing the Urban Settlement Development Grant (USDG). Additionally, the Municipality participates in the Circular 88 Metro Forum, which is comprised of representatives from the National Treasury, the SA Cities Network, Stats SA, the Department of Planning, Monitoring and Evaluation (DPME), and all metro municipalities. MMM also participates in the SA Cities Network Intergovernmental and International Group. The City has successfully established the internal procedures of intergovernmental structures as per Section 33(1) of the Intergovernmental Relations Framework Act, 2005 (Act 13 of 2005). The terms of reference for the establishment of Mangaung metropolitan municipal technical Intergovernmental Relations (IGR) forum; and rules to govern procedures for the functioning of Mangaung metropolitan technical IGR forum were approved by Council as instrument to strengthen and harness joint planning.

The value of membership in these organizations is emphasized by the possibilities for the Municipality to use in establishing strategic relationships with government agencies.

Relationship with Municipal Entities

The Municipality has created Centlec as a municipal entity to offer electrical services to its citizens, as well as administer and maintain public lighting on its behalf. Centlec's decisions are made by a legally constituted Board of Directors, and the entity accounts to the Municipality via the Executive Mayor and the authorized stakeholder representative through the Business Plan and Sale of Business Agreement.

Component D: Overview of Public Accountability and Participation

One of the main justifications given for participatory governance in the South African setting, especially at the level of local government, is that it broadens and deepens democracy by increasing the number of people involved in making or influencing local government decisions. The Municipality is no exception to this statement in this situation.

The Municipality had to react to the requirement of being "developmental institutions" in nature in order to eliminate poverty and improve the lives of its people. The developmental mandate, as stated in developmental policies and laws, notably the Municipal Systems Act, emphasizes community involvement

as an essential mechanism for growth. Furthermore, this Act acknowledges Ward Councillors and other democratized organizations as essential advisory mechanisms for ensuring public involvement in municipal governance.

The process of creating a legally valid IDP is seen to be supported by the community. This is explicitly stated in section 16(1)(a)(i) of the Municipal Systems Act, which states that “a Municipality must develop a culture of municipal governance...” and further that “a Municipality must encourage, and create conditions for, the local community to participate in the affairs of the Municipality, including in the preparation, implementation, and review of its Integrated Development Plan in terms of legislative requirement.

This Act also states that a Municipality must establish appropriate mechanisms, processes, and procedures to allow the local community to participate in municipal affairs, as well as initiate consultative sessions with locally recognized community organizations and, where appropriate, traditional authorities.

According to Chapter 5 of the Municipal System Act, 2000 (Act 32 of 2000), a municipal Council is expected to annually review its IDP in accordance with an assessment of its performance measures, and the Municipality may also amend its IDP in accordance with a prescribed process if changing circumstances so demand. Annual reports detail the Municipality's performance against the performance measures specified in the SDBIP.

The SDBIP mainly covers the Municipality's yearly delivery objective as outlined in the Integrated Development Plan and the budget. The context of the delivery during the time under evaluation was extremely participative, in keeping with the strongly established ethos of public engagement. Participation in the IDP as well as the budget included engagement in development planning and budget allocation, as well as the execution of programs and initiatives that need community involvement in order to be sustainable and have a long-term effect.

2.4 Public Meetings

The Municipality consulted with the public throughout the financial year on IDP and tariffs including annual reports and by-laws. The Municipality has 51 wards, because of the vast nature of our Municipality we cluster wards to be able to reach a wider audience as possible and consult with our public from November to April during the course of the financial year on the revised tariffs and IDP priorities. The Municipality publishes its public meetings in local newspapers and radio stations and also on municipal website.

The following is a list of documents published and made available to the public yearly:

- The annual and adjustments budgets and all budget-related documents;
- All budget related policies
- The Annual Report
- All Performance Agreements required in terms of Section 56 of the Municipal Systems Act
- All municipal tenders
- All weekly quotations of the Municipality
- All quarterly reports tabled in the Council in terms of Section 52 (d)
- All vacancies of the Municipality
- Information about tourism and places of interest in Mangaung
- Contact information for all Directorates and Sub-Directorates
- The Integrated Development Plan (IDP)

- The Service Delivery and Budget Implementation Plan (SDBIP)
- Spatial Development Framework (SDF).

Ward Committees

Ward committees in the Municipality serves as an interface between the community and the Municipality. Because of its proximity to the residents of a particular Ward, the committee members listen to community concerns and they pick up on day-to-day service provision issues in their Wards and through the Ward Councillors, they advance those issues to the attention of the Council. Ward committees are a single most important institutional arrangement to ensure efficient and result based participatory system.

Table 7: Public Meetings

Nature and purpose of the meeting	Dates of event	No of participating Councillors	No of participating Municipal Councillors	Number of community members attending	Dates and manner of feedback given to community
IDP and budget consultative meetings SDF and the Sectoral Plans are discussed	Nov to April	All ward Councillors of the clusters involved	All ward Councillors of the clusters involved, the deputy mayor and the Speaker	Numbers vary from cluster to cluster	Feedback is provided during the first round of the consultations and after the first quarter in November
Annual report	Feb to March	All Councillors	All Councillors	Numbers vary from cluster to cluster	Feedback is provided during the second round of the consultations in February and March
By laws	As and when they are up for public consumption	Councillors affected	Councillors affected and the relevant MMC	Numbers vary from cluster to cluster	Feedback provided after consultations have been finalised and Council has resolved
Tariffs	Nov to April	All ward Councillors of the clusters involved	Councillors affected and the relevant MMC	Numbers vary from cluster to cluster	Feedback is provided during the second round of the consultations in April and mid-May before final approval

Public engagements in the Municipality provide opportunities for the public to contribute, interrogate and engage municipal priorities. Furthermore, the Municipality organise feedback sessions to report back on what communities have been reflecting and how the Municipality is responding. The IDP of the

Municipality also has a section that addresses issues raised by communities and municipal responses.

2.5 IDP Participation and Alignment

Table 8: IDP and Alignment

IDP Participation and alignment criteria	Yes/no
Does the Municipality have impact, outcome, input, output indicators	Yes
Does the IDP have priorities, objectives, KPI's development strategies?	Yes
Does the IDP have multiyear targets?	Yes
Are the above aligned and can they calculate to a score	Yes
Does the budget align directly to the KPI in the strategic plan?	Yes
Does the IDP KPI align to section 56 managers?	Yes
Do the IDP KPI lead to functional area KPI as per SDBIP	Yes
Were the indicators communicated to the public	Yes
Were the four quarter aligned reports submitted within stipulated time frames?	Yes

Component E: Corporative Governance

Overview of Corporate Governance

The primary objectives underpinning the Municipality's governance, provision of municipal service and institutional transformation, which is also consistent with the spirit and purport of relevant statutes saw the Municipality prioritising systematic actions, programmes and/or interventions appropriately to capacitate and strengthen both the Audit and Risk Managements Committees. This was to enable the committees to execute their oversight role. To date, more than satisfactory progress is already being witnessed in this regard.

There is one approved house of Traditional Leadership in the Municipality's jurisdiction with whom we enjoy not only cordial, but also working relationship. The Municipality will not relent its efforts to continue building and further strengthening this sound working relationship.

As would be appreciated from our preceding reports, the obtaining Governance Model continues to respond fairly well to the Municipality's quest to deliver quality services in a cost-effective manner, yet the need for a significant departure from the current system of a combined Model of Governance to a fundamentally new and different system of separation of powers between Governance (Legislature) and the Executive was previously expressed and to which the Municipality responded well.

2.6. Risk Management

In terms of MFMA Act 56 of 2003, section 62(1)(c)(i) "the Accounting Officer of a Municipality is responsible for managing the financial administration of the Municipality and must for this purpose take all reasonable steps to ensure the Municipality has and maintains effective, efficient and transparent systems of financial and risk management and internal control".

The City Manager appointed a Risk Management Committee to provide an appropriate forum and governance structure to assist the City Manager and management in discharging their risk management responsibilities. It also intended to provide an enabling environment for the City to comply with laws, regulations and recognised governance framework.

Table 9: The Risk Management Committee members:

Member	Status	Attendance			
		Quarter 1 15/08/2022	Quarter 2	Quarter 3	Quarter 4 07/06/2023
Acting Executive Management Team	All Internal Members	Attended	No meeting	No meeting	No meeting
JC Weapond	External member	Vacant	No meeting	No meeting	Induction
FJ Mudau	External member	Vacant	No meeting	No meeting	Induction
T Marumo	External member	Vacant	No meeting	No meeting	Induction
AF Bothma	External member	Vacant	No meeting	No meeting	Induction

- Review of the Risk Management Committee Terms of Reference
- Review of the Risk Management Policy
- Review of the Risk Management Strategy
- Review of the Risk Management Implementation Plan
- Review of the Risk Assessment Report for 2021/2022
- Quarterly review of the implementation of the risk mitigation strategies
- Quarterly review of the risk implementation plan.

Tables 10: Top 5 strategic and operational risks the Municipality grappled with during the financial year:

STRATEGIC	OPERATIONAL
Financial instability	Inadequate resources
Political instability	Non-compliance with laws and regulations
High unemployment	Unrests
Litigation	Loss of revenue
Unplanned infrastructure demand	Aging infrastructure

The risk maturity assessment was undertaken for the financial year and the Municipality achieved a score of level 3 (Control) which means "Institution-wide risk assessments have been completed and the necessary institutional capacity and structures to support risk management are in place. Risk management processes, practices and systems satisfy legislative requirements at this stage, but have limited influence on the control environment".

Though the risk management culture is not yet at a desired level, the Municipality continues to implement its enterprise-wide risk management strategy to ensure effective mitigation of risks and identification of any opportunities there may be.

2.7 Anti-Fraud and Corruption

The Municipality has a Fraud Prevention Plan that outlines the Municipality's approach to curtailing the likelihood of fraud occurring, its prevention as well as the early detection thereof. Anti-Fraud and Corruption Unit conduct investigations and depending on the outcome of the investigations, other cases are further referred to South African Police Services and HAWKS.

The Municipality takes a zero-tolerance stance towards fraud and corruption, and pursues a corruption-free administration. The Municipality encourages those who suspects acts of fraud or corruption to report such allegations through the National Anti-Corruption hotline (0800 701 701) and reporting mechanisms available through the municipal website.

Effective investigation and monitoring the implementation of recommendations emanating from completed investigations within the Municipality is usually hampered by inadequate staffing capacity within the Anti-Fraud and Corruption Unit. The Municipality continues to expedite its staffing capacity to ensure that speedy investigation processes are implemented as part of fraud prevention mechanisms.

2.8 Internal Audit

Audit Committee

The Municipality has a functional Audit Committee that operates in terms of the Council approved Terms of Reference (ToR). For the period under review (2021/22), the Committee met eight (8) times to perform its functions as outlined under MFMA section 166(2) as follows;

- (a) advise the municipal council, the political office-bearers, the accounting officer and the management staff of the Municipality, on matters relating to
 - i) internal financial control and internal audits;
 - ii) risk management;
 - iii) accounting policies;
 - iv) the adequacy, reliability and accuracy of financial reporting and information;
 - v) performance management;
 - vi) effective governance;
 - vii) compliance with this Act, the annual Division of Revenue Act and any other applicable legislation;
 - viii) performance evaluation; and
 - ix) any other issues referred to it by the Municipality;
- (b) review the annual financial statements to provide the council of the Municipality, with an authoritative and credible view of the financial position of the Municipality, its efficiency and effectiveness and its overall level of compliance with this Act, the annual Division of Revenue Act and any other applicable legislation;
- (c) respond to the council on any issues raised by the Auditor-General in the Audit Report.

The Committee further compiled two (2) Audit Committee reports with recommendations for submission to Council.

Internal Audit

The Municipality has a functional Internal Audit Unit. This Unit is working in collaboration with both the Risk and Anti-Fraud Units to strengthen the Municipality's efforts to manage risks and eradicate fraud and corruption. For the period under review (2022/23), the Unit completed all audit assignments planned for the year and the following internal audit reports were issued during the period under review;

Table 11: Internal Audit Reports

Report number	Description of report
Internal Audit report number 01/2022-23	Review of the Draft 2021/22 Mangaung Metropolitan Municipality Annual Report
Internal Audit report number 02/2022-23	Review of the 2021/22 Annual Financial Statements
Internal Audit report number 03/2022-23	Annual stock count for the 2021-22 Financial Year
Internal Audit report number 04/2022-23	Management request- closing of files
Internal Audit report number 05-2022/23	Audit of performance information 2022/2023 SDBIP / IDP and Performance Agreements for Municipal Manager and section 56 employees
Internal Audit report number 06-2022/23	Internal Audit report on the assessment and auditing of the invoice for services

	rendered to the Mangaung Metropolitan Municipality: Molefi Thoabala Inc.
Internal Audit report number 07-2022/23	Request to review the payment of service providers relating to advertising fees

Chapter 3 - Service Delivery Performance

3.1 Introduction

This report amongst other components is the Service Delivery Chapter, which gives detailed account in regard to the provision of service. Although the Municipality is experiencing financial challenges, there has been continuous strides in extending access to water and sanitation services, facilitated access to housing and social housing opportunities, implemented a number of projects to support Small Medium and Micro Enterprises (SMME); ensured that indigent households had access to Free Basic Water, Electricity, Sanitation and Refuse removal services and promoted development through prompt processing of development applications, provided efficient environmental health and emergency services and rehabilitated social amenities. Effective maintenance of assets was carried out that included resurfacing roads, rehabilitation of roads, storm-water canals, catch pits and pedestrian paving and provision of connecting households in informal settlement to electricity and the upgrading of electricity service infrastructure (network and streetlights).

Below sections will be segmented into 5 Key Performance Areas (KPA's) that are also linked to the City Strategic Development Objectives (ISDO):

Table 12: Linkage between KPA's and MMM ISDO

Components	Key Performance Areas (KPA's)	MMM IDP Strategic Development Objectives
A	Basic Service Delivery and Infrastructure Development	Service Delivery Improvement
B	Financial Viability	Financial Health Improvement
C	Local Economic Development	Economic Growth
D	Good Governance and Public participation	Organisational Strength
E	Institutional Development and Organisational Transformation	Spatial Transformation

Additionally, the tables that will follow programmes and projects will be financial expenditures both on Capital and Operational budget.

Component A: Basic Services Delivery

3.2 Roads and Stormwater

The Municipality is progressing on the delivery on some of the identified targets for the year under review. Moreover, a significant stride is being made to surface unsurfaced roads and resurfacing. However, due to financial limitations and an unstable fleet, not 100% of the targets were reached.

3.3 Water and Sanitation Provision

The Municipality is both the Water Services Authority and Water Service Provider and therefore obliged to fulfil its mandate that of providing access to safe and reliable portable water to its consumers. The Mangaung Metropolitan Municipality currently serves a combined 96% (273 980) of all households with water inside the yard and those that receives piped water inside the house/dwelling and only 4% (11 415) of households that are using community stand that is approximately 200m to 500m from the dwellings.

Moreover, as far as sanitation is concerned, an estimated 84% (240 201) of households have access to sanitation facilities above Reconstruction and Development Programme (RDP) standard (VIP toilet and higher). An additional 10% (29 194) households have pit toilets without ventilation and 6% (16 000) households have bucket toilets/no facilities.

Table 13: Service Delivery Objectives on Roads/Stormwater and Water/Sanitation

3.4 Solid Waste and Fleet Management

The Department has increased access to refuse removal to known informal settlements. Due to a severe shortage of human and capital resources the Department was not able to service all the formal areas consistently according to the weekly door to door refuse removal schedule.

Moreover, the unit responsible for municipal fleet is fairly progressing relatively despite challenges regarding aging fleet and budget constraint.

3.6 Human Settlement

The Directorate Human Settlements intended to provide sustainable human settlements with particular focus on implementation of the different programmes such as: Catalytic Projects, upgrading of informal settlements, rental/social housing development, and expanding tenure security to improve the quality life for the Mangaung households. At the beginning of the financial year, the Metro had set targets for the twelve (12) months of implementation. The Directorate did its best to achieve the set targets and there are instances where these targets were achieved and where they were not due to reasons to be outlined in the report.

3.7 Social Services

The Municipality is doing very well in meeting all its set targets in relation to the promotion of literacy in communities through ensuring access to new library materials, marketing of the library services and implementing library outreach programmes to communities. Improve services to ameliorate the plight of vulnerable groups such as street children, people with disability, the elderly and children. Alleviate poverty through community projects and promote arts and cultural programmes. The Municipality has succeeded in supporting the vulnerable groups in our society. The main objective of the park's division is to provide a clean, green and healthy environment to the residents of Mangaung. It is responsible for the horticultural maintenance and development of open spaces, parks, traffic islands, buffer zones, sports fields, street trees, Municipality gardens and fire belts. The main objective of natural resource management is to conserve the natural resources of Municipality, which consist of 28, 000 hectares. Pollution control initiatives within the Municipality are implemented and managed by an integrated approach (waste management, environmental management, environmental health, parks, etc.). With regards to the 2 indicators listed below we can report that water quality and air pollution programmes are in place.

Environmental health practitioners take water samples on a daily basis from the 2 main reservoirs (*Brandkop and Maselspoort*) and on a monthly basis at household points evenly spread amongst all suburbs, our current compliance status is well within the parameters of SANS 241.

We also monitor the quality of air by means of one (1) air quality stations, with the main focus on sulphur dioxide emissions. We can safely report that no incidences in this regard were recorded during this reporting period. The function of provision of environmental health services within the Municipality includes all activities associated with the provision of municipal health services in terms of the National Health Act (No 61 of 2003). Service delivery provision here includes:

Water Quality Monitoring in accordance with Water Services Act and SANS 241 for water quality has been carried out successfully.

To ensure consumer protection in accordance with (Cosmetic and Disinfectants Act no 54 of 1972) a food safety programme has been carried out. This has been achieved by regular inspections (including special events), monitoring, rendering microbiological laboratory services for the analysis of food stuffs as per legislative (sampling,) and compliance (by fulfilling functions of the local trading authority by enforcing the Business Act No 71 of 1991) thus ensuring sustainable health and well-being of citizens.

Surveillance of premises (built environment) has been done in accordance with the National Building Regulations.

The Municipality continued to provide effective health services in relation to inspection of mortuaries to ensure compliance. Furthermore, it has continued to carry out its responsibility in ensuring safe disposal of unidentified bodies in collaboration with Forensic Pathology, in accordance with CHAPTER 10 (Unclaimed bodies or unidentified human remains) of Regulations relating to Rendering of Forensic Pathology Services in the Government Notice No.636 of July 2007

3.8 Municipal Police Services

The **Law-enforcement** sub directorate is to enhance order and enforce compliance with road traffic rules in the road network of the Municipality and to ensure that Mangaung is a safe and secure place to live in, visit and do business. To achieve this, the division aims to prevent and minimize all security risks and threats to municipal property, services and people, crime prevention, enforcement of municipal by- laws and other applicable legislation and the investigation of municipal related crime. Mangaung Metropolitan Municipality is targeting the hotspots as identified by law enforcement agencies, i.e., South African Police Services (SAPS, etc.). This will in future be utilised for traffic violations supplemented by **speed law enforcement cameras**. The implementation of such measures has resulted in a decline of motor accidents and behavioural change of motorists.

These units work on a four-shift system. Units comprises of the following: - Operational unit; Shifts; Reaction group; Dog unit; Investigation unit; Administration unit and Social crime prevention unit.

The Fire and Rescue Services aims to prevent fires. Focus is thus placed on fire prevention and public education / awareness with emergency response being the last line of defence.

The Disaster Management sub-directorate is performing its functions and duties in accordance with the Disaster Management Act 2005 (57/2002). The Municipality established a Disaster Management Centre that is the focal point for all disaster related management activities. It effectively renders a critical service to the community relating to call receiving and dispatching emergency resources to all types of emergency and disaster incidents. The centre is making use of an Intelligence Information Management System (IIMS) to capture all information. Call Centre Operators are deployed 24/7 on a shift system. The top 3 service delivery priorities are:

- a) Enhance emergency preparedness.
- b) Ensure prompt and appropriate response to emergency incidents; and
- c) Ensure prompt and appropriate post incident recovery.

Disaster Management encompasses a continuous, integrated, multi-sectoral and multi-disciplinary process of planning and implementation measures incorporating strategies for pre disaster risk reduction as well as post disaster recovery, aimed at:

- preventing or reducing the risk of disasters.
- mitigating the severity or consequences of disaster.
- emergency preparedness.

- rapid and effective response to disasters; and
- post disaster recovery and rehabilitation.

Checklists and measurements were implemented to ensure compliance with standards set to ensure service delivery. Disaster Management staff are involved in public education programmes to enhance community resilience against disasters and negative effects thereof. The Municipality is in its strides to comply with National Legislation relating to risk reduction and response and has complied and completed the following:

- Disaster Management Plan.
- Disaster Management Framework; and
- Risk and Vulnerability Assessment.

Component B: Financial Viability

3.9 Finance Department

The Office coordinates all the functions such as budgeting, accounting, analysis, financial reporting, cash management, debt management, supply chain management, financial management. Moreover, since the Municipality is under Section 139 of the Constitution, a lot of work is being done more on the implementation of the financial recovery plan.

Component C: Local Economic Development

3.10 Economic and Rural Development.

The Municipality will enable environment for local economic and rural development to stimulate competitive, inclusive and sustainable development. Furthermore, the Municipality's RDP will be linked to certain segments, which are arranged to meeting basic needs, infrastructure development, emerging rural industrial and credit financial sectors driven by micro to macro scale enterprise markets (economic activities) and land reform.

An important developmental principle underlying economic development is the broadening of the local economic base. This includes the introduction of new activities to Mangaung (e.g., introducing new industrial activities), exploiting latent resources identified through beneficiation, and the consequent establishment of SMMEs.

Component D: Good Governance and Public Participation

3.11 Office of the City Manager

Internal Audit

The Municipality has established a functional Internal Audit Unit in terms of Section 165(1) of the Municipal Finance Management Act, 56 of 2003 (MFMA). To this end, the unit has carried out its functions as outlined in its Charter and Section 165(2) of the MFMA.

Risk Management

The Municipal Finance Management Act (MFMA), Act 56 of 2003 stipulates that the Municipality must maintain an effective, efficient, transparent and accountable system of Risk Management.

Organisational Planning and Performance Management

- To ensure that the Municipality's Integrated Development Plan (IDP) and budget agreed with all stakeholders, and in which communities have participated, which addresses the challenges of growth and redistribution of resources.
- To ensure that residents are aware of the policies, services and activities of the Municipality.

Knowledge Management

Knowledge Management is therefore a tool to enable MMM to execute its developmental duties. The Knowledge Management unit serves multiple municipal needs by:

- Creating a collaborative platform where knowledge and innovation programmes and initiatives from various departments across the Municipality can be coordinated and supported and building a model of peer-to-peer learning and sharing grounded in the City of Mangaung's experience and practice but with a broad reach across Sub-Saharan Africa.

Intergovernmental Relations

The City has successfully established the internal procedures of intergovernmental structures as per Section 33(1) of the Intergovernmental Relations Framework Act, 2005 (Act 13 of 2005). The terms of reference for the establishment of Mangaung Metropolitan Municipality technical IGR forum; and rules to govern procedures for the functioning of Mangaung Metropolitan Municipality technical IGR forum were approved by Council as instrument to strengthen and harness joint planning.

The new guidelines for the development of Integrated Development Plan for the Metropolitan Municipalities advocates for decisive leadership by both the political and administrative structures in realizing joint planning, implementation, monitoring and evaluation.

3.12 Corporate Service

Corporate Policy Offices

The role of the unit is to provide the following services:

- To ensure effective management of the Municipality addressing agreed political priorities.
- To ensure that the operation of the Municipality is restructured to deliver effectively.
- To ensure that citizens are given sufficient information, opportunity and encouragement to participate in and influence the affairs of the Municipality.
- To ensure that the Municipality will use information and communication technology effectively to assist in decision making, in working efficiently, and in delivering services more effectively to clients.
- To promote the overall wellness of Municipality's staff and provide support systems to maintain such.

Information Communication Technology

The ICT Sub Directorate serves as the focal point for technological advancement in the institution. The ICT Sub Directorate provides control in areas of planning, operation, and maintenance of technology infrastructure, systems, and applications, provide value-added ICT services and solutions to all of the Mangaung Metropolitan Municipality that enhances service delivery to the Municipality. Furthermore, the ICT Sub Directorate is responsible for the institution's communications and computer systems, which include voice, and computer-based technologies. These services and technologies provide the Municipality with the tools essential to effectively carry out day to day operations to support the overall Municipality mission and goals.

The ICT Sub Directorate operates in a collaborative relationship with user departments by facilitating the identification of the appropriate technology and assisting users and management with the implementation of that technology. Although management should have the final say in application-specific decision, the ICT Sub Directorate should guide the selection process by defining standards. These standards are not hard and fast rules; rather a framework within which range of solutions are feasible, both from the functional perspective as well as ICT Sub Directorate technical support capabilities.

