Section 52 (d) Report for Quarter 4, Ending 30 June 2025 Revised Service Delivery and Budget Implementation Plan

[2024/2025]

Prepared by office of the City Manager: IDP and OPM

1. Executive Summary

This report set out performance against the Revised Service Delivery and Budget Implementation Plan (SDBIP) for the quarter ending 30th of June 2025. The fourth quarter performance is accounted based on the delivery of projects and/or services in the IDP and Revised SDBIP for which the Mangaung Council is responsible for implementing.

The 2024/2025 Revised Service Delivery and Budget Implementation Plan (SDBIP) represents a delivery path set by Mangaung Metropolitan Municipality (MMM). The plan serves as a barometer for MMM performance reporting and sets the direction for management from 1st of April 2025 to 30th of June 2025. It consolidates all targets and efforts towards fulfilling the mandate of the City identified during the IDP analysis process, namely, the provision of basic services.

The quarterly projections of performance indicators and targets have considered all city's strategic development objectives both on projects/programmes and resources allocation level. Therefore, there is a clear link between the strategic objectives, responsible departments as well as allocations. The revised SDBIP for 2024/2025 has identified <u>137</u> projects/programmes that will be implemented by the city.

2. Legislative Requirements

- 2.1 The SDBIP is defined in terms of Section 1 of the Local Government: Municipal Finance Management Act, 56 (Act 56 of 2003) (MFMA), and the format of the SDBIP is prescribed by the MFMA Circular 13.
- 2.2 Section 41(1)(e) of the Local Government: Municipal Systems Act, 32 (Act 32 of 2000) (MSA), prescribes that a process must be established of regular reporting to Council.
- 2.3 This report is a requirement in terms of Section 52 (d) of the MFMA which provides for:
- 2.3.1 The Executive Mayor, to submit to council within 30 days of the end of each quarter, a report on the implementation of the budget and financial state of affairs of the municipality.

To fulfil the above requirements, the city had a schedule that was approved by council as part of the IDP and Budget Process Plan and the departments needed to adhere to. All submission of their reports, Portfolio of Evidence and signed Authenticity Letters by both HOD and MMC needed to be submitted as per the schedule.

This was to enable the office responsible for IDP and OPM to complete the report and submit to all council committees on time and subsequently be approved by council within 30 days.

3. Report Overview

This report is to provide:

- the Council's progress in delivering the projects and/or services identified in the Service Delivery and Budget Implementation Plan.
- the Council's achievement against targets measured on a quarterly, mid-year or an annual basis.
- Intervention mechanisms or corrective actions for lower than expected and/or unsatisfactory/unacceptable performance have been identified and will be implemented by the Executive Management Team quarterly.

Additionally, the City Manager and EMT continues to implement interventions for improvement in financial performance, projects and the provision of municipal services as part of the departmental SDBIP that is monitored monthly and noted by EMT.

Report Terminology for Scoring and Ratings

Level	Terminology	Description
5	Outstanding performance	Performance far exceeds the standard expected and achieved above fully effective results against all performance criteria and indicators as specified.
4	Performance significantly above expectations	Performance is significantly higher than the standard expected and has achieved above fully effective results against more than half of the performance criteria and indicators.
3	Fully effective	Performance fully meets the standards expected and has fully achieved effective results against all significant performance criteria and indicators.
2	Performance not fully effective	Performance is below the standard required and meets some of the standards expected. However, this indicates performance below fully effective results against key performance criteria and indicators.
1	Unacceptable performance	Performance does not meet the standard expected and has achieved below fully effective results against performance criteria and indicators.
		Projects deferred to next financial year or KPIs are not in the competency of the municipality.

4. Department's Performance Overview

5. **City's Performance Overview**

Following the above analysis on point 5, the fourth quarter report had identified 123 out of 137 projects for implementation and the city's actual performance is sitting at 68% which indicate an increase of 7% from 61% of the third quarter.

Hereunder (page 5-55) is Annexure A, that provides all the details regarding performance of programmes/projects for each department with reasons for variances and corrective action(s) for poor performance.

Below is the detailed analysis of the city's performance:

Summary of Projects/Services for 4th Quarter (01 April 2025 – 30 June 2025)