Human Resource Management

The strategic objective of Human Resource Management is to lead, manage and direct human resource functions within the Municipality through the following:

- a) Labour relations;
- b) Occupational health and wellness;
- c) HR benefits;
- d) Work study;
- e) Job evaluation;
- f) Payroll Management;
- g) Safety and loss control;
- h) HR Systems;
- i) Individual performance Management; and
- j) Employment.

Legal Services

The Legal Services Sub-Directorate's main purpose is to provide professional legal advice and assistance service to the Municipality to ensure the proper protection of the Municipality's interests and compliance with its obligations.

Component E: Institutional Development and Organisational Transformation

3.13 Planning Services

The Department aims to establish new and formalise townships and other strategic investment nodes in the Municipality. Fundamental to the planning process is the implementation of the Spatial Planning Land Use Management Act (Act 16 of 2013). Through this process the Municipality has established a development tribunal to fast-track land use applications.

Key priorities should address the following:

- Densification of the Municipality through infill planning and group housing schemes;
- Elimination of informal settlements and facilitating access to proper community services;
- Creation of liveable urban spaces;
- Integration of the Municipality through the creation of economically viable urban transport corridors; and
- Creating economic and social opportunities for all the residents of the Municipality to benefit .

C88 OUTPUT INDICATORS FOR ANNUAL REPORTING												
KPA: BASIC SERVICES DELIVERY												
EE4.12		Installed capacity of approved embedded generators on the municipal distribution network	0,00	4,00								
	EE4.12(1)	1 Sum of all embedded generation installation capacities among municipal customer base			0,80		3,20					
					0,8							
EE2.11		Percentage of total residential electricity provision allocated as Free Basic Electricity (FBE)	3,7%	16,0%								
					3,4%		12,6%	The indicator was perceived and appraised as performance driven although National Treasury regard this KPI as a compliance driven indicator in terms of Circular 88.	The KPI will be revised in 2023/24 financial year during mid-year assessment to conform to the prescribed technical indicator description (TID) issued by National Treasury.			
	EE2.11(1)	1 Sum of the MWh of electricity provided as FBE by the municipality to residential customers			18419350							
	EE2.11(2)	2 Total MWh of electricity provided to residential customers			541547959,5							
ENV1.12		Percentage of AQ monitoring stations providing adequate data over a reporting year	33,0%	100,0%								
					33,3%		66,7%					

Performance indicator	Ref No.	Data element	Baseline (Annual Performance of 2021/22 Verified)	Annual target for 2022/23	Annual Actual	Annual Actual Expenditure	Variation	Reason(s) for variation	Remedial action	Reasons for no data, if not provided	Steps undertaken, or to be undertaken, to provide data in the future	Estimated date when data will be available
ENV3.11	ENV1.12(1)	1 Number of fully operational AQ monitoring stations			1							
	ENV1.12(2)	2 Total number of government owned (all spheres) monitoring stations within municipal area			3							
	Percentage of known informal settlements receiving basic refuse removal services		100,0%	97%				Access to 3 informal settlements is a challenge				
	ENV3.11(1)	1 Number of informal settlements receiving waste handling services			93,6% 44		3,4%					
ENV4.11	ENV3.11(2)	2 The total number of recognised informal settlements			47							
	Percentage of biodiversity priority area within the municipality		9,6%	13%	9,6%		3,4%					
	ENV4.11(1)	1 Total land area in hectares classified as "biodiversity priority areas"			95000							
ENV4.21	ENV4.11(2)	2 Total municipal area in hectares			988763							
	Percentage of biodiversity priority areas protected		3,2%	5,0%	3,2%		-0,2%					
	ENV4.21(1)	1 Area of priority biodiversity area in hectares which is protected			31733							
	ENV4.21(2)	2 Total area identified as a priority			989786							

Performance indicator	Ref No.	Data element	Baseline (Annual Performance of 2021/22 Verified)	Annual target for 2022/23	Annual Actual	Annual Actual Expenditure	Variation	Reason(s) for variation	Remedial action	Reasons for no data, if not provided	Steps undertaken, or to be undertaken, to provide data in the future	Estimated date when data will be available
ENV5.11	Percentage of coastline with protection measures in place	biodiversity area in hectares										
										This indicator is exempted by NT and not required for reporting. Additionally, the city is not a coastal city.		
ENV5.11(1)	1 Km of coastline with protection measures in place											
ENV5.11(2)	2 Total Km of coastline within the municipal area											
HS1.12	Number of serviced sites		0,00	351,00				Delays in the appointment of Contractor in 2 settlements and two settlements under construction was delayed by payment dispute with consultant	Complete two settlements and acceleration plan for serviced sites provision			
HS1.12(1)	1 Number of all sites serviced receiving all three of the basic services.				48,00		303,00					
					48							
HS1.13	Hectares of land acquired for human settlements in Priority Housing Development Areas									This indicator is exempted for reporting by National Treasury		

Performance indicator	Ref No.	Data element	Baseline (Annual Performance of 2021/22 Verified)	Annual target for 2022/23	Annual Actual	Annual Actual Expenditure	Variation	Reason(s) for variation	Remedial action	Reasons for no data, if not provided	Steps undertaken, or to be undertaken, to provide data in the future	Estimated date when data will be available
HS1.22	HS1.13(1)	1 Total land area (in hectares) acquired for human settlement within PHDAs within a municipal area										
	Number of title deeds registered to beneficiaries		416,00	1000	250,00		750,00	Function moved to Corporate Services				
HS1.31	HS1.22(1)	1 Number of title deeds registered to beneficiaries within a municipality in the period under assessment			250							
	Number of informal settlements assessed (enumerated and classified)		6,00	6,00	6							
HS1.32	HS1.31(1)	1 Number of informal settlements enumerated and classified according to the UISP categorisation, or equivalent.			6							
	Number of informal settlements upgraded to Phase 2		0,00	1,00	1							
HS2.21	HS1.32(1)	1 Number of informal settlements that have been upgraded to Phase 2 in terms of the National Housing Code- Upgrading Informal Settlements			1							
	Number of rateable residential properties in the subsidy housing market entering the municipal valuation roll									This indicator is exempted for reporting by		

Performance indicator	Ref No.	Data element	Baseline (Annual Performance of 2021/22 Verified)	Annual target for 2022/23	Annual Actual	Annual Actual Expenditure	Variation	Reason(s) for variation	Remedial action	Reasons for no data, if not provided	Steps undertaken, or to be undertaken, to provide data in the future	Estimated date when data will be available
TR5.11	HS2.21(1)	1 Number of all housing units completed within the municipal area entering the municipal valuation roll								National Treasury		
	Number of scheduled public transport access points added		0,00	28,00	28,00		0,00					
	TR5.11(1)	1 Number of scheduled public transport service access points added			28							
	TR6.11	Percentage of unsurfaced road graded	65,7%	60%	42,4%		17,6%					
WS4.11	TR6.11(1)	1 Kilometres of municipal road graded			944,92							
	TR6.11(2)	2 Kilometres of unsurfaced road network			2226,5							
	Percentage of water treatment capacity unused		98,2%	38%	74,6%							
	WS4.11(1)	1 Total volume water treated over the last year			82100106							
WS4.21	WS4.11(2)	2 Daily water treatment plant available design capacity			110000000					WSA and WSP have separate data.	WSA and WSP must centralise data.	30-Jun-24
	Percentage of industries with trade effluent inspected for compliance		0,0%	20%	#DIV/0!			There have been delays in approval for payments which				

Performance indicator	Ref No.	Data element	Baseline (Annual Performance of 2021/22 Verified)	Annual target for 2022/23	Annual Actual	Annual Actual Expenditure	Variation	Reason(s) for variation	Remedial action	Reasons for no data, if not provided	Steps undertaken, or to be undertaken, to provide data in the future	Estimated date when data will be available
WS4.31	WS4.21(1)	1 Number of industry trade effluent inspections undertaken			0			hampered the contractors cashflow				
		2 Number of registered industries with trade effluent			0							
	Percentage of wastewater treatment capacity unused		0,0%	95%	100,0%		-5,0%					
	WS4.31(1)	1 Total volume of wastewater treated over the last year			0					The are no measuring devises / flow meters on the WWTW Plants	Refurbishment of WWTW is underway	30-Jun-24
		2 Daily wastewater treatment plant available design capacity			137,2							
WS5.21	Infrastructure Leakage Index		0,01	0,00	1,96		-1,96					
	WS5.21(1)	1 Current annual real water losses in the network			41160879							
	WS5.21(2)	2 Unavoidable annual water losses			21048371							
WS5.31	Percentage of total water connections metered		81,0%	82%						Information provided by Human Settlement		

Performance indicator	Ref No.	Data element	Baseline (Annual Performance of 2021/22 Verified)	Annual target for 2022/23	Annual Actual	Annual Actual Expenditure	Variation	Reason(s) for variation	Remedial action	Reasons for no data, if not provided	Steps undertaken, or to be undertaken, to provide data in the future	Estimated date when data will be available
	WS5.31(1)	1 Number of water connections metered			3820					Engineering Services and finance department do not have common data	Engineering Services and finance department have to reconcile data	30-Jun-24
	WS5.31(2)	2 Number of connections unmetered								Engineering Services and finance department do not have common data	Engineering Services and finance department have to reconcile data	30-Jun-24
KPA: GOOD GOVERNANCE AND PUBLIC PARTICIPTION												
GG3.12	Percentage of councillors who have declared their financial interests		85,1%	100,0%	0,0%		100,0%	No declarations in 2022/2023				
	GG3.12(1)	1 Number of councillors that have declared their financial interests			0							
	GG3.12(2)	2 Total number of municipal councillors			101							
KPA: FINANCIAL VIABILITY												
FM2.21	Cash backed reserves reconciliation at year end		100,0%	100,0%	0,0%		100,0%					
	FM2.21(1)	1 Actual Cash and Cash Equivalents			0							
	FM2.21(2)	2 Long Term Investment			0							
	FM2.21(3)	3 Unspent grants			0							

Performance indicator	Ref No.	Data element	Baseline (Annual Performance of 2021/22 Verified)	Annual target for 2022/23	Annual Actual	Annual Actual Expenditure	Variation	Reason(s) for variation	Remedial action	Reasons for no data, if not provided	Steps undertaken, or to be undertaken, to provide data in the future	Estimated date when data will be available
FM3.12	FM2.21(4)	4 Statutory requirement			0							
	FM2.21(5)	5 Working capital requirements			0							
	FM2.21(6)	6 Other provisions			0							
	FM2.21(7)	7 Long term investment committed			0							
	FM2.21(8)	8 Reserves to be cash backed			0							
FM3.12	Current ratio (current assets/current liabilities)		100,00	100,00	0,85		R 99					
	FM3.12(1)	1 Current assets			9501538471							
	FM3.12(2)	2 Current liabilities			11195723274							
FM4.11	Irregular, Fruitless and Wasteful, Unauthorised Expenditure as a percentage of Total Operating Expenditure		0,0%	0,0%	37,2%		-37,2%					
	FM4.11(1)	1 Irregular expenditure			0							
	FM4.11(2)	2 Fruitless and Wasteful expenditure			85888312,77							
	FM4.11(3)	3 Unauthorised expenditure			2945911021							
	FM4.11(4)	4 Total Operating Expenditure			8157201919							
FM5.12	Percentage of total capital expenditure funded from capital conditional grants		100,0%	100,0%	82,5%		17,5%					
	FM5.12(1)	1 Total Capital Transfers (provincial and national capital conditional grants)			1024440014							
	FM5.12(2)	2 Total Capital Expenditure			1241187975							
FM5.21	Percentage of total capital expenditure on renewal/upgrading of existing assets		100,0%	100,0%	1,4%		98,6%					

Performance indicator	Ref No.	Data element	Baseline (Annual Performance of 2021/22 Verified)	Annual target for 2022/23	Annual Actual	Annual Actual Expenditure	Variation	Reason(s) for variation	Remedial action	Reasons for no data, if not provided	Steps undertaken, or to be undertaken, to provide data in the future	Estimated date when data will be available
FM5.22	FM5.21(1)	1 Total costs of Renewal and Upgrading of Existing Assets			17544590,98							
	FM5.21(2)	2 Total Capital Expenditure			1241187975							
	Renewal/Upgrading of Existing Assets as a percentage of Depreciation/Asset impairment		0,0%	0,0%	2,0%		-2,0%					
FM5.31	FM5.22(1)	1 Total costs of Renewal and Upgrading of Existing Assets			17544590,98							
	FM5.22(2)	2 Depreciation			869871437,8							
	FM5.22(3)	3 Asset impairment)			0							
FM7.31	Repairs and Maintenance as a percentage of property, plant, equipment and investment property		0,0%	3,0%	2,8%		0,2%					
	FM5.31(1)	1 Total Repairs and Maintenance Expenditure			556791834,8							
	FM5.31(2)	2 Property, Plant and Equipment			18626290272							
FM7.32	FM5.31(3)	3 Investment Property (Carrying Value)			1585611015							
	Net Surplus /Deficit Margin for Electricity		0,0%	0,0%	24,0%		-24,0%

	Net Surplus /Deficit Margin for Wastewater		0,0%	0,0%	77,8%		-77,8%					
FM7.34	FM7.33(1)	1 Total Sanitation and Waste Water Revenue			693781947							
	FM7.33(2)	2 Total Sanitation and Waste Water Expenditure			154119130							
	Net Surplus /Deficit Margin for Refuse		0,0%	0,0%	70,3%		-70,3%					
	FM7.34(1)	1 Total Refuse Revenue			464834819							
	FM7.34(2)	2 Total Refuse Expenditure			138206856							

C88 OUTCOME INDICATORS FOR ANNUAL REPORTING
KPA: BASIC SERVICES DELIVERY

EE3.1	System Average Interruption Duration Index (SAIDI)		6,50		276,74							
EE3.3	EE3.1(1)	1 Sum of the Customer interruption durations in minutes per defined period			334274046							
	EE3.1(2)	2 Total number of customers served electricity by the municipality			1207892							
	System Average Interruption Frequency Index (SAIFI)		3,90		99,08							
	EE3.3(1)	1 Total number of customer interruptions per period			119683533							

Performance indicator	Ref No.	Data element	Baseline (Annual Performance of 2021/22 Verified)	Annual target for 2022/23	Annual Actual	Annual Actual Expenditure	Variation	Reason(s) for variation	Remedial action	Reasons for no data, if not provided	Steps undertaken, or to be undertaken, to provide data in the future	Estimated date when data will be available
EE3.5	EE3.3(2)	2 Total number of customers served electricity by the municipality			1207892							
	Average System Interruption Duration Index (ASIDI)		6,50		2,79							
	EE3.5(1)	1 Sum of connected kVA duration of load interrupted in kVA-minutes per defined period			3373621,549							
EE3.6	EE3.5(2)	2 Total connected kVA served			1207892							
	Average System Interruption Frequency Index (ASIFI)		0,00		0,00							
	EE3.6(1)	1 Sum of total connected kVA of load interrupted in kVA per defined period			1196							
EE4.4	EE3.6(2)	2 Total connected kVA served			119680633							
	Percentage total electricity losses		10,9%		9,9%							
	EE4.4(1)	1 Electricity Purchases in kWh			1456568849							
ENV2.1	EE4.4(2)	2 Electricity Sales in kWh			1312840258							
	Tonnes of municipal solid waste sent to landfill per capita		57,00									
	ENV2.1(1)	1 Tonnes of municipal solid waste disposed of in sanitary/licensed landfills			475844					N/A	N/A	Ongoing
	ENV2.1(2)	2 Total population of the municipality										

Performance indicator	Ref No.	Data element	Baseline (Annual Performance of 2021/22 Verified)	Annual target for 2022/23	Annual Actual	Annual Actual Expenditure	Variation	Reason(s) for variation	Remedial action	Reasons for no data, if not provided	Steps undertaken, or to be undertaken, to provide data in the future	Estimated date when data will be available
ENV2.2		Tonnes of municipal solid waste diverted from landfill per capita	0,00									
	ENV2.2(1)	1 Tonnes of municipal waste diverted from landfill through municipal facilities			0					No weighbridges to determine the waste that has been diverted from the landfill sites	Planning to install weighbridges in the next financial year 2023/24	30/06/2024
	ENV2.2(2)	2 Total population of the municipality										
ENV3.2		Percentage of scheduled waste collection service users reporting non-collection	0,0%		0,0%							
	ENV3.2(1)	1 Number of scheduled waste service reports on non-collection			1170							
	ENV3.2(2)	2 Total number of scheduled waste service collection points			219000							
ENV5.1		Recreational water quality (coastal)								This indicator is exempted for reporting by National Treasury and the city is not a coastal city		
	ENV5.1(1)	1 Number of coastal water samples classified as "sufficient"										
	ENV5.1(2)	2 Total number of recreational coastal water quality samples taken										

Performance indicator	Ref No.	Data element	Baseline (Annual Performance of 2021/22 Verified)	Annual target for 2022/23	Annual Actual	Annual Actual Expenditure	Variation	Reason(s) for variation	Remedial action	Reasons for no data, if not provided	Steps undertaken, or to be undertaken, to provide data in the future	Estimated date when data will be available
ENV5.2		Recreational water quality (inland)	100,0%		100,0%							
	ENV5.2(1)	1 Number of inland water sample tests within the 'targeted range' for intermediate contact recreational water use			93							
	ENV5.2(2)	2 Total number of sample tests undertaken			93							
HS1.3		Percentage of informal settlements upgraded to Phase 3	0,0%		2,1%							
	HS1.3(1)	1 Number of informal settlements that have been upgraded to Phase 3			1							
	HS1.3(2)	2 Total number of known informal settlements in the municipality			47							
HS2.2		Percentage of residential properties in the subsidy market	5,1%		45,6%							
	HS2.2(1)	1 Number of residential properties valued at R150 000 or less on the latest municipal valuation roll (and supplementary valuation roll)			85579							
	HS2.2(2)	2 Total number of residential properties within the municipal area on the latest			187711							

Performance indicator	Ref No.	Data element	Baseline (Annual Performance of 2021/22 Verified)	Annual target for 2022/23	Annual Actual	Annual Actual Expenditure	Variation	Reason(s) for variation	Remedial action	Reasons for no data, if not provided	Steps undertaken, or to be undertaken, to provide data in the future	Estimated date when data will be available
HS3.5	Percentage utilisation rate of community halls	municipal valuation roll										
			69,1%		25,0%							
		HS3.5(1) 1 Sum of hours booked across all community halls in the period of assessment			48180							
		HS3.5(2) 2 Sum of available hours for all community halls in the period of assessment.			192760							
HS3.6	Average number of library visits per library		1 891,88		6 049,67							
		HS3.6(1) 1 Total number of library visits			54447							
		HS3.6(2) 2 Count of municipal libraries			9							
HS3.7	Percentage of municipal cemetery plots available		100,0%		100,0%							
		HS3.7(1) 1 Number of available municipal burial plots in active municipal cemeteries			221630							
		HS3.7(2) 2 Total capacity of all burial plots in active municipal cemeteries			221630							
TR6.2	Number of potholes reported per 10kms of municipal road network		0,00		6,37							
		TR6.2(1) 1 Number of potholes reported			1019							
		TR6.2(2) 2 Kilometres of surfaced municipal road network			1600							

Performance indicator	Ref No.	Data element	Baseline (Annual Performance of 2021/22 Verified)	Annual target for 2022/23	Annual Actual	Annual Actual Expenditure	Variation	Reason(s) for variation	Remedial action	Reasons for no data, if not provided	Steps undertaken, or to be undertaken, to provide data in the future	Estimated date when data will be available
WS3.1	Frequency of sewer blockages per 100 KMs of pipeline		0,00		24,81							
	WS3.1(1)	1 Number of blockages in sewers that occurred			8316							
	WS3.1(2)	2 Total sewer length in KMs			33513							
WS3.2	Frequency of water mains failures per 100 KMs of pipeline		0,00		103,70							
	WS3.2(1)	1 Number of water mains failures (including failures of valves and fittings)			23963							
	WS3.2(2)	2 Total mains length (water) in KMs			23109					Engineering Services and finance department do not have common data	Engineering Services and finance department have to reconcile data	30-Jun-24
WS3.3	Frequency of unplanned water service interruptions		863,64									
	WS3.3(1)	1 Number of unplanned water service interruptions										
	WS3.3(2)	2 Total number of water service connections										
WS4.1	Percentage of drinking water samples complying to SANS241									This indicator is exempted for reporting by National Treasury		

Performance indicator	Ref No.	Data element	Baseline (Annual Performance of 2021/22 Verified)	Annual target for 2022/23	Annual Actual	Annual Actual Expenditure	Variation	Reason(s) for variation	Remedial action	Reasons for no data, if not provided	Steps undertaken, or to be undertaken, to provide data in the future	Estimated date when data will be available
WS4.2	WS4.1(1)	1 Number of water sample tests that complied with SANS 241 requirements										
	WS4.1(2)	2 Total number of water samples tested										
	Percentage of wastewater samples compliant to water use license conditions		0,0%									
	WS4.2(1)	1 Number of wastewater samples tested per determinant that meet compliance to specified water use license requirements										
	WS4.2(2)	2 Total wastewater samples tested for all determinants over the municipal financial year										
WS5.1	Percentage of non-revenue water		39,5%		50,0%							
WS5.2	WS5.1(1)	1 Number of Kilotres Water Purchased or Purified			82100106							
	WS5.1(2)	2 Number of kilolitres of water sold			41029227							
	Total water losses		512,00									
	WS5.2(1)	1 System input volume			82190106							
	WS5.2(2)	2 Authorised consumption			41678583							

Performance indicator	Ref No.	Data element	Baseline (Annual Performance of 2021/22 Verified)	Annual target for 2022/23	Annual Actual	Annual Actual Expenditure	Variation	Reason(s) for variation	Remedial action	Reasons for no data, if not provided	Steps undertaken, or to be undertaken, to provide data in the future	Estimated date when data will be available
WS5.3	WS5.2(3)	3 Number of service connections								Engineering Services and finance department do not have common data	Engineering Services and finance department have to reconcile data	30-Jun-24
	Total per capita consumption of water		1 359,00									
	WS5.3(1)	1 System input volume			82190106							
	WS5.3(2)	2 Exported raw water			0							
	WS5.3(3)	3 Exported treated water			0							
WS5.4	WS5.3(4)	4 Municipal population										
	Percentage of water reused		0,0%		#DIV/0!							
	WS5.4(1)	1 1.a Direct use of treated municipal wastewater (not including irrigation)			0							
	WS5.4(2)	2 1.b Direct use of treated municipal wastewater for irrigation purposes			0							
	WS5.4(3)	3 System input volume			0							
KPA: GOOD GOVERNANCE AND PUBLIC PARTICIPTION												
GG1.1	Percentage of municipal skills development levy recovered		63,2%		24,0%							
	GG1.1(1)	1 R-value of municipal skills			3131159,85							

Performance indicator	Ref No.	Data element	Baseline (Annual Performance of 2021/22 Verified)	Annual target for 2022/23	Annual Actual	Annual Actual Expenditure	Variation	Reason(s) for variation	Remedial action	Reasons for no data, if not provided	Steps undertaken, or to be undertaken, to provide data in the future	Estimated date when data will be available
GG1.2	GG1.1(2)	development levy recovered										
		2 R-value of the total qualifying value of the municipal skills development levy			13021158,2							
	Top management stability		100,0%									
		GG1.2(1) 1 Total sum of standard working days, in the reporting period, that each S56 and S57 post was occupied by a fully appointed official (not suspended or vacant) with a valid signed contract and performance agreement)										
GG2.1	GG1.2(2)	2 Aggregate working days for all S56 and S57 Posts										
			215,7%									
	Percentage of ward committees that are functional (meet four times a year, are quorate, and have an action plan)				921,6%							
		GG2.1(1) 1 Functional ward committees			470							
GG2.2	GG2.1(2)	2 Total number of wards			51							
			0,0%									
	Attendance rate of municipal council meetings by participating leaders (recognised traditional and/or Khoi-San leaders)				0,0%							
		GG2.2(1) 1 Sum of the total number of recognised			0							

Performance indicator	Ref No.	Data element	Baseline (Annual Performance of 2021/22 Verified)	Annual target for 2022/23	Annual Actual	Annual Actual Expenditure	Variation	Reason(s) for variation	Remedial action	Reasons for no data, if not provided	Steps undertaken, or to be undertaken, to provide data in the future	Estimated date when data will be available
GG2.3	GG2.2(2)	traditional and Khoi-San leaders in attendance at municipal council proceedings										
		2 The total number of traditional and Khoi-San leaders within the municipality			10							
	GG2.2(3)	3 Total number of Council meetings			17							
	Protest incidents reported per 10 000 population		0,00									
	GG2.3(1)	1 Simple count of all unauthorised protest incidents reported			0							
GG4.1	GG2.3(2)	2 Total population of the municipality										
	Percentage of councillors attending council meetings		4,2%		5,6%							
	GG4.1(1)	1 The sum total of councillor attendance of all council meetings			97							
	GG4.1(2)	2 The total number of council meetings			17							
GG5.1	GG4.1(3)	3 The total number of councillors in the municipality			101							
	Number of alleged fraud and corruption cases reported per 100 000 population		0,00									
	GG5.1(1)	1 Number of alleged fraud and corruption cases reported to the municipality			0							
	GG5.1(2)	2 Total population of the municipality

C97		Number of properties in the valuation roll			242 551,00							

Annual Reporting Template: 2022/23 from Q4

Performance indicator	Ref No.	Data element	Baseline (Annual Performance of 2021/22 estimated)	Annual target for 2022/23	Quarterly Planned output as per SDBIP	Quarterly Actual output	Quarterly expenditure	Variation	Reason(s) for variation	Remedial action	Reasons for no data, if not provided	Steps undertaken, or to be undertaken, to provide data in the future	Estimated date when data will be available
C88 OUTPUT INDICATORS FOR ANNUAL REPORTING													
KPA: BASIC SERVICE DELIVERY													
EE1.11		Number of dwellings provided with connections to mains electricity supply by the municipality									This indicator is exempted for reporting by National Treasury		
	EE1.11(1)	1 Number of residential supply points energised and commissioned by the municipality				212							
EE1.13		Percentage of valid customer applications for new electricity connections processed in terms of municipal service standards	100,0%	100,0%	100,0%	54%		46%	None	None			
	EE1.13(1)	1 Number of valid customer applications for a new electricity connection processed within municipal standard timeframes				108							
	EE1.13(2)	2 Total number of valid customer applications for a new electricity connection processed				201							

Performance indicator	Ref No.	Data element	Baseline (Annual Performance of 2021/22 estimated)	Annual target for 2022/23	Quarterly Planned output as per SDBIP	Quarterly Actual output	Quarterly expenditure	Variation	Reason(s) for variation	Remedial action	Reasons for no data, if not provided	Steps undertaken, or to be undertaken, to provide data in the future	Estimated date when data will be available
EE3.11		Percentage of unplanned outages that are restored to supply within industry standard timeframes									This indicator is exempted for reporting by National Treasury		
	EE3.11(1)	1 Number of unplanned outages restored within x hours											
	EE3.11(2)	2 Total number of unplanned outages											
EE3.21		Percentage of planned maintenance performed	100,0%	100,0%	100,0%	94%		6%	Late switch due to unforeseen circumstances	Improve maintenance process			
	EE3.21(1)	1 Actual number of maintenance 'jobs' for planned or preventative maintenance											
	EE3.21(2)	2 Budgeted number of maintenance 'jobs' for planned or preventative maintenance											
ENV5.12		Number of coastal water samples taken for monitoring purposes									This indicator is exempted for reporting by National Treasury		
	ENV5.12(1)	1 Simple count of the number of coastal water samples taken for monitoring purposes				0							
ENV5.21		Number of inland water samples taken for monitoring purposes	0,00	210,00	0,00				New Target		Recreational water samples are seasonal (Pools, dams etc.) are only tested during	samples are to be taken from October to end March every year	Q3. January to March 2023
						32,00		32,00					

Performance indicator	Ref No.	Data element	Baseline (Annual Performance of 2021/22 estimated)	Annual target for 2022/23	Quarterly Planned output as per SDBIP	Quarterly Actual output	Quarterly expenditure	Variation	Reason(s) for variation	Remedial action	Reasons for no data, if not provided	Steps undertaken, or to be undertaken, to provide data in the future	Estimated date when data will be available
HS2.22	ENV5.21(1)	1 Simple count of the number of inland water samples taken for monitoring purposes				32					summer months. October until February each year	(summer period)	
	Average number of days taken to process residential building plan applications of 500 square meters or less										This indicator is exempted for reporting by National Treasury		
	HS2.22(1)	1 Sum of the number of days between the date of submission of a complete building plan application to the municipality and the communication of the adjudication result of the application, for all applications of 500 square meters or less											
	HS2.22(2)	2 Number of residential building plan applications adjudicated				0							
TR4.21	Percentage of municipal bus services 'on time'		0,0%	90 %					The Bus Service is not yet operational		The Bus Service is not yet operational		3rd Quarter
	TR4.21(1)	1 Scheduled municipal bus departures 'on time'				0,0%		90%					
	TR4.21(2)	2 Total scheduled municipal bus departures				0							

Performance indicator	Ref No.	Data element	Baseline (Annual Performance of 2021/22 estimated)	Annual target for 2022/23	Quarterly Planned output as per SDBIP	Quarterly Actual output	Quarterly expenditure	Variation	Reason(s) for variation	Remedial action	Reasons for no data, if not provided	Steps undertaken, or to be undertaken, to provide data in the future	Estimated date when data will be available
TR5.31		Percentage of scheduled municipal bus service stops that are universally accessible									This indicator is exempted for reporting by National Treasury		
	TR5.31(1)	1 Sum of all scheduled municipal bus service stops that are universally accessible											
	TR5.31(2)	2 Total number of scheduled municipal bus service stops											
TR6.12		Percentage of surfaced municipal road lanes which has been resurfaced and resealed	0,5%	25,0%	5,0%	1,9%	R 22 177 506,93	-3,1%		reprioritising of budget.			
	TR6.12(1)	1 Kilometres of municipal road lanes resurfaced and resealed				30							
	TR6.12(2)	2 Kilometres of surfaced municipal road lanes				1600							
TR6.13		KMs of new municipal road network	2,64	6,30km	1,90km		R 6 103 508,96		Other PSP procurement delays and budget constraints	reprioritising of budget.			
	TR6.13(1)	1 Number of kilometres of surfaced road network built				2,44km 2,44							
	TR6.13(2)	2 Number of kilometres of unsurfaced road network built				0							

Performance indicator	Ref No.	Data element	Baseline (Annual Performance of 2021/22 estimated)	Annual target for 2022/23	Quarterly Planned output as per SDBIP	Quarterly Actual output	Quarterly expenditure	Variation	Reason(s) for variation	Remedial action	Reasons for no data, if not provided	Steps undertaken, or to be undertaken, to provide data in the future	Estimated date when data will be available
TR6.21		Percentage of reported pothole complaints resolved within standard municipal response time	0,00%	80,00%	60,00%	29,81%		30,19%					
	TR6.21(1)	1 Number of pothole complaints resolved within the standard time after being reported				141							
	TR6.21(2)	2 Number of potholes reported				473							
WS1.11		Number of new sewer connections meeting minimum standards	0,00	1 884,00	238,00	0,00							
	WS1.11(1)	1 Number of new sewer connections to consumer units				0							
	WS1.11(2)	2 Number of new sewer connections to communal toilet facilities.				0							
WS2.11		Number of new water connections meeting minimum standards	0,00	421	600,00	600,00		20,00	Projects to install communal water connections are not completed				
	WS2.11(1)	1 Number of new water connections to piped (tap) water				620							
	WS2.11(2)	2 Number of new water connections to public/communal facilities.				0							

Performance indicator	Ref No.	Data element	Baseline (Annual Performance of 2021/22 estimated)	Annual target for 2022/23	Quarterly Planned output as per SDBIP	Quarterly Actual output	Quarterly expenditure	Variation	Reason(s) for variation	Remedial action	Reasons for no data, if not provided	Steps undertaken, or to be undertaken, to provide data in the future	Estimated date when data will be available
WS3.11	Percentage of callouts responded to within 24 hours (sanitation/wastewater)										This indicator is exempted for reporting by National Treasury		
	WS3.11(1)	1 Number of callouts responded to within 24 hours (sanitation/wastewater)											
	WS3.11(2)	2 Total number of callouts (sanitation/wastewater)											
WS3.21	Percentage of callouts responded to within 24 hours (water)										This indicator is exempted for reporting by National Treasury		
	WS3.21(1)	1 Number of callouts responded to within 24 hours (water)											
	WS3.21(2)	2 Total water service callouts received									Depend on water network leaks and breakage occurrences	N/A	N/A

Chapter 4 - Organisational Development Performance

Component A: Introduction to Municipal Personnel

The attainment of a capable and developmental state as envisioned in the National Development Plan (NDP) hinges amongst others on the right quality and quantity of human resources. The delivery of quality enhanced services in a sustainable manner to the broader population of Mangaung is also influenced by the creation of an adequately balanced and skilled workforce that promotes the ideals of Batho Pele. The Municipality continually strives for establishing an “appropriately sized” institutions with a balance of skills related to our core functions and administrative support.

4.1 Employee Totals, Staff Turnover and Vacancies 2022/2023

Table 34: Employees

Departments	Year 2022/2023	
	Employees	Vacancies
	No.	No.
Corporate Services	381	276
Economic and Rural Development	22	42
Engineering Services	739	1224
Finance	248	233

Details	Total Appointments as of beginning of Financial Year	Terminations during the Financial Year	Turn-over Rate*
	No.	No.	
Year – 2022/2023	3578	521	14.56%

Component B: Managing Workforce

Note: MSA 2000 S67 Requires Municipalities to develop and adopt appropriate systems and procedures to ensure fair; efficient; effective; and transparent personnel administration in accordance with the Employment Equity Act 1998.

Work force management within the Municipality is compliant with all legislative requirements governing the workplace together with collective agreements concluded by the parties at the SALGBC. There is an extensive consultation process with organized labour on issues of mutual interest at the Local Labour Forum.

This is done through management of the recruitment process, selection and placement of staff; so that the best suitably qualified candidates are employed.

Employee benefits including sick leave are administered in terms of applicable labour legislation, Conditions of Service, Collective Agreements and policies by means of an integrated Electronic Human Resource Management System.

The Directorate Corporate Services is tasked with the responsibility of ensuring that the Human Resources Management, Labour Relations, and Human Resource Development Sub- Directorates develop and implement internal Human Resources Policies, which are compliant to legislation and that ensures that the Municipality achieves its vision and developmental objectives.

The HR Policies Unit obtains its mandate from Section 67 of the MSA and therefore strives to develop and implement cutting-edge internal Human Resources Policies, which are compliant to legislation and ensures that the Municipality achieves its vision and developmental objectives as set out in the Municipality's Integrated Development Plan (IDP).

The policies and procedures supplement the conditions of employment of every employee, the workplace rules issued from time to time by the Municipality, and the code of conduct for staff members of municipalities contained in Schedule 2 of the Municipal Systems Act. As such it attempts to establish a set of rules for the consistent interpretation and application of collective agreements and legislation governing human resources management in the Municipality

HR Policies contributes to improving compliance in terms of workplace legislation and collective agreements and provides an improved state of corporate governance. It gives direction and guidance to employees to do their work and provide workplace structure and support in the way that a Municipality defines roles and responsibilities and explain the consequences of actions and behaviours.

The Human Resource Management Sub-Directorate established an internal HR Policy Forum and has as a result developed a number of policies that have been referred to discussion and consultative forums such as the EMT, Section 80 Committee for Corporate Services and the Local Labour Forum (LLF). The policies are finally referred to Council for approval.

Table 37: HR Policies and Plans (01 JULY 2022 – 30 JUNE 2023)

HR Policies and Plans			
Name of Policy	Completed	Reviewed	Date adopted by Council or comment on failure to adopt

Succession Planning Policy	2017/18	Feb 2020	Council preferred to refer all these policies back to the LLF plenary for further consultative discussions

HR Policies and Plans			
Name of Policy	Completed	Reviewed	Date adopted by Council or comment on failure to adopt
Internship and Work Integrated Learning Policy	2017/18	Feb 2020	Council adopted this policy on the 17th of November 2017
Recognition of Prior Learning (RPL)	2017/18	Feb 2020	Council adopted this policy on the 17th of November 2017
Occupational Health and Safety Policy	2017/18	Feb 2020	Council preferred to refer all these policies back to the LLF plenary for further consultative discussions
Employee Wellness Policy	2017/18	Feb 2020	Council preferred to refer all these policies back to the LLF plenary for further consultative discussions
Personal Protective Equipment Policy (PPE)	2017/18	Feb 2020	Council preferred to refer all these policies back to the LLF plenary for further consultative discussions
Bereavement Policy	2017/18	Feb 2020	Council preferred to refer all these policies back to the LLF plenary for further consultative discussions
Control of Official Firearm Policy	2017/18	Feb 2020	Council preferred to refer all these policies back to the LLF plenary for further consultative discussions
Workplace Skills Plan	2019/20	April 2020	Submitted to LG SETA for approval.
HIV Aids STI and TB Policy	2017/18	Feb 2020	Council preferred to refer all these policies back to the LLF plenary for further consultative discussions
Disability Policy	2017/18	Feb 2020	Council preferred to refer all these policies back to the LLF plenary for further consultative discussions
Overtime Policy	2017/18	Feb 2020	Council preferred to refer all these policies back to the LLF plenary for further consultative discussions
Placement Policy	2017/18	Feb 2020	Council preferred to refer all these policies back to the LLF plenary for further consultative discussions
Employee Study Assistance Policy	2017/18	Feb 2020	Council preferred to refer all these policies back to the LLF plenary for further consultative discussions
Skills Development Policy	2017/18	Feb 2020	Council adopted this policy on the 17th of November 2017
Workplace Discrimination and Harassment Policy	2017/18	Feb 2020	Council preferred to refer all these policies back to the LLF plenary for further consultative discussions

Table 38: Number and Cost of Injuries on Duty 2022/2023

Number and Cost of Injuries on Duty					
Type of injury	Injury Leave Taken	Employees using injury leave	Proportion employees using sick leave	Average Injury Leave per employee	Total Estimated Cost
	Days	No.	%	Days	R
Required basic medical attention only	102	43	-	2.3	R27 154.71
Approved Section 24 Cases	60	5	-	12	R4 700.13
Temporary total disablement	-	-	-	-	-
Permanent Disablement	-	-	-	-	-
Fatal	-	-	-	-	-
Total	162	48	-	14.3	R31 854.84

Injuries: Cognisance should be taken that although the statistics represent all cases reported to the Safety and Loss Control Sub-directorate, there are cases which to date have not been approved by the Compensation Commissioner. Medical expenses incurred will be incorrect as it only reflects expenses paid for approved cases, therefore the estimated costs only refer to the salary cost for the leave taken.

The **total estimated cost** not only includes the injury on duty cases, but also the sundry payments for injury on duty pensioners. Furthermore, cognisance should be taken that an injury on duty case run over a two-year period and whilst the injury on duty date was not in the financial year, cost can still be payable in the next year.

Injuries: The **classification** under type of injury does not clearly make provision to capture serious injury on duty cases, where the injured was of duty 14 days or longer some up to 6 months, but the employee returned to his work after rehabilitation. Therefore, we added another classification namely, **approved Section 24 cases**.

Examination of injury on duty cases

Examination of injury on duty cases are done by a doctor, who treated the patient as determined /required by the Compensation for Occupational Injuries and Diseases Act, If the injured was treated by the Doctor at our clinic, then that doctor will be responsible for all follow-ups.

Table 39: Number of Days and Cost of Sick Leave 2022/2023

Number of days and Cost of Sick Leave (excluding injuries on duty)						
Salary band	Total sick leave	Proportion of sick leave without medical certification	Employees using sick leave	Total employees in post	Average sick leave per Employee Days	Estimated cost

24	Deputy Commissioner	Participation in a prohibited action 06 October 2021	15 October 2021	The suspension was withdrawn on the 06 December 2021 and employees returned to work on the 07 December 2021.	06 December 2021

Component C: Capacitating the Workforce

One of the key challenges around an integrated process of skills development within the Municipality has been a lack of a comprehensive, holistic and integrated framework for human capital development that will guide and integrate key processes such as training needs analysis, career pathing and planning, succession planning, management and leadership development, knowledge exchange and innovation.

The following programmes were implemented during 2022/2023 financial year.

Table 41: Programmes Implemented on Capacity Workforce

Funding Source	Name of Learning Programmes	LGSETA Supporting Interventions	No of 18.1 Beneficiaries	Status quo
Discretionary Grant	NC: Local Economic Development Plan NQF L.6	Learnership	13	Halted by national lockdown regulations (To resume soon)

Table 42: Financial Competency Development

Description	A. Total number of officials employed by Municipality (Regulation 14(4)(a) and (c))	B. Total number of officials employed by municipal entities (Regulation 14(4)(a) and (c))	Consolidated: Total of A and B	Consolidated: Competency assessments completed for A and B (Regulation 14(4)(b) and (d))	Consolidated: Total number of officials whose performance agreements comply with Regulation 16 (Regulation 14(4)(f))	Consolidated: Total number of officials that meet prescribed competency levels (Regulation 14(4)(e))
Accounting officer	1	1	1	1		1
Chief financial officer	0	0	0	0		0
Senior managers	8	8	8	8		8
Any other financial officials	192	192	192	95	95	95
Supply Chain Management Officials	31	31	31	31		20
Heads of supply chain management units	1	1	1	1		1
Supply chain management managers	2	2	2	2		2
TOTAL	235	235	235	138	95	127

Financial competency development programmes could not be implemented for financial year 2022 – 2023. Municipal Finance Management Development Programme was identified as an intervention to address finance competency shortage in the Municipality and so listed in the WSP as one of those interventions in addressing deficit in skills competency.

Two processes un-folded, the first one was application for Discretionary Grants, which was approved by LGSETA and Service Provider appointed, awaits first tranche payment to get the project going.

EMPLOYEE EXPENDITURE

It is extremely important to control workforce expenditure since it is one of the largest single expenditure items on the operational budget of the Municipality. Spending is controlled by means of the approved staff establishment and budget control. Expenditure on overtime is still a huge challenge and not yet limited in accordance with "Collective Agreement".

CHAPTER 5 - FINANCIAL PERFORMANCE

5.1 Statement of Financial Performance

The table 43 below gives an overview of municipal performance against the budget.

Table 43: Reconciliation of Table A1 Budget Summary

Description	20222	Budget Year 2023							
	Audited Outcome	Original Budget	Adjusted Budget	Monthly actual	YearTD actual	YearTD budget	YTD variance	YTD variance	Full Year Forecast

The Budget Summary Table is divided into three components namely:

- A. Statement of Financial Performance
- B. Spending against Capital Budget
- C. Other Financial Matters.

COMPONENT A: STATEMENT OF FINANCIAL PERFORMANCE

A. Total Revenue

The Municipality out of its original budget of 8.6 billion performed at 102% of its adjusted revenue budget of 8.5 billion for the year. The main variance on the final budget can be attributed to the following:

- Investment revenue performed at 147%;
- Service charges performed less by -9%; and
- Other own revenue performed at 23% of the Adjustment Budget.

B. Total Expenditure

The Municipality's actual expenditure stood at R 8.09 billion of the adjusted expenditure budget of R 7.97 billion.

C. Surplus / (Deficit)

The deficit was R553 million.

COMPONENT B: SPENDING AGAINST CAPITAL BUDGET

At end of the financial year 2022/2023 the actual spending on the capital expenditure is R 1 241 million of the final Budget R 1 241 million.

COMPONENT C: CASH FLOWS MANAGEMENT AND INVESTMENTS

At the end of the financial year 2022/2023 the municipal cash and investments balances is at R 3 572 million.

5.2 Grants

A. Operating Grants

Table 44: Operating Grants

GRANT EXPENDITURE					
DESCRIPTION	Adjustment 2022	Budget	June 2023 Actual	Balance	Percentage Spent
NATIONAL SKILLS FUND	21 864 000	0	21 864 000	0.00%

Qualified opinion

1. I have audited the consolidated financial statements of the Mangaung Metropolitan Municipality and its entity (the group) set out on pages 323 to 467, which comprise the consolidated statement of financial position as at 30 June 2023, consolidated statement of financial performance, statement of changes in net assets, cash flow statement and statement of comparison of budget and actual amounts for the year then ended, as well as notes to the consolidated financial statements, including a summary of significant accounting policies.
2. In my opinion, except for the effects and possible effects of the matters described in the basis for qualified opinion section of this auditor's report, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of the group as at 30 June 2023, and their its financial performance and cash flows for the year then ended in accordance with the South African Standards of Generally Recognised Accounting Practice (GRAP) and the requirements of the Municipal Finance Management Act 56 of 2003 (MFMA) and the Division of Revenue Act 5 of 2022 (Dora).

Basis for qualified opinion

Service charges

3. I was unable to obtain sufficient appropriate audit evidence for service charges as the group did not implement adequate systems to account for the billing of services. I was unable to confirm the service charges by alternative means. Consequently, I was unable to determine whether any adjustments were necessary to service charges stated at R4 518 111 687 in note 32 to the consolidated financial statements.
4. In addition, the group did not recognise revenue from service charges in accordance with GRAP 9, *Revenue from exchange transactions* as services were not billed on all consumer accounts. This resulted in service charges being understated by R80 758 043 and consumer receivables from exchange transactions being understated by the same amount. Additionally, there was an impact on the surplus for the year and accumulated surplus.

Employee related costs

5. I was unable to obtain sufficient appropriate audit evidence for expenditure relating to overtime, shift and standby allowances included in employee related costs, as inadequate processes were in place to ensure that a need was established for overtime to be worked or that overtime was actually worked by the municipal officials. I was unable to confirm overtime, shift and standby allowances by alternative means. Consequently, I was unable to determine whether any adjustments were necessary to overtime, shift and standby allowances, stated at R242 847 220 (2021-22: 233 731 926) in note 42 to the consolidated financial statements.

Payables from non-exchange transactions

6. I was unable to obtain sufficient appropriate audit evidence for the corresponding figures of payments received in advance included in the payables from non-exchange transactions, as adequate processes were not implemented to ensure that these payments were allocated to the specific consumer account to which they relate. I was unable to confirm the corresponding figures for payments received in advance by alternative means. Consequently, I was unable to determine whether any adjustments were necessary to the corresponding figure for payments received in advance, stated at R305 099 836 in note 17 to the consolidated financial statements.

Context for opinion

7. I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the responsibilities of the auditor-general for the audit of the consolidated financial statements section of my report.
8. I am independent of the group in accordance with the International Ethics Standards Board for Accountants' *International code of ethics for professional accountants (including International Independence Standards)* (IESBA code) as well as other ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA code.
9. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my qualified opinion.

Material uncertainty relating to going concern

10. I draw attention to the matter below. My opinion is not modified in respect of this matter.
11. Note 61 to the consolidated financial statements indicates that the group experienced negative cash movement of R20 130 010 during the year ended 30 June 2023 and, as of that date, the group's current liabilities exceeded its current assets by R188 676 874 (2021-22: R584 228 616). The group's creditor's payment period was 221 days (2021-22: 222 days) and 33% (2021-22: 42%) of the group's current liabilities will have to be funded by next year's budget. In addition, the group owed Eskom R737 644 103 (2021-22: R428 996 909) and the water board R821 395 331 (2021-22: R690 166 388) as at 30 June 2023, which was long overdue. These events or conditions, along with other matters as set forth in note 61, indicate that a material uncertainty exists that may cast significant doubt on the group's ability to continue as a going concern.

Emphasis of matters

12. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Restatement of corresponding figures

13. As disclosed in note 68 to the consolidated financial statements, the corresponding figures for 30 June 2022 were restated as a result of errors in the consolidated financial statements of the group, and for the year ended, 30 June 2023.

Material impairment

14. As disclosed in notes 5 and 6 to the consolidated financial statements, consumer receivables from exchange transactions and consumer receivables from non-exchange transactions were impaired by R6 414 505 643 (2021-22: R5 309 741 294) and R1 703 007 287 (2021-22: R1 431 811 916) respectively.
15. As disclosed in note 48 to the consolidated financial statements, debtors amounting to R278 188 721 (2021-22: R134 017 337) were written off.

Material losses

16. As disclosed in note 50 to the consolidated financial statements, material water distribution losses of R454 225 316 (2021-22: R406 666 962) and electricity distribution losses of R213 876 959 (2021-22: R241 915 025) were incurred by the group mainly due to burst water pipes, leakages, unmetered sites, line losses, tampering and theft.

Underspending and withholding conditional grants

17. As disclosed in note 20 to the consolidated financial statements the group materially underspent the conditional grants by R369 930 232 (2021-22: R571 039 043) due to the group not properly monitoring the usage of grant funding. As disclosed in note 65 to the consolidated financial statements, the National Treasury withheld R377 235 539 (2021-22: R18 378 999) conditional grants from the group due to the slow implementation of projects.

Unauthorised expenditure

18. As disclosed in note 62 to the consolidated financial statements, unauthorised expenditure of R1 351 333 077 (2021-22: R1 448 495 011) was incurred, due to overspending of the approved budget.

Irregular expenditure

19. As disclosed in note 64 to the consolidated financial statements, irregular expenditure of R198 379 160 (2021-22: R186 535 056) was incurred, due to non-compliance with supply chain management (SCM) requirements.

Fruitless and wasteful expenditure

20. As disclosed in note 63 to the consolidated financial statements, fruitless and wasteful expenditure of R189 948 462 (2021-22: R93 607 043) was incurred, due to interest incurred on late payments to suppliers.

Events after the reporting date

21. We draw attention to note 71 to the consolidated financial statements, which deals with subsequent events and specifically the possible effects of the security breach on the group's network and daily operations that occurred in October 2023. In addition, the Minister approved the group's financial recovery plan in August 2023, which is being implemented to improve the group's financial viability. Our opinion is not modified in respect of these matters.

Material uncertainty relating to claims against the group

22. With reference to note 58 to the consolidated financial statements, the group is the defendant in various claims against the group. The group is opposing these claims. The ultimate outcome of these matters could not be determined and no provision for any liabilities that may result were made in the consolidated financial statements.

Other matter

23. I draw attention to the matter below. My opinion is not modified in respect of this matter.

Unaudited disclosure notes

24. In terms of section 125(2)(e) of the MFMA, the particulars of non-compliance with the MFMA should be disclosed in the consolidated financial statements. This disclosure requirement did not form part of the audit of the consolidated financial statements and, accordingly, I do not express an opinion on it.

Responsibilities of the accounting officer for the consolidated financial statements

25. The accounting officer is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Standards of GRAP and the requirements of the MFMA and Dora, and for such internal control as the accounting officer determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.
26. In preparing the consolidated financial statements, the accounting officer is responsible for assessing the group's ability to continue as a going concern; disclosing, as applicable, matters relating to going concern; and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the group or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the auditor-general for the audit of the consolidated financial statements

27. My objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error; and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.
28. A further description of my responsibilities for the audit of the consolidated financial statements is included in the annexure to this auditor's report.

Report on the audit of the annual performance report

29. In accordance with the Public Audit Act 25 of 2004 (PAA) and the general notice issued in terms thereof, I must audit and report on the usefulness and reliability of the reported performance against predetermined objectives for the selected key performance area (KPA) presented in the annual performance report. The accounting officer is responsible for the preparation of the annual performance report.
30. I selected the following KPA presented in the annual performance report for the year ended 30 June 2023 for auditing. I selected a KPA that measures the group's performance on its primary mandated functions and that is of significant national, community or public interest.

KPA	Page numbers	Objective
Basic service delivery	33 – 107	Service delivery improvement

31. I was engaged to evaluate the reported performance information for the selected KPA against the criteria developed from the performance management and reporting framework, as defined in the general notice. An annual performance report prepared using these criteria provides useful and reliable information and insights to users of the report on the group's planning and delivery on its mandate and planned objectives. My objective was to perform procedures for the purpose of reporting material findings only; and not to express an assurance opinion or conclusion.
32. The material findings on the reported performance information for the selected KPA are as follows:

Basic service delivery

TR6.12 Percentage of surfaced municipal road lanes which has been resurfaced and resealed

33. An achievement of '2%' of municipal road lanes resurfaced and resealed was reported against a target of '25%' of municipal road lanes planned to be resurfaced and resealed. However, some supporting evidence was not provided for auditing; and, where it was, I identified material differences between the actual and reported achievements. Consequently, the achievement might be more or less than reported and was not reliable for determining if the target had been achieved. Furthermore, a measure of reprioritising of budget was reported to improve the performance against the target of 25% of municipal road lanes planned to be resurfaced and resealed. I could not determine if the measure was correct, as adequate supporting evidence was not provided for auditing. Consequently, I could not determine whether the reported measure was reliable.

TR5.11 Number of scheduled public transport access points added

34. A target of 100% scheduled public transport access points was included in the approved service delivery and budget implementation plan and integrated development plan. However, a target of 28 scheduled public transport access points was reported in the annual performance report. Furthermore, an achievement of 28 public transport access points added was reported in the annual performance report. Lastly, I could not determine if the reported achievement was correct, as adequate supporting evidence was not provided for auditing. Consequently, the achievement might be more or less than reported and was not reliable for determining if the target had been achieved.

TR4.21 Percentage of municipal bus services 'on time'

35. A measure taken to improve performance against the target of 90% of municipal bus services 'on time' was not reported in the annual performance report. This would make it difficult for users to determine what actions will be taken to improve service delivery.

Length and width of road and length of stormwater channel: Project Grassland 4 main road & stormwater

36. The indicator was included in the approved service delivery and budget implementation plan and integrated development plan but then not clearly defined during planning processes. It was also not determined how the related target would be measured and what evidence would be needed to support the achievement. Consequently, information might be less useful for measuring performance. Furthermore, a measure of termination process underway due to poor performance was reported to improve the performance against the target of 2,2km (two-way) road and stormwater channel. I could not determine if the measure was correct, as adequate supporting evidence was not provided for auditing. Consequently, I could not determine whether the reported measure was reliable.

HS1.12 Number of serviced sites

37. A target of none was included in the approved service delivery and budget implementation plan and integrated development plan. However, a target of '351' planned serviced sites was reported in the annual performance report. The indicator was included in the approved service delivery and budget implementation plan and integrated development plan but then not clearly defined during planning processes. It was also not determined how the related target would be measured and what evidence would be needed to support the achievement. Consequently, the information might be less useful for measuring performance. No target was set for this indicator. However, no reason was provided for this. The service delivery and budget implementation plan (SDBIP) target was noted as 'none'; the target was therefore not relevant due to the fact that the target does not express a specific level of performance that the municipality is aiming to achieve. In addition, an achievement of 48 serviced sites was reported against the above-mentioned target. However, some supporting evidence was not provided for auditing; and, where it was, I identified material differences between the actual and reported achievements. Consequently, the achievement might be more or less than reported and was not reliable for determining if the target had been achieved. Finally, a measure of complete two settlements and acceleration plan for serviced sites provision was reported to improve the performance against the above-mentioned target. I could not determine if the measure was correct, as adequate supporting evidence was not provided for auditing. Consequently, I could not determine whether the reported measure was reliable.

HS1.31 Number of informal settlements assessed (enumerated and classified)

38. A target of 7 informal settlements was included in the approved service delivery and budget implementation plan and integrated development plan. However, a target of 6 informal settlements was reported in the annual performance report. Furthermore, an achievement of 6 informal settlements assessed was reported against the above-mentioned target. However, the audit evidence showed the actual achievement to be '8'. Consequently, the achievement against the target was higher than reported.

HS1.32 Number of informal settlements upgraded to phase 2

39. A target of three (3) informal settlements was included in the approved service delivery and budget implementation plan and integrated development plan. However, a target of one (1) informal settlement was reported in the annual performance report. Furthermore, an achievement of 1 informal settlement upgraded to phase 2 was reported against a target of 1 informal settlement. However, the audit evidence showed the actual achievement to be 0 informal settlements upgraded. Consequently, the target was not achieved.

Percentage completion of construction of link roads (Ext 261-263 and 257) project: Vista Park 3 (Ext 261, 262, 263 and 257)

40. The indicator was included in the approved service delivery and budget implementation plan and integrated development plan but then not clearly defined during planning processes. It was also not determined how the related target would be measured and what evidence would be needed to support the achievement. Consequently, the information might be less useful for measuring performance. Furthermore, an achievement of 50% completion of construction of link roads (Ext 261-263 and 257) was reported against a target of 50% completion of construction of link roads (Ext 261-263 and 257). I could not determine if the reported achievement was correct, as adequate supporting evidence was not provided for auditing. Consequently, the achievement might be more or less than reported and was not reliable for determining if the target had been achieved.

HS3.6 Average utilisation rate of libraries per library annually

41. An indicator of average utilisation rate of libraries per library annually and target of average number of library visits per library were included in the approved service delivery and budget implementation plan and integrated development plan. However, an indicator of average number of library visits per library was reported in the annual performance report whilst a target was not included in the annual performance report. An achievement of 6 049,67 was reported in the annual performance report. Furthermore, some supporting evidence was not provided for auditing; and, where it was, I identified material differences between the actual and reported achievements. Consequently, the achievement might be more or less than reported and was not reliable for determining if the target had been achieved. Lastly, the measures taken to improve performance against the target were not reported in the annual performance report. This would make it difficult for users to determine what actions will be taken to improve service delivery.

Kilometres of sewer pipes upgraded and or refurbished project: Refurbishment of sewer systems

42. The reported achievement of 54% of the targeted progress did not relate to the planned indicator and target of 5km sewer pipes planned to be upgraded or refurbished or to predetermined measurement processes. The indicator was included in the approved service delivery and budget implementation plan and integrated development plan but then not clearly defined during planning processes. It was also not determined how the related target would be measured and what evidence would be needed to support the achievement. Consequently, the information might be less useful for measuring performance. Furthermore, adequate processes had not been established to consistently measure and reliably report on this indicator. Consequently, I could not audit the reliability of the reported achievements. In addition, a measure of the contractor to expedite the upgrading and refurbishment was reported to improve the performance against the above-mentioned target. I could not determine if the measure was correct, as adequate supporting evidence was not provided for auditing. Consequently, I could not determine whether the reported measure was reliable.

Number of WWTW refurbished project: Refurbishment of WWTW

43. The reported achievement of 100% of targeted progress did not relate to the planned indicator and target of two waste water treatment works (WWTW) refurbished projects or to predetermined measurement processes. The indicator was included in the approved service delivery and budget implementation plan and integrated development plan but then not clearly defined during planning processes. It was also not determined how the related target would be measured and what evidence would be needed to support the achievement. Consequently, the information might be less useful for measuring performance. Furthermore, adequate processes had not been established to consistently measure and reliably report on this indicator. I could not audit the reliability of the reported achievements.

Upgraded treatment capacity in megalitres per day project: Extension Thaba Nchu WWTW (Seloseshu) Mech and Electrical

44. An achievement of the detailed design report completed was reported in the annual performance report. However, the target in the approved service delivery and budget implementation plan and integrated development plan was complete the SCM process. Furthermore, a measure of the appointed consultant under civil works to procure a new contractor for mechanical and electrical works to continue was reported to improve the performance against the target of complete the SCM process. I could not determine if the measure was correct, as adequate supporting evidence was not provided for auditing. Consequently, I could not determine whether the reported measure was reliable.

Upgraded treatment capacity in megalitres per day project: Extension Thaba Nchu WWTW (Seloseshu) Civils

45. An achievement of completed casting of chlorine contact tank (CCT) was reported in the annual performance report. However, the target in the approved service delivery and budget implementation plan and integrated development plan was 12 ml/day treatment capacity. Furthermore, I could not determine whether the achievement reported against the target was correct, as there were no processes to consistently measure and report on the achievement against the planned indicators. Adequate supporting evidence was also not provided for auditing. Consequently, the reported achievement might be more or less than reported and was not reliable for determining if the target had been achieved. Lastly, a measure of appoint a new contractor to complete remaining civil works was reported to improve the performance against the above-mentioned target. I could not determine if the measure was correct, as adequate supporting evidence was not provided for auditing. Consequently, I could not determine whether the reported measure was reliable.

Number of pumps refurbished project: Hamilton Park pump station refurbishment

46. An achievement of electrical work completed was reported in the annual performance report. However, the target in the approved service delivery and budget implementation plan and integrated development plan was 1 pump, 3 motors electrical control to be refurbished. Furthermore, the audit evidence showed the actual achievement to be only 0 pumps refurbished. Consequently, the target was not achieved. Lastly, the measure of pay contractor in time so that he can complete the

work was reported to improve the performance against the target of 1 pump, 3 motors electrical control to be refurbished. I could not determine if the measure was correct, as adequate supporting evidence was not provided for auditing. Consequently, I could not determine whether the reported measure was reliable.

Kilometres of stormwater improved and or rehabilitated project: Stormwater refurbishment

47. Adequate processes had not been established to consistently measure and reliably report on this indicator. Consequently, I could not confirm the reliability of the reported achievement of 0,4km against the target of 3km. Furthermore, I could not determine if the reported achievement was correct, as adequate supporting evidence was not provided for auditing. Consequently, the achievement might be more or less than reported and was not reliable for determining if the target had been achieved.

Procurement of service provider and start with Construction of water network project: Makurung internal water reticulation

48. An achievement of 'tender document completed' was reported in the annual performance report. However, the target in the approved service delivery and budget implementation plan and integrated development plan was 'complete SCM procurement processes and start with construction'. Furthermore, an achievement of tender document completed was reported against a target of complete SCM procurement processes and start with construction. I could not determine if the reported achievement was correct, as the processes established to consistently measure and report achievements were inadequate. Adequate supporting evidence was also not provided for auditing. Consequently, the reported achievement might be more or less than reported and was not reliable for determining if the target had been achieved. Lastly, a measure of fast track SCM processes and start construction as soon as possible was reported to improve the performance against the target of complete SCM procurement processes and start with construction. I could not determine if the measure was correct, as adequate supporting evidence was not provided for auditing. Consequently, I could not determine whether the reported measure was reliable.

WS4.21 Percentage of industries with trade effluent inspected for compliance

49. An achievement of '#DIV' was reported in the annual performance report. However, the target in the approved service delivery and budget implementation plan and integrated development plan was 20% of industries with trade effluent planned to be inspected for compliance. Furthermore, the audit evidence showed the actual achievement to be 6,54% of industries with trade effluent inspected for compliance. Consequently, the achievement against the target was higher than reported. A measure taken to improve performance against the target of 20% of industries with trade effluent planned to be inspected for compliance was not reported in the annual performance report. This would make it difficult for users to determine what actions will be taken to improve service delivery.

WS5.31 Percentage of total water connections metered

50. A percentage achievement was not reported in the annual performance report. The total number of connections metered was reported, but not the total number of connections unmetered in the annual performance report. However, the target in the approved service delivery and budget implementation plan and integrated development plan was 82% of the total water connections planned to be metered. Furthermore, adequate processes had not been established to consistently measure and reliably report on this indicator. Finally, the measures taken to improve performance against the target of 82% of the total water connections planned to be metered were not reported in the annual performance report. This would make it difficult for users to determine what actions will be taken to improve service delivery.

ENV1.12 Percentage of AQ monitoring stations providing adequate data over a reporting year

51. A target of the number of days monitored where prescribed limits of 19ppb (SO₂) and 40ug per cubic metre (PM₁₀) were exceeded was included in the approved service delivery and budget implementation plan and integrated development plan. However, a target of 100% AQ monitoring stations providing adequate data over a reporting year was reported in the annual performance report. Furthermore, the measures taken to improve performance against the target of 100% were not reported in the annual performance report. This would make it difficult for users to determine what actions will be taken to improve service delivery.

EE2.11 Percentage of total residential electricity provision allocated as Free Basic Electricity (FBE)

52. A target of percentage of total residential electricity provision allocated as Free Basic Electricity (FBE) by 30 June 2023 was included in the approved service delivery and budget implementation plan and integrated development plan. However, a target of 16% total residential electricity provision as FBE was reported in the annual performance report. A measure of the KPI will be revised in 2023-24 financial year during the mid-year assessment to conform to the prescribed technical indicator description (TID) issued by National Treasury was reported to improve the performance against the target of 16% total residential electricity provision as FBE. I could not determine if the measure was correct, as adequate supporting evidence was not provided for auditing. Consequently, I could not determine whether the reported measure was reliable.

EE3.21 Percentage of planned maintenance performed

53. A target of planned scheduled interruptions of the supply should be restored as per National Energy Regulator of South Africa (Nersa) licence requirements in terms of the NRS047 (2019)/4.5.5.1 requirements by 30 June 2023 was included in the approved service delivery and budget implementation plan and integrated development plan. However, a target of 100% planned maintenance was reported in the annual performance report. Furthermore, an achievement of 94% maintenance performed was reported in the annual performance report. However, the above-mentioned target in the approved service delivery and budget implementation plan and integrated development plan did not agree. Lastly, a measure to improve maintenance processes was reported to improve the performance

against the target of 100% planned maintenance. I could not determine if the measure was correct, as adequate supporting evidence was not provided for auditing. Consequently, I could not determine whether the reported measure was reliable.

Completed high mast lights installed project: Providing of public lighting

54. A target of 22 high mast lights was included in the approved service delivery and budget implementation plan and integrated development plan. However, a target of 28 erected and commissioned high mast lights within Mangaung by 30 June 2023 was reported in the annual performance report.

Various indicators

55. The indicators listed below were included in the approved service delivery and budget implementation plan and integrated development plan but then not clearly defined during planning processes. It was also not determined how the related targets would be measured and what evidence would be needed to support the achievements. Consequently, the information might be less useful for measuring performance.

Indicator	Target	Reported achievement
Percentage completion installation of water reticulation (261-263) Project – Vista Park 3 (Ext 261, 262, 263 and 257)	100% completion of installation of water reticulation (Ext 261-263)	100% completion of installation of water reticulation (Ext 261-263)
Percentage completion of installation of sewer reticulation (261-263) Project – Vista Park 3 (Ext 261, 262, 263 and 257)	100% completion of installation of sewer reticulation (Ext 261-263)	100% completion of installation of sewer reticulation (Ext 261-263)
Percentage completion of construction of stormwater channel(261-263) Project – Vista Park 3 (Ext 261, 262, 263 and 257)	100% completion of construction of stormwater channel (Ext 261-263)	100% completion of construction of stormwater channel (Ext 261-263)
Percentage completion of construction of internal roads (Ext 261-263) Project – Vista Park 3 (Ext 261, 262, 263 and 257)	100% completion of construction of internal roads (Ext 261-263)	100% completion of construction of internal roads (Ext 261-263)
Completed streetlights installed Project – Providing of public lighting	Lakeview	Project deferred to the FY 2023-24
Completed streetlights Project – Providing of public lighting	Plaatjie Street	Project deferred to the FY 2023-24
	Tshabalala Street	Project deferred to the FY 2023-24

Various indicators

56. I could not determine whether the achievements reported against the targets listed below were correct, as there were no processes to consistently measure and report on achievements against planned indicators. Adequate supporting evidence was also not provided for auditing. Consequently, the reported achievement might be more or less than reported and was not reliable for determining if the target had been achieved. Measures were also reported to improve the performance against the targets listed below. I could not determine if the measures were correct, as adequate supporting evidence was not provided for auditing. Consequently, I could not determine whether the reported measures were reliable.

Indicator	Target	Reported achievement
Percentage of households receiving basic refuse removal services Project: Increased access to refuse removal	95%	71,8%
Upgraded treatment capacity in megalitres per day Project: MASELSPOORT WTW UPGRADING (MASELSPOORT FILTERS)	75 mld/day	None
Kilometres of sewer pipes upgraded and or refurbished Project: BOTSHABELO MAIN OUTFALL SEWER	Complete stage 3 (designs)	Stage 3 completed
	Stage 4 (documentation and procurement)	None
	Start with stage 5 contract	None

Various indicators

57. Achievements of the indicators listed below were reported in the annual performance report. However, the indicators and targets in the approved service delivery and budget implementation plan and integrated development plan were not consistent with the reported achievements. Furthermore, some supporting evidence was not provided for auditing; and, where it was, I identified material differences between the actual and reported achievements. Consequently, the achievements might be more or less than reported and were not reliable for determining if the targets had been achieved.

Performance indicator	Planned target	Reported achievement
Kilometres of gravel roads upgraded to surface roads per lane Project – T1534B: Vereniging Avenue Extension: Roads	1,9 km	Construction stage: 42% of construction progress (7,6% incomplete works) (92,4% construction progress of 1,9 km by Wasserman Teerwerke)
Number of projects under construction; bulk stormwater built Project – T1532: Vista Park Bulk Stormwater	80 % of 1,6km	57% of 1 km construction or physical progress

Various indicators

58. Based on audit evidence, the actual achievement for 2 indicators listed below did not agree to the achievements reported. Consequently, the targets were not achieved, the under achievements on the targets were more than reported and the achievements against the target were lower than reported.

Indicator	Target	Reported achievement	Actual achievement
Kilometres of gravel roads upgraded to surface roads per lane. Project – T1432 MAN 10786 Bergman Square UPG	4,4km	2,5km of the road was completed by 2021-22 FY 0,304km of 1,9km was achieved in 2022-23 FY	0
Number of electrical substation constructed Project – Vista Park 3 (Ext 261, 262, 263 and 257)	5 electrical substations constructed	5 electrical substations constructed	0

Various indicators

59. I could not determine if the reported achievements were correct, as adequate supporting evidence was not provided for auditing. Consequently, the achievements might be more or less than reported and were not reliable for determining if the targets had been achieved.

Indicator	Target	Reported achievement
Number of informal settlements households provided with water and sewer Project: Botshabelo West installation of water	2 350 households provided with water connections	3 820
WS2.11 – Number of new water connections meeting minimum standards	421	600
WS4.11 Percentage of water treatment capacity unused	38%	74,6%
WS4.31 – Percentage of wastewater treatment capacity unused	0%	100%

Various indicators

60. The measures taken to improve performance against the targets listed below were not reported in the annual performance report. This would make it difficult for users to determine what actions will be taken to improve service delivery. Furthermore, I could not determine if the reported achievements were correct, as adequate supporting evidence was not provided for auditing. Consequently, the achievements might be more or less than reported and were not reliable for determining if the targets had been achieved.

Indicator	Target	Reported achievement
TR6.11 – Percentage of unsurfaced roads graded	60%	42%
TR6.21 – Percentage of reported pothole complaints resolved within standard municipal response time	80%	29%
HS1.22 – Number of title deeds registered to beneficiaries	1 000	250
WS1.11 – Number of new sewer connections meeting minimum standards	1 884	0

Indicator	Target	Reported achievement
ENV3.11 – Percentage of known informal settlements receiving basic refuse removal services	97,0%	93,6%
ENV4.11 – Percentage of biodiversity priority area within the municipality	13,0%	9,6%

Various indicators

61. The targets listed below were included in the approved service delivery and budget implementation plan and integrated development plan. However, the targets reported in the annual performance report did not agree. Furthermore, I could not determine if the reported achievements were correct, as adequate supporting evidence was not provided for auditing. Consequently, the achievements might be more or less than reported and were not reliable for determining if the targets had been achieved. Finally, the measures taken to improve performance for the indicators listed below were not reported in the annual performance report. This would make it difficult for users to determine what actions will be taken to improve service delivery.

Indicator	Target as per SDBIP	Target as per APR	Reported achievement
WS5.21 – Infrastructure leakage index	3,2	0	1,96
ENV4.21 – Percentage of biodiversity priority areas protected	20%	5%	3,2%

Various indicators

62. The targets of the indicators listed below were included in the approved service delivery and budget implementation plan (SDBIP) and integrated development plan. However, the targets of these indicators reported in the annual performance report (APR) were not consistent with the planned targets. Furthermore, based on audit evidence, the actual achievements for the below indicators did not agree to the achievements reported. Consequently, the achievements might be more or less than reported. Lastly, the measures taken to improve performance against the target of the below indicators were not reported in the annual performance report. This would make it difficult for users to determine what actions will be taken to improve service delivery.

Indicator	Target as per SDBIP	Target as per APR	Reported achievement	Actual achievement
ENV5.21 – Number of inland water samples tested for monitoring purposes	30 water samples tested for monitoring purposes	210	32	867
EE1.13 – Percentage of valid customer applications for new electricity *connections processed in terms of municipal service standards	Total number of valid customer applications for new electricity connections processed as a percentage in terms of municipal service standards by 30 June 2023	70% of valid customer applications for new electricity connections processed as a percentage in terms of municipal service standards by June 2023	54% of valid customer connections processed One hundred and eight (108) valid customer connections were processed within the municipal standard timeframe by 30 June 2023 Ninety - three customer (93) valid customer connections were not processed within the municipal standard time frame	Unknown

Various indicators

63. Measures were reported to improve the performance against the targets listed below. I could not determine if the measures were correct, as adequate supporting evidence was not provided for auditing. Consequently, I could not determine whether the reported measures were reliable.

Indicator	Target	Reported achievement
Upgraded treatment capacity in megalitres per day Project – NORTH EASTERN WWTW Mechanical and Electrical Works (Sludge Stream)	Complete the SCM process	None
Upgraded treatment capacity in megalitres per day. Project – Sterkwater WWTW Phase 3 Mech and Electrical (Liquid Stream)	Complete the SCM process	None

Indicator	Target	Reported achievement
Kilometres of sewer pipes upgraded and or refurbished	2	0
Project – Refurbishment of sewer systems in Soutpan		
Completion of the refurbishment work	Completed planned refurbishment work	None
Project – Refurbishment of sludge digesters in Bloemspruit WWTW		
Number of households connected to the existing sewer reticulation	20	0
Project – Sewer connections		
Kilometres of water pipelines upgraded and or refurbished	16 km	0
Project – Refurbishment of supply systems		
Number of PRVs commissioned and refurbished	15 PRVs commissioned/refurbished	10 PRVs commissioned/refurbished
Project – Pressure and network zone management (including auditing of valves and PRV commissioning)		
Number of new sanitation service points meeting minimum standard provided.	Appoint PSP	None
	Complete stage 1	None
Project – Water borne sanitation Mangaung ward 17	Complete stage 2 of the appointment	None
Kilometres of sewer pipes upgraded and or refurbished	Appoint PSP	None
Project – Bloemspruit network because of densification in	Complete stage 1 of the appointment	None
Number of pump stations and kilometres of rising main completed	1 pump station	0 pump station
Project – Maselspoort water re-use (pump station and rising main)	5 km of pipeline	0 km of pipeline
Kilometres of gravity line completed	Appointment of PSP	None
Project – Maselspoort water re-use (Gravity to North-East WWTW)	Complete procurement	None
Number of communal taps provided	8 communal taps constructed	0
Project – Matlharantleng water & sewer provision		
Number of informal settlements households provided with water and sewer	119 households provided with water and sewer	0
Project – F/Dom square 37321 (J Zuma) installation of water and sewer reticulation		
Number of informal settlements households provided with water and sewer	73 households provided with water and sewer	0
Project – Marikana installation of water and sewer reticulation		
Number of informal settlements households provided with water and sewer	1000 households provided with water connections	0
Project – Grassland phase 4 installation of water		
Number of toilets constructed for households in informal settlements	900 toilets constructed for households in informal settlements	0
Project – Alternative sanitation		
Number of residential erven connected with water and sewer	21 erven connected with water and sewer	0
Project – Fleurdal infill – services		
Length and width of road and length of stormwater channel	3,325 km road	0
Project – Caleb Motshabi/ Kgotsong main road & stormwater	3,325 km of stormwater	0
Length and width of road and length of stormwater channel	2,2 km road (2 way)	0
Project – Botshabelo West main road & stormwater	2,1 km stormwater channel	0
TR6.13 – Kms of new municipal road network	6,3 km	2,44 km

Other matters

64. I draw attention to the matters below.

Achievement of planned targets

65. The annual performance report includes information on reported achievements against planned targets and provides measures taken to improve performance. This information should be considered in the context of the material findings on the reported performance information.
66. The group plays a key role in delivering services to South Africans. The table that follows provides information on the achievement of planned targets and lists the key service delivery indicators that were not achieved as reported in the annual performance report. The measures taken to improve performance are included in the annual performance report on pages 33 to 107.

Basic service delivery

Targets achieved: 37%
Budget spent: 111%

Key service delivery indicators not achieved	Planned target	Reported achievement
Upgraded treatment capacity in megalitres per day Project – North Eastern WWTW mechanical and electrical works (sludge stream)	Complete the SCM process	None
Upgraded treatment capacity in megalitres per day Project – Sterkwater WWTW phase 3 mechanical and electrical (liquid stream)	Complete the SCM process	None
Number of new sanitation service points meeting minimum standard provided Project – Water borne sanitation Mangaung Ward 17	Appoint PSP and complete stages 1 and 2 of the appointment	None
Kilometres of sewer pipes upgraded and or refurbished Bloemspruit network upgrade because of densification in Mangaung Metropolitan Municipality	Appoint PSP and complete stage 1 of the appointment)	None
Kilometres of sewer pipes upgraded and or refurbished Project – Refurbishment of sewer systems in Soutpan	2	0
Completion of the refurbishment work Project: Refurbishment of sludge digesters in Bloemspruit WWTW	Completed planned refurbishment work	None
Number of households connected to the existing sewer reticulation Project: Sewer connections	20	0
Kilometres of water pipelines upgraded and or refurbished Project: Refurbishment of water supply systems	16 km	0 km
Number of pump stations and kilometres of rising main completed Project – Maselspoort water re-use (pump station and rising main)	1 pump station & 5 km of pipeline	None
Kilometres of gravity line completed project: Maselspoort water re-use (gravity to North Eastern WWTW)	Appointment of PSP and complete procurement	None
Upgraded treatment capacity in megalitres per day Project – Maselspoort Water Treatment Works upgrading (Maselspoort filters)	75 ml/day	None
Pole/ street bins placed in all Mangaung's CBDs Project – Refuse bins for CBDs in metro	400 Street/pole bins placed in all CBDs	0
Kilometres of lined bulk stormwater built Project – T1433: Bainsvlei mooiwater bulk stormwater: upgrade	Preliminary design complete	0
Kilometres of road resurfaced, resealed and rehabilitated per lane Project – T1537: Heavy rehabilitation of Nelson Mandela Street	Construction stage (10% of 4,4 km)	0

Key service delivery indicators not achieved	Planned target	Reported achievement
Completed streetlights installed Project – Providing of public lighting	Plaatje Street, Tshabalala Street	Project deferred to the 2023-24 FY
Indicator: Completed streetlights installed Project – Providing of public lighting	Lakeview	Project deferred to the 2023-24 FY
Number of communal taps provided Project – Matharantleng water & sewer provision	8 communal taps constructed	0
Number of informal settlements households provided with water and sewer Project – F/dom sq 37321 (J Zuma) installation of water and sewer reticulation	119 households provided with water and sewer	0
Number of informal settlements households provided with water and sewer Project – Marikana installation of water and sewer reticulation	73 households provided with water and sewer	0
Number of informal settlements households provided with water and sewer Project – Grassland phase 4 installation of water	1 000 households provided with water connections	0
Number of informal settlements households provided with water and sewer Project – Soutpan installation of water and sewer reticulation	89 households provided with water and sewer	0
Number of informal settlements households provided with water and sewer Project – Ratau & Thaba Nchu installation of water and sewer reticulation	390 households provided with water and sewer	0
Number of toilets constructed for households in informal settlements Project – Alternative sanitation	900 toilets constructed for households in informal settlements	0
Number of residential erven connected with water and sewer Project – Fleurdal infill – services	21 erven connected with water and sewer	0
Number of residential erven connected with water and sewer Project – Dewetsdorp internal water & sewer reticulation	100 erven connected with water and sewer	0
Length and width of road and length of stormwater channel Project – Caleb Motshabi/ Kgotsong main road & stormwater	3,325km road and 3,325km of stormwater	0
Length and width of road and length of stormwater channel Project – Grassland 4 main road & stormwater	2,2km road (2 way) and stormwater channel	0
Length and width of road and length of stormwater channel Project – Botshabelo west main road & stormwater	2,2km road (2 way) and 2,1km stormwater channel	0
WS1.11 – Number of new sewer connections meeting minimum standards	1 884	0
WS4.21 – Percentage of industries with trade effluent inspected for compliance	0%	0
WS5.31 – Percentage of total water connections metered	82%	0%

Material misstatements

67. I identified material misstatements in the annual performance report submitted for auditing. These material misstatements were in the reported performance information for basic service delivery. Management did not correct all of the misstatements and I reported material findings in this regard.

Report on compliance with legislation

68. In accordance with the PAA and the general notice issued in terms thereof, I must audit and report on compliance with applicable legislation relating to financial matters, financial management and other related matters. The accounting officer is responsible for the municipality's compliance with legislation.
69. I performed procedures to test compliance with selected requirements in key legislation in accordance with the findings engagement methodology of the Auditor-General of South Africa (AGSA). This engagement is not an assurance engagement. Accordingly, I do not express an assurance opinion or conclusion.
70. Through an established AGSA process, I selected requirements in key legislation for compliance testing that are relevant to the financial and performance management of the group, clear to allow consistent measurement and evaluation, while also sufficiently detailed and readily available to report in an understandable manner. The selected legislative requirements are included in the annexure to this auditor's report.
71. The material findings on compliance with the selected legislative requirements, presented per compliance theme, are as follows:

Financial statements and annual reports

72. The financial statements submitted for auditing were not prepared in all material respects in accordance with the requirements of section 122(1) of the MFMA. Material misstatements of non-current assets, current assets, liabilities, revenue, expenditure and disclosure items identified by the auditors in the submitted financial statements were subsequently corrected and the supporting records were provided subsequently, but the uncorrected material misstatements and supporting records that could not be provided resulted in the financial statements receiving a qualified audit opinion.
73. The 2021-22 annual report was not tabled in the municipal council within 7 months after the end of the financial year, as required by section 127(2) of the MFMA.
74. The council failed to adopt an oversight report containing the council's comments on the 2021-22 annual report, as required by section 129(1) of the MFMA.

Procurement and contract management

75. The preference point system was not applied for some of the procurement of goods and services as required by section 2(1)(a) of the Preferential Procurement Policy Framework Act 5 of 2000.
76. Sufficient appropriate audit evidence could not be obtained that the performance of contractors or providers was monitored on a monthly basis as required by section 116(2) of the MFMA. A similar limitation was also reported in the prior year.
77. Sufficient appropriate audit evidence could not be obtained that contract performance and monitoring measures were in place to ensure effective contract management as required by section 116(2)(c)(ii) of the MFMA. A similar limitation was also reported in the prior year.

Expenditure management

78. Money owed by the municipality was not always paid within 30 days, as required by section 65(2)(e) of the MFMA.
79. Reasonable steps were not taken to ensure that the municipality implements and maintains an effective system of expenditure control, including procedures for the approval, authorisation and payment of funds, as required by section 65(2)(a) of the MFMA.
80. An adequate management, accounting and information system was not in place which recognised expenditure when it was incurred and accounted for creditors, as required by section 65(2)(b) of the MFMA.
81. Reasonable steps were not taken to prevent irregular expenditure amounting to R198 379 160, included in note 64 to the consolidated financial statements, as required by section 62(1)(d) of the MFMA. The majority of the irregular expenditure was caused by non-compliance with SCM requirements and recurring expenditure from contracts that were reported as irregular in prior financial years.
82. Reasonable steps were not taken to prevent fruitless and wasteful expenditure amounting to R189 948 462, included in note 63 to the consolidated financial statements, as required by section 62(1)(d) of the MFMA. The majority of the fruitless and wasteful expenditure was caused by interest paid due to late payments to suppliers.
83. Reasonable steps were not taken to prevent unauthorised expenditure amounting to R1 351 333 077, as included in note 62 to the consolidated financial statements, as required by section 62(1)(d) of the MFMA. The majority of the unauthorised expenditure was caused by overspending the approved budget.

Utilisation of conditional grants

84. Performance in respect of programmes funded by the informal settlement upgrading partnership grant was not evaluated within two months after the end of the financial year, as required by section 12(5) of the Dora.
85. Performance in respect of programmes funded by the neighbourhood development partnership grant was not evaluated within two months after the end of the financial year, as required by section 12(5) of the Dora.

Consequence management

86. Unauthorised expenditure incurred by the municipality was not investigated to determine if any person is liable for the expenditure, as required by section 32(2)(a) of the MFMA.
87. Irregular expenditure incurred by the municipality was not investigated to determine if any person is liable for the expenditure, as required by section 32(2)(b) of the MFMA.

88. Fruitless and wasteful expenditure incurred by the municipality was not investigated to determine if any person is liable for the expenditure, as required by section 32(2)(b) of the MFMA.
89. Allegations of financial misconduct laid against officials of the municipality were not investigated by the disciplinary board, relevant treasury or an independent investigator or team of investigators appointed by council, as required by municipal regulations on financial misconduct procedures and criminal proceedings 5(4).

Strategic planning and performance management

90. The performance management system and related controls were not regarded as adequate as required by municipal planning and performance management regulation 7(1) due to the significant internal control deficiencies identified resulting in usefulness and reliability findings on indicators and targets.
91. Measurable performance targets were not set for each of the KPIs for the financial year, as required by section 41(1)(b) of the Municipal Systems Act 32 of 2000 (MSA) and municipal planning and performance management regulation 12(1).

Revenue management

92. An effective system of internal control for revenue was not in place, as required by section 64(2)(f) of the MFMA.
93. I was unable to obtain sufficient appropriate audit evidence that revenue due to the municipality was calculated on a monthly basis, as required by section 64(2)(b) of the MFMA.

Asset management

94. An effective system of internal control for assets was not in place, as required by section 63(2)(c) of the MFMA.

Human resource management

95. Appropriate systems and procedures to monitor, measure and evaluate performance of staff were not developed and adopted, as required by section 67(1)(d) of the MSA.
96. The municipal manager and senior managers did not sign performance agreements within the prescribed period, as required by section 57(2)(a) of the MSA.

Environmental management

97. Bloemspruit, Dewetsdorp, North East, Soutpan, Van Stadensrus and Wepener WWTW did not have valid operating licences, as required by section 22(1)(b) of the National Water Act 36 of 1998.
98. The Bainsvlei, BloemIndustria, Bloemspruit, Botshabelo, Dewetsdorp, North-Eastern, Northern Works, Soutpan, Sterkwater, Thaba Nchu, Van Stadensrus, Welvaart, and Wepener WWTW were not safeguarded and maintained to prevent defective, depleted, malfunctioning, misused and vandalised infrastructure, as required by section 63(1)(a) of the MFMA.
99. The Northern and Wepener solid waste management facilities did not have valid operating licences, as required by section 20(b) of the National Environmental Management: Waste Act 59 of 2008.

Other information in the annual report

100. The accounting officer is responsible for the other information included in the annual report. The other information referred to does not include the consolidated financial statements, the auditor's report and the selected KPA presented in the annual performance report that have been specifically reported on in this auditor's report.
101. My opinion on the consolidated financial statements, the report on the audit of the annual performance report and the report on compliance with legislation do not cover the other information included in the annual report and I do not express an audit opinion or any form of assurance conclusion on it.
102. My responsibility is to read this other information and, in doing so, consider whether it is materially inconsistent with the consolidated financial statements and the selected KPA presented in the annual performance report or my knowledge obtained in the audit, or otherwise appears to be materially misstated.
103. I did not receive the other information prior to the date of this auditor's report. When I do receive and read this information, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance and request that the other information be corrected. If the other information is not corrected, I may have to retract this auditor's report and re-issue an amended report as appropriate. However, if it is corrected this will not be necessary.

Internal control deficiencies

104. I considered internal control relevant to my audit of the consolidated financial statements, annual performance report and compliance with applicable legislation; however, my objective was not to express any form of assurance on it.
105. The matters reported below are limited to the significant internal control deficiencies that resulted in the basis for the qualified, the material findings on the annual performance report and the material findings on compliance with legislation included in this report.
106. There has been a slow response from management to address governance concerns within the group, caused by the frequent changes in the role of the accounting officer and the high vacancy rate within key municipal positions.
107. Senior management did not adequately monitor and enforce the implementation of the corrective measures included in the audit action plan to address inadequate internal control measures, slow response to audit matters and apply consequence management for weaknesses identified during previous years' audits.
108. The accounting officer and senior management did not prioritise, develop and apply standard operating procedures to manage performance reporting, including the safeguarding of information and effective monitoring and evaluation of reported performance information against the set indicators resulting in repeat material findings in the annual performance report for several years.
109. The accounting officer and senior management did not establish effective standard operating procedures and/or internal controls that assist them in exercising their oversight responsibility, regarding compliance with laws and regulations, resulting in repeat material non-compliance included in this report.
110. Management's lack of detailed review of the consolidated financial statements and the underlying records resulted in material misstatements, these misstatements were not detected and corrected or prevented by the group's internal processes. The corrected misstatements resulted in material non-compliance included in this report and the supporting records that could not be provided resulted in the qualified opinion included in this report.

Material irregularities

111. In accordance with the PAA and the Material Irregularity Regulations, I have a responsibility to report on material irregularities identified during the audit and on the status of material irregularities as previously reported in the auditor's report.

Material irregularities in progress

112. I identified material irregularities during the audit and notified the accounting officer of these, as required by material irregularity regulation 3(2). By the date of this auditor's report, the response of the accounting officer was not yet due for some material irregularities, while I had not yet completed the process of evaluating the responses for the remainder. These material irregularities will be included in next year's auditor's report.

Status of previously reported material irregularities

Reasonable steps not taken to safeguard zoo animals

113. The accounting officer did not ensure that all reasonable steps had been taken to safeguard the municipality's zoo animals, as required by section 63(2)(c) of the MFMA. Some of these animals could not be located and verified during the 2021-22 year-end asset verification process, resulting in the municipality impairing these assets. The impairment resulted in a material financial loss of R1 761 416 for the municipality, which was disclosed as an impairment loss in note 46 to the 2021-22 financial statements.
114. The accounting officer was notified of this material irregularity on 3 November 2022. The accounting officer did not take appropriate action to resolve the material irregularity. I am in the process of referring the material irregularity to a public body for investigation as provided for in section 5(1A) of the PAA. I further recommend that the accounting officer should take the following actions to address the material irregularity, which should be implemented by 8 July 2024, and report progress within three (3) months:
 - a) Investigate the non-compliance in terms of Chapter 15 of the MFMA, to determine if any official was responsible for the failure to safeguarding the municipal assets which lead the municipality losing custodianship of the animals, including the possible theft of the 79 animals.
 - b) Disciplinary proceeding should commence against any official who has allegedly committed an act of financial misconduct or an offence, as required by section 62(1)(e) of the MFMA and in the manner prescribed by the Municipal Regulations on Financial misconduct procedures and Criminal Proceedings.
 - c) If a senior manager of the municipality has allegedly committed an act of financial misconduct, the accounting officer must report the allegation to the Municipal Council, the Provincial Treasury and the National Treasury as required by Regulation 3(1) of the Municipal Regulations on Financial Misconduct Procedures and Criminal Proceeding.
 - d) Reasonable steps should be taken to safeguard the biological assets in the custody of the municipality from any further losses as required by section 63(1)(a) of the MFMA.

- e) If it appears that the municipality suffered the financial loss through theft, this should be reported to the South African Police Service (SAPS), as required by section 32(6)(b) of the MFMA.

115. I will follow up on the implementation of the recommendations after the due date.

Construction of trunk routes for IPTN roads infrastructure network phase 1C Chief Moroka link route: Payment for extension of time not in terms of the contract

116. The municipality entered into a contract with a contractor for the construction of trunk routes for integrated public transport network (IPTN) roads infrastructure network: Phase 1C Chief Moroka link route. During November 2019 and October 2020, the contractor submitted extension of time claims totalling R2 987 553 for delays experienced on the project. The claims were however not submitted within the stipulated timeframe as outlined in the contract; consequently the contractor was not entitled to additional payment and discharging the municipality of all liability in relation with these claims. An official of the municipality recommended the claims for payment, even though the municipality had no contractual obligation to pay for the extension of time. The official consequently did not ensure the economic use of the financial resources of the municipality, as required by section 78(1)(b) of the MFMA. The payment of these claims resulted in a material financial loss of R2 987 553 for the municipality, which was disclosed as part of the fruitless and wasteful expenditure in note 63 to the 2020-21 financial statements.
117. The accounting officer was notified of this material irregularity on 29 April 2022. The accounting officer did not take appropriate action to resolve the material irregularity. I recommend that the accounting officer take the following actions to address the material irregularity, which should be implemented by 28 January 2024:
- The non-compliance should be investigated to determine if any official might have committed an act of financial misconduct or an offence in terms of Chapter 15 of the MFMA.
 - All entities and/or person(s) liable for the losses should be identified and appropriate action should commence to recover the financial loss. The recovery process should not be unduly delayed.
 - Disciplinary proceedings should commence without undue delay, against all officials who have allegedly committed an act of financial misconduct or an offence, as required by section 62(1)(e) of the MFMA and in the manner prescribed by the Municipal Regulations on Financial Misconduct Procedures and Criminal Proceedings.
 - If a senior manager of the municipality has allegedly committed an act of financial misconduct, the accounting officer must report the allegation to the municipal council, the Provincial Treasury and the National Treasury as required by Regulation 3(1) of the Municipal Regulations on Financial Misconduct Procedures and Criminal Proceedings.
 - If it appears that the municipality suffered the financial loss through criminal acts or possible criminal acts or omission this should be reported to the SAPS, as required by section 32(6)(b) of the MFMA.
118. I will follow up on the implementation of the recommendations after the due date.

Pollution of water resource not prevented – Botshabelo WWTW

119. The Botshabelo WWTW has not operated effectively due to mechanical and operational equipment either malfunctioning or not operational. This has resulted in continued spilling and discharge of raw/untreated sewerage into the adjacent environment, including the groundwater, the Klein Modder River and its extended watercourse. The municipality did not take reasonable measures to prevent pollution or degradation of the environment and water resources from occurring, continuing or recurring, as required by section 28(1) of the National Environmental Management Act 197 of 1998 (NEMA) and section 19(1) of the National Water Act 36 of 1998 (NWA). The discharge of raw/untreated sewage into the environment is likely to cause substantial harm to the communities exposed to, and dependent on, the contaminated water resources.
120. The accounting officer was notified of this material irregularity on 20 October 2022. The accounting officer did not take appropriate action to resolve the material irregularity. I am in the process of referring the material irregularity for investigation to a public body as provided for in section 5(1A) of the PAA.

Pollution of water resource not prevented – Sterkwater WWTW

121. The Sterkwater WWTW has not operated effectively due to mechanical and operational equipment either malfunctioning or not operational. This has resulted in continued spilling and discharge of raw/untreated sewerage into the adjacent environment, including the groundwater, the Renosterspruit and its extended watercourse. The municipality did not take reasonable measures to prevent pollution or degradation of the environment and water resources from occurring, continuing or recurring, as required by section 28(1) of the NEMA and section 19(1) of the NWA. The discharge of raw/untreated sewage into the environment is likely to cause substantial harm to the communities exposed to, and dependent on, the contaminated water resources.
122. The accounting officer was notified of this material irregularity on 20 October 2022. The accounting officer did not take appropriate action to resolve the material irregularity. I am in the process of referring the material irregularity for investigation to a public body as provided for in section 5(1A) of the PAA.

Poor management of the Southern waste landfill site in Mangaung

123. The municipality has been operating the Southern waste landfill site in a manner that is not in compliance with its license conditions and the minimum legislative requirements for waste disposal at a landfill site, which is evidenced by poor access control and inadequate separation of waste disposed at the site, improper or lack of compacting and cover to limit gas emission impacting on air quality, spontaneous combustions and fires posing safety risks and air pollution, lack of stormwater management and leachate detection to prevent continued contamination of the soil and groundwater and no proper air, water and effluent sampling points to monitor air and water pollution.
124. The municipality consequently did not dispose and treat waste in an environmentally sound manner and in a manner that does not endanger health or the environment as required by section 16(1) of the National Environmental Management Waste Act 59 of 2008. The municipality further did not take reasonable measures to prevent pollution or degradation of the environment from occurring, continuing or recurring, as required by section 28(1) of the NEMA and section 19(1) of the NWA. The non-compliance is likely to cause substantial harm to the community members utilising the landfill site, communities adjacent to the landfill site as well as exposed to, and dependent on, the groundwater resources.
125. The accounting officer was notified of this material irregularity on 10 November 2022. The accounting officer did not take appropriate action to resolve the material irregularity. I am in the process of referring the material irregularity for investigation to a public body as provided for in section 5(1A) of the PAA.

Other reports

126. In addition to the investigations relating to material irregularities, I draw attention to the following engagements conducted by various parties. These reports did not form part of my opinion on the consolidated financial statements or my findings on the reported performance information or compliance with legislation.
127. The Special Investigating Unit (SIU) received allegations of corruption within the metro police and IPTN at the municipality for the period starting in 2017 to date. However, the municipality has not submitted all the requested documents to the SIU. The SIU is still analysing the partially submitted information to establish the legitimacy of the allegations. These proceedings were still in progress at the date of this auditor's report.
128. An independent consultant was investigating an allegation of improper procurement of buses and appointment/ rollout of the infrastructure project for the IPTN for the period starting in the 2015-16 financial year to date. The investigation is still in progress. The outcome of the first stage of the investigation was completed and submitted to the National Treasury for assessment and tabling in the council. The second stage of the investigation is still in progress.
129. The Directorate for Priority Crime Investigation (Hawks) was investigating an allegation of overtime payments to VIP bodyguards employed in the offices of the political office-bearers from 2017 to December 2021. These proceedings were still in progress.
130. The Hawks were investigating allegations of irregularities in the municipality's procurement processes regarding a security service tender awarded for the period 1 March 2019 to 28 February 2021. The outcome was unknown as the investigation report was in progress.
131. An independent legal firm was appointed to provide a legal opinion on allegations of the irregular appointment and payment of political staff. It is alleged that the political staff were appointed to occupy positions that were not vacant or provided for in the staff establishment for a period of two months starting in January 2022. The report was issued to the Municipal Public Accounts Committee (MPAC) on 19 April 2022; however, the MPAC has not finalised its own report on this matter. The investigation was concluded on 25 February 2022 and resulted in the salaries being disclosed as irregular expenditure.

Auditor-General

Cape Town

26 January 2024

AUDITOR - GENERAL
SOUTH AFRICA

Auditing to build public confidence

Component B: Auditor General Opinion of Mangaung Metropolitan Municipality Stand Alone Financial Statement 2022/2023

Qualified opinion

1. I have audited the financial statements of the Mangaung Metropolitan Municipality set out on pages 468 to 601, which comprise the statement of financial position as at 30 June 2023, statement of financial performance, statement of changes in net assets, cash flow statement and statement of comparison of budget and actual amounts for the year then ended, as well as notes to the financial statements, including a summary of significant accounting policies.
2. In my opinion, except for the effects and possible effects of the matters described in the basis for qualified opinion section of this auditor's report, the financial statements present fairly, in all material respects, the financial position of the Mangaung Metropolitan Municipality as at 30 June 2023, and its financial performance and cash flows for the year then ended in accordance with the Standards of Generally Recognised Accounting Practice (GRAP) and the requirements of the Municipal Finance Management Act 56 of 2003 (MFMA) and the Division of Revenue Act 5 of 2022 (Dora).

Basis for qualified opinion

Service charges

3. I was unable to obtain sufficient appropriate audit evidence for service charges as the municipality did not implement adequate systems to account for the billing of services. I was unable to confirm the service charges by alternative means. Consequently, I was unable to determine whether any adjustments were necessary to service charges stated at R1 789 797 225 (2021-22: R1 611 315 981) in note 33 to the financial statements.
4. In addition, the municipality did not recognise revenue from service charges in accordance with GRAP 9, *Revenue from exchange transactions* as services were not billed on all consumer accounts. This resulted in service charges being understated by R69 463 905 and consumer receivables from exchange transactions being understated by the same amount. Additionally, there was an impact on the surplus for the year and accumulated surplus.

Employee related costs

5. I was unable to obtain sufficient appropriate audit evidence for expenditure relating to overtime, shift and standby allowances included in employee related costs, as inadequate processes were in place to ensure that a need was established for overtime to be worked or that overtime was actually worked by the municipal officials. I was unable to confirm overtime, shift and standby allowances by alternative means. Consequently, I was unable to determine whether any adjustments were necessary to overtime, shift and standby allowances, stated at R180 669 895 (2021-22: R182 066 600) in note 43 to the financial statements.

Payables from non-exchange transactions

6. I was unable to obtain sufficient appropriate audit evidence for the corresponding figures of payments received in advance included in the payables from non-exchange transactions, as adequate processes were not implemented to ensure that these payments were allocated to the specific consumer account to which they relate. I was unable to confirm the corresponding figures for payments received in advance by alternative means. Consequently, I was unable to determine whether any adjustments were necessary to the corresponding figures for payments received in advance, stated at R305 099 836 in note 20 to the financial statements.

Context for opinion

7. I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the responsibilities of the auditor-general for the audit of the financial statements section of my report.
8. I am independent of the municipality in accordance with the International Ethics Standards Board for Accountants' *International code of ethics for professional accountants (including International Independence Standards)* (IESBA code) as well as other ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA code.
9. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my qualified opinion.

Material uncertainty relating to going concern

10. I draw attention to the matter below. My opinion is not modified in respect of this matter.
11. Note 62 to the financial statements indicates that the municipality experienced negative cash movement of R41 411 708 during the year ended 30 June 2023 and, as of that date, 36% of the municipality's current liabilities will have to be funded by next year's budget. In addition, the municipality's creditor's payment period was 385 days and the municipality owed the water board R821 395 331 (2021-22: R690 166 388) as at 30 June 2023, which was long overdue. These events or

conditions, along with other matters as set forth in note 62, indicate that a material uncertainty exists that may cast significant doubt on the municipality's ability to continue as a going concern.

Emphasis of matters

12. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Restatement of corresponding figures

13. As disclosed in note 68 to the financial statements, the corresponding figures for 30 June 2022 were restated as a result of errors in the financial statements of the municipality, and for the year ended, 30 June 2023.

Material impairment

14. As disclosed in notes 5 and 6 to the financial statements, receivables from non-exchange transactions and receivables from exchange transactions were impaired by R5 782 351 505 (2021-22: R4 620 726 556) and R1 703 007 287 (2021-22: R1 431 811 916) respectively.
15. As disclosed in note 49 to the financial statements, receivables from exchange transactions and receivables from non-exchange transactions were impaired by R1 611 452 797 (2021-22: R1 792 031 182).

Material losses

16. As disclosed in note 51 to the financial statements, material water distribution losses of R454 225 316 (2021-22: R406 666 962) were incurred by the municipality mainly due to burst water pipes, leakages and unmetered sites.

Underspending and withholding conditional grants

17. As disclosed in note 22 to the financial statements the municipality materially underspent the conditional grants by R369 930 232 (2021-22: R571 039 043) due to the municipality not properly monitoring the usage of grant funding. As disclosed in note 66 to the financial statements, the National Treasury withheld R377 235 539 (2021-22: R18 378 999) conditional grants from the municipality due to the slow implementation of projects.

Unauthorised expenditure

18. As disclosed in note 63 to the financial statements, unauthorised expenditure of R1 195 214 671 (2021-22: R1 253 981 315) was incurred, due to overspending of the approved budget.

Irregular expenditure

19. As disclosed in note 65 to the financial statements, irregular expenditure of R198 150 623 (2021-22: R185 427 971) was incurred, due to non-compliance with supply chain management (SCM) requirements.

Fruitless and wasteful expenditure

20. As disclosed in note 64 to the financial statements, fruitless and wasteful expenditure of R140 687 848 (2021-22: R83 931 856) was incurred, due to interest paid due to late payments to suppliers.

Events after the reporting date

21. We draw attention to note 71 to the financial statements, which deals with subsequent events and specifically the possible effects of the security breach on the municipality's network and daily operations that occurred in October 2023. In addition, the Minister approved the municipality's financial recovery plan in August 2023, which is being implemented to improve the municipality's financial viability. Our opinion is not modified in respect of these matters.

Material uncertainty relating to claims against the municipality

22. With reference to note 59 to the financial statements, the municipality is the defendant in various claims against the municipality. The municipality is opposing these claims. The ultimate outcome of these matters could not be determined and no provision for any liabilities that may result were made in the financial statements.

Other matter

23. I draw attention to the matter below. My opinion is not modified in respect of this matter.

Unaudited disclosure notes

24. In terms of section 125(2)(e) of the MFMA, the particulars of non-compliance with the MFMA should be disclosed in the financial statements. This disclosure requirement did not form part of the audit of the financial statements and, accordingly, I do not express an opinion on it.

Responsibilities of the accounting officer for the financial statements

25. The accounting officer is responsible for the preparation and fair presentation of the financial statements in accordance with the Standards of GRAP and the requirements of the MFMA and Dora, and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

26. In preparing the financial statements, the accounting officer is responsible for assessing the municipality's ability to continue as a going concern; disclosing, as applicable, matters relating to going concern; and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the municipality or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the auditor-general for the audit of the financial statements

27. My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error; and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

28. A further description of my responsibilities for the audit of the financial statements is included in the annexure to this auditor's report.

Report on the audit of the annual performance report

29. In accordance with the Public Audit Act 25 of 2004 (PAA) and the general notice issued in terms thereof, I must audit and report on the usefulness and reliability of the reported performance against predetermined objectives for the selected key performance area (KPA) presented in the annual performance report. The accounting officer is responsible for the preparation of the annual performance report.

30. I selected the following KPA presented in the annual performance report for the year ended 30 June 2023 for auditing. I selected a KPA that measures the municipality's performance on its primary mandated functions and that is of significant national, community or public interest.

KPA	Page numbers	Objective
Basic service delivery	33 – 107	Service delivery improvement

31. I was engaged to evaluate the reported performance information for the selected KPA against the criteria developed from the performance management and reporting framework, as defined in the general notice. An annual performance report prepared using these criteria provides useful and reliable information and insights to users of the report on the group's planning and delivery on its mandate and planned objectives. My objective was to perform procedures for the purpose of reporting material findings only; and not to express an assurance opinion or conclusion.

32. The material findings on the reported performance information for the selected KPA are as follows:

Basic service delivery

TR6.12 Percentage of surfaced municipal road lanes which has been resurfaced and resealed

33. An achievement of '2%' of municipal road lanes resurfaced and resealed was reported against a target of '25%' of municipal road lanes planned to be resurfaced and resealed. However, some supporting evidence was not provided for auditing; and, where it was, I identified material differences between the actual and reported achievements. Consequently, the achievement might be more or less than reported and was not reliable for determining if the target had been achieved. Furthermore, a measure of reprioritising of budget was reported to improve the performance against the target of 25% of municipal road lanes planned to be resurfaced and resealed. I could not determine if the measure was correct, as adequate supporting evidence was not provided for auditing. Consequently, I could not determine whether the reported measure was reliable.

TR5.11 Number of scheduled public transport access points added

34. A target of 100% scheduled public transport access points was included in the approved service delivery and budget implementation plan and integrated development plan. However, a target of 28 scheduled public transport access points was reported in the annual performance report. Furthermore, an achievement of 28 public transport access points added was reported in the annual performance report. Lastly, I could not determine if the reported achievement was correct, as adequate supporting evidence was not provided for auditing. Consequently, the achievement might be more or less than reported and was not reliable for determining if the target had been achieved.

TR4.21 Percentage of municipal bus services 'on time'

35. A measure taken to improve performance against the target of 90% of municipal bus services 'on time' was not reported in the annual performance report. This would make it difficult for users to determine what actions will be taken to improve service delivery.

Length and width of road and length of stormwater channel: Project Grassland 4 main road & stormwater

36. The indicator was included in the approved service delivery and budget implementation plan and integrated development plan but then not clearly defined during planning processes. It was also not determined how the related target would be measured and what evidence would be needed to support the achievement. Consequently, information might be less useful for measuring performance. Furthermore, a measure of termination process underway due to poor performance was reported to improve the performance against the target of 2,2km (two-way) road and stormwater channel. I could not determine if the measure was correct, as adequate supporting evidence was not provided for auditing. Consequently, I could not determine whether the reported measure was reliable.

HS1.12 Number of serviced sites

37. A target of none was included in the approved service delivery and budget implementation plan and integrated development plan. However, a target of '351' planned serviced sites was reported in the annual performance report. The indicator was included in the approved service delivery and budget implementation plan and integrated development plan but then not clearly defined during planning processes. It was also not determined how the related target would be measured and what evidence would be needed to support the achievement. Consequently, the information might be less useful for measuring performance. No target was set for this indicator. However, no reason was provided for this. The service delivery and budget implementation plan (SDBIP) target was noted as 'none'; the target was therefore not relevant due to the fact that the target does not express a specific level of performance that the municipality is aiming to achieve. In addition, an achievement of 48 serviced sites was reported against the above-mentioned target. However, some supporting evidence was not provided for auditing; and, where it was, I identified material differences between the actual and reported achievements. Consequently, the achievement might be more or less than reported and was not reliable for determining if the target had been achieved. Finally, a measure of complete two settlements and acceleration plan for serviced sites provision was reported to improve the performance against the above-mentioned target. I could not determine if the measure was correct, as adequate supporting evidence was not provided for auditing. Consequently, I could not determine whether the reported measure was reliable.

HS1.31 Number of informal settlements assessed (enumerated and classified)

38. A target of 7 informal settlements was included in the approved service delivery and budget implementation plan and integrated development plan. However, a target of 6 informal settlements was reported in the annual performance report. Furthermore, an achievement of 6 informal settlements assessed was reported against the above-mentioned target. However, the audit evidence showed the actual achievement to be '8'. Consequently, the achievement against the target was higher than reported.

HS1.32 Number of informal settlements upgraded to phase 2

39. A target of three (3) informal settlements was included in the approved service delivery and budget implementation plan and integrated development plan. However, a target of one (1) informal settlement was reported in the annual performance report. Furthermore, an achievement of 1 informal settlement upgraded to phase 2 was reported against a target of 1 informal settlement. However, the audit evidence showed the actual achievement to be 0 informal settlements upgraded. Consequently, the target was not achieved.

Percentage completion of construction of link roads (Ext 261-263 and 257) project: Vista Park 3 (Ext 261, 262, 263 and 257)

40. The indicator was included in the approved service delivery and budget implementation plan and integrated development plan but then not clearly defined during planning processes. It was also not determined how the related target would be measured and what evidence would be needed to support the achievement. Consequently, the information might be less useful for measuring performance. Furthermore, an achievement of 50% completion of construction of link roads (Ext 261-263 and 257) was reported against a target of 50% completion of construction of link roads (Ext 261-263 and 257). I could not determine if the reported achievement was correct, as adequate supporting evidence was not provided for auditing. Consequently, the achievement might be more or less than reported and was not reliable for determining if the target had been achieved.

HS3.6 Average utilisation rate of libraries per library annually

41. An indicator of average utilisation rate of libraries per library annually and target of average number of library visits per library were included in the approved service delivery and budget implementation plan and integrated development plan. However, an indicator of average number of library visits per library was reported in the annual performance report whilst a target was not included in the annual performance report. An achievement of 6 049,67 was reported in the annual performance report. Furthermore, some supporting evidence was not provided for auditing; and, where it was, I identified material differences between the actual and reported achievements. Consequently, the achievement might be more or less than reported and was not reliable for determining if the target had been achieved. Lastly, the measures taken to improve performance against the target were not reported in the annual performance report. This would make it difficult for users to determine what actions will be taken to improve service delivery.

Kilometres of sewer pipes upgraded and or refurbished project: Refurbishment of sewer systems

42. The reported achievement of 54% of the targeted progress did not relate to the planned indicator and target of 5km sewer pipes planned to be upgraded or refurbished or to predetermined measurement processes. The indicator was included in the approved service delivery and budget implementation plan and integrated development plan but then not clearly defined during planning processes. It was also not determined how the related target would be measured and what evidence would be needed to support the achievement. Consequently, the information might be less useful for measuring performance. Furthermore, adequate processes had not been established to consistently measure and reliably report on this indicator. Consequently, I could not audit the reliability of the reported achievements. In addition, a measure of the contractor to expedite the upgrading and refurbishment was reported to improve the performance against the above-mentioned target. I could not determine if the measure was correct, as adequate supporting evidence was not provided for auditing. Consequently, I could not determine whether the reported measure was reliable.

Number of WWTW refurbished project: Refurbishment of WWTW

43. The reported achievement of 100% of targeted progress did not relate to the planned indicator and target of two waste water treatment works (WWTW) refurbished projects or to predetermined measurement processes. The indicator was included in the approved service delivery and budget implementation plan and integrated development plan but then not clearly defined during planning processes. It was also not determined how the related target would be measured and what evidence would be needed to support the achievement. Consequently, the information might be less useful for measuring performance. Furthermore, adequate processes had not been established to consistently measure and reliably report on this indicator. I could not audit the reliability of the reported achievements.

Upgraded treatment capacity in megalitres per day project: Extension Thaba Nchu WWTW (Seloseshu) Mech and Electrical

44. An achievement of the detailed design report completed was reported in the annual performance report. However, the target in the approved service delivery and budget implementation plan and integrated development plan was complete the SCM process. Furthermore, a measure of the appointed consultant under civil works to procure a new contractor for mechanical and electrical works to continue was reported to improve the performance against the target of complete the SCM process. I could not determine if the measure was correct, as adequate supporting evidence was not provided for auditing. Consequently, I could not determine whether the reported measure was reliable.

Upgraded treatment capacity in megalitres per day project: Extension Thaba Nchu WWTW (Seloseshu) Civils

45. An achievement of completed casting of chlorine contact tank (CCT) was reported in the annual performance report. However, the target in the approved service delivery and budget implementation plan and integrated development plan was 12 mld/day treatment capacity. Furthermore, I could not determine whether the achievement reported against the target was correct, as there were no processes to consistently measure and report on the achievement against the planned indicators. Adequate supporting evidence was also not provided for auditing. Consequently, the reported achievement might be more or less than reported and was not reliable for determining if the target had been achieved. Lastly, a measure of appoint a new contractor to complete remaining civil works was reported to improve the performance against the above-mentioned target. I could not determine if the measure was correct, as adequate supporting evidence was not provided for auditing. Consequently, I could not determine whether the reported measure was reliable.

Number of pumps refurbished project: Hamilton Park pump station refurbishment

46. An achievement of electrical work completed was reported in the annual performance report. However, the target in the approved service delivery and budget implementation plan and integrated development plan was 1 pump, 3 motors electrical control to be refurbished. Furthermore, the audit evidence showed the actual achievement to be only 0 pumps refurbished. Consequently, the target was not achieved. Lastly, the measure of pay contractor in time so that he can complete the work was reported to improve the performance against the target of 1 pump, 3 motors electrical control to be refurbished. I could not determine if the measure was correct, as adequate supporting evidence was not provided for auditing. Consequently, I could not determine whether the reported measure was reliable.

Kilometres of stormwater improved and or rehabilitated project: Stormwater refurbishment

47. Adequate processes had not been established to consistently measure and reliably report on this indicator. Consequently, I could not confirm the reliability of the reported achievement of 0,4km against the target of 3km. Furthermore, I could not determine if the reported achievement was correct, as adequate supporting evidence was not provided for auditing. Consequently, the achievement might be more or less than reported and was not reliable for determining if the target had been achieved.

Procurement of service provider and start with Construction of water network project: Makurung internal water reticulation

48. An achievement of 'tender document completed' was reported in the annual performance report. However, the target in the approved service delivery and budget implementation plan and integrated development plan was 'complete SCM procurement processes and start with construction'. Furthermore, an achievement of tender document completed was reported against a target of complete SCM procurement processes and start with construction. I could not determine if the reported achievement was correct, as the processes established to consistently measure and report achievements were inadequate. Adequate supporting evidence was also not provided for auditing. Consequently, the reported achievement might be more or less than reported and was not reliable for determining if the target had been achieved. Lastly, a measure of fast track SCM processes and start construction as soon as possible was reported to improve the performance against the target of complete SCM procurement processes and start with construction. I could not determine if the measure was correct, as adequate supporting evidence was not provided for auditing. Consequently, I could not determine whether the reported measure was reliable.

WS4.21 Percentage of industries with trade effluent inspected for compliance

49. An achievement of '#DIV' was reported in the annual performance report. However, the target in the approved service delivery and budget implementation plan and integrated development plan was 20% of industries with trade effluent planned to be inspected for compliance. Furthermore, the audit evidence showed the actual achievement to be 6,54% of industries with trade effluent inspected for compliance. Consequently, the achievement against the target was higher than reported. A measure taken to improve performance against the target of 20% of industries with trade effluent planned to be inspected for compliance was not reported in the annual performance report. This would make it difficult for users to determine what actions will be taken to improve service delivery.

WS5.31 Percentage of total water connections metered

50. A percentage achievement was not reported in the annual performance report. The total number of connections metered was reported, but not the total number of connections unmetered in the annual performance report. However, the target in the approved service delivery and budget implementation plan and integrated development plan was 82% of the total water connections planned to be metered. Furthermore, adequate processes had not been established to consistently measure and reliably report on this indicator. Finally, the measures taken to improve performance against the target of 82% of the total water connections planned to be metered were not reported in the annual performance report. This would make it difficult for users to determine what actions will be taken to improve service delivery.

ENV1.12 Percentage of AQ monitoring stations providing adequate data over a reporting year

51. A target of the number of days monitored where prescribed limits of 19ppb (SO₂) and 40ug per cubic metre (PM₁₀) were exceeded was included in the approved service delivery and budget implementation plan and integrated development plan. However, a target of 100% AQ monitoring stations providing adequate data over a reporting year was reported in the annual performance report. Furthermore, the measures taken to improve performance against the target of 100% were not reported in the annual performance report. This would make it difficult for users to determine what actions will be taken to improve service delivery.

EE2.11 Percentage of total residential electricity provision allocated as Free Basic Electricity (FBE)

52. A target of percentage of total residential electricity provision allocated as Free Basic Electricity (FBE) by 30 June 2023 was included in the approved service delivery and budget implementation plan and integrated development plan. However, a target of 16% total residential electricity provision as FBE was reported in the annual performance report. A measure of the KPI will be revised in 2023-24 financial year during the mid-year assessment to conform to the prescribed technical indicator description (TID) issued by National Treasury was reported to improve the performance against the target of 16% total residential electricity provision as FBE. I could not determine if the measure was correct, as adequate supporting evidence was not provided for auditing. Consequently, I could not determine whether the reported measure was reliable.

EE3.21 Percentage of planned maintenance performed

53. A target of planned scheduled interruptions of the supply should be restored as per National Energy Regulator of South Africa (Nersa) licence requirements in terms of the NRS047 (2019)/4.5.5.1 requirements by 30 June 2023 was included in the approved service delivery and budget implementation plan and integrated development plan. However, a target of 100% planned maintenance was reported in the annual performance report. Furthermore, an achievement of 94% maintenance performed was reported in the annual performance report. However, the above-mentioned target in the approved service delivery and budget implementation plan and integrated development plan did not agree. Lastly, a measure to improve maintenance processes was reported to improve the performance against the target of 100% planned maintenance. I could not determine if the measure was correct, as adequate supporting evidence was not provided for auditing. Consequently, I could not determine whether the reported measure was reliable.

Completed high mast lights installed project: Providing of public lighting

54. A target of 22 high mast lights was included in the approved service delivery and budget implementation plan and integrated development plan. However, a target of 28 erected and commissioned high mast lights within Mangaung by 30 June 2023 was reported in the annual performance report.

Various indicators

55. The indicators listed below were included in the approved service delivery and budget implementation plan and integrated development plan but then not clearly defined during planning processes. It was also not determined how the related targets would be measured and what evidence would be needed to support the achievements. Consequently, the information might be less useful for measuring performance.

Indicator	Target	Reported achievement
Percentage completion installation of water reticulation (261-263) Project – Vista Park 3 (Ext 261, 262, 263 and 257)	100% completion of installation of water reticulation (Ext 261-263)	100% completion of installation of water reticulation (Ext 261-263)
Percentage completion of installation of sewer reticulation (261-263) Project – Vista Park 3 (Ext 261, 262, 263 and 257)	100% completion of installation of sewer reticulation (Ext 261-263)	100% completion of installation of sewer reticulation (Ext 261-263)
Percentage completion of construction of stormwater channel(261-263) Project – Vista Park 3 (Ext 261, 262, 263 and 257)	100% completion of construction of stormwater channel (Ext 261-263)	100% completion of construction of stormwater channel (Ext 261-263)
Percentage completion of construction of internal roads (Ext 261-263) Project – Vista Park 3 (Ext 261, 262, 263 and 257)	100% completion of construction of internal roads (Ext 261-263)	100% completion of construction of internal roads (Ext 261-263)
Completed streetlights installed Project – Providing of public lighting	Lakeview	Project deferred to the FY 2023-24
Completed streetlights Project – Providing of public lighting	Plaatjie Street	Project deferred to the FY 2023-24
	Tshabalala Street	Project deferred to the FY 2023-24

Various indicators

56. I could not determine whether the achievements reported against the targets listed below were correct, as there were no processes to consistently measure and report on achievements against planned indicators. Adequate supporting evidence was also not provided for auditing. Consequently, the reported achievement might be more or less than reported and was not reliable for determining if the target had been achieved. Measures were also reported to improve the performance against the targets listed below. I could not determine if the measures were correct, as adequate supporting evidence was not provided for auditing. Consequently, I could not determine whether the reported measures were reliable.

Indicator	Target	Reported achievement
Percentage of households receiving basic refuse removal services Project: Increased access to refuse removal	95%	71,8%
Upgraded treatment capacity in megalitres per day Project: MASELSPOORT WTW UPGRADING (MASELSPOORT FILTERS)	75 mld/day	None
Kilometres of sewer pipes upgraded and or refurbished Project: BOTSHABELO MAIN OUTFALL SEWER	Complete stage 3 (designs)	Stage 3 completed

Indicator	Target	Reported achievement
	Stage 4 (documentation and procurement)	None
	Start with stage 5 contract	None

Various indicators

57. Achievements of the indicators listed below were reported in the annual performance report. However, the indicators and targets in the approved service delivery and budget implementation plan and integrated development plan were not consistent with the reported achievements. Furthermore, some supporting evidence was not provided for auditing; and, where it was, I identified material differences between the actual and reported achievements. Consequently, the achievements might be more or less than reported and were not reliable for determining if the targets had been achieved.

Performance indicator	Planned target	Reported achievement
Kilometres of gravel roads upgraded to surface roads per lane Project – T1534B: Vereniging Avenue Extension: Roads	1,9 km	Construction stage: 42% of construction progress (7,6% incomplete works) (92,4% construction progress of 1,9 km by Wasserman Teerwerke)
Number of projects under construction; bulk stormwater built Project – T1532: Vista Park Bulk Stormwater	80 % of 1,6km	57% of 1 km construction or physical progress

Various indicators

58. Based on audit evidence, the actual achievement for 2 indicators listed below did not agree to the achievements reported. Consequently, the targets were not achieved, the under achievements on the targets were more than reported and the achievements against the target were lower than reported.

Indicator	Target	Reported achievement	Actual achievement
Kilometres of gravel roads upgraded to surface roads per lane. Project – T1432 MAN 10786 Bergman Square UPG	4,4km	2,5km of the road was completed by 2021-22 FY 0,304km of 1,9km was achieved in 2022-23 FY	0
Number of electrical substation constructed Project – Vista Park 3 (Ext 261, 262, 263 and 257)	5 electrical substations constructed	5 electrical substations constructed	0

Various indicators

59. I could not determine if the reported achievements were correct, as adequate supporting evidence was not provided for auditing. Consequently, the achievements might be more or less than reported and were not reliable for determining if the targets had been achieved.

Indicator	Target	Reported achievement
Number of informal settlements households provided with water and sewer Project: Botshabelo West installation of water	2 350 households provided with water connections	3 820
WS2.11 – Number of new water connections meeting minimum standards	421	600
WS4.11 Percentage of water treatment capacity unused	38%	74,6%
WS4.31 – Percentage of wastewater treatment capacity unused	0%	100%

Various indicators

60. The measures taken to improve performance against the targets listed below were not reported in the annual performance report. This would make it difficult for users to determine what actions will be taken to improve service delivery. Furthermore, I could not determine if the reported achievements were correct, as adequate supporting evidence was not provided for auditing. Consequently, the achievements might be more or less than reported and were not reliable for determining if the targets had been achieved.

Indicator	Target	Reported achievement
TR6.11 – Percentage of unsurfaced roads graded	60%	42%
TR6.21 – Percentage of reported pothole complaints resolved within standard municipal response time	80%	29%
HS1.22 – Number of title deeds registered to beneficiaries	1 000	250
WS1.11 – Number of new sewer connections meeting minimum standards	1 884	0
ENV3.11 – Percentage of known informal settlements receiving basic refuse removal services	97,0%	93,6%
ENV4.11 – Percentage of biodiversity priority area within the municipality	13,0%	9,6%

Various indicators

61. The targets listed below were included in the approved service delivery and budget implementation plan and integrated development plan. However, the targets reported in the annual performance report did not agree. Furthermore, I could not determine if the reported achievements were correct, as adequate supporting evidence was not provided for auditing. Consequently, the achievements might be more or less than reported and were not reliable for determining if the targets had been achieved. Finally; the measures taken to improve performance for the indicators listed below were not reported in the annual performance report. This would make it difficult for users to determine what actions will be taken to improve service delivery.

Indicator	Target as per SDBIP	Target as per APR	Reported achievement
WS5.21 – Infrastructure leakage index	3,2	0	1,96
ENV4.21 – Percentage of biodiversity priority areas protected	20%	5%	3,2%

Various indicators

62. The targets of the indicators listed below were included in the approved service delivery and budget implementation plan SDBIP and integrated development plan. However, the targets of these indicators reported in the annual performance report (APR) were not consistent with the planned targets. Furthermore, based on audit evidence, the actual achievements for the below indicators did not agree to the achievements reported. Consequently, the achievements might be more or less than reported. Lastly, the measures taken to improve performance against the target of the below indicators were not reported in the annual performance report. This would make it difficult for users to determine what actions will be taken to improve service delivery.

Indicator	Target as per SDBIP	Target as per APR	Reported achievement	Actual achievement
ENV5.21 – Number of inland water samples tested for monitoring purposes	30 water samples tested for monitoring purposes	210	32	867
EE1.13 – Percentage of valid customer applications for new electricity *connections processed in terms of municipal service standards	Total number of valid customer applications for new electricity connections processed as a percentage in terms of municipal service standards by 30 June 2023	70% of valid customer applications for new electricity connections processed as a percentage in terms of municipal service standards by June 2023	54% of valid customer connections processed One hundred and eight (108) valid customer connections were processed within the municipal standard timeframe by 30 June 2023 Ninety - three customer (93) valid customer connections were not processed within the municipal standard time frame	Unknown

Various indicators

63. Measures were reported to improve the performance against the targets listed below. I could not determine if the measures were correct, as adequate supporting evidence was not provided for auditing. Consequently, I could not determine whether the reported measures were reliable.

Indicator	Target	Reported achievement
Upgraded treatment capacity in megalitres per day		
Project – NORTH EASTERN WWTW Mechanical and Electrical Works (Sludge Stream)	Complete the SCM process	None
Upgraded treatment capacity in megalitres per day.	Complete the SCM process	None

Indicator	Target	Reported achievement
Project – Sterkwater WWTW Phase 3 Mech and Electrical (Liquid Stream)		
Kilometres of sewer pipes upgraded and or refurbished	2	0
Project – Refurbishment of sewer systems in Soutpan		
Completion of the refurbishment work	Completed planned refurbishment work	None
Project – Refurbishment of sludge digesters in Bloemspruit WWTW		
Number of households connected to the existing sewer reticulation	20	0
Project – Sewer connections		
Kilometres of water pipelines upgraded and or refurbished	16 km	0
Project – Refurbishment of supply systems		
Number of PRVs commissioned and refurbished	15 PRVs commissioned/refurbished	10 PRVs commissioned/refurbished
Project – Pressure and network zone management (including auditing of valves and PRV commissioning)		
Number of new sanitation service points meeting minimum standard provided.	Appoint PSP	None
	Complete stage 1	None
	Complete stage 2 of the appointment	None
Project – Water borne sanitation Mangaung ward 17		
Kilometres of sewer pipes upgraded and or refurbished	Appoint PSP	None
	Complete stage 1 of the appointment	None
Project – Bloemspruit network because of densification in		
Number of pump stations and kilometres of rising main completed	1 pump station	0 pump station
	5 km of pipeline	0 km of pipeline
Project – Maselspoort water re-use (pump station and rising main)		
Kilometres of gravity line completed	Appointment of PSP	None
	Complete procurement	None
Project – Maselspoort water re-use (Gravity to North-East WWTW)		
Number of communal taps provided	8 communal taps constructed	0
Project – Matlharantleng water & sewer provision		
Number of informal settlements households provided with water and sewer	119 households provided with water and sewer	0
Project – F/Dom square 37321 (J Zuma) installation of water and sewer reticulation		
Number of informal settlements households provided with water and sewer	73 households provided with water and sewer	0
Project – Marikana installation of water and sewer reticulation		
Number of informal settlements households provided with water and sewer	1000 households provided with water connections	0
Project – Grassland phase 4 installation of water		
Number of toilets constructed for households in informal settlements	900 toilets constructed for households in informal settlements	0
Project – Alternative sanitation		
Number of residential erven connected with water and sewer	21 erven connected with water and sewer	0
Project – Fleurdal infill – services		
Length and width of road and length of stormwater channel	3,325 km road	0
	3,325 km of stormwater	0
Project – Caleb Motshabi/ Kgotsong main road & stormwater		
Length and width of road and length of stormwater channel	2,2 km road (2 way)	0
	2,1 km stormwater channel	0

Indicator	Target	Reported achievement
Project – Botshabelo West main road & stormwater		
TR6.13 – Kms of new municipal road network	6,3 km	2,44 km

Other matters

64. I draw attention to the matters below.

Achievement of planned targets

65. The annual performance report includes information on reported achievements against planned targets and provides measures taken to improve performance. This information should be considered in the context of the material findings on the reported performance information.
66. The municipality plays a key role in delivering services to South Africans. The table that follows provides information on the achievement of planned targets and lists the key service delivery indicators that were not achieved as reported in the annual performance report. The measures taken to improve performance are included in the annual performance report on pages 33 to 107.

Basic service delivery

Targets achieved: 37%
Budget spent: 111%

Key service delivery indicators not achieved	Planned target	Reported achievement
Upgraded treatment capacity in megalitres per day Project – North Eastern WWTW mechanical and electrical works (sludge stream)	Complete the SCM process	None
Upgraded treatment capacity in megalitres per day Project – Sterkwater WWTW phase 3 mechanical and electrical (liquid stream)	Complete the SCM process	None
Number of new sanitation service points meeting minimum standard provided Project – Water borne sanitation Mangaung Ward 17	Appoint PSP and complete stages 1 and 2 of the appointment	None
Kilometres of sewer pipes upgraded and or refurbished Bloemspruit network upgrade because of densification in Mangaung Metropolitan Municipality	Appoint PSP and complete stage 1 of the appointment)	None
Kilometres of sewer pipes upgraded and or refurbished Project – Refurbishment of sewer systems in Soutpan	2	0
Completion of the refurbishment work Project: Refurbishment of sludge digesters in Bloemspruit WWTW	Completed planned refurbishment work	None
Number of households connected to the existing sewer reticulation Project: Sewer connections	20	0
Kilometres of water pipelines upgraded and or refurbished Project: Refurbishment of water supply systems	16 km	0 km
Number of pump stations and kilometres of rising main completed Project – Maselspoort water re-use (pump station and rising main)	1 pump station & 5 km of pipeline	None
Kilometres of gravity line completed project: Maselspoort water re-use (gravity to North Eastern WWTW)	Appointment of PSP and complete procurement	None
Upgraded treatment capacity in megalitres per day Project – Maselspoort Water Treatment Works upgrading (Maselspoort filters)	75 ml/day	None
Pole/ street bins placed in all Mangaung's CBDs Project – Refuse bins for CBDs in metro	400 Street/pole bins placed in all CBDs	0
Kilometres of lined bulk stormwater built Project – T1433: Bainsvlei mooiwaterv bulk stormwater: upgrade	Preliminary design complete	0

Key service delivery indicators not achieved	Planned target	Reported achievement
Kilometres of road resurfaced, resealed and rehabilitated per lane Project – T1537: Heavy rehabilitation of Nelson Mandela Street	Construction stage (10% of 4,4 km)	0
Completed streetlights installed Project – Providing of public lighting	Plaatje Street, Tshabalala Street	Project deferred to the 2023-24 FY
Indicator: Completed streetlights installed Project – Providing of public lighting	Lakeview	Project deferred to the 2023-24 FY
Number of communal taps provided Project – Matlharantheng water & sewer provision	8 communal taps constructed	0
Number of informal settlements households provided with water and sewer Project – F/dom sq 37321 (J Zuma) installation of water and sewer reticulation	119 households provided with water and sewer	0
Number of informal settlements households provided with water and sewer Project – Marikana installation of water and sewer reticulation	73 households provided with water and sewer	0
Number of informal settlements households provided with water and sewer Project – Grassland phase 4 installation of water	1 000 households provided with water connections	0
Number of informal settlements households provided with water and sewer Project – Soutpan installation of water and sewer reticulation	89 households provided with water and sewer	0
Number of informal settlements households provided with water and sewer Project – Ratau & Thaba Nchu installation of water and sewer reticulation	390 households provided with water and sewer	0
Number of toilets constructed for households in informal settlements Project – Alternative sanitation	900 toilets constructed for households in informal settlements	0
Number of residential erven connected with water and sewer Project – Fleurdal infill – services	21 erven connected with water and sewer	0
Number of residential erven connected with water and sewer Project – Dewetsdorp internal water & sewer reticulation	100 erven connected with water and sewer	0
Length and width of road and length of stormwater channel Project – Caleb Motshabi/ Kgotsong main road & stormwater	3,325km road and 3,325km of stormwater	0
Length and width of road and length of stormwater channel Project – Grassland 4 main road & stormwater	2,2km road (2 way) and stormwater channel	0
Length and width of road and length of stormwater channel Project – Botshabelo west main road & stormwater	2,2km road (2 way) and 2,1km stormwater channel	0
WS1.11 – Number of new sewer connections meeting minimum standards	1 884	0
WS4.21 – Percentage of industries with trade effluent inspected for compliance	0%	0
WS5.31 – Percentage of total water connections metered	82%	0%

Material misstatements

67. I identified material misstatements in the annual performance report submitted for auditing. These material misstatements were in the reported performance information for basic service delivery. Management did not correct all of the misstatements and I reported material findings in this regard.

Report on compliance with legislation

68. In accordance with the PAA and the general notice issued in terms thereof, I must audit and report on compliance with applicable legislation relating to financial matters, financial management and other related matters. The accounting officer is responsible for the municipality's compliance with legislation.
69. I performed procedures to test compliance with selected requirements in key legislation in accordance with the findings engagement methodology of the Auditor-General of South Africa (AGSA). This engagement is not an assurance engagement. Accordingly, I do not express an assurance opinion or conclusion.
70. Through an established AGSA process, I selected requirements in key legislation for compliance testing that are relevant to the financial and performance management of the municipality, clear to allow consistent measurement and evaluation, while also sufficiently detailed and readily available to report in an understandable manner. The selected legislative requirements are included in the annexure to this auditor's report.

71. The material findings on compliance with the selected legislative requirements, presented per compliance theme, are as follows:

Annual financial statements and annual reports

- 72. The financial statements submitted for auditing were not prepared in all material respects in accordance with the requirements of section 122(1) of the MFMA. Material misstatements of non-current assets, current assets, liabilities, revenue, expenditure and disclosure items identified by the auditors in the submitted financial statements were subsequently corrected and the supporting records were provided subsequently, but the uncorrected material misstatements and supporting records that could not be provided resulted in the financial statements receiving a qualified audit opinion.
- 73. The 2021-22 annual report was not tabled in the municipal council within 7 months after the end of the financial year, as required by section 127(2) of the MFMA.
- 74. The council failed to adopt an oversight report containing the council's comments on the 2021-22 annual report, as required by section 129(1) of the MFMA.

Procurement and contract management

- 75. The preference point system was not applied for some of the procurement of goods and services as required by section 2(1)(a) of the Preferential Procurement Policy Framework Act 5 of 2000.
- 76. Sufficient appropriate audit evidence could not be obtained that the performance of contractors or providers was monitored on a monthly basis as required by section 116(2) of the MFMA. A similar limitation was also reported in the prior year.
- 77. Sufficient appropriate audit evidence could not be obtained that contract performance and monitoring measures were in place to ensure effective contract management as required by section 116(2)(c)(ii) of the MFMA. A similar limitation was also reported in the prior year.

Expenditure management

- 78. Money owed by the municipality was not always paid within 30 days, as required by section 65(2)(e) of the MFMA.
- 79. Reasonable steps were not taken to ensure that the municipality implements and maintains an effective system of expenditure control, including procedures for the approval, authorisation and payment of funds, as required by section 65(2)(a) of the MFMA.
- 80. An adequate management, accounting and information system was not in place which recognised expenditure when it was incurred and accounted for creditors, as required by section 65(2)(b) of the MFMA.
- 81. Reasonable steps were not taken to prevent irregular expenditure amounting to R198 150 623, included in note 65 to the annual financial statements, as required by section 62(1)(d) of the MFMA. The majority of the irregular expenditure was caused by non-compliance with SCM requirements and recurring expenditure from contracts that were reported as irregular in prior financial years.
- 82. Reasonable steps were not taken to prevent fruitless and wasteful expenditure amounting to R140 687 848, included in note 64 to the annual financial statements, as required by section 62(1)(d) of the MFMA. The majority of the fruitless and wasteful expenditure was caused by interest paid due to late payments to suppliers.
- 83. Reasonable steps were not taken to prevent unauthorised expenditure amounting to R1 195 214 671, as included in note 63 to the annual financial statements, as required by section 62(1)(d) of the MFMA. The majority of the unauthorised expenditure was caused by overspending the approved budget.

Utilisation of conditional grants

- 84. Performance in respect of programmes funded by the informal settlement upgrading partnership grant was not evaluated within two months after the end of the financial year, as required by section 12(5) of the Dora.

Performance in respect of programmes funded by the neighbourhood development partnership grant was not evaluated within two months after the end of the financial year, as required by section 12(5) of the Dora.

Consequence management

- 85. Unauthorised expenditure incurred by the municipality was not investigated to determine if any person is liable for the expenditure, as required by section 32(2)(a) of the MFMA.
- 86. Irregular expenditure incurred by the municipality was not investigated to determine if any person is liable for the expenditure, as required by section 32(2)(b) of the MFMA.

87. Fruitless and wasteful expenditure incurred by the municipality was not investigated to determine if any person is liable for the expenditure, as required by section 32(2)(b) of the MFMA.
88. Allegations of financial misconduct laid against officials of the municipality were not investigated by the disciplinary board, relevant treasury or an independent investigator or team of investigators appointed by council, as required by municipal regulations on financial misconduct procedures and criminal proceedings 5(4).

Strategic planning and performance management

89. The performance management system and related controls were not regarded as adequate as required by municipal planning and performance management regulation 7(1) due to the significant internal control deficiencies identified resulting in usefulness and reliability findings on indicators and targets.
90. Measurable performance targets were not set for each of the KPIs for the financial year, as required by section 41(1)(b) of the Municipal Systems Act 32 of 2000 (MSA) and municipal planning and performance management regulation 12(1).

Revenue management

91. An effective system of internal control for revenue was not in place, as required by section 64(2)(f) of the MFMA.
92. I was unable to obtain sufficient appropriate audit evidence that revenue due to the municipality was calculated on a monthly basis, as required by section 64(2)(b) of the MFMA.

Asset management

93. An effective system of internal control for assets was not in place, as required by section 63(2)(c) of the MFMA.

Human resource management

94. Appropriate systems and procedures to monitor, measure and evaluate performance of staff were not developed and adopted, as required by section 67(1)(d) of the MSA.
95. The municipal manager and senior managers did not sign performance agreements within the prescribed period, as required by section 57(2)(a) of the MSA.

Environmental management

96. Bloemspruit, Dewetsdorp, North East, Soutpan, Van Stadensrus and Wepener WWTW did not have valid operating licences, as required by section 22(1)(b) of the National Water Act 36 of 1998.
97. The Bainsvlei, BloemIndustria, Bloemspruit, Botshabelo, Dewetsdorp, North-Eastern, Northern Works, Soutpan, Sterkwater, Thaba Nchu, Van Stadensrus, Welvaart, and Wepener WWTW were not safeguarded and maintained to prevent defective, depleted, malfunctioning, misused and vandalised infrastructure, as required by section 63(1)(a) of the MFMA.
98. The Northern and Wepener solid waste management facilities did not have valid operating licences, as required by section 20(b) of the National Environmental Management: Waste Act 59 of 2008.

Other information in the annual report

99. The accounting officer is responsible for the other information included in the annual report. The other information referred to does not include the financial statements, the auditor's report and the selected KPA presented in the annual performance report that have been specifically reported on in this auditor's report.
100. My opinion on the financial statements, the report on the audit of the annual performance report and the report on compliance with legislation do not cover the other information included in the annual report and I do not express an audit opinion or any form of assurance conclusion on it.
101. My responsibility is to read this other information and, in doing so, consider whether it is materially inconsistent with the financial statements and the selected KPA presented in the annual performance report or my knowledge obtained in the audit, or otherwise appears to be materially misstated.
102. I did not receive the other information prior to the date of this auditor's report. When I do receive and read this information, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance and request that the other information be corrected. If the other information is not corrected, I may have to retract this auditor's report and re-issue an amended report as appropriate. However, if it is corrected this will not be necessary.

Internal control deficiencies

103. I considered internal control relevant to my audit of the financial statements, annual performance report and compliance with applicable legislation; however, my objective was not to express any form of assurance on it.
104. The matters reported below are limited to the significant internal control deficiencies that resulted in the basis for the qualified, the material findings on the annual performance report and the material findings on compliance with legislation included in this report.
105. There has been a slow response from management to address governance concerns within the municipality, caused by the frequent changes in the role of the accounting officer and the high vacancy rate within key municipal positions.
106. Senior management did not adequately monitor and enforce the implementation of the corrective measures included in the audit action plan to address inadequate internal control measures, slow response to audit matters and apply consequence management for weaknesses identified during previous years' audits.
107. The accounting officer and senior management did not prioritise, develop and apply standard operating procedures to manage performance reporting, including the safeguarding of information and effective monitoring and evaluation of reported performance information against the set indicators resulting in repeat material findings in the annual performance report for several years.
108. The accounting officer and senior management did not establish effective standard operating procedures and/or internal controls that assist them in exercising their oversight responsibility, regarding compliance with laws and regulations, resulting in repeat material non-compliance included in this report.
109. Management's lack of detailed review of the financial statements and the underlying records resulted in material misstatements, these misstatements were not detected and corrected or prevented by the municipality's internal processes. The corrected misstatements resulted in material non-compliance included in this report and the supporting records that could not be provided resulted in the qualified opinion included in this report.

Material irregularities

110. In accordance with the PAA and the Material Irregularity Regulations, I have a responsibility to report on material irregularities identified during the audit and on the status of material irregularities as previously reported in the auditor's report.

Material irregularities in progress

111. I identified a material irregularity during the audit and notified the accounting officer of this, as required by material irregularity regulation 3(2). By the date of this auditor's report, the response of the accounting officer was not yet due for the material irregularity. This material irregularity will be included in next year's auditor's report.

Status of previously reported material irregularities

Reasonable steps not taken to safeguard zoo animals

112. The accounting officer did not ensure that all reasonable steps had been taken to safeguard the municipality's zoo animals, as required by section 63(2)(c) of the MFMA. Some of these animals could not be located and verified during the 2021-22 year-end asset verification process, resulting in the municipality impairing these assets. The impairment resulted in a material financial loss of R1 761 416 for the municipality, which was disclosed as an impairment loss in note 46 to the 2021-22 financial statements.
113. The accounting officer was notified of this material irregularity on 3 November 2022. The accounting officer did not take appropriate action to resolve the material irregularity. I recommend that the accounting officer should take the following actions to address the material irregularity, which should be implemented by 8 July 2024, and report progress within three (3) months:
 - f) Investigate the non-compliance in terms of Chapter 15 of the MFMA, to determine if any official was responsible for the failure to safeguarding the municipal assets which lead the municipality losing custodianship of the animals, including the possible theft of the 79 animals.
 - g) Disciplinary proceeding should commence against any official who has allegedly committed an act of financial misconduct or an offence, as required by section 62(1)(e) of the MFMA and in the manner prescribed by the Municipal Regulations on Financial misconduct procedures and Criminal Proceedings.
 - h) If a senior manager of the municipality has allegedly committed an act of financial misconduct, the accounting officer must report the allegation to the Municipal Council, the Provincial Treasury and the National Treasury as required by Regulation 3(1) of the Municipal Regulations on Financial Misconduct Procedures and Criminal Proceeding.
 - i) Reasonable steps should be taken to safeguard the biological assets in the custody of the municipality from any further losses as required by section 63(1)(a) of the MFMA.
 - j) If it appears that the municipality suffered the financial loss through theft, this should be reported to the South African Police service, as required by section 32(6)(b) of the MFMA.

114. I will follow up on the implementation of the recommendations after the due date. I am also in the process of determining additional actions available to be taken by the AGSA based on the accounting officer's response.

Construction of trunk routes for IPTN roads infrastructure network phase 1C Chief Moroka link route: Payment for extension of time not in terms of the contract

115. The municipality entered into a contract with a contractor for the construction of trunk routes for integrated public transport network (IPTN) roads infrastructure network: Phase 1C Chief Moroka link route. During November 2019 and October 2020, the contractor submitted extension of time claims totalling R2 987 553 for delays experienced on the project. The claims were however not submitted within the stipulated timeframe as outlined in the contract; consequently the contractor was not entitled to additional payment and discharging the municipality of all liability in relation with these claims. An official of the municipality recommended the claims for payment, even though the municipality had no contractual obligation to pay for the extension of time. The official consequently did not ensure the economic use of the financial resources of the municipality, as required by section 78(1)(b) of the MFMA. The payment of these claims resulted in a material financial loss of R2 987 553 for the municipality, which was disclosed as part of the fruitless and wasteful expenditure in note 63 to the 2020-21 financial statements.
116. The accounting officer was notified of this material irregularity on 29 April 2022. The accounting officer did not take appropriate action to resolve the material irregularity. I recommend that the accounting officer take the following actions to address the material irregularity, which should be implemented by 28 January 2024:
- f) The non-compliance should be investigated to determine if any official might have committed an act of financial misconduct or an offence in terms of Chapter 15 of the MFMA.
 - g) All entities and/or person(s) liable for the losses should be identified and appropriate action should commence to recover the financial loss. The recovery process should not be unduly delayed.
 - h) Disciplinary proceedings should commence without undue delay, against all officials who have allegedly committed an act of financial misconduct or an offence, as required by section 62(1)(e) of the MFMA and in the manner prescribed by the Municipal Regulations on Financial Misconduct Procedures and Criminal Proceedings.
 - i) If a senior manager of the municipality has allegedly committed an act of financial misconduct, the accounting officer must report the allegation to the municipal council, the Provincial Treasury and the National Treasury as required by Regulation 3(1) of the Municipal Regulations on Financial Misconduct Procedures and Criminal Proceedings.
 - j) If it appears that the municipality suffered the financial loss through criminal acts or possible criminal acts or omission this should be reported to the South African Police Service, as required by section 32(6)(b) of the MFMA.
117. I will follow up on the implementation of the recommendations after the due date.

Pollution of water resource not prevented – Botshabelo WWTW

118. The Botshabelo WWTW has not operated effectively due to mechanical and operational equipment either malfunctioning or not operational. This has resulted in continued spilling and discharge of raw/untreated sewerage into the adjacent environment, including the groundwater, the Klein Modder River and its extended watercourse. The municipality did not take reasonable measures to prevent pollution or degradation of the environment and water resources from occurring, continuing or recurring, as required by section 28(1) of the National Environmental Management Act 197 of 1998 (NEMA) and section 19(1) of the National Water Act 36 of 1998 (NWA). The discharge of raw/untreated sewage into the environment is likely to cause substantial harm to the communities exposed to, and dependent on, the contaminated water resources.
119. The accounting officer was notified of this material irregularity on 20 October 2022. The accounting officer did not take appropriate action to resolve the material irregularity. I am in the process determining the most suitable action to take.

Pollution of water resource not prevented – Sterkwater WWTW

120. The Sterkwater WWTW has not operated effectively due to mechanical and operational equipment either malfunctioning or not operational. This has resulted in continued spilling and discharge of raw/untreated sewerage into the adjacent environment, including the groundwater, the Renosterspruit and its extended watercourse. The municipality did not take reasonable measures to prevent pollution or degradation of the environment and water resources from occurring, continuing or recurring, as required by section 28(1) of the NEMA and section 19(1) of the NWA. The discharge of raw/untreated sewage into the environment is likely to cause substantial harm to the communities exposed to, and dependent on, the contaminated water resources.
121. The accounting officer was notified of this material irregularity on 20 October 2022. The accounting officer did not take appropriate action to resolve the material irregularity. I am in the process determining the most suitable action to take.

Poor management of the Southern waste landfill site in Mangaung

122. The municipality has been operating the Southern waste landfill site in a manner that is not in compliance with its license conditions and the minimum legislative requirements for waste disposal at a landfill site, which is evidenced by poor access control and inadequate separation of waste disposed at the site, improper or lack of compacting and cover to limit gas emission impacting on air quality, spontaneous combustions and fires posing safety risks and air pollution, lack of stormwater management and leachate detection to prevent continued contamination of the soil and groundwater and no proper air, water and effluent sampling points to monitor air and water pollution.
123. The municipality consequently did not dispose and treat waste in an environmentally sound manner and in a manner that does not endanger health or the environment as required by section 16(1) of the National Environmental Management Waste Act 59 of 2008. The municipality further did not take reasonable measures to prevent pollution or degradation of the environment from occurring, continuing or recurring, as required by section 28(1) of the NEMA and section 19(1) of the NWA. The non-compliance is likely to cause substantial harm to the community members utilising the landfill site, communities adjacent to the landfill site as well as exposed to, and dependent on, the groundwater resources.
124. The accounting officer was notified of this material irregularity on 10 November 2022. The accounting officer did not take appropriate action to resolve the material irregularity. I am in the process of determining the most suitable action to take.

Other reports

125. In addition to the investigations relating to material irregularities, I draw attention to the following engagements conducted by various parties. These reports did not form part of my opinion on the financial statements or my findings on the reported performance information or compliance with legislation.
126. The Special Investigating Unit (SIU) received allegations of corruption within the metro police and IPTN at the municipality for the period starting in 2017 to date. However, the municipality has not submitted all the requested documents to the SIU. The SIU is still analysing the partially submitted information to establish the legitimacy of the allegations. These proceedings were still in progress at the date of this auditor's report.
127. An independent consultant was investigating an allegation of improper procurement of buses and appointment/ rollout of the infrastructure project for the IPTN for the period starting in the 2015-16 financial year to date. The investigation is still in progress. The outcome of the first stage of the investigation was completed and submitted to the National Treasury for assessment and tabling in the council. The investigation report is still being assessed by National, while the second stage of the investigation is still in progress.
128. The Directorate for Priority Crime Investigation (Hawks) was investigating an allegation of overtime payments to VIP bodyguards employed in the offices of the political office-bearers, which covered the period from 2017 to December 2021. These proceedings were still in progress at the date of this auditor's report.
129. The Hawks were investigating allegations of irregularities in the municipality's procurement processes regarding a security service tender awarded for the period 1 March 2019 to 28 February 2021. The outcome was unknown as the investigation report was in progress at the date of this auditor's report.
130. An independent legal firm was appointed to provide a legal opinion on allegations of the irregular appointment and payment of political staff. It is alleged that the political staff were appointed to occupy positions that were not vacant or provided for in the staff establishment for a period of two months starting in January 2022. The report was issued to the Municipal Public Accounts Committee (MPAC) on 19 April 2022; however, the MPAC has not finalised its own report on this matter. The investigation was concluded on 25 February 2022 and resulted in the salaries being disclosed as irregular expenditure.

Auditor-General

Cape Town

14 December 2023

**AUDITOR-GENERAL
SOUTH AFRICA**

Auditing to build public confidence

Annexure to the auditor's report

1. The annexure includes the following:
 - The auditor-general's responsibility for the audit
 - The selected legislative requirements for compliance testing

Auditor-general's responsibility for the audit

Professional judgement and professional scepticism

2. As part of an audit in accordance with the ISAs, I exercise professional judgement and maintain professional scepticism throughout my audit of the financial statements and the procedures performed on reported performance information for selected KPA and on the municipality's compliance with selected requirements in key legislation

Financial statements

3. In addition to my responsibility for the audit of the financial statements as described in this auditor's report, I also:

identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error; design and perform audit procedures responsive to those risks; and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control

obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the municipality's internal control

evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made

conclude on the appropriateness of the use of the going concern basis of accounting in the preparation of the financial statements. I also conclude, based on the audit evidence obtained, whether a material uncertainty exists relating to events or conditions that may cast significant doubt on the ability of the municipality to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements about the material uncertainty or, if such disclosures are inadequate, to modify my opinion on the financial statements. My conclusions are based on the information available to me at the date of this auditor's report. However, future events or conditions may cause a municipality to cease operating as a going concern

evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and determine whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Communication with those charged with governance

4. I communicate with the accounting officer regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.
5. I also provide the accounting officer with a statement that I have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on my independence and, where applicable, actions taken to eliminate threats or safeguards applied.

Compliance with legislation – selected legislative requirements

The selected legislative requirements are as follows:

Legislation	Sections or regulations
Municipal Finance Management Act 56 of 2003	Section 1 - Paragraphs (a), (b) & (d) of the definition: irregular expenditure Section 1 - Definition: service delivery and budget implementation plan Sections 11(1), 13(2), 14(1), 14(2)(a), 14(2)(b), 15, 24(2)(c)(iv), 29(1), Sections 29(2)(b), 32(2), 32(2)(a), 32(2)(a)(i), 32(2)(a)(ii), 32(2)(b), 32(6)(a), Sections 32(7), 53(1)(c)(ii), 54(1)(c), 62(1)(d), 62(1)(f)(i), 62(1)(f)(ii), Sections 62(1)(f)(iii), 63(1)(a), 63(2)(a), 63(2)(c), 64(2)(b), 64(2)(c), Sections 64(2)(e), 64(2)(f), 64(2)(g), 65(2)(a), 65(2)(b), 65(2)(e), 72(1)(a)(ii), Sections 112(1)(j), 116(2)(b), 116(2)(c)(ii), 117, 122(1), 122(2), 126(1)(a), Sections 126(1)(b), 127(2), 127(5)(a)(i), 127(5)(a)(ii), 129(1), 129(3), Sections 133(1)(a), 133(1)(c)(i), 133(1)(c)(ii), 170, 171(4)(a), 171(4)(b)
MFMA: Municipal budget and reporting regulations, 2009	Regulations 71(1), 71(2), 72

MSA: Regulations on Appointment and Conditions of Employment of Senior Managers, 2014	Regulations 17(2), 36(1)(a)

Report on the audit of the financial statements

Opinion

1. I have audited the separate financial statements of the Centlec (SOC) Ltd set out on pages 602 to 716 which comprise of the statement of financial position as at 30 June 2023, the statement of financial performance, the statement of changes in net assets, the cash flow statement and statement of comparison of budget and actual amounts for the year then ended, as well as notes to the separate financial statements, including a summary of significant accounting policies.
2. In my opinion, the financial statements present fairly, in all material respects, the financial position of Centlec (SOC) Ltd as at 30 June 2023, and its financial performance and cash flows for the year then ended in accordance with the Standards of Generally Recognised Accounting Practice (GRAP) and the requirements of the Municipal Finance Management Act 56 of 2003 (MFMA) and the Companies Act 71 of 2008 (Companies Act).

Basis for opinion

3. I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the responsibilities of the auditor-general for the audit of the financial statements section of my report.
4. I am independent of the municipal entity in accordance with the International Ethics Standards Board for Accountants' International code of ethics for professional accountants (including International Independence Standards) (IESBA code) as well as other ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA code.
5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Material uncertainty relating to going concern

6. I draw attention to the matter below. My opinion is not modified in respect of this matter.
7. Note 42 to the financial statements indicates that the municipal entity incurred a net loss of R251 046 051 during the year ended 30 June 2023 and, as of that date, the municipal entity's current liabilities R1 018 829 678 exceeded its current assets R832 833 567. The municipal entity owed Eskom R737 644 103 (2022: R428 996 909) as at 30 June 2023, which was long overdue. These events or conditions, along with other matters as set forth in note 42, indicate that a material uncertainty exists that may cast significant doubt on the municipal entity's ability to continue as a going concern.

Emphasis of matters

8. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Irregular expenditure

9. As disclosed in note 46 to the financial statements, irregular expenditure of R156 346 943 (2022: R195 620 781) was incurred, mainly due to overspending on the budget.

Fruitless and wasteful expenditure

10. As disclosed in note 45 to the financial statements, fruitless and wasteful expenditure of R49 260 614 (2022: R9 675 187) was incurred, mainly due to interest incurred on late payments of Eskom accounts.

Restatement of corresponding figures

11. As disclosed in note 40 to the financial statements, the corresponding figures for 30 June 2022 were restated as a result of errors in the financial statements of the municipal entity and for the year ended, 30 June 2023

Material losses

12. As disclosed in note 47 to the financial statements, material electricity losses of R213 876 959 (2022: R241 915 025) was incurred. Technical losses amounted to R142 584 639 (2022: R161 276 683) and was due to certain portion of electricity that is lost due to distribution. Non-technical losses amounted to R71 292 320 (2022: R80 638 342) and was due to theft, vandalism, faulty meters and variances in monthly consumption estimates.

Material Impairment

13. As disclosed in note 29 to the financial statements, property, plant and equipment was impaired by R41 385 930 (2022: R52 716).

Other matters

14. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Unaudited disclosure notes

15. In terms of section 125(2) (e) of the MFMA the municipal entity is required to disclose particulars of non-compliance with the MFMA in the financial statements. This disclosure requirement did not form part of the audit of the financial statements and accordingly no opinion has been expressed on them.

Unaudited supplementary schedules

16. The supplementary information set out on pages 716 to 716 does not form part of the financial statements and is presented as additional information. The schedule has not been audited and, accordingly, no opinion is expressed on them.

Responsibilities of the accounting officer for the separate financial statements

17. The accounting officer is responsible for the preparation and fair presentation of the financial statements in accordance with GRAP and the requirements of the MFMA and companies act; and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.
18. In preparing the financial statements, the accounting officer is responsible for assessing the municipal entity's ability to continue as a going concern; disclosing, as applicable, matters relating to going concern; and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the municipal entity or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the auditor-general for the audit of the financial statements

19. My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error; and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
20. A further description of my responsibilities for the audit of the financial statements is included in the annexure to this auditor's report.

Report on the audit of the annual performance report

21. In accordance with the Public Audit Act 25 of 2004 (PAA) and the general notice issued in terms thereof, I must audit and report on the usefulness and reliability of the reported performance against predetermined objectives for the selected programme presented in the annual performance report. The accounting officer is responsible for the preparation of the annual performance report.
22. I selected the following programme presented in the annual performance report for the year ended 30 June 2023 for auditing. I selected a programme that measures the municipal entity's performance on its primary mandated functions and that is of significant national, community or public interest.

Programme	Page numbers	Objective
Engineering wires	65 - 66	Provision of electricity

23. I evaluated the reported performance information for the selected programme against the criteria developed from the performance management and reporting framework, as defined in the general notice. When an annual performance report is prepared using these criteria, it provides useful and reliable information and insights to users on the municipal entity's planning and delivery on its mandate and objectives.
24. I performed procedures to test whether:
- the indicators used for planning and reporting on performance can be linked directly to the municipal entity's mandate and the achievement of its planned objectives
 - the indicators are well defined to ensure that they are easy to understand and can be applied consistently, as well as verifiable so that I can confirm the methods and processes to be used for measuring achievements
 - the targets can be linked directly to the achievement of the indicators and are specific, time bound and measurable to ensure that it is easy to understand what should be delivered and by when, the required level of performance as well as how performance will be evaluated.
 - the indicators and targets reported on in the annual performance report are the same as those committed to in the approved initial or revised planning documents
 - the reported performance information is presented in the annual performance report in the prescribed manner
 - there is adequate supporting evidence for the achievements reported and for the measures taken to improve performance.
25. I performed the procedures for the purpose of reporting material findings only; and not to express an assurance opinion or conclusion.
26. The material findings on the reported performance information for the selected programme are as follows:

Engineering wires

5-2.2 (e) Percentage of valid customer applications for new electricity connections processed in terms of municipal services by June 2023:

27. An achievement of 54% customer connections was reported against a target of 70% customer connections. However, the audit evidence did not support this achievement. I could not determine the actual achievement, but I estimated it to be materially less than reported. Consequently, it is likely that the target was not achieved.

Other matters

28. I draw attention to the matters below.

Achievement of planned targets

29. The annual performance report includes information on reported achievements against planned targets and provides measures taken to improve performance. This information should be considered in the context of the material findings on the reported performance information.
30. The municipal entity plays a key role in delivering services to South Africans. The table that follows provides information on the achievement of planned targets and lists the key service delivery indicators that were not achieved as reported in the annual performance report. The reasons for any underachievement of targets and measures taken to improve performance are included in the annual performance report on pages 65 – 66.

Engineering wires

<i>Targets achieved: 50%</i> <i>Budget spent: 90.5%</i>		
Key service delivery indicator not achieved	Planned target	Reported achievement

<p><i>Targets achieved: 50%</i></p> <p><i>Budget spent: 90.5%</i></p>		
Planned scheduled interruptions supply should be restored as per NERSA license requirements in terms of NRS 047 2019 (4. 5.5.1) by 30 June 2023	Planned scheduled interruptions supply should be restored as per NERSA license requirements in terms of NRS 047 2019 (4. 5.5.1) by 30 June 2023	<p>141 notices were issued as per the NERSA licence requirements in terms of NRS 047 2019 (4.5.5.1).</p> <p>135 notices were submitted 48 hours before the execution of planned interruptions.</p> <p>93 valid customer connections were not processed within the municipality standard timeframe.</p> <p>The average percentage success reported was 96%</p>
Percentage of valid customer applications for new electricity connections processed in terms of municipal services by June 2023	70% of valid customer applications for new electricity connections processed as a percentage in terms of municipal service standards by June 2023	<p>54% of valid customer connections processed</p> <p>108 valid customer connections were processed within the municipal standard timeframe by 30 June 2023.</p> <p>93 valid customer connections were not processed within the municipal standard time frame.</p>

Material misstatements

31. I identified material misstatements in the annual performance report submitted for auditing. These material misstatements were in the reported performance information for engineering wires. Management subsequently corrected some of the misstatements and I did not include the findings in this report. Those that were not corrected are reported above.

Report on compliance with legislation

32. In accordance with the PAA and the general notice issued in terms thereof, I must audit and report on compliance with applicable legislation relating to financial matters, financial management and other related matters. The accounting officer is responsible for the municipal entity's compliance with legislation.
33. I performed procedures to test compliance with selected requirements in key legislation in accordance with the findings engagement methodology of the Auditor-General of South Africa (AGSA). This engagement is not an assurance engagement. Accordingly, I do not express an assurance opinion or conclusion.
34. Through an established AGSA process, I selected requirements in key legislation for compliance testing that are relevant to the financial and performance management of the municipal entity, clear to allow consistent measurement and evaluation, while also sufficiently detailed and readily available to report in an understandable manner. The selected legislative requirements are included in the annexure to this auditor's report.
35. The material findings on compliance with the selected legislative requirements, presented per compliance theme, are as follows:

Expenditure management

36. Money owed by the municipal entity was not always paid within 30 days, as required by section 99(2)(b) of the MFMA.
37. Reasonable steps were not taken to prevent irregular expenditure of R156 346 943 as disclosed in note 46 to the annual financial statements, as required by section 95(d) of the MFMA. The majority of the irregular expenditure was caused by overspending of the budget.
38. Reasonable steps were not taken to prevent fruitless and wasteful expenditure of R49 260 614 as disclosed in note 45 to the annual financial statements, in contravention of section 95(d) of the MFMA. The majority of the disclosed fruitless and wasteful expenditure was caused by interest charged on overdue accounts.
39. Expenditure was incurred in excess of the approved budget, in contravention of section 87(8) of the MFMA.

Procurement and contract management

40. The preference point system was not applied some of the procurement of goods and services as required by section 2(1)(a) of the Preferential Procurement Policy Framework Act 5 of 2020.

Other information in the annual report

41. The accounting officer is responsible for the other information included in the annual report, which includes the directors' report, the audit committee's report and the company secretary's certificate, as required by the Companies Act. The other information referred to does not include the financial statements, the auditor's report and those selected programmes presented in the annual performance report that have been specifically reported on in this auditor's report.
42. My opinion on the financial statements, the report on the audit of the annual performance report and the report on compliance with legislation do not cover the other information included in the annual report and I do not express an audit opinion or any form of assurance conclusion on it.
43. My responsibility is to read this other information and, in doing so, consider whether it is materially inconsistent with the financial statements and the selected programmes presented in the annual performance report or my knowledge obtained in the audit, or otherwise appears to be materially misstated.
44. I did not receive the final other information prior to the date of this auditor's report. When I do receive and read this information, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance and request that the other information be corrected. If the other information is not corrected, I may have to retract this auditor's report and re-issue an amended report as appropriate. However, if it is corrected this will not be necessary.

Internal control deficiencies

45. I considered internal control relevant to my audit of the financial statements, annual performance report and compliance with applicable legislation; however, my objective was not to express any form of assurance on it.
46. The matters reported below are limited to the significant internal control deficiencies that resulted in the basis for my opinion.
47. Management did not implement proper recordkeeping procedures and controls, this resulted in information to support reported achievements not being sufficient and appropriate.
48. Management did not in all instances exercise oversight on financial and performance reporting, compliance and related internal controls.

Auditor-General

Bloemfontein

30 November 2023

Annexure to the auditor's report

1. The annexure includes the following:
 - The auditor-general's responsibility for the audit
 - The selected legislative requirements for compliance testing

Auditor-general's responsibility for the audit

Professional judgement and professional scepticism

2. As part of an audit in accordance with the ISAs, I exercise professional judgement and maintain professional scepticism throughout my audit of the financial statements and the procedures performed on reported performance information for selected programmes and on the municipal entity's compliance with selected requirements in key legislation.

Financial statements

3. In addition to my responsibility for the audit of the financial statements as described in this auditor's report, I also:

identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error; design and perform audit procedures responsive to those risks; and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control

obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the municipal entity's internal control

evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made

conclude on the appropriateness of the use of the going concern basis of accounting in the preparation of the financial statements. I also conclude, based on the audit evidence obtained, whether a material uncertainty exists relating to events or conditions that may cast significant doubt on the ability of the municipal entity to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements about the material uncertainty or, if such disclosures are inadequate, to modify my opinion on the financial statements. My conclusions are based on the information available to me at the date of this auditor's report. However, future events or conditions may cause a municipal entity to cease operating as a going concern

evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and determine whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Communication with those charged with governance

4. I communicate with the accounting officer regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.
5. I also provide the accounting officer with a statement that I have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on my independence and, where applicable, actions taken to eliminate threats or safeguards applied.

Compliance with legislation – selected legislative requirements

6. The selected legislative requirements are as follows:

Legislation	Sections or regulations
Municipal Finance Management Act 56 of 2003	Section 1 - Paragraph (a), (b) & (d) of the definition: irregular expenditure, Sections 87(5)(b), 87(5)(d), 87(5)(d)(i), 87(5)(d)(iii), 87(6)(c), Sections 87(8), 88(1)(a), 90(1), 90(2)(a), 90(2)(b), 95(d), Sections 96(2)(a), 96(2)(b), 97(e), 97(f), 97(h), 97(i), 99(2)(a), Sections 99(2)(b), 99(2)(c), 99(2)(g), 102(1), 102(2)(a), 112(1)(j), Sections 116(2)(b), 116(2)(c)(ii), 122(1), 126(2)(b), 133(1)(a), Sections 133(1)(c)(i), 133(1)(c)
MFMA: Municipal Budget and Reporting Regulations, 2009	Regulations 73(1), 73(2), 75(1), 75(2)
MFMA: Municipal Investment Regulations, 2005	Regulations 3(2), 3(3), 5(4), 6, 6(8)(b), 7, 10(1), 12(2), 12(3)
MFMA: Municipal Regulations on Financial Misconduct Procedures and Criminal Proceedings, 2014	Regulations 5(4), 6(8)(b), 10(1)

Component D: Management Comments and Corrective Actions on matters raised by the Auditor General

During the audit process by the auditor General, matters were identified and as such the details thereof will be provided on the municipal consolidated audit action plan.

Furthermore, since the introduction of the FMCMM module by National Treasury, which requires the municipality to develop its action plan using the module, the municipality is able to address most of the findings raised by the AGSA. Moreover, this action plan will provide feedback on the progress made with respect to the implementation of the Audit Action Plan as developed in response to the municipal's audit and management reports. Moreover, to provide feedback on the current control environment and corrective measures implemented during the 2022-23 financial year.

An audit action plan is developed, implemented strongly and monitored with the involvement of all departments, internal audit, office of the Auditor-General, Audit and Risk Committee. Furthermore, the progress on the audit action plan was reported to the Executive Management Team (EMT) on a weekly basis, as a standing item.

The findings from the Auditor General's reports are tracked and followed up to confirm corrective action by Management is in place. Internal Audit and the compliance unit is continuously following up on unresolved findings to verify that root causes are addressed by Management, thus preventing recurrence of the control deficiency.

A detailed Action Plan will be developed and attached to this important document.

Chapter 7: Reports of Municipal Public Accounts Committee

Component A: Municipal Public Accounts Committee on the Annual Report

The Municipal Public Accounts Committee is on the process of finalising the 2021/2022 oversight report with all public consultation been concluded. This will enable the committee to provide feedback to council and make its recommendations on the Annual Report.

APPENDICES

APPENDIX A: COUNCILLORS, COMMITTEES ALLOCATED AND COUNCIL ATTENDANCE

#	NAME & SURNAME	% Attendance	% Absent with leave	% Absent without leave	Appointed/ Elected/ Resigned/ Removed
1	<u>Speaker</u> Cllr Lockman-Naidoo (Stefani Bernadette)	100%			Resigned 15 March 2023
2	<u>Executive Mayor</u> Cllr Siyonzana (Mxolisi Ashford)	70%	30%		Resigned 27 February 2023

APPENDIX B: COMMITTEE AND COMMITTEE PURPOSE

Committees (other than Mayoral / Executive Committee) and Purposes of Committees	
Municipal Committees	Purpose of Committee
Section 79 Committee	Committees are established by the Council from among its members. Council determines the functions of the committee and may delegate powers and duties to it. The Committees report directly to Council.
Section 80	Committees are established by the Council from its members to assist the Executive Mayor. The Executive Mayor appoints a chairperson for each committee from the Mayoral Committee and may delegate powers and duties. The various committees consider and approve the reports and policies. These reports and policies are forwarded to the Mayoral Committee for consideration. It is then referred to Council for approval. They are advisory committees to the Executive Mayor.
Audit Committee	Committee is appointed by Council in terms of the Municipal Finance Management Act No. 56 of 2003 ("the Act"), Section 166, to assist Council, in discharging its oversight responsibilities. It is an independent advisory body to Council.
Budget steering committee	The Mayor of a Municipality establish a budget steering committee to provide technical assistance to the mayor in discharging the responsibilities as set out in section 168 of the MFMA.
IDP Steering Committee	The Mayor of a Municipality establish IDP steering committee to provide technical assistance to the mayor in discharging the responsibilities as set out in section 30 of the Municipal Systems Act.
Ward Committees	They are committees meant to encourage participation by the community – their job is to make municipal Council aware of the needs and concerns of residents and keep people informed of the activities of municipal Council.
LLF	Section 2.8.11 of the Main Collective Agreement of the SALGBC dictates that every employer must establish a Local Labour Forum with equal representation from the trade unions (SAMWU and IMATU) and the employer to strengthen the relationship between the two.

APPENDIX C: TWO TIER STRUCTURE

Departments	HOD Responsible	Period of Acting
Acting City Manager	Mr T Motlashuping	Until 30 March 2023
Acting City Manager	Ms N Dumalisile	From 25 April 2023
Acting Corporate Services	Adv N Mpangane	Until December 2023
Acting Chief Financial Officer	Mr T Sediti	Until 30 November 2022
Acting Chief Financial Officer	Mr L Denge	From 19 December 2022
Acting Engineering Service	Mr W McLeod	Until 31 July 2023
